FRIDAY, APRIL 20.

GO TO WORK.

Governor Manning has issued an address to county and municipal authorities throughout the State urging upon them the advisability of enforcing the vagrancy laws.

It is to be hoped that every office of the law in South Carolina will make a special effort to see that every one goes to work. In almost every community you find people who have no viable means of support yet they manage to get along with out doing a day's honest work. Many of these idle ones have been retelling whiskey but the "quarantine" law, which becomes effective next week, will doubtless eliminate a considerable amount of this business.

There is doubtless work for every one, especially at this season, and those who will not voluntarily work should be made to work.

ADVERTISED GOODS.

There has been a notable advance in groceries, dry goods, shoes and practically everything else but we have noticed that the last people to make any advance is the manufacturer of the national advertised article. There are, no doubt, a lot of unscrupulous manufacturers who are taking advantage of the situation are not advertised articles hence the market at a high price. These goods are not advertised articles hence the manufacturer has no reputation to keep up. In the purchasing of articles at the present time the purchaser will economize by buying the article with a reputation. There is as much difference between an advertised article and an unadvertised article as there is between a secured loan and an unsecured loan.

WAR TAXES.

We are all acquainted with the fact that a declaration of war carries along with it an increase in taxation. This increase in taxation does not necessarily have to be direct. During the Spanish-American war many people were not called upon to pay a direct tax but very few escaped the indirect taxation.

Our entrance in the European war will cost the United States billions of dollars and this money is to be raised by taxation. There is no other way by which to raise the money.

Many ways have already been mentioned by which this war tax money is to be raised and doubtless other ways will be mentioned. Our President has called upon the Southern farmer to plant less cotton and more food-stuff and in the event the farmer does not heed the desires of our President we look for a special war tax on cotton. In other words the cotton tax would work similar to the income tax. The government would allow you so many bales of cotton and all over this specific amount would be subject to a certain amount of taxation. This plan can easily be worked out and if we raise a surplus of cotton we look for it to be put into effect.

MEMBERS AGAINST CONSCRIPTION PLAN
Expected That Five of Seven South Carolina Representatives Will Oppose Bill.

Washington, April 19.—Five of the seven members of the South Carolina delegation to the house, it is understood, will not support the military bill with the conscription feature unless amended. These are Byrnes, Whaley, Dominick, Nichols and Stevenson. The two who will likely vote for it are Lever and Ragsdale.

In making his position clear today Mr. Byrnes was very emphatic. "I do not think it would be wise at all," he said, "in a district like mine, and many others in the South, to pass a general conscription bill of the kind now under consideration. It is not necessary for me to go into particulars, but I feel certain the people in my district will understand why no law there is some restriction or some amendment which would permit of a proportionate number of whites and

Look away, look away, look away, Dixie land!
Where the long moss to the oak is clinging
And the mocking bird is nightly singing.
Look away, look away, Dixie land!
The blue and gray went out to battle
And loud they made war's thunder rattle.
Look away, look away, look away, Dixie land!
The fight we lost, but won a glory,
Which still will last when time is hoary.
Look away, look away, look away, Dixie land!

Still Dixie's land is the land of freedom,
Of soldiers brave and gallant seamen.
Look away, look away, look away, Dixie land!
The land where rules the Anglo-Saxon,
The land of Davis, Lee and Jackson.
Look away, look away, look away, Dixie land!
And Dixie's land is the land of cotton
Whose ancient ways are not forgotten.
Look away, look away, look away, Dixie land!
From his snow-white throne our king advances,
To break the world's commercial lanes.
Look away, look away, look away, Dixie land!
And Dixie's sons will stand together
In sunshine and in stormy weather.
Look away, look away, look away, Dixie land!
Through lightning's flash and thunder's roar,
Fought on the gallant South forever.
Look away, look away, look away, Dixie land!

negrees that it would not do to pass the bill.
"Exactly how this is to be determined I do not know, unless possibly one of the amendments providing for the organization by the war department of 'home guards' to be composed of men who are too old or otherwise disqualified for service in the field, but who would be eligible for duty at home, is passed. Without something of the kind, I am against it."

Experience Is the Test of Tires

Every tire claims to be the lowest-cost-per-mile tire.

If you knew the experience of any considerable number of other tire users, —that would help you decide which tire makes good on the claim.

We don't know about other makes of tires, but we do know —that motorists who have used United States Tires continue to use them;

—that more and more motorists who used other makes of tires are turning to United States Tires.

These two facts are proved by the amazing sales increases of United States Tires

—sales increases that are vastly greater than even the greater natural increase in the number of automobiles this year over last

—which shows where tire service is.

United States Tires Are Good Tires

United States Tires and Tire Accessories Have All the Services Worth and Wear that Make United States Tires Supreme.

United States Tires are carried by the following Sales and Service Depots—who can tell you which of the five types of United States Tires exactly suits your needs: FENNEL-YOUNG MOTOR COMPANY.

HOLLEMAN FREED BY FULL PARDON

Absent Eight Years Returned Voluntarily to Take His Punishment

Columbia, April 20.—J. Towney Holleman of Anderson was granted full pardon yesterday by Gov. Manning for the purpose of restoring his citizenship. Holleman was serving a term of two years in the State penitentiary, imposed by Judge Hayne R. Rice, February 9, 1917, following Holleman's plea of guilty in the court of several sessions of Anderson county to the charge of breach of trust with fraudulent intent.

"I do not hesitate to say that I am sure Mr. Holleman had proved himself a useful and excellent citizen in the line of his unfortunate breach, and that if pardoned he is again prove himself to be a useful and excellent citizen. I do not wish to be understood as recommending pardon, but in no sense do I oppose it."

Kurtz P. Smith, solicitor of the Tenth circuit, who was present at the trial of Holleman's plea of guilty, has said that he "heartily concurs in the pardon of his pardoned."

More than 5,000 citizens of Anderson and Pickens counties and some from adjoining counties signed the petitions urging the governor to grant a full pardon.

About eight years ago Holleman used the funds of the Bank of Anderson, of which he was cashier, for speculative purposes, intending, according to his statement, to replace the money. The amount given to him was \$25,000. He explained the matter by letter to the president of the bank. While he was a fugitive, he replaced part of the funds. During his exile, says Holleman in his signed statement to the governor, "my conscience secured me like the lash of serpents and I knew no peace, waking or sleeping. At last I found I could have no rest till I came back and publicly confessed my sin, and so voluntarily I came home and publicly entered plea of guilty to the charge of breach of trust."

It begins to look as if we are to have 25 Mrs. The price is spurring rapidly toward that mark and some dealers are predicting that it will even go higher than \$3 before the next crop.

GIVE THE CHILDREN SOME PATCHES OF THEIR VERY OWN THIS YEAR

While you are setting apart your good acres for such and such crops this year, please don't forget to reserve a small space for the boys (and girls also, if they wish) on which to plant just what they please for pleasure or profit or both. To the interested boy or girl this means more than you may have imagined. The spirit of ownership is a mighty factor in the building of character that abides the earth.

If your children are too young to need a patch of their own, or if you have 80 children, do plant a patch of something for pleasure yourself—melons, peanuts, popcorn or flowers—have something to use as treats for your neighbors, old and young. Have a crop on one bit of ground that you will not sell, and see if it does not bring you larger returns in good fellowship and heart growth than twice the space in a money crop would bring.

Having cause to travel about the country sometimes, I am careful to note how farmer folk live. On the whole they are on the upgrade, but so often and in so many places the children's rights are just about nil, but it is so. In many farm homes the wife is not a partner. It is seldom the wife to do her share of the work, and often more; but in many ways she is made to know that the income from the crops is "his, not her's." What is her position? If she is a servant she should be paid for her labor, but as she does not receive wages she must be a slave. Try making wife and child's part of yours this year, and don't forget a big garden and a melon patch.—O. H. Barnes, in The Progressive Farmer.

Chandler Power IS Power

Chandler power is not power on paper. It is power on the hills and mountain-sides; it is power in the mud and sand.

Four years of skilful and conscientious manufacturing effort have developed and refined the Chandler motor to a point approximating perfection. Chandler owners long ago named it The Marvelous Motor, and now, more than ever before, it is the wonder Six, powerful, flexible and enduring.

On high gear and without apparent labor it pulls the hard steep grades and winding hill roads where other motors shift to second.

In crowded traffic it responds to every demand.

On open roads it answers every call for speed.

The Chandler motor is a fact-motor. What any Chandler will do every Chandler can do.

The Chandler Company has never built a special demonstrating car.

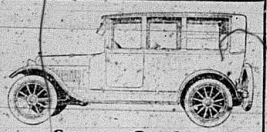

The Chandler Company has never furnished to any Chandler dealer a special gear ratio.

Every Chandler is a demonstrator. Chandler motor features include:

Solid Cast Aluminum Crank Case Extending From Frame to Frame

Silent Chain Drive for Motor Shafts

Bosch High Tension Magneto Ignition

Summer Comfort Winter Luxury

THE new Chandler motorable sedan offers the most attractive seven-passenger convertible type of body yet produced. This body, fiber-built, is exceptionally roomy and comfortable. It is deeply upholstered and mounted on springs which absorb all the stress and shock of the roadway. The left side door is immediately opposite the driver's seat so that the user to get in or out of the car does not have to distort his or her occupants. The auxiliary door is centrally opposite the driver's seat. The forward side windows and the door windows lower away entirely by adjustable straps. The rear side windows lower half way by adjustable strap, and are entirely removable as are the window posts. The back panel of the body is of metal, highly finished. The workmanship throughout is of pleasing refinement.

No Inflation In Chandler Price

If we asked one hundred or two hundred dollars more, the Chandler would still be under-priced.

When many makers have added as much as three hundred dollars to their selling price within the year just past, the Chandler price is only one hundred dollars higher than the sensational low price established more than two years ago.

There is no inflation in the Chandler price.

And if we asked you to pay hundreds more just because we thought we could get it, that would not make the car better.

It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Gardol, the woman's tonic. She says further: "Before I began to use Gardol, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Gardol, I began to feel like a new woman. I soon gained 35 pounds, and now I do all my housework, as well as run a big water supply."

I wish every suffering woman would give

BRILLIANT FEATS BY A CAVALRYMAN

Ottawa, Ont., April 17.—Succeeded by Canada's cavalry in recent fighting at the front are described in an official despatch today from Canadian headquarters in France. Cavalry galloped straight at a position occupied by Germans depending on high ground positions with rifles and machine guns.

During the enemy's recent withdrawal, the despatch counts, Canadian horsemen were faced with such

success that within four days six villages were captured. This advance was made on a 12-mile front to a depth of six and a half miles.

"The cavalry dash into the enemy's lines," the despatch reads, "was one of the first operations of the sort on the western front since the Marne campaign."

A young lieutenant, while leading his troops to the attack on one of the villages the Canadians captured, came upon a trench protected by twenty German who had a machine gun. The lieutenant jumped from his horse and ran straight for the machine gun, clearing the wire. He sprang at the machine gunner and captured the gun. The unexpected appearance of horsemen had made the gunner nervous and prevented him from getting into action. A second hesitation on the part of the horseman would have meant many casualties to the man of his troop."
