Y. W. C. A. TO OFFER BIBLE STUDY COURSES

Next Week
In previous years the annual series of Bible Study Courses the Y. W. C. A.
has sponsored has been a great success. The old plan of a weekly meeting
in which the course material was expounded and discussed has been
shown to us. Now, much of the value of the
conference meetings has been transferred to the Student Body. Courses will now be
held on Monday evenings, beginning January 21, for six weeks. The
women from the different departments of the college will be divided into
different groups and will be expected to make weekly reports to the
various instructors. Dr. Winship, the speaker of the day, has
agreed to be one of the presidents of the Bible Study
Chat. The theme of the Chat will be "The New World in
the Light of the Bible." The meeting will be held in the
library of the old building. The course will
be open to all members of the Y. W. C. A.
who are interested in the study of the Bible.

Dr. F. W. Winship Speaks

At Founder's Day Celebration

Noted Editor of Journal of Education, Boston, Mass., and Friend of
Winship College from its Inception,

Dr. F. W. Winship, Editor of Journal of Education, Boston, Mass., and Friend of
Winship College from its Inception,

The third annual celebration of Founder's Day was observed at
Winship College on January 10. The day marked the 30th
anniversary of the University of Johnson, Winship College
President, and the 60th milestone in its career. For the first time
the Board of Trustees met inside the university. President
Johnston, President of the college, was not in attendance because
of illness, but was represented by his son, Benjamin Johnston, Jr.,
acting as his proxy. The day was marked by a number of events,
including a lecture by Dr. F. W. Winship, minister of the First
Presbyterian Church in Boston, and a symposium on the day.

The lecture was delivered by Dr. Winship, who spoke on the
importance of President Johnston in the history of the university.
He was introduced by Dr. Thomas, who said that Johnston was a
man of the utmost ability, and that he had been a
real benefactor to the university. Dr. Winship then
spoke on the history of the university, and
the progress it had made under the leadership of Johnston.
He emphasized the importance of education in the
development of the country, and the necessity
for the university to continue to
provide a high quality education.

The symposium on the day was held in the
library of the old building. It was
attended by a number of prominent
figures in the community, including
Dr. Winship, President Johnston,
and members of the Board of Trustees.
The symposium was
chaired by Dr. Thomas, who
introduced the speakers.

The speakers included
Dr. Winship, President Johnston,
and members of the Board of Trustees.

Dr. Winship addressed the
audience on the day, and
emphasized the importance of
education in the development of
the country. He pointed out that
the university had played a
significant role in the education
of the community, and that it
had been a
real benefactor to the
university. He
emphasized the importance of
education in the
development of the
country, and the necessity
for the university to
continue to

A MAN AND HIS MONUMENT

The two words in the English language which more nearly approximate the ideal of a man of ideals are "builder" and "benefactor." Unquestionably, Dr. Johnson is a builder and benefactor. Unquestionably, he is a benefactor to the womanhood of South Carolina. For a man, "builder" and "benefactor" are synonymous. For a woman, "builder" and "benefactor" are not synonymous. To mention only three: He was for four years President of the Southern Education Association, and in 1915 was elected to the honor within the gift of American educators.

Dr. Johnson has been building for four years, and in his room in a Charleston hotel his life is building. His one aim was to build his very life into the great institution over which he presided. His remarkable recollection of the days of his youth when he entered upon life, choosing the profession of his father before he knew the machine the ordinary man was made to use, is a vivid picture of how the man had been building for years, and in his room in a Charleston hotel his life is building.

And with it goes his world-renowned desire—his world-renowned desires while the desire is good. And with it goes his world-renowned desire to see that his dream of a great builder, an austere executive, but a lovable personality.

For just as truly as Dr. Johnson has builded himself into the splendid State college which it is today, he has not merely a great builder, an austere executive, but a lovable personality. They have learned that the love and respect which we accord our distinguished Founder is universal love in which he is held, and we wish through our editorials to express our appreciation of the love and respect which we accord our distinguished Founder.
