ENGLISH PAPERS EXPRESS SURPRISE

British Paper, Expressed in European Problem, Possibly Not Awar of Treatment Given to Neutral Shipping. London, Nov. 8.—Notwithstanding the forecasts of the American note to Great Britain sent from Washington by correspondence of the British press, surprise is the predominant tone of the majority of the British newspapers in their comments...

The American note upon its interference with neutral trade says the Fall Mall Gazette, "will be read with some surprise in this country. While the duty of every power to keep vigilant guard over the interests of its own commerce will be recognized, it is not believed that the treatment of American shipping might furnish good for a serious culprit."

FREE ADS FOR FARMERS.

The majority of merchants have long ago realized the fact that it pays to advertise and we are going to allow the farmers of Chester county a privilege from the present time until the first of January in order to show them that it pays for a farmer to advertise just as much as it pays the merchant. If there is a farmer in Chester who has wood, butter, eggs, molasses, cows or anything else for sale we will allow him an advertisement limited to twenty-five words, free of charge. The advertisement must be written and mailed or handed to us. No advertisement by telephone will be accepted and we will run the ad until the party instructs us to discontinue. The party sending in an advertisement for this column must be a subscriber of the Semi-Weekly News and further, if any one fails to carry out their advertisement we will discontinue same as soon as the proof of their failure reaches us. Now, Mr. Farmer, come along and let the people know what you have for sale and see just how quick you can turn a commodity into cash.

A SURE INDEX

We do not believe there can be too much thinking and talking and planning as to how to obtain better roads in Chester county. We cannot deny that we harbor a selfish interest in desiring good roads from one end of the county to the other. In general betterment of conditions which would necessarily result, every citizen would care to have his share of the good things of life or it would be his own fault. The Semi-Weekly News has been publishing quite a lot of specially prepared articles relating to improved highways for the sole purpose of giving information to those who want to learn and also to stimulate the interest of those who have given this matter but little thought. Intelligent people everywhere are building better roads and the best index of the Education, refinement and prosperity of any community is the condition of its highways. It should be the aim of every citizen to earnestly and faithfully do his part in making and keeping the roads better.

SECOND TERM IDEA

Notwithstanding the fact that the Democratic platform endorses the one term idea for a President, if the great mass of democrats of this country want Mr. Wilson for a second term, they will doubtless find a way of making themselves heard and of carrying out their wishes. In these changing times, a practical idea or issue which is right three years ago may now be entirely and utterly wrong, and this seems to be plainly the case as to an opposition which has or could develop to President Wilson, receiving a second nomination by the democrats and his election by the whole people who are the beneficiaries of his efficient and conscientious administration. We do not believe that Mr. Wilson will personally seek the office or even desire it, but he could not decline to serve if nominated and elected. It seems to be almost a certainty that there is not a man in the party that stands a shadow of chance of successfully competing with him for the nomination.

GOSSIP.

GoSSIP! The very name has a nasty sound. You'll find her sneaking in to the stores, the school room, the churches and societies. You'll find her leaning over the back fence of edging in between husband and wife.

No place is sacred to her. She blackens the character of men and women and of innocent girls. She ruins the careers of young men. Suppose a man or a woman is not as good as you are or as you may think they should be. Do you know you are right? Let other people think as they believe they should think, whether it is about politics, religion or morals. Don't gossip about them. Hell may be paved with good intentions, but the supporting pillars are the gossipers. —Barnwell Sentinel.

The Editor's Prayer.

An editor went to church the other day and was called on to lead in prayer, when he responded as follows: "Almighty, the kind father who doth from thy throne look down on the government of delectable subscribers, we most humbly beseech thee to draw near unto them, and whisper a few things into their ears that the statute books is to print. Thou knowest our wants but the subscribers know them not and seldom, if ever, stop to inquire. It is known to them that there are big patches on the homestead of our pants, and that there is an aching void in the front of our back—that we hunger and thirst and they ask us not to come and sup with them. Thou knowest, Lord, that our ink and print paper costs money but the subscriber knoweth it not, and careth a great deal less. This knowest we are cold, and the subscriber bringeth not the wood he promised, and they be shakin' and shivering while he bakes his shank before the red hot fires of his mother. Tell him all these things, Lord, and if he fail'eth and bringeth no succor, banish him to the lower regions to dwell among the Republicans, the Democrats, the Popocrats and Calistivity Howlers. Thine shall be the praise through out our newspaper career. —Maxeyville, Mo. Pilot.

NAUGHTY, NAUGHTY, COTTON!

Cotton exports for September were valued at \$29,535,561, against \$5,966,707 in September, 1914. This is an ample of orders in Council and orders placing cotton on the contract list. The price is ruling above 12 cents. There must be some thing wrong about this. Cotton should not act so and confuse those eminent cotton statesmen, Hoke Smith of Georgia and Vardaman of Mississippi, who a few weeks ago had the British lion by the tail, awinging his trembling carcass high in the air among their indignant heads. These who are paying the high prices for cotton and sending it abroad should have given heed to the prophetic of evil emanating from Georgia and Mississippi. Naughty, naughty, cotton! Some Settler is going to slap you on the wrist if you don't behave yourself—Mobile Register.

SECOND TERM IDEA

Those who buy and sell cotton have long ago learned not to pay much attention to the vapors of the "eminent cotton statesmen." The buyers and sellers have learned by experience that these "eminent cotton statesmen" are wrong about ninety-nine times out of a hundred, with a fair chance that they are wrong the other time also. But cotton is cotton. It knew better than to bankrupt the South last fall, as was predicted, and it knew better than to bankrupt the South this fall, as was again so vigorously predicted by "eminent statesmen." There will be up and down in the cotton market, and the Manufacturers Record does not undertake to predict when up or down will come during the season; but as it has repeatedly said to the farmers of the South, cotton has a great intrinsic value regardless of war or rumors of war, and the world is going to pay a fair price for cotton, despite all the predictions to the contrary by "eminent statesmen," so long as the South does not make the mistake that it made last year of raising a crop largely in excess of the world's needs.

If it were not for the fact that cotton at 15 cents a pound would turn the attention of the South largely to cotton growing, rather than to diversified agriculture—and in the long run the latter is more profitable than the former—the Manufacturers Record would wish to see

the time when no pound of cotton raised in the South ever sold at less than 15 cents a pound, and it is quite possible for the South itself to bring about such a condition if it will only be wise enough to raise all of its foodstuffs at home and make cotton a purely surplus crop.—Manufacturers Record.

REFUSE TO ALLOW HER TO SPEAK ON THE STREETS

Atlanta, Nov. 5.—The cause of equal rights for women got another sad setback today in Atlanta when Mrs. Ida Crouch-Hastet of New York socialist, who came here by special invitation of local socialists, was refused the right to speak on the streets. Mrs. Crouch-Hastet was addressing a crowd on the street near the court house when she was interrupted by a police officer who explained that she could not speak on the streets of Atlanta without a permit. She was forced to depart. She says she is going to try it again from the steps of the cathedral where she hopes she will not be disturbed.

Prepayment Saved This Policy
Mr. Claude Westfall, of Clarkburg, W. Va., signed an application for Mutual Benefit Insurance on July 17, 1915, and paid the first quarterly premium of \$6.10 to the agent, taking in exchange therefor the Company's binding receipt. He made an appointment for examination the following day, but his wife, for whose benefit the insurance was to be taken, tried to dissuade him from adding to his insurance. The agent, however, finally prevailed upon him to be examined and on July 22nd examination was made. It proved favorable in every respect. The application, which was for a Life Accelerative Endowment policy, \$1,000 at age 31, was received at the Home Office July 26th. In accordance with the Company's usual custom in such cases, however, an inspection was called for which was received August 2nd. This being favorable, the application was approved by the Medical Board and passed on to the policy Department. Policy was issued and mailed on August 5, 1915. In the meantime, on July 30th, Mr. Westfall was taken sick and his trouble was diagnosed as acute peritonitis. On August 3rd he died. It will be noted that this was the same day that his policy was mailed from Newark but the first premium having been prepaid the insurance was in force, although the policy itself was never delivered to the insured. The proceeds were paid to the wife on August 10th. Prepayment of the quarterly premium saved this insurance.

AN OPEN LETTER

OF FACTS TO THE PUBLIC
Greenville, S. C.
Nov. 4, 1915.

Dear Sirs,
I just felt that I must write you all, and tell you how wonderful my life has been restored to health. I have suffered for ten years or more, with the worst form of Stomach Trouble, for the last three years I have been in a critical condition, eating worse all the time. I had come to where every thing I ate hurt me, soups and milk and even very light food would hurt my stomach. I would bloat and belch and gas would rise and stay in my chest until it would seem as if it would jump out of my body, and I had a headache all the time. My skin was itchy and I had gotten so tired and weak that I could not get up all day. My nerves were a total wreck, and I could not do one bit of my house work.

I got one bottle of Waco Tonic, which was so highly recommended, to try it, and I found such wonderful help from that one bottle that I bought more. I have now taken three bottles, and feel that I have a new lease on life. I have gained ten pounds in weight, and I can eat any thing I want and it doesn't hurt me. I sleep good, feel fine, the brown spots are all gone, my head does not bother me any more, and I do all my housework now too. I just felt so good I could not keep from writing you about it. I want to use the full treatment before I stop. 6 bottles.

Thanking you for your Good Medicine, I beg to remain,
Mrs. S. E. Brown,
Hake St., 55 Greenville, S. C.
Mrs. C. E. Lawson who is Demonstrator of Waco Tonic in the city of 123 Main St. said in commenting on the above letter:
"The most of our aches and pains, health come from disorders of the stomach, and this Wonderful Compound, Waco Tonic, is designed to assist and aid digestion, by clearing the bowels, cleansing the stomach and intestines. If you suffer with Stomach Trouble, it will pay you to try this Remedy."

FIRE AT RICHBURG.

The store building, at Richburg, formerly occupied by Mr. J. L. Mize was destroyed by fire about seven o'clock Saturday night.

Dr. M. W. Wilkes and Mr. R. L. Hicklin had offices in the building. Everything belonging to Dr. Wilkes was burned and Mr. Hicklin managed to save his books. We are informed that Dr. Wilkes did not carry any insurance.

The fire was caused by the explosion of an oil stove and the flame quickly spread over the entire building. There was no wind blowing and this probably saved a number of buildings adjoining.

When Croup Comes Treat Externally

The old method of doing delicate little stomachs with nauseous drugs is wrong and harmful. Try the external treatment of Vicks' "Vapo-Rub" Salve. Just rub a little over the throat and chest. The vapors, released by the body heat, loosen the crouping phlegm and ease the difficult breathing. A genuine application would speed relief. 25c, 50c, or \$1.00.

ADMINISTRATORS NOTICE
STATE OF SOUTH CAROLINA, COUNTY OF CHESTER.

By A. W. Wise, Esquire, Probate Judge.

Whereas, Mrs. Addie Robinson made suit to me to grant her letters of administration of the estate, of and effects of Jesse H. Robinson, deceased.

These are therefore to cite and admonish all and singular the kindred creditors of the said Jesse H. Robinson, deceased, that they be and appear before me, in the Court of Probate, to be held at Chester, S. C. on 20 November next after publication of this citation in the public papers of the county of Chester, to show cause, if any they have, why said Administration should not be granted.

Given under my hand this 4 day of November, A. D. 1915.

A. W. WISE, Judge of Probate.

DWELLING DESTROYED

Carroll Residence in Edgewood is Burned.

Fire early last night destroyed the residence of J. G. Carroll in Edgewood, a suburb of Columbia. A call was sent to the Columbia fire department, to which Chief May responded with chemical apparatus. Three nearby residences were saved by this means.

No one was in the home at the time the fire was discovered. Mr. Carroll had gone to the station to meet his wife and children, who were returning from Chester. Neighbors broke into the burning building and saved some portion of the household effects. A small store which adjoined the frame residence was also destroyed.—Columbia State
