Schools Want Dispensary Funds.

The dispensary commission held a long session yesterday and there were many interesting developments, but nothing in particular which it is considered advisable to give to the public just at this time. As usual there were several attorneys and whiskey druggists present around, anxiously awaiting some "good news" from the commission, but there will be no funds paid out any time soon.

The news that Superintendent of Education Martin is preparing to take steps to secure a prorata share of the funds of the State dispensary for the public schools of the State on the claim that \$40,000 in the schools from the profits under the State dispensary system has worried the representatives of the whiskey house so that it is a valid claim.

Attorney General Lyon yesterday replied to the letter of Mr. Martin, advising him to file his claim with the commission. It is considered that there was anything due the public schools of the State. This claim will probably be filed Saturday. Anticipating the claim there has been more or less discussion among the members of the commission concerning it. It cannot be stated just what attitude of the commission will be in this matter, but, as has been stated before, more than one member of the commission is inclined to the opinion that this is a valid claim.

The Clarke purchase has not been paid for yet and the Peoria concern may have to wait a long time before it gets the money. John W. Dudley, who made the sale of the \$100,000 shipment to the board of directors in December, swore that no price was paid to him for the shipment, his testimony shows that some part of the shipment at least was not made according to the strict letter of the law.

The matter of the claim of the United States revenue department for \$33,000 in back house fees, alleged to be due on account of dispensary sales in the wholesale quantities, is in the hands of Mr. Stevenson.—The State.

Everyone knows that Spring is the season of the year when the system becomes unbalanced. Many of these ailments are highly recommended. Try them! Sold by Chester Drug Co. if

The Man Who Sells Cocaine.

A Kansas City police judge, Harry Kyle, made the following statement the other morning: "Man can rob man of his money, his property and his family, but when you rob him of his honor, his will power, his health, and his estate, you have done him a deed for which he would be a poor reward. I have been asked if I could ever be believed if I could ever be conscientiously believe a cocaine fiend. Yes, I can be believed if I could be true to the man who has ruined a human life. Here in my hand I hold a small box containing a quantity of cocaine, an apparently harmless drug, but one which causes more want, more pain and more misery than any other substance. In this box of cocaine I find you the limit \$100, and it is deplorable that this drug is sold. Further than that I wish distinctly to advise that the man who is guilty of a like offense shall receive the same penalty." The box was heroic, but it had to stop the terrible will in the man who sold it as McGregor, the druggist, had sold the "dope" to a negro.—The State.

Plan for State Camp.

At a recent meeting of the Sons of Veterans plans were perfected for a State camp to be known as Camp South Carolina of the Association of the Sons of Confederate Veterans. The membership will include members of all of the camps and in this way the officers hope that the organization will gain in strength and influence. Application has been made to the camp meeting in Richmond next month for the charter and official recognition and in the meantime it will be held at the old camp site of the year. George Bell, treasurer of Lexington, state commander of Eastern District, of the Sons of Veterans of the first division; William West of Columbia, commander of the second division, and W. O. Wharton of New York, commander of the third division.—The State.

Mail Clerk Nelson Sentenced.

Williamton, N. C., May 10.—Edward A. Nelson, the former railway mail clerk, charged with the robbery of a package containing \$10,000 in currency consigned by the Atlantic National bank of Wilmington to the Chesapeake and Potomac Telephone Exchange Bank, in this city last March, was sentenced today to the United States penitentiary for the term of one year and three months.

Drug Trust Enjoyed.

Indianapolis, Ind., May 8.—The so-called "drug trust" was perpetually enjoined today from continuing its operations by the entering of a decree in the United States district court for the district of Indiana on the complaint of the United States attorney, by Joseph H. B. Keating, United States district attorney.

The defendants, 62 in number, who are the members, officers, directors, agents and attorneys of the National Association of Retail Druggists, the National Wholesale Druggists' association, tri-partite proprietors "blacklist manufacturers," "direct contract proprietors" and Charles C. Bombaugh, are perpetually enjoined from combining and conspiring to restrain trade in drugs, fix prices by agreement, blacklist retailers who cut prices, or to refuse to sell to any retailer on equal terms. All publication of blacklists is forbidden and all contracts and agreements made by the charges are declared void.

The direct contract serial number plan is prohibited as well as the selection of the adoption of schedules for the sale of drugs. Charles C. Bombaugh was charged in the bill of complaint with being proprietor of the adoption of such lists called blacklists, which contained the names of druggists throughout the country who sold proprietary articles and medicines at less prices than those which the alleged combination ordered.

As charged, he would send a list of such cutting prices to all wholesale druggists in the United States who belonged to the association of those accused of cutting prices, and in return he would receive from each of those accused of cutting prices, a list of the names of those "conscientious cutters," as they were called, could not buy goods.

It was further charged that those accused of cutting prices on proprietary medicines were unable to purchase any kind of drugs from the members of the several associations. All such practices are perpetually enjoined.

Students Drew Veterans.

Hon. George Balle, treasurer, commander of the United Sons of Veterans of South Carolina, was one of the busiest men in the city all day yesterday. He was everywhere and everywhere he was looking after the old soldiers.

He made application to Chief May of the Columbia fire department for two horse wagons to be used in the parade yesterday afternoon for hauling veterans who were crippled or feeble to march. Independent No. 1 and Columbia No. 3 wagons were placed at his disposal. Each wagon bore on either side the following inscriptions: "We are old but we are for them" and "We will march with you to the end." From the state lotteries to the post-boys and the feeble and crippled veterans were picked up until the capacity of the wagons was exhausted. The wagons were hitched and the two wagons were drawn in the parade by the students of the University of South Carolina. It was indeed the feature of the parade and excited much admiring comment from spectators along the line of march.—The State.

Shattering an Idol.

Theodore Peto's exchange against the New York Cotton Exchange may not be true, but they are starting at any rate.

A Fine Jersey Cow.

Bud Jones, a farmer who lives on the Piedmont road, brought a fine Jersey cow to the city yesterday and sold her for seventy-five dollars. The cow will guarantee to give eight gallons of milk a day in the neighborhood of a dozen and a half. The cow was purchased by Mr. Jones from the purchaser, Greenville Mountain, Greenville, S. C.

Rev. Coke D. Mann Makes a Stir.

Wallonia, May 9.—It will be recalled that some weeks ago there was an unusual and sensational service at the Wallonia Methodist church; when the pastor, Rev. J. C. Younger, made most humble apologies for certain articles written derogatory to certain officers in the Methodist church.

On that day Rev. Coke D. Mann, who is a resident here and a member of the house of representatives and former pastor of Wallonia church, arose and said that there were some men in the Methodist church and if some one did not check their work the church was going to the bad in South Carolina. Things had quieted down, nothing more was scarcely heard of the events of that day. But on Sunday after the pastor's sermon, Mr. Mann said that he felt it his duty to make a statement. This he did in language most scathing and denunciatory.

He narrated briefly the proceedings with some of the relatives of the dead congressman, and should this be seen by any of the aforesaid relations they can get full information by writing to Mr. Thomas at the room agent at China Grove, N. C.—Special to The State.

A Good Business Guide.

A few days ago a merchant, not crowded at that time with customers, said to a friend that had called on him that he had read the third chapter of the Book of Proverbs a few nights before and that he saw more in its teaching than he had ever seen. An old Scotchman once said that the Book of Proverbs was the best guide a business man could study. A careful and frequent reading of that book and following its teachings would lead to honorable success in all lines. Short cuts, corners, sharp tricks, frauds that would destroy but an indignant, oppressing the unfortunate with liens, mortgages and swindling operations would never be known. Let merchants, clerks, factory men, lawyers, and all who work in any way, read up that old Book and give it a careful reading and see if the old Scotchman was right. It will not be time lost.—Carolina Spartan.

If any one has any doubt as to the value of Foley's Kidney Cure, they need only refer to Mr. Alvin H. Stimpson, of Willimantic, Conn., who, after almost losing hope of recovery on account of the failure of so many remedies, finally tried Foley's Kidney Cure, which he says was "just the thing" for him, as four bottles cured him completely. Is Friday Unlucky?

Is Friday unlucky? Gladstone, Hensconfield, Washington, Hamack, Fahrheit and Spurgeon were born on Friday; Henry VIII gave Calicut to the Portuguese, Columbus discovered the continent and the Pilgrim Fathers landed at Plymouth Rock on Friday. One morning the first newspaper ad and the first newspaper printed by steam power, the London Times appeared both on a Friday, while the stamp act was repealed in England on the same day of the week. With Charles Dickens Friday was an especial favorite. Chicago News.

That automobiles do not herald a horseless age is evident in the steady increase in the number of horses and their average prices.

In seven years horses in the United States have advanced in price 50 per cent and average prices advanced from \$44 1/2 to \$93.1, and the gain in numbers increased from 12,537,524 in 1900 to 19,547,000 in 1907. In 1900 the total valuation of horses in the United States was \$978,516,562, while the appraisal in 1907 aggregated \$1,846,576,000. It is a most encouraging omen to the horse industry that motor vehicles have failed to decrease the volume or reduce the price of horses in the country.—American Farmer.

It is a little late to say it, but it was a great satisfaction to the friends of Dr. and Mrs. Moffat, and especially the members of the A. R. P. church, to have them here during the meeting of the presbytery and the days preceding to cause a feeling, however, that very closely resembled that of homesickness—and some of the people of the congregation may have to die before they get rid of that feeling.

The wedding was indeed a great surprise to many of the young couple's friends. Mr. and Mrs. McCoy left that night for Asheville to spend their honeymoon.

Mr. McCoy is now located at Great Falls but formerly lived in Rock Hill. But of the contracting parties are well known here, both having relatives and many friends throughout this section of Rock Hill Herald.
