Farmer's Department.

Worst you stay.

Out of the foreign and the sees more training as paid by the anchors. We see now expendent to a cory large start you a cord with property of the communities of a cory large start you a cord soon to see form our hands. But I will be found if the three you will be most likely to fall out in the largest measure, to these soon may have rount fathfully acted

their part is propagation for man, to cast the blame for his finiters, on God, when has folled or 50 his part, for bloody we know, that it is in all that we rise up early, or at up hat a fit is rain that we rise up early, or at up hat a fit is prosecution of our produces, where the bleatings of God beington our labors, yet we know fall well, hat much which in othered upon adverse basins, then I be part down for softling upon or or less than had work, that Registered apportunities. But all our monalizings upon the past, cannot care like rore, new, and we therefore turn to the future. There yet remains something to be done to the cetton crey. The work's now meantly light. All grankings burded so of grass in the dell, must be delling the dill, must be delling the dill, must be delling the dill must delli must causing one delling the delling man dell

crey. The work is now meanly light. All acting must generated by the loss, and the middless of paras in the acting must be represed by the loss, and the middless of the row should be help and not clean by repeated shallow plowings. We think the work in rocton englet to be continued late, not slone for the nectures of the thing left, for feel he need in the pleaking ensuing the first continued working of the continued working of continued as the continued continued to the continued continued to commerce appearing.

Follow will come and in force come before our next time and we inhered some before our next time and we inhered sides a five thoughts on that, and yet.

Sides a five thoughts on that, and yet.

Sides a five thoughts on the sear is properly maternal. Much danger may be properly maternal. Much danger may be primary adopted, therefore is the top grain of all owns he well structure, before beginning pulled, the criterion is the grain of all owns he well structure, before beginning pulled, the lands. It is better to sacrife a portion of the fielder than towers to all the well of the event, worth make the all the fielder than towers to all the well of the event, worth make the all the fielder than towers to all the fielder than towers to all the well of the event, worth make the all the fielder than towers to grain a profession of the critery in this decloration, may be easily may be a proving the critery in this decloration, and is not better than the critery in this decloration in the critery in the decloration of the fielder than the state of the critery in the decloration in the state of the third of the critery in the decloration in the state of the critery in the decloration in the state of the

MAKE FABLING ATTRACTIVE TO THE YOUNG.

Is no polas do Aguess fail more in the chrestion of their sgis and daughters, this is a property of the polar state of the chrestion of their sgis and daughters, the chrestion of the chrestian of the chrestian

Suppose the young are faught to chairres the character of soils and their shapitum to different crops, the structure and nature of interest the structure of th

great searcy. New England was to make great searcy. New England was to make arrived and the search of the search o

eating binnell and his children. In the mean time a thousand objects, if properly observed and brought to notice, will begin the work, and that in the very points of greatest practical importance.

and cannot be added a wift, also reputative of pool and some of ferrear. They must on into the counting room to unkne money, and be known on a some of weakl, or they must embark in the intriant windless of the law, and through this is good the present of the certainties of politics, and an elevation, and, as they findle the present of the special control and the second of the s

inview in Haiston Potters.

1st, All young chickens, ducks and turkey
should be kept under cover out of the weath

2nd. Twice or theice a week, pepper shalots, shives or garlic should be mixed with their food.

3rd. A small jump of assafestida should be placed in the pan in which their water is giv on them to drink.

4th. Whenever they manifest disease by he dropping of their wings or any sutward igns of ill-health a little assafortida broken ato small lumps should be mixed with their tood.

5th. Chlekens which are kept from the dung hill while young seldom have the gaps, es; therefore it should be the object of those who have them to so confine their hems as to preclude their young from the range of harn or stable yard.

6th. Should any of the chickens have the gapes, mix up small portions of assafetida, rabbarba and pepper is result butter, and give each chick p as much of the mixture as will ils upon one-half the best of a small teaspoon.

The For the sph die following treatment is judicious; take of the industric covering on the point of the tops and give tyles a day, for two or time days, a piece of garlier, the size of a pee. If garlie, cannot be obtained, noise, atteit, or athres will manner, and if neither of these be convenient two genins of black paper to be given in fresh batter will answer.

8th. For the snufflex the salids remedies as for the gapes will be found highly curative, but in addition to them it will be necessary to melt a little assautida in fresh tutter, and rub the chicken, about the nortifle, taking care to clean them out.

. 8th. Gröwn op durks are sometimes tase of replayly occusiones. In such ca see fare drops of rhubsch and four groins are fare drops of rhubsch and four groins of cayenen pepper, obised in foods batter, thould be administered. Leat year we learner, symplome manifested themselves among them; to but we arrested the miskly, without lesing a single duck, by a dose of the abote medicine to such a serve III.—One of the ducks was at the time parallard, that was thus avoid.

Humorous Rending.

RACY STONE SPERCIA. he subjoined, cloquent, grand, lofty conducts effort, was recently made by

stopendous effort, was recently made by a promising genius who had annuanced himself as a candidate for Congress:

warmi' and make a policical speech, and what I'm aging to speech about 11 sileste to. Noër, I'l like to have gon pay particular at cheding, as the provider may when the boys of its princhis banta adala none. "I Still Live."—Lord Byron once re marked 'Glory consists in being shot in ha tle, and having one's name reported wron in the dead and wounded list."

We were never more strongly reminded of the truth of the truth of this assertion, and how little the great are remembered, and their death, than on hearing a few days since, the following aneedote of an Eastern farmer, trying to repeat the last words of the 'Godlike Webster.' I still live !

A gentlemen remarked, Life is very unerrain. 'Ah yee, replied the farmer, thack's true every word of it; and by the way Captain, that makes me think of what one of your big Massachusetts men said when he died a spell ago.'

Who was it? inquired the Capitain.

Well, I don't just call his name to mind
now, but at any rate he was polititioner, and
lived near Boston, somewhere. My newspaper said that when he died, the Boston
of the next had been the control of the con

had a funeral for a whole day,"

'Perhaps It was Webster,' suggested t
Captain.

"Yes, that's the name! Webster—Geneal Webster! Strange I couldn't on it also But he got off a good jest afters he dies He in up in bed, and says he, 'I arm Dua xrr!"—Literary Misseum.
