EXPERIENCE IN AFRICA.

Mr. Phillips Verner Tells Interesting Story of the Pigmies and Watermelon...

Mr. Verner told of going out one day with a party of natives and seeing a massive orchid plant...

He said that he had at one time made up his mind to catch a baboon...

As the big beast remained steadily by their posts Mr. Verner realized that it would be some time before darkness caught them...

They not only ate all the watermelons that they could get within in this country but carried back with them to Africa every seed that they could get their hands on...

A Twenty Year Sentence. I have just completed a twenty year health sentence...

The Value of a Cent.

To the Editor of The State. In the Sunday issue of The State there appeared an article entitled "Salary Doubled," which told about a young man who went to work for nothing and had his salary doubled at the end of the first month...

It seems that there was another young man who started at the same time on 1 cent per month. By close application to his duty, he succeeded in getting his employer to promise to double his salary monthly for three years...

"Take care of the pennies," L. R. Medbery.

[This is a mistake, or else our very hazy calculation is fault, according to which he would have to keep his expenses down to a little over twenty cents that day and save up a year to save up a little billion. But we should rather be wrong than to count it over.]

A Card. This is to certify that all druggists and chemists in this State are authorized to sell Foley's Kidney Cure...

Mr. Allen as a House Wit. Washington, April 5.—Representative Allen joined the five makers of the bill on the other day at a conference held in the office of Mr. W. H. Clegg...

As the big beast remained steadily by their posts Mr. Verner realized that it would be some time before darkness caught them...

They not only ate all the watermelons that they could get within in this country but carried back with them to Africa every seed that they could get their hands on...

That Tom Has Passed.

There was a time when it was considered the inherent right of every man to take his Christmas drink. That time has passed. There was a Scotchman who was a teacher on "Ain't Fools Day" and his pupils took holiday...

There was a time when every school in the country looked out the teacher on "Ain't Fools Day" and his pupils took holiday, not infrequently abusing school property and playing tricks on their teacher...

There is no longer any effort to take the day and a strike goes all over this day just as any other. And this is as it should be.

For Constipation. Mr. L. H. Farnham, a prominent druggist of this city, writes: "My wife's stomach and liver are so bad for constipation..."

Death of Mr. Robert Brown. Died at his home, near Berry, Texas, on March 16, 1908. He was a former resident of Chester county, S. C., from hydrophobia, having been bitten, as is supposed, by a dog...

The Remedy. It is most gratifying to the friends of the industrial school, or reformatory, to know that the board hopes to have that institution open for the reception of boys by September 1st...

Victim of Malaria's Folly. Washington, April 6.—Thomas McGreary, the New York horseman, accidentally shot by Congressman J. Thomas Heflin, of Alabama, a few days ago, is in a serious condition.

The New Pure Food and Drug Law. We are pleased to announce that Foley's Kidney Cure has been recognized by the National Pure Food and Drug Law...

Prohibition in National Platforms.

The Asheville News-Gazette does not seem to think much about our discoveries as to Col. Bryan, viz.: That he has not much of a record as a prohibitionist and that he is not exactly fit for the most important position...

"A single district may establish a high school. Trustees of the common school will be trustees of the high school in all districts under the amended act."

"The basis of aid will be the character of a state and enrollment of pupils rather than the financial basis. Of course there is a financial limit. It will be impossible for a community to get all unless it makes improve the school."

High School Information.

Hon. O. H. Martin, state superintendent of education, referred to a statement with reference to the improvements made recently in the high school act. He says that the most important feature of the law, as it now is, are as follows:

"A single district may establish a high school. Trustees of the common school will be trustees of the high school in all districts under the amended act."

"The basis of aid will be the character of a state and enrollment of pupils rather than the financial basis. Of course there is a financial limit. It will be impossible for a community to get all unless it makes improve the school."

Bryan's Eloquence.

William Jennings Bryan was addressing a political meeting in Iowa on one occasion when it is said, he fairly carried away his audience by the power of his oratory, says Lippitt. Almost a month ago most impressed by the Nebraska's effort was a man known to be very deaf, but who nevertheless seemed to be listening with breathless attention to Bryan, and who apparently caught every word that fell from the speaker's lips.

"Well, well!" exclaimed the deaf man, excitedly. "I don't make any difference, after all. I can't make out a word he or you are saying, but good gracious, don't be too the motions splendid!" —Augusta Herald.

Acceptable to the Diocese. Gov. Ansel is, in our opinion, making an excellent chief executive of the state, says The Episcopal Review, showing on the whole pretty sound judgment, a steadiness of purpose and good degree of "backbone."

Will Stand by Lyon.

It strikes us that Attorney-General Lyon talks too much to public about the business of his office. He seems to delight in newspaper notoriety. Orangeburg Times and Democrat. Since Mr. Lyon's office is a public office, why should he not talk in public about the business of it? It certainly shows he has nothing to conceal from the public who put him in office.

It strikes us that some persons and newspapers are so prejudiced against Mr. Lyon that they see nothing commendable in anything he does. The great public, however, while knowing he is not perfect, believe in him thoroughly, and are going to stand by him. —Newberry Observer.

Fellows (formerly Rusty Rufus)—Well, what do you want? Tufford Knot—You was kind enough, waster, to give me a dollar in a kick. If the two go together, sir, I'm ready for 'em again.—Chicago Tribune.

FOR RENT—Six room house with bath and kitchen. Call on Mrs. A. P. Frayer.

To Issue Bonds.  
Petitions are being circulated among fresholders asking, or rather authorizing, the city council to issue 40 per cent bonds to the amount of \$20,000 for the purpose of extending water mains and sewer pipes out into newly settled territory, and for additional machinery needed in the city's public works. Obligations to the amount of several thousand dollars have already been incurred, anticipating a bond issue. The city is now bonded for \$90,000, and the proposed issue will make the amount \$125,000, which is well within the constitutional limit.  
The expenditure is a necessary and cannot be met out of ordinary revenues. If the tax levy could be increased, which it cannot under present conditions, all property owners would have correspondingly more tax to pay, whereas the interest on the bonds and a margin for a sinking fund we suppose, will be paid out of the ordinary revenues.

ALDERMAN.  
R. R. MOFFAT is nominated for alderman from Ward 3 for full term.

WARD 4.  
The many friends of Joseph Lindsay hereby announce him as a candidate for alderman from Ward 4 in the approaching municipal election.  
WARD 2.  
Feeling that it would be a great loss to the city for S. E. McPherson to resign from the council at this time, his many friends in ward 2 into the city for alderman from our ward, to succeed S. E. McPherson, who declines a re-election.

Alderman Norwood, of Columbia, who promised to be in charge of the school, has been expelled from the council.

Fodges Letter.  
Fodges, Apr. 7.—Our farmers are progressing very well with their work. Some have planted corn and are rigging cotton land preparing to plant soon.  
We are all rejoicing over the fruit crop and are in hopes that we will not have any more cold weather.  
Mary Brunson, the little daughter of Mrs. and Mr. Charles Crosby, is seriously sick with pneumonia, and Willie, a little son, is just recovering from an attack of the same.  
Mrs. J. Q. Thomas and son, Sam Watt, from near Elys, are spending a few days with the former's sister, Mrs. B. D. Jordan, whose health does not improve.  
Rev. and Mrs. H. B. Jordan are spending a while here with relatives.  
Mr. Marion Fodge came home yesterday from Clemson college on account of his eyes falling him.  
Mrs. Lily Vanhook and little daughter Martha, of Birmingham, Ala. and Mrs. Nellie Ashcroft, of Charlotte, are spending a while with their parents, Mr. and Mrs. J. M. Hough.  
Tillman, the 17-year-old son of Mrs. Anne McWaters, left home about two weeks ago. He spent the first night in Chester and has not been heard from since.  
Our school has run down, so many of the children have stopped to work. It will close about the last of this month.
