Farmers' Department

From the Cotton Planter and Seed Feeding Hogs on Cotton Seed is Good Economy.

Dr. Cramer—Dear Sir: As I have been a constant reader of this paper for the last five years, and an operator for the last 15 years, your information with respect to the value of cotton seed for feeding has been most interesting and profitable to me. I have been feeding cotton seed for some time and have found it to be a most valuable food for hogs. I have found that hogs fed on cotton seed will gain more weight than those fed on any other food. I have also found that hogs fed on cotton seed will be more healthy and will live longer than those fed on any other food.

For the Cotton Planter and Seed. ON FENCES. Dr. Cramer—Dear Sir: In matters of politics men differ to the right of the side on which they stand. I am a fence defender, and I greatly prefer that I am on the fence; and having my mind made up, I prefer to a declaration of my principles.

LINKS.

The Louisville Journal says: "We defy any man to find a more beautiful and more useful link than the one which connects the mind with the body."

My soul's sacred lamp burns bright, In midnight dream as well as day; For Nature then in silence speaks, And silent teacher or had not my eye On that dark, mysterious hour, How oft from waking dream I start, To find that I have lived a day.

My joys like summer birds may fly, But hope like autumn leaves depart, My life like memory in years is dim, No dew that on my brow may fall, No sunlight to my heart be given, But it will live and flourish still, My life like memory in years is dim.
