The town of St. Johns is a busy place. Necessarily.

The daily paper is full of people doing everything, but mostly that is no different from any other day. The only thing that is really different is the amount of news that is coming in.

This morning, there was a story about a wealthy businessman who has been named as the new mayor of the town. This is a big deal, as the mayor is one of the most powerful people in town. The businessman has a lot of money and influence, so he should be able to get things done quickly.

Another item on the paper is a story about a local woman who has been named as the new head of the local charity organization. This is also a big deal, as the charity is one of the most important organizations in town. The new head has a lot of experience and is well respected, so she should be able to do a lot of good work.

There is also a story about a local business that is opening a new store. This is a big deal, as the business is one of the most successful in town. The new store will create a lot of jobs and bring in a lot of money, so it should be good for the economy.

Overall, the town is doing pretty well. The economy is strong, the people are happy, and there is a lot of progress being made. It's a good day to be in St. Johns!

It is a mutual institution. There are no "members" to make profits on your savings. Everybody draws after minimum expense, no interest just plain co-operation.

THE SAVINGS MEMBERS use the Association as a place where they can put, monthly, the sum of money, either large or small, which they are able to save from their income.

THE BORROWING MEMBERS use the Association as a place where they can borrow money for use in buying, building or improving a home, or for other lawful purposes.

The man himself was very miserable. Dr. Lows and his daughter, Mary, were sitting in the front room of their house, looking out of the window at the snow falling heavily on the ground."
