## PPELLAGRA'S CAUSE AND REMEDY FOUND

### Says Demonstrations Are Being Caused by Wrong System of Dieting.

Washington, Nov. 15.—The recovery of the cause and cure for pellagra was announced formally to the public health service, the announcement following the publication of a report by Surgeon General Joseph Goldberger on a year's experiments in cooperation with Southern States health officials demonstrating the correctness of the theory that a one-sided diet lacking in proteins would cause the disease and that a well balanced diet would cure it.

The spread of this dread malady, which has been increasing in the United States as a terrific rate during the past few years may now be checked, and eventually or dieted says the service official.

It is estimated that 75,000 cases of the disease will have occurred in the United States in 1915, and of the number at least 7,500 will have died before the end of the year in many sections only tuberculosis and pneumonia exceed it as a cause of death.

The final dietary tests made by Surgeon Goldberger and Assistant Surgeon G. A. Wheeler at the farm of the Mississippi penitentiary, where half a dozen of eleven convicts were given pellagra by feeding them corn or five months on bounty food meals consisting chiefly of corn and pork and lacking in meat, milk, eggs, beans and peas. The vitamins are being restored to a third through a corrected diet.

"Although the occurrence of pellagra symptoms and a true pellagra disturbance was noted early," says the service statement, "it was not until September 12, or about 10 months after the beginning of the restricted diet, that the classic symptoms characteristic of pellagra began to develop. The conviction upon whom the experiment was made were kept under continuous medical surveillance. No cases of pellagra developed in camp excepting among those men who were on the restricted diet. The experiments have therefore drawn the conclusion that pellagra has been caused in at least six of eleven volunteers as a result of the one-sided diet on which they subsisted."

"On the basis of this discovery," the States of Mississippi, Louisiana and Florida have laid their propaganda through their respective boards of health for the eradication of the disease.

In earlier experiments the dieted patients had been cured by balanced rations, and at the end of a year there had been a slight recurrence of the disease in only one instance.

## BETTER CONDITIONS IN INTERIOR MEXICO

### Carranza Government Is Rectifying the Rights of Both Mexican and Foreigners

Washington, Nov. 12.—Major reports to the State Department today from Piedras Negras and other points in the interior of Mexico brought word of greatly improved conditions following the recognition of the Carranza de facto Government by the United States in Mexico City for 21 years, who drew a Mexican citizenry with State Department officials, to say a word enthusiastically of the work of a straggling war now going on.

"People in Mexico City," he said, "seem to have a hatred for General Carranza but now he is very popular. General Gonzalez, military governor, has brought about wide a in the city and the people have confidence in him. The de facto Government has been consulting property but is lacking for everything but order and personal liberties and rights of Mexican citizens and of the foreign colony are being respected.

"Automobiles that had been hidden away and with the Nationality of their owners which heretofore was necessary for their protection.

"There are 5,000 Americans in Mexico City, practically all in commercial positions. They have no complaint to make of the new government."

General Calles, Carranza's commander at Agua Prieta, to the Mexican agency here tonight asking that the permission of the State Department be obtained for the transfer of 500 former Villa soldiers over American territory to Piedras Negras. They were granted amnesty and will be given sufficient money to pay their transportation home.

**A THANKSGIVING APPEAL MADE FOR ORPHANS**

President Wilson has appointed Nov. 26th as the National Thanksgiving Day. It has been so annual following on that day, or the Sabbath following, to remember the orphans. We hope that every reader of these lines will gladly do so. You have a wonderful amount to be grateful for. Put your gratitude to the proof. Send to the orphanage of your church, your thank-offering. Presbyterian people in Florida, Georgia and South Carolina will remember that they are united in supporting the Thornwell orphanage, S. C. which is the property of those three Synods. The children are orphans, some three hundred in number. There are 17 cottage homes occupied by some 15 to 25 children, with a good mother woman in charge. The children are regularly in school for forty weeks a year, and are taught some trade occupation, by which they can earn a honest living. Usually they leave the Home at the age of 16 to 18 unless an earlier discharge is found desirable. Their support depends upon gifts of good men and women. Especially at Thanksgiving time, thought to be remembered. There are 180 children from South Carolina, 75 from Georgia, and 29 from Florida. The rest came from other seven States.

## SERVIANS FALL BACK IN MOUNTAIN RANGES

### Bulgarians Forced to Call for Allies for Army to Be Able to Drive Defenders Out of Kachank Pass—Atenpa's Fall.

London, Nov. 14.—The Serbians are falling back from mountain ranges to mountain ranges in the Balkans, where they are being driven back by the Bulgarians. The Bulgarians have been to the assistance from the Austro-German and Italian armies.

The British and French forces which are receiving reports of the progress of the Serbian army are being repulsed by Bulgarians at the Balkan frontier. The Austro-German and Bulgarian forces, however, have made such progress from the beginning of the campaign that they will strike the Serbians before they can retreat.

For the moment the political situation is graver than the military. The central powers can have no objection to Greece against the Serbians, and the Serbians are the only troops at Salonika. King Constantine is reported to have replied that as Salonika is an important port there has been no interference of Greek rights in the hands of Greece which will remain neutral.

The Russians have repelled the Bulgarians in the direction of Riga and Drama, and along the Dnieper river and have taken the offensive, but apparently owing to slow progress in the March region.

Along the Dnieper river, in the south the Austro-German, by a counter attack, have pierced the Russian lines and captured 1,500 prisoners a cargo train to Berlin. Those trucks are a great deal that can be expected on the Western front while the soft weather continues.

On the Western front there have been no events of importance.

## WHAT IS TO BECOME OF THE RAILROADS

A common sight on the roads here is a large truck which is used in hauling cotton from the cotton platform to Gadsden. The truck has been in operation between Gadsden and Florio for some time, but has been found after investigation, that cotton can be hauled from Florio to Gadsden in cheaply by auto truck—Yorkville Enquirer.

**A TIP TO FORD OWNERS.**

An automobile driver left Yorkville at 3:20 p. m. Wednesday afternoon for Sharon in a Ford car with two drummers as passengers. Everything went smoothly until he hit beyond the bridge at Dry Fork was reached. The car couldn't begin to hit the hill on high gear, so the driver attempted to throw in the low gear and found that the low gear was inoperative. He examined the gear and found a broken tooth, and the low gear was out of business. He could have remedied the trouble with a little time, but the drummers got fussy and he decided to try to get to Sharon in time to transact their business and catch the afternoon train. The driver started his engine, turned his car around and backed up the hill and the car turned again and proceeded to Sharon, reaching there at 10:30 o'clock. The traveling men said that they had seen lots of automobile stunts, but backing up hill because of a broken low gear was a new one on them. The driver repaired his car at Sharon and returned to Yorkville—Yorkville Enquirer.

**Survivors List**

London, Nov. 12.—Twenty-eight cars and seven Europeans, part of the crew of the British steamship Clan Macleaner, were landed today. The Clan Macleaner, vessel of 4,885 tons, was sunk November 10 at day at the White House.

## A. R. P. SYNOD MEETS IN YORK CHURCH

### Chester Man Elected to Preside at Delegates at Due West Held Strong Address

Due West, Nov. 12.—The A. R. P. synod in session here, the 12th annual meeting, elected A. R. P. of Chester as president, and J. R. of York as secretary. The synod was organized in 1852 and has since that time been one of the most progressive in the denomination.

The synod has a very successful record in its history. It has a membership of over 100,000 members, and is one of the largest in the denomination. It is a body of men who are men of God, and who are men of the world.

The afternoon session of the synod was held at York Church. The fraternal service was made by the moderator, the Rev. A. M. Hunter, D. D. of Little Rock, Ark.

The synod had a very successful record in its history. It has a membership of over 100,000 members, and is one of the largest in the denomination. It is a body of men who are men of God, and who are men of the world.

## PLEASANT GROVE HAS EXCELLENT FAIR

A Fine Exhibit—Large Crowd Attendance—Timely Talks by Speakers.

The Pleasant Grove fair, which was held for the 10th annual time at the site of the former fair ground, was a very successful one. It was well patronized, and the exhibit was one of the best ever seen in this section of the State.

There was an excellent display of fancy work and other things, and the ladies of the community, as well as those of the vicinity, were present in large numbers.

## PROHIBITION PASSED IN GEORGIA

### Advocates Say It Will Eliminate the Traffic in Liquor and Prohibit the Sale of Beer and Wine

Atlanta, Ga., Nov. 15.—The lower house of the Georgia legislature today passed a bill providing for the prohibition of the sale of liquor in this State. The bill was introduced by Representative James D. Brown, and was passed by a vote of 22 to 10.

The bill would prohibit the sale of liquor in this State, and would also prohibit the sale of beer and wine. It would also prohibit the sale of liquor in this State, and would also prohibit the sale of beer and wine.

The bill would prohibit the sale of liquor in this State, and would also prohibit the sale of beer and wine. It would also prohibit the sale of liquor in this State, and would also prohibit the sale of beer and wine.

The bill would prohibit the sale of liquor in this State, and would also prohibit the sale of beer and wine. It would also prohibit the sale of liquor in this State, and would also prohibit the sale of beer and wine.

## PEOPLES IS CANDIDATE

Attorney General to Offer Re-election.

Thomas H. Peoples, attorney general, last night announced that he would be a candidate for re-election to the Georgia State Bar in December, 1915. He is a member of the Georgia Bar, and has been practicing law in this State for many years.

Death of Mrs. W. J. Friday.

Union, Nov. 14.—Mrs. W. J. Friday died at her home here Saturday afternoon at 1:30 o'clock. She was buried the following day at Pleasant Grove church.

**PLEASANT GROVE HONOR ROLL.**

Pleasant Grove, Nov. 13th.—The following is a list of those on the honor roll of Pleasant Grove school the past month:

First Grade—Elizabeth McGarry, Marie Mize.

Second Grade—First Grade—Ollie Yonge.

Second Grade—Hugh Sam McGarity, Johnnie Yonge.

Third Grade—Agnes McGarity, Ethel Mize.

## STUDY BASIS OF FAIR

### Arrangements Being Made for a Study of the Conditions in Georgia

Berne, Switzerland, Nov. 12.—The committee which is meeting to organize a congress to study and determine a basis of durable peace announced that it is receiving considerable support from several countries, especially the United States. It is a study of the causes of the present war, and of the means of preventing a similar war.

The committee is a study of the causes of the present war, and of the means of preventing a similar war. It is a study of the causes of the present war, and of the means of preventing a similar war.

**MR. AND MRS. JAMES SPRUNT TO GIVE HOSPITAL ANNEX**

Winnington, Nov. 14.—As a memorial to their daughter, who died 14 years ago, Mr. and Mrs. James Sprunt have decided to erect an annex to the James Walker Memorial Hospital for the treatment of mothers and sick children. The cost to be about \$30,000. This has been one of the pressing needs of the city for some time, and the decision of Mr. and Mrs. Sprunt has been received with much interest.

Mr. Kenneth M. Mur has a brother-in-law, Mr. Sprunt, a well-known architect of New York, has offered to contribute his time and talents to the cause.

**THE CITY**

**AMBLER TRADE BOARD PLANS INDUSTRIAL BOOM.**

Small Pennsylvania Town Has Campaign For Community Betterment.

The borough of Ambler, Pa., will witness a distinct boom if the plans of the recently formed Ambler board of trade are carried to completion. It is expected by more than fifty of the town's most active business and professional men, residents say there is every reason to believe the new organization will not only do many things in the smaller boroughs, but be active for a time and then quietly die.

Comprehensive plans have been outlined by the board of trade for community betterment and advancement. Movements to be developed immediately include the erection of a new sign for Ambler at the intersection of the borough. Also there will be designating signs on borough highways, as well as the obtaining of additional industries, at least two of which now are being considered.

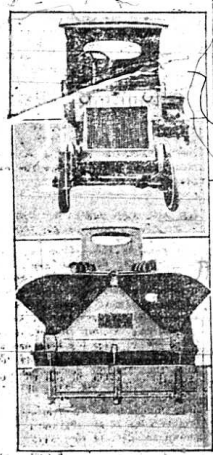

J. Howard Dwyer, president of the Ambler board of trade, had this to say concerning the recently inaugurated movement.

"Ambler business men have organized for the purpose of bettering and encouraging and developing the mercantile and manufacturing interests of the borough, for the purpose of studying the workings of all transportation lines operating in and through the borough and for the remedying of defects and abuses of transportation methods, telephone and telegraph facilities, gas and electric lighting and all other public service corporations operating in the town, and to promote integrity, fair dealing and good faith among our business people and their patrons."

"It is our intention, further, to obtain as many local conventions as possible. Also, while Ambler has been on the map for a good many years as a leading industrial and manufacturing community in the district immediately north of Philadelphia, we are going to make that map spot much larger." We hope to accomplish this end largely by operating and urging the improvement of all county state and township roads leading into the borough, to the end that motorists will appreciate our efforts. Summarized, the work of the Ambler board of trade will be absolutely constructive, the betterment of moral, social, commercial, civic and industrial conditions in Ambler. We are at this time negotiating with one manufacturing plant desiring of locating a branch here."

**Modern Street Cleaning Appliances.**

The illustrations show a tractor and trailer such as are used by the department of street cleaning in New York city. These tractors and trailers are of ten ton capacity and are so constructed that a trailer carrying garbage and ash cars may be hooked to the tractor, or the tractor may be used for supplying locomotive power to a sweep-

**A TRACTOR AND TRAILER.**

er for a flusher trailer or a snow plow. Twelve of these machines are part of the equipment installed in the model district in New York city. This district was established in response to the suggestion of Street Commissioner Frederick Hitt, chief of the districts of the city he selected in which modern appliances and apparatus should be used.

**Slow Burning Moving Picture Films.**

An important novelty of the New York Bureau of Fire Protection has been the attention given to the subject of moving picture films. Because of making the danger to the public from the use of the inflammable films of New York fire departments, it has been necessary to improve the films used in the present. A number of new films have been produced, and the department has made, for its special fire protection purposes, a number of films on slow burning material, which so far have proved satisfactory.

**THE INTERNATIONAL SERIES.**

Lesson VIII.—Fourth Quarter, For Nov. 21, 1915.

Text of the Lesson, Jonah 1: 1-16. Memory Verse, 10—Golden Text, Matt. xxvii, 19, 20—Commentary Prepared by Rev. D. M. Stearns.

Any one who questions the truth or result of this story of the lost man, He called Jonah a prophet and said that his three days and nights in the belly of the fish were typical of His own three days and nights between His death and resurrection. He also spoke of the repentance of the people of Nineveh under the preaching of Jonah, and of a future judgment (Matt. xii, 39-41; Luke xi, 29). To question the words of the Lord Jesus is to question the Father, for He said that the Father always told Him what said, "I am the Truth" and God is called "the God of Truth" (John xiv, 6; Isa. li, 16). Therefore let our hearts cry, "Let God be true, but every man a liar." "For we can do nothing against the truth, but for the truth" (Rom. iiii, 4; II Cor. xiii, 8).

When Jonah is mentioned people always think of the fish, whereas the fish is mentioned but four times in the book, while God or Lord is mentioned forty times. We are not at right with God as we might be until we give the same relative importance to the things that He does, and things that He does not do; therefore let us not magnify the fish, but the Lord. This is called a forensic missionary lesson, and it is certainly a lesson that should be in the hearts of all. Two of the great foundation truths of the Bible are "God is love" and "The Lord is not willing that any should perish" (I John iv, 8, 16; II Pet. iii, 9). In this lesson we see a great city of at least 60,000 people, 12,000 children and much cattle, and a man who is not wicked in the city (Jonah i, 2, 11, 19), but God would rather save than destroy them, and He sends Jonah to call upon them to repent that He might spare them.

That is always God's attitude to the world lying in the wicked one. He commends all men everywhere to repent, for He will have all men to be saved and He will come into the knowledge of the truth (Acts xiv, 16; I Tim. ii, 3, 4). But how can they know unless someone tells? So Jonah is called of God to go and tell someone that, while the Lord does not wish them to perish, unless they repent judgment will come in forty days (I, 2; II, 4). At first Jonah is unwilling to go and seeks to flee from the call. Then follows the record of the voyage to Tarshish, begun seemingly so favorably, but suddenly interrupted, for God sent two angels to arrest him and bring him back. A great wind to stop him and a great fish to bring him ashore (i, 4, 17). Arrested on the high seas and brought back, he reads like an upstart, for the Lord is always up to date and away ahead. Look at the wireless and rapid transit as seen in the story of Daniel and Gabriel (Dan. ix, 2, 20, 21).

As to the present day attitude of those who profess to be the Lord's people toward the command of our Father, the Lord, and the Father, Luke xvii, 47; John xxi, 21, 22; Acts i, 8, could there be a more vivid picture than that of Jonah on this ship, before the captain would let him up to date and away ahead. Look at the wireless and rapid transit as seen in the story of Daniel and Gabriel (Dan. ix, 2, 20, 21).

As to the present day attitude of those who profess to be the Lord's people toward the command of our Father, the Lord, and the Father, Luke xvii, 47; John xxi, 21, 22; Acts i, 8, could there be a more vivid picture than that of Jonah on this ship, before the captain would let him up to date and away ahead. Look at the wireless and rapid transit as seen in the story of Daniel and Gabriel (Dan. ix, 2, 20, 21).

**U. S. Battleship "South Carolina"** BIG DOINGS AT CHARLESTON DECEMBER 13th to 17th, 1915. The Southern Commercial Congress will be held at Charleston December 13th to 17th, 1915. This is an Association of prominent business men from all over the South and meetings are held each year for the purpose of discussing business welfare, both of the farmer and the manufacturer. U. S. Congress was held at Oklawaha City, and the year before at Mobile. This year the meeting is to be held at Charleston and very many men of prominent business, social and public life have already accepted invitations to be present. At least four members of the Cabinet of the President of the United States will be present at the meetings. A squadron of the Atlantic Fleet, Torpedo Boats, Submarines andpedo Boat Destroyers, as well as Dreadnaughts, will be in the Charleston Harbor, open for inspection of the public, December 14th and 15th and visitors at this time will also have the pleasure of seeing a magnificent carnival. Southern Railway is arranging special fare tickets and excursion rates.

**Prepayment Saved This Policy** Mr. Claude Westfall, of Clarksburg, W. Va. signed an application for Mutual Benefit insurance on July 17, 1915, and paid the first quarterly premium of \$6.10 to the agent, taking in exchange therefor the Company's binding receipt. He made an appointment for examination the following day, but his wife, for whose benefit the insurance was to be taken, tried to dissuade him from adding to his insurance. The agent, however, finally prevailed upon him to be examined and on July 22nd examination was made. It proved favorable in every respect. The application, which was for a Life Accidental Endowment policy, \$1,000 at age 31, was received at the Home Office July 25th. In accordance with the Company's usual custom in such cases, however, an inspection was called for which was received August 2nd. This being favorable, the application was approved by the Medical Board and passed on to the policy. Department. Policy was issued and mailed on August 3, 1915. In the meantime, on July 30th, Mr. Westfall was taken sick and his trouble was diagnosed as acute peritonitis. On August 3rd he died. It will be noted that this was the same day that his policy was mailed from New York but the first premium having been prepaid the insurance was in force, although the policy itself was never delivered to the insured. The proceeds were paid to the wife on August 10th. Prepayment of the quarterly premium saved this insurance.

### NEGRO IS ARRESTED FOR DODD MURDER

Anderson, Nov. 12.—"Dock" Foley, a negro, was arrested Wednesday night near Calhoun Falls by Deputy Sheriff Olin Sanders. Jailer Williams, Mr. A. G. Epling and Deputy Joe Jones of Abbeville, charged directly with the murder of Mr. E. M. Dodd.

The negro was found on the place of Mr. Tom E. Palmer, five miles out from Calhoun Falls and was at the home of Beck Wilton, an aged negro, when arrested. The arrest was made within four hours after definite information had been received that the negro was in this section. He was brought to Anderson and lodged in jail, being held awaiting trial.

The story of the crime is well known to most Andersoners. Mr. E. M. Dodd, an aged grocer, was found lying in a pool of blood in his little store on Hampton street on February 29, 1911. The body of a man attacked in a series of stabbings and robbery affairs which happened in Anderson. He was lying in the middle of the floor of his little store and was dead. His skull was fractured by a lick from a heavy blunt instrument which later was found to be a brick wrapped in a newspaper. The murder was as mysterious as it was brutal and for a long time completely baffled the authorities.

### MEANING OF CITY PLANNING

#### Vitality Affects Welfare of City Dweller.

#### MAKES BETTER CITIZENS.

Social, Ethical and Physical Conditions of Citizens Are Improved by Efficient City Planning—Great Awakening is Taking Place in the United States Regarding City Improvement.

By Frank Keester, Author of "Modern City Planning and Maintenance."

The systematic construction and improvement of a city, with proper provision for both its present and future needs, are contained in the term city planning, a term which comprehends much more than appears at first glance and which affects every urban dweller directly and continuously.

The basis of the design of the city is found in the purposes for which it is constructed, and these include:

The arrangement of the city in an accessible manner, with well paved streets and rapid and convenient means of transportation.

The housing of its inhabitants and their industries.

The conveyance of food supplies and of products of manufacture.

The provision of an ample supply of pure water.

The disposition of waste materials.

Adequate facilities for education, culture and recreation for the common people.

Protection against disaster, such as fire or flood.

The effect on its citizens of the building of a city in accordance with the highest principles of the art of city planning.

### Sawing Circle With Much Whispering

Before the stock arrives there is much to talk about. The comfort of the expectant mother is the chief topic. And there is sure to be someone who has used or knows of that marvelous "Mother's Friend" that gently rubs in and has a most pronounced effect as a lubricant. It softens the network of nerves, enables the muscles to expand naturally, relieves strain on the ligaments and thus relieves any and every strain on the organs involved. And it does this with perfect safety. "Important mothers," thus go through the ordeal with comparative ease and comfort. Knowing mothers who have used "Mother's Friend" speak in glowing terms of the absence of morning sickness, absence of strain on the ligaments and a freedom from many other distresses.

You can get "Mother's Friend" at any drug store or they will gladly get it for you. Write today to Bradford Regulator Co., 40 Lamar Bldg., Atlanta, Ga., for a little interesting book of great value to all expectant mothers. It contains a valuable expectancy chart, rules on diet and is bristful of suggestions that all women will appreciate.

C. and those who hold claims against the said estate are also notified, and requested to present the same to me for payment, properly proven.

M. D. Boone Adm.  
Prox Station, Greensboro, N. C.

### INFLUENCE OF THE JITTERY.

It is singular, says the Town Development Magazine, that the capabilities of the motor power in the city have not more seriously considered with relation to cheap general city transportation and the inventive mind directed to the construction of an engine, motor and body along lines as scientific as those of a touring car for the purpose of building the lightest, most comfortable and at once transportation car that could be constructed for the public carriage of passengers over the well paved streets and gentle grades which characterize most of our cities.

What the ordinary cheap touring car can accomplish as a public passenger carrier is not so obvious as it might be if only a public transportation service were first demonstrated by the city government. This movement has been very largely neglected in the past and must be remedied. No one can consider the subject of motor passenger vehicles without thinking of the automobile. The automobile is not a passenger car. It is a personal conveyance, and it is not designed to carry a large number of people. It is not designed to carry a large number of people. It is not designed to carry a large number of people. It is not designed to carry a large number of people.

SQUARE IS WELL PLANNED CITY OF WASHINGTON.

## Cleanse The Blood Banish Rheumatism

Rheumatism Due to Bad Blood. S. S. S. Your Remedy

Thousands have been made well. People in the poorest health, suffering from Rheumatism, with whom pain was constant. Who have lost their vitality was snuffed beyond repair. It was proven to them that the cause of their trouble was the blood, and that the remedy for it was S. S. S. The poison in the blood had sapped its strength. The weakened blood had allowed poison and impurities to enter the system, and all energy was gone. The old remedy, "S. S. S." was never present, with poor digestion and assimilation. A Field S. S. S. nature's blood tonic. They gave up all hope. This compound of pure blood washed the blood free from poison, and with the flow of pure blood the back health, strength, vigor and happiness. That is S. S. S. from the blood. That is S. S. S. from the blood. That is S. S. S. from the blood. That is S. S. S. from the blood. That is S. S. S. from the blood.

### MISSING POST BEQUESTED.

There is no one dead in Liverpool, N. Y., who is being given a wide berth by the friends of the late George F. Stackpole, who recently died of asthma. It was his habit all his life to eat several ounces of apples every day. Usually in the hills of his work he would come out on the street in the winter, get the fruit that was scattered about in the gutter, and eat it. Usually in the hills of his work he would come out on the street in the winter, get the fruit that was scattered about in the gutter, and eat it. TUESDAY, NOVEMBER 16,

**KINDNESS IN BUSINESS.**

Have you ever gone into a piece of business where the "boss" seemed to have a "krough on"?

The first thing he says to you is short and snappy: He seems to have an extra good opinion of himself?

The economic value of kindness in business is far-reaching and is often wondered why it is not more generally practiced, especially in business. One should mix a little kindness with business, and when a man does this he naturally becomes kind.

Genuine kindness is business a great asset and don't get the idea that kindness does not go hand in hand with firmness. When it is necessary to discharge an employee it should be done in a kind way. It is not necessary to club him out of the building. He can be disposed of firmly, gently and kindly with a few parting words of counsel and admonition, that may be of value to him in the future.

Editorial

**A PROGRESSIVE COMMUNITY**

The citizens of the Pleasant Grove section of Chester county should be commended for the excellent Fair held on Saturday at the Pleasant Grove school building.

A ride over the roads in this section is enough to show that it is made up of progressive people, who do much and who expect to do more. Good roads and progressive people are always neighbors.

The exhibits at the Fair indicate that this people are ahead of the agricultural line they are going after things with a vim. And the men in this section are not only workers. The exhibits of an year work so that the women of Pleasant Grove are not idle.

Chester and Chester county should be proud of Pleasant Grove because it is progressive action.

**THE RIGHT STEP.**

The News is in receipt of the following letter from Mr. S. S. Rutledge, of Clemson Co. e. e.

Gentlemen:

I note with much interest your editorial in your issue of November 9th in which you offer to print free of charge sale advertisements for farmers. In my opinion a county newspaper can be a very large factor in the development of its locality's agriculture, and it is, in fact, its duty to do everything in reason along this line. The step you are taking should be a helpful one in this direction and I trust that the farmers of Chester County will be awakened to the value of this opportunity and will seize it.

Very truly yours,  
Sidney S. Ritteberg  
Agriculturist Publications

**WE ANTICIPATE.**

There is an indifference on the part of a large proportion of our subscribers in coming forward and paying up their accounts due for the paper. It is just a little hard to account for this attitude considering the indulgence which we have in many cases extended. Perhaps it is merely a bad habit some have fallen into during the hard times of the past, but whatever the cause, the result is a serious hardship upon the publisher whose expenses have increased instead of diminishing dur-

ing the past twelve months. The label on the paper will show if a subscriber is delinquent, and when such is the case, we certainly would appreciate an early remittance.

**Woman Suffrage and a Bachelor.**

Now women by the thousands, here, there and everywhere. Most winsome and beautiful. Most feminine and fair. Who bring me by the letter, my poster and by proxy, if I won't make their happy by simply saying "Yes."

But by what right or reason, I'd like to know, do they lead with me in this manner? "That I will come their way" because I've long been "being long in a bachelor distress."

An answer like they ask for. And never one saying "Yes."  
W. J. Lanpton

**THE MOVEMENT IN THIS STATE.**

We believe that the Columbia State is correct in the position that it took in a recent editorial on the question of woman suffrage in South Carolina, when it practically advised those who are opposed to the thing to let it rest, as there was no immediate danger. There are other things to which we may all turn our attention for the present and let the men and the women who are going wild over the thing exhaust themselves. There is plenty of time to look after them.

The recent death boy that it got in several states will have a cooling effect. When the real people of South Carolina take hold of it in earnest they will lay it out once and for good. It seems that about the only place where there is much agitation on the subject is in one lone up country. One of two preachers have the thing on their brains, but there is hope that they will get over it and come to themselves after bowing off some of the steam which has accumulated in their bodies. We remember that it was in this same city where the coeducation fad had fallen away a few years ago. It seemed, then, to hear them that every college in the world would become a coeducational institution, and that all the young women would be made into some kind of men. We would close out all the colleges for women and turn the world upside down, but coeducation is as dead as can be, and the men still attend separate institutions of learning for higher education.

Let us, then, console ourselves assured that the colors white and black will always remain, and that we shall have men and women as long as the race exists. In the beginning God made them both male and female, and just as distinctly marked the spheres in which each should move. The men are the fathers and the women the mothers of the race. There is no immediate prospect of a revision in this order.—Greenwood Journal.

**DREAMLAND TO-DAY**

"Joe Martin Turns 'Em Loose!"  
The Greatest Wild Animal Comedy Thriller Ever Produced IN TWO ACTS

Coming Thursday  
The only official real War Pictures ever brought to this country.

"The Battle and Fall of Przemysl"

The Gallician fortress which stood the longest siege of any fort known in history, and owing to the enormous charge for this picture we will be compelled to advance our admission to 10 and 15 cents.

**TRAIL OF THE LONESOME PINE.**

At Chester Opera House Saturday Night, Nov. 20.

The millions who are so fond of Mr. Fox's fascinating novel, "The Trail of the Lonesome Pine," will be so much more delighted with his charming play. It exhales all the romance and romance of the Virginia Hills. The play is not only the height of an inspiration but it is one of the most realistic and picture-play products of stagecraft ever seen for the beauty of nature and breadth of romance are found in the story, and you must know the June that so many people have read about it after he irresistibly appealed to young and old throughout the West and East. It has enthralled people in half a dozen languages. It is hard to estimate how many men, women and children have followed the little hero, Fred, from her cabin in the hills through all the vicissitudes of his fight for love over feudalism, and not once an effort to actually miss the mark when their imagination pictures the June you will see when the curtain rises, standing beside her painted sentinel that marks her true place; is a golden-haired, lithe, barfooted creature in whom nature seems to have blended all her most favored her with all the gifts of her command. In her will be found the tempest when it rages around the mountain peaks; the piny of the breeze when it sighs through the pines, the joy of the sun when it kisses the rippling water, the brooding of the still night and the peace of twilight. For June there were fairies and to her the trees and flowers and rocks and waterfall spoke in certain language. Her body is as graceful as a willow and she is as free of foot as a deer. Her abundant hair is of a russet gold, and wind and sun have given her incomparable color and complexion to the features which were more than beautiful because they were mirror-like, which yet have a shadow. And in this mirror by turns there appear sweetness, courage, pride, love, hate, music, poetry, calm, passion, peace and desire. You will see June as she sits at the foot of the pine and draws her knees to her arms clasped around them, and you will listen to the simple story of her simple life as she tells it to Hale. You will see the light and shadow come and go on her face a light of joy shadow of sorrow, flash of mirth, earnestness of desire, play in her eyes and on her lips as she tells him of how her sister, speaking through the pine, counsels her to seek learning. Moreover, when the name Fa'lna passes her lips you will see that the spirit of the forest is strong within her, for June loves her father and hates the Fa'lna.

Reserved seats on sale at the Chester Drug Store.

**ROCK HILL A QUIET TOWN.**

The following item was clipped from the current number of the Hillboard and is a report from the Hitenbeck-Wallace Shows which was in Chester some time ago: Chester, Oct. 30.—Thousands in town today. Several extra tracts were necessary to bring in the crowds which were at the local studio's during the Seashore Line. Was her head of business big.

Rock Hill, Nov. 1.—Last night in South Carolina and a quiet little town to spend Sunday night.

Mr. W. A. Brennan of Chester county visited his nephew Mr. W. E. Brennan, fair week. Mr. Brennan, who is one of Chester's most prosperous farmers, was much impressed with Lancaster as a business center. He had not been here for several years and was astounded at the many recent improvements he had made.—Lancaster News.

**COLDS DO NOT LEAVE WILLINGLY**

Because a cold is a stubborn foe to reason why you should be in the end of "wearing" it out, get more relief by taking Dr. King's New Discovery. Dangerous bronchitis and cold which has been neglected at the beginning. As your body faithfully tells you, Mr. R. A. Fulp of Fort Mill who is well known in Chester, was married on Tuesday afternoon to Miss Ermine Brunson, of Orangeburg.

FOR SALE—The Pinckney race near pumping station and Wylie Mill. Will be cut into 10 and 25 acre tracts and sold on easy terms at auction in the city of Chester on Monday, Dec. 6, 1915. Will be sold by Sims and Carter and R. R. Hafner, J. Henry Gladden auctioneer.

FOR SALE—100 acres land, one mile of Armetta church and graded school. Price \$1,200. See Sims & Carter.

**PENNY COLUMN**

FOR-LEASE OR RENT—8 room residence, all modern improvements, on Columbia Street. Apply to W. F. McCullough, Jr.

**GEORGIA COTTON PLANTATION**

We are subdividing a five thousand acre COTTON PLANTATION in South Georgia, good improvements, now in cultivation, near good city, best markets, good water, beautiful location. Want hustling small farmers to buy at very reasonable price, small payment down, balance easy. Or will rent for 1916 with privilege of buying. Write just what you want first letter. Address P. O. Box 397, Atlanta, Ga.—Tf.

**Mrs. J. L. Moore Dies**

The many Chester friends of Mrs. J. Leoline Moore, will regret to learn of her death which occurred in Rock Hill Friday.

Mrs. Moore had been in declining health for a year or so. She was a woman of fine mentality and strong character. She is a sister of Dr. S. G. Miller, of this city.

The interment was made at Bethesda church Sunday after services at the residence on Oakland Avenue.

**MRS. E. S. THAYER IS DEAD.**  
Mother of Former Chester Pastor—Burial in Charleston.

Mrs. Eliza Thayer, mother of Rev. W. E. Thayer, former pastor of the First Baptist church in Chester, and who had many friends here died Thursday afternoon in Sumter. The following article is from the Sumter News, in part:

"Mrs. Eliza Sarah Thayer, widow of the late William Thayer, died on Thursday afternoon about 5 o'clock at the residence of her son, Rev. W. E. Thayer, on East Liberty street. Mrs. Thayer's death was very sudden. She has been in poor health for some time, but was up and going about the house as usual yesterday. At about 3 o'clock when Mr. Barlow Walsh and Mr. Thayer left in a car to go to Bishopville to attend the Santee Association meeting at that place, also came to the piazza and waved goodbye to them. She

was found dead in a chair in the sitting room some time later in the afternoon. Mr. Thayer and Mr. Walsh had just arrived at Bishopville shortly after 5 o'clock, when they received a telephone message of her death and they immediately returned to Sumter. Mrs. Thayer would have been eighty-two years of age next April had she lived to that time.

"The funeral services were held at the late residence, the parsonage of the First Baptist church, at 4:30 o'clock this afternoon, the Rev. M. M. Benson of Bishopville having come over to conduct them. The body will be taken from here to Charleston tonight on the 7 o'clock train and the interment will take place at the Magnolia Cemetery tomorrow morning. Besides the members of the family, Messrs Barlow Walsh, R. J. Bland and others of the Baptist church will accompany the body to Charleston."

Miss Eugenie Plyler, of Warhau, has returned to her home after visiting her brother, who is a patient at the Pryor Hospital.

The bankrupt stock of Mr. L. A. Wise was sold at public auction on last Saturday. There were a number of buyers, the stock not being sold as a whole.

Messrs. Leroy Springs, A. P. McLean, T. Y. and D. R. Williams, of Lancaster, are in the city at ending court.

Gastonia, Gaffney, Camden and other near by towns are installing white ways. Why can't Chester have one too?

Mr. William M. Juel, a former resident of Chester, but who for the past twelve years has been located in Columbia, died at his home in that city Saturday night. The body was brought to Chester and the interment being made in Evergreen cemetery.

We were asked a few days ago, by one of our subscribers as to why we did not publish the weather report. Because it is a regular bit and miss affair, and usual in a season.

There is a man in Anderson county, 28 years of age, who had never been to the city of Anderson until a few days ago. Well can he be blamed??

The dispensaries in the 15 "wet" counties of South Carolina have in hand almost one million dollars worth of whiskey to be dispensed of between now and the first of January. All left over will be a loss, so they say. Will it really be a loss or gain?

The success or failure of any movement made in Chester county is decided by the citizens of Chester county and not by the Manager of some small order house. Trade at home if you wish to make progress.

There are a number of our readers who will be interested to know that the most severe rainstorm which has visited Ireland in many years occurred a few days ago raging over Dublin and along the coast, considerable damage being caused.

The Violet Sunshine Club will meet with Mrs. Richard Cozart on Pinckney street, this day afternoon at 4 o'clock.

The Jones Motor Co., who have recently secured the agency for the Maxwell automobile, have received a carload of handsome touring cars which are on display in their garage on Valley street.

Miss Virginia Johnson entertained at a delightful party Thursday. The rooms where the tables were placed were beautifully decorated with various colored autumn leaves and lovely transparent eema. After an hour spent in games, her husband served a delicious supper.

SEE THE WAR PICTURES at Dreamland Theatre, showing Austro-Hungarian German Drive through Galicia.

The Ladies Aid Society of the Fort Law Presbyterian church will have an October supper Wednesday night, the 17th, in the vacant store room of the General Supply Company.

How about fresh strawberries in November and raised in Chester county too? That's just what Mr. W. C. Harding, one of Chester's progressive farmers, was showing in town Saturday.

DREAMLAND will show five reels of real war pictures Thursday.

Miss Lillian Cauble, of this city, and Mr. James Fischel, of Columbia, formerly of Chester, were married at the Baptist parsonage Sunday evening, the 11th. A large party of visiting. The young couple left Monday morning for their future home in Columbia.

Mrs. Robert L. Douglas of Chester, S. C. will arrive in the city today to spend several days as the guest of Mrs. E. G. Wilson, at her home on North Church street. Mrs. Douglas comes especially to see "The Birth of a Nation" at the Academy of Music which presentation began last night and will continue through tomorrow night—Charlotte Observer.

Carefully Treat Children's Colds

Neglect of children's colds often lays the foundation of serious lung trouble. On the other hand, it is harmful to continually dose the poor little tot with internal medicines or to keep the children always indoors.

Plenty of fresh air in the bedroom and a good application of Vicks' "Vap-O-Rub" Salve over the throat and chest at the first sign of trouble, will keep the little darlings free from colds without injuring their digestion. 25c, 50c, or \$1.00.

VICKS' VAPORUB SALVE

CHESTER NEEDS HIGHWAY TO GREAT FALLS

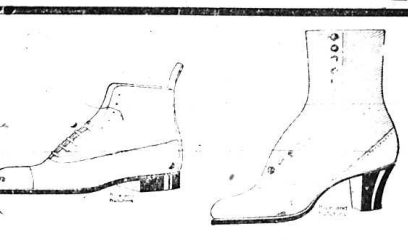

That Great Falls is the coming section of Chester county is undeniable. The Republic Station Mills, at that place, have recently doubled their capital stock and expect to begin the erection of another large cotton mill in the near future. This also means the erection of something like 300 houses for the operatives.

The new farming organization, recently organized at Great Falls, expects to make wonderful strides in agriculture. The latest improved farming implements will be used and things will be done on a large scale.

Chester is badly in need of a highway to Great Falls. The road to that point now is in very good shape but when the winter weather comes on the chances are that it will be in bad shape. An ideal highway is badly needed and can be had if the people will go after it.

The Semi-Weekly News would be glad to see the road built by popular subscription, if it cannot be done otherwise and will start the list with \$125.00. The News offers part of this amount and one of Chester's bustling business men offers the balance.

Mr. W. S. Keister, of Great Falls, is attending Court this week.

### Shoes For The Family

# SEABOARD AIR LINE STOCKHOLDERS TO MEET

## Special Meeting Will Be Held At Petersburg to Ratify Consolidation and Financial Plans

A special meeting of the stockholders of the Seaboard Air-Line railway held in the offices of that company in Petersburg, Va., on Monday, the 15th instant, marked the culmination of a movement which has brought about the consolidation of two great railroad properties in the South—the Seaboard Air-Line and the Carolina Atlantic and Western railway. By the acquisition of this 331 miles of railroad and the construction of 55 miles of new railroad between Charleston and Savannah, under way, the Seaboard Air-Line Railway company gains entrance into two additional important south Atlantic ports—Charleston and Georgetown—and gains a low-grade main line from Hamlet, N. C., to Florida points via Savannah, promising to the Seaboard great economies in operation and putting to its credit the only new railroad extension which has been made in the South since the outbreak of the European war, the 85 miles now being constructed between Charleston and Savannah. The completion of this link, now rapidly under way, gives the Seaboard by far the shorter line from the east to Florida and puts it in a commanding position for Florida travel and traffic routes to the west.

It is understood that the Seaboard stockholders' meeting will ratify the proposed plan, which has already been ratified by the stockholders of the Carolina Atlantic and Western railway, which becomes a part of the Seaboard Air-Line railway system.

A very large percentage of the total capital stock of the Seaboard is already in hand to be voted by proxy at the special stockholders' meeting.

### Work of Warfield.

Three years ago, S. Davies Warfield, the Baltimore financier, a native of the South, and closely related to tradition and history, conceived and put into execution the plan for the acquisition of the large holdings of Seaboard stocks in the hands of New York interests. Mr. Warfield becoming the largest individual stockholder and chairman of the board of directors. This was far-reaching in its purposes, not only providing for locating the control of the stock in the hands of the people of the South, but the introduction into the board of directors of leading business men of his section, the removal of the executive offices from New York to the South and the selection of a new president and road president whose successful career insured to the system an experienced operating head. W. J. Hanahan chosen. At the head of the traffic department the president is the other native of the South, Charles R. Camp, who for over twenty years has been identified with this property, successfully advancing from a minor position to the important place he now occupies.

When this was accomplished Mr. Warfield undertook the task of presently managing the property and liberally taking care of its needs for the development of the territory which it covers. The mortgage is held by Robert F. Mott and Miss B. Lane of Georgia, A. H. Woodard of Alabama, J. P. Claiborne of Florida, George W. H. of North Carolina, Francis G. of Virginia, W. J. Hoisington of Florida, and W. J. Williams of Maryland and T. Townsend East of Indiana and Mr. Warfield, chairman of the board and of the executive and finance committees.

### Scope Of The Plans

The plans which were worked out and prepared by Mr. Warfield, and recently approved by the special stockholders in August last are far-reaching in their results. Not only are the financial requirements of the property cared for, but the financial structure is simplified. The mileage is increased by 416 miles of new railroad, including the entrance into two additional seaports and a second trunk over an important part of the system.

The new company to be formed by this consolidation will execute a mortgage authorizing an issue of \$300,000,000 of bonds, of which there will now be issued \$25,643,000, designated as series "A." This issue will be the only portion of the new mortgage bonds outstanding at this time and will cover 90 per cent of the future needs of the consolidated system. This indicates the permanent character of this financing.

In connection with the present issue Mr. Warfield has brought together a strong syndicate of investors, the new issue of bonds is sold to a banking syndicate headed by the Guaranty Trust company, National City bank, Chase National bank, and Bankers Trust company of New York, the Continental Trust Company of Baltimore and other financial institutions in New York, Baltimore, Chicago, Bos-

ton, Philadelphia, Pittsburgh, Savannah, Atlanta, Jacksonville, Birmingham, Tampa, Norfolk, Charlotte, Raleigh, St. Louis, Cleveland, Cincinnati, San Francisco, Milwaukee, Detroit, Louisville, Columbus, Seattle, Denver, New Orleans, Buffalo, Syracuse, Rochester, Wilmington, Newark and Albany.

Mr. Warfield's plan to have the Seaboard a strong Southwestern property has been followed with such success that the wisdom of this policy is recognized and endorsed by the investment which these bankers have agreed to make in this property. This is a striking and eventful chapter in the development of a railroad in the South attracting wide-spread attention because of the magnitude of this financial undertaking completed by Mr. Warfield in the face of the conditions at the time brought about by the European war.

### Mr. Warfield's Statement

At the time the directors of the Seaboard approved the plans submitted by the chairman, Mr. Warfield said: "The Seaboard Air-Line railway will be consolidated with the Carolina Atlantic and Western railway under the corporate name of the Seaboard Air-Line Railway company. The Carolina Atlantic and Western Railway is a recent consolidation of the North and South Carolina, Charleston Northern and South Carolina railroads, operating a total of 416 miles. The Carolina Atlantic and Western railway recently acquired the Georgetown and Western railroad, operating from Lanes to Georgetown, S. C., and from Andrews to the Pee Dee river, South Carolina, a distance of 70 miles. The Charleston Northern railway is the line recently completed, connecting the North and South Carolina railroads with the city of Charleston, giving the Seaboard entrance into Charleston, and now becoming a part of the main line of the consolidated system. The model villages of Litchfield, Port Sunlight and Bourneville, which provide homes, real homes, for working people, are artistic creations of men possessed of splendid imagination and sympathy understanding."

The garden city and town planning movement had reached the highest point of effectiveness in England. The model villages of Litchfield, Port Sunlight and Bourneville, which provide homes, real homes, for working people, are artistic creations of men possessed of splendid imagination and sympathy understanding."

### Trees For City Planting.

Elm Has Been a Failure in New England. The love and veneration of the New England mind for the elm is so great that it is hard to acknowledge that this tree is almost a total failure in city planting, says the Boston Transcript. As a matter of fact, the liability of the elm to insect attacks, the brittleness of some of the maples and the sensitiveness of both trees to dust and gas conditions unite them for the test of strong gales.

On the long path of the common a sturdy English elm, not old nor decrepit, was left in twain by the wind. Near it stands a young one which has not a single twig or leaf. The young oaks planted in recent years in the Arnold arboretum, in the parkway near the Forest Hills station, on the Rock Bay Pines, in Brookline and elsewhere are a joy to the eye and a solid assurance of arboreal beauty in the future. Not only do these young ones understand the storms and the insect pests, but they appear quite unharmed to dust, to gases, to excessive heat and to all the other conditions which are disturbing to the elms and maples in parks. Oaks, pines, Norway spruce indicate themselves through a heavy load of snow and heavy plagues to be the best trees for city planting. It is very fittingly a sad thing to bid farewell to a single elm or sugar maple, for no trees are more deeply loved by our people or with better reason in their association and the record of noble sheltering service, but it is apparently a farewell which is ordained by the powers of nature.

### Epidemics and Schools.

Doubt as to the wisdom of closing schools during epidemics of contagious diseases is expressed by Dr. Francis George Curtis of Newton, Mass., in a bulletin on the "Health of School Children," which has been issued by the United States bureau of education. Dr. Curtis says: "If the schools are closed when an outbreak of such the children are sure of loss from supervision. They mingle freely with one another in the streets, on playgrounds and in one another's homes. They are sure of an extra vacation and enjoying themselves thoroughly and are unwilling to admit that they feel ill, lest they be kept at home and prevented from having a good time. For this reason they will not say they feel ill until the disease is well advanced, and there may be active sources of infection for some time before it is recognized that they are ill."

"If the schools are kept open and the children continue in the classrooms, as usual, they are under strict observation and examined daily by the school physicians, and in the event of their being sent home for observation or treatment."

readily materially increased, necessitating the procuring of large amounts of money for American enterprises on an increasing interest basis."

### Securities Already Advanced

As outlined in the foregoing statement by Mr. Warfield, it is pointed out that under the new financial plans and consolidation all classes of securities of the Seaboard Air-Line railway would be greatly benefited, not only the bonds of the railway and its constituent properties, but both issues of preferred and common stock would be made more valuable. That this is generally recognized is evidenced by the large increase in the market quotations of the stocks, and all Seaboard securities, resulting almost immediately on the part of the stockholders of the value to the securities under the proposed financial arrangements and an additional evidence of this manner in which the plans have been received by the stockholders.

# BEAUTIFUL

## GARDEN CITY MOVEMENT IN THE UNITED STATES.

The Idea Should Receive Greater Industrial Engagement.

The time has never been more opportune than the present for American manufacturers to give serious thought to the advancement of the garden city movement, according to W. J. Hoggson. The congestion in our large cities, he says, contrary to all natural laws, has almost reached its limit. We can no longer excuse ourselves for past errors in town planning on the theory that this is a young country. New towns are being laid out today with the same careful lack of constructive imagination as heretofore, paralleled streets giving the aspect of a great ugly checkerboard, with no civic center, no playgrounds and insufficient trees.

The garden cities that are destined to bloom in America and that are to be the result of a movement fostered by American industrial institutions should be lacking in no respect and should be equal, if not superior, to any like developments anywhere in the world.

The garden city and town planning movement had reached the highest point of effectiveness in England. The model villages of Litchfield, Port Sunlight and Bourneville, which provide homes, real homes, for working people, are artistic creations of men possessed of splendid imagination and sympathy understanding."

**METHODISTS MEET IN SPARTANBURG NOV. 24**

First Meeting of Upper South Carolina Conference Will be Held Latter Part of This Month

The Upper South Carolina Conference will convene in Spartanburg, November 24. A special meeting of the state board of missions and presiding elders of the conference will be held at Spartanburg, Nov. 23. The meeting of the presiding elders is held to arrange a year's transfers from one conference to the other that should be desired by the members. All Methodist ministers may request a change from one conference to another, that is from one conference to the other. These requests are granted, provided of course that the transfers from one conference are equal to the transfers in the other.

**New Idea For Playgrounds.**  
Oakland, Cal., has a system of playground government that might well be adopted in many cities of the country. According to an announcement made by the Oakland chamber of commerce and Commercial Club Consolidated, the children of the Bella Vista playgrounds in Oakland are put under the management of a committee of laymen. This committee, called "little citizens' committee" and consists of ten youngsters from different neighborhoods near the playgrounds. The committee draws up the rules and regulations governing the playgrounds, and if a member of the committee detects a violation of the law he promptly takes the offender before his brother committeemen and a trial takes place. The work of the committee has been closely watched by the board of playground directors, and if it is the success it promises to be the system will be recommended for adoption at all thirty-nine playgrounds in Oakland.

## PROBLEMS OF MUNICIPALITIES

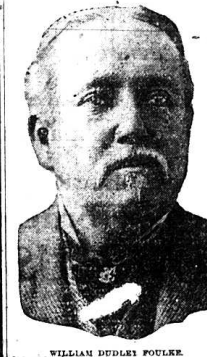

City League and Societies to Meet at Dayton.

### TO DISCUSS CIVIC MATTERS.

In Mid-November at Dayton, O., Several Important Organizations Will Confer Upon the Best Methods of Running Towns and Other Important Questions.

How shall we run our municipalities? Is a question that is pressing upon every man, woman and child living in what is usually known as a city or town, and on every one in the country, for that matter, because the municipalities are so closely bound up by railroad tracks, telephone and telegraph wires and a hundred and one other interests with the districts round about.

It is in answering this question that the National Municipal league and its allies will address themselves in Dayton in "municipal week." The league fixes its annual meeting for November 17-19. Then the City Managers' association of which Henry M. Walte, the efficient city manager of Dayton, is president, determined to meet at the same time, as to get the benefit of contact with some of the students of the problem. Then the Ohio Municipal league decided to meet in Dayton in the same week, and finally the Ohio Civil Service Reform league took the same action. The appropriateness of

WILLIAM DUDLEY FOULKE.

the latter body meeting in the same connection is obvious, as one can find that the question of selecting experts and employees to carry on municipal work is one of the most difficult with which administrators have to deal.

The great big question before the National Municipal league will be the adoption of a model charter upon which the municipal program committee has been at work for two years and more. This charter will embody the city manager plan and the utilization of best practices and experts in the management of the municipality. This committee is composed of twelve members from every conceivable angle. Some of them have had actual experience in city government, some in state government, others have had experience as civil service commissioners, some are college professors, some are public utility experts, another is the editor of an engineering magazine, so that when the committee speaks it is with the voice of experience and authority. President William Dudley Foulke of the National Municipal league is chairman of the committee.

Civic education will be another feature that will come up for serious attention. This is a subject to which the National Municipal league has devoted years of patient study through a series of committees.

In discussing this question at Dayton the league will have the active cooperation of the Urban Universities association, a body of which Charles W. Dabney of the University of Cincinnati, a vice president of the league, is president.

There will be a long list of committee reports involving such questions as the relation of the city to its food supply, franchise, immigration, municipal reference libraries and political methods up for consideration.

These annual conferences are of the greatest value to all municipal work, bringing together as they do leaders in various lines of civic activity. Another one of the important committees of the league is the civic secretaries committee, which is composed of the men and women who are serving as secretaries of the leading civic bodies in the country. Once a year they get together to discuss matters of the greatest importance to the conduct of organized civic work.

This "municipal week" will be of far-reaching importance not only because of the program to be discussed, but of the personnel of the speakers and the character of the organizations which are to be represented. Henry M. Walte, the city manager of Dayton, is at the head of the arrangements and will have a leading part in the meetings.

BOARD OF CITY DEVELOPMENT.  
First Municipal Commercial Organization Has Been Started in Amarillo.

Amarillo, Tex., the distinction of having the first municipal commercial organization, says the Town Development Magazine. A board of city development, the name of the organization, is provided for by the new city charter and at the present taxation and assessed valuation has an annual revenue of \$100,000. The new charter briefly provides, first, for a commission government by three commissioners, elected by the people; second, a city manager elected by the commission; third, a board of city development, corresponding to a regular commercial organization, composed of fifteen members appointed by the mayor, who is also one of the commissioners. The fifteen directors appoint the secretary. He is a salaried official and not a member of the board.

The organization is supported by a two mill levy on \$100 of valuation, which the city government must turn over to the board to be used as it sees fit. Neither the mayor nor the city commission has power of review of any kind over how and in what way the money is spent.

The assessed valuation of Amarillo this year is \$9,145,000, netting a fund for the board of city development of slightly over \$100,000.

Following its first meeting and organization the new board began its search for a secretary. Out of the 110 applications the board selected Fort A. Whaley, former secretary at Anderson, S. C.

**City Feeds Farm Soil.**  
According to the Farm and Gardeners' city of Los Angeles, Cal., prescribes the use of 150 to 175 tons of garbage a day and converts it into twenty or twenty-five tons of fertilizer. The sells at from \$14 to \$18 per ton. It goes to the orchards, farms and vegetable gardens of the vicinity.

Experiments with the Los Angeles plan is but a duplication of the experience of Toledo, O., and other American cities as well as many in Europe. Proper utilization of garbage represents the opportunity to dispose of the city's wastes without expense and in some cases at a profit to the city, while at the same time the resultant fertilizer goes back to the soil from which it came and to which it ought never to be lost.

Such a plan, think twice to realize that the incineration of other waste of the useful elements in a great city's garbage is worse than wicked. The land cannot be kept clean always of the most valuable constituents and yet go on producing for the increasing millions of population. The modern method of the farmer means economy to the city and also to the country. It represents the city for the first time in the business of feeding the soil.

**City Hall Switchboard.**  
One of the innovations introduced by Fred M. Lockwood, manager of operation under the recent amendments to the charter of the city of San Diego, Cal., has been the installation of a central telephone switchboard in the city hall.

Prior to this installation there had been thirty individual telephones in the various offices, for which the city was paying \$5 each per month.

Under the new arrangement six trunk lines are run into the switchboard, the total cost of which is \$22,000. There are twelve stations on the switchboard, the cost of which is \$1 each per month. There is an operator in each station, the salary is \$20 per month. Taking the monthly cost of the thirty stations and the salary of the operator together, the cost is \$80 per month as against \$150 per month under the old scheme.

Included in the service from the central switchboard are two outside lines, one for the police station and one to the headquarters of the chief of the fire department.

**For Better Traffic Rules.**  
The Municipal (Alma) Civic and Commerce association is to establish an agency which will be a clearing house in which all violations of the traffic ordinances may be reported with the assurance that investigation will follow and something be done.

### ADMINISTRATORS NOTICE

#### STATE OF SOUTH CAROLINA, COUNTY OF CHESTER.

By A. W. Wise, Esquire, Probate Judge.

Whereas, Mrs. Addie Robins made suit to me to grant her Letters of Administration of the Estate of and effects of Jesse R. Robins, deceased.

These are therefore to cite and admonish all and singular the creditors and creditors of the said Jesse R. Robins, deceased, that they be and appear before me, in the Court of Probate, to be held at Chester, S. C. on 29 November next after publication hereof at 11 o'clock in the forenoon, to show cause, if any they have, why the said Administration should not be granted.

Given under my hand, this 4 day of November A. D. 1915.

A. W. WISE, Judge of Probate. Published on the 5th day of Nov. 1915 in the Semi-Weekly News.

### OBITUARY.

On October 18th, 1915, Samuel A. Elliott, father of Mrs. J. W. Fallwell, of this city passed away at a home near Forest Bridge, near York, Virginia, aged sixty-six years. He had been a sufferer for many months and he suffered the great loss of his companion, who a century appeared in the paper.

He leaves three children, two sons and one daughter. He was a devoted church and gave to his local church the assurance that he was ready when the change came and leaves them the precious recollection of a noble character and the heritage of an unusual man. A friend.

### GERMLESS SERVANTS NOW.

Montclair Extends Hygienic Standard Even to Chauffeurs and Butlers.

New York, Nov. 12.—New York makes waiters possess a health card, but in Montclair, N. J., where a ready the barber, grocer, butler, fishman, teamster and even have to flash a health diploma in order to do business, the costumed gardeners, chauffeurs, butlers and householders are expected to appear with their health cards. The Housewives' League has secured a copy a minimum of \$25 a month to all in these classes who can present a Health Board certificate that they are germ free.

Physicians of the Health Board will examine any aspirant and, finding he or she is hygienically up to the hygienic standards, will give him or her a nice lithographed certificate to that effect, priced \$3.

### A PINE WHOOPING COUGH REMEDY.

Mothers, Dr. Bell's Pine Tar-Flavor is just the remedy for your children's cold ailments. The fact is conditions in this quality of colds are common in the largest, coldest, heaviest and open up the air passages. The combination of honey, soothing and pleasant, with the so-called quality makes this a cold cough remedy for children. Ask your nearest drug store for it. A family of growing child can't afford to be without it. Use a bottle.

### LIMESTONE FOUND IN ORANGEBURG SOIL

Quantity Assured but Quantity is Unknown--Crusher to Prepare for Agriculture.  
 Orangeburg, Nov. 15--There are several limestone deposits in Orangeburg county, but not until recently have any steps been made to utilize these deposits as a source of ground limestone for agricultural purposes. Lawrence S. Wolfe, farm demonstrator in this county, says that he has been informed by J. Rutledge, Commissioner of Ferguson that a small crusher has been ordered to prepare agricultural lime from one of these deposits. Mr. Connor further stated that Mr. Calhoun of Clemson college had visited the deposit several times and is very optimistic as to the extent and possibilities of these deposits. If upon further investigation it is proven that the limestone is present in abundance the handling of the product on a commercial scale will probably be taken up. "All we need is the quantity," said Mr. Connor. "We know we have the quality."

### BOOKER WASHINGTON DEAD.

Noted Negro Leader and Educator Hurried From New York to Die at Home.  
 Tuskegee, Ala. Nov. 14--Booker T. Washington the noted negro educator and founder of Tuskegee Institute, died at his home here early today four hours after his arrival from New York. Death was due to hardening of the arteries following a nervous breakdown.  
 The negro leader had been in failing health for several months, but his condition became serious only last week while he was in New York. He realized the end was near, but was determined to make the long trip South to bear out his oft-expressed statement that he had been "born in the South" and lived to be buried in the South.  
 Senator E. D. Smith has a valet in West Point and also one in Annapolis to be awarded soon. Those who desire to stand the competitive examination should write him at Florence.

### TO FORM CREAMERY

Company Will Be Organized in Spartanburg.  
 Spartanburg, Nov. 14--The Spartanburg Creamery company will be organized within the next few days. After a discussion of the project by Dr. W. F. Long of Clemson college here this morning the following committee were appointed: Committee of stock subscription, J. B. Lee, chairman; John B. Cannon and R. H. Barry, Committee on location; Charles O. Hanson, chairman; Col. T. J. Moore and Marvin M. Boyd.  
 A capital stock of \$5,000 is desired 50 per cent. of which will be paid in at once. The par value of the shares will be \$20.  
 The Spartanburg creamery will be the fourth established in South Carolina under the Clemson college plan of operation, which is cooperative and is promising success.

### Accidentally Took Poison Thinking It Was Calomel.

Mr. Hughes Worlby, a prominent planter living just over the line in Chester county, narrowly escaped death by poisoning on last Friday. He mistook strychnine tablets for calomel tablets, and took five tablets, each containing a fortieth of a grain, making a total of one-eighth of a grain.  
 It seems that Mr. Worlby got up on Friday morning feeling poorly. He went to a shelf where he kept his medicines. There were calomel tablets and strychnine tablets in the supply of medicine. Both tablets are quite similar. He took five tablets, supposing he was taking five grains of calomel. Immediately afterwards he went out in the yard to give instructions to a driver for the day. Some pronouncement in his mind caused him to go back into the house and examine the mark on the packages. He then discovered that he had taken strychnine. He hurriedly calling up Dr. Maddox at Union, he was told what to do until the physician could arrive, he having to come some 10 miles.  
 A record-breaking trip in an automobile and the great presence of mind displayed by Mr. Worlby, together with the telephone connection, probably saved his life.--Union Times.

### A very interesting as well as enjoyable meeting of the Up-to-Date Book club was held with Mrs. B. M. Spratt on Thursday morning.

There were ten members present. The program was opened by Mrs. Brown, she ably discussed the topic, "Ancient Races of Mexico." Mrs. S. E. McFadden read an interesting article on, "Prehistoric Ruins in Mexico" and "The Conquest" was the last on the program on which Mrs. J. Stringfellow gave a timely account. The club deeply regrets having to give up their member and Treasurer, Mrs. Ira A. Smith, who will leave in a few weeks for her new home at Baltimore. At noon Mrs. W. H. Leckie and Mrs. Marion Leckie assisted the hostess in serving a hot lunch.

### SPECIAL NOTICE

The Ladies Aid Society of Parity Presbyterian church will hold their annual bazaar in one of the vacant stores on the hill December 2nd, and 3rd. They will have all kinds of articles for Christmas gifts, and will also serve lunch and supper both days. It.

### SPECIAL MEETING OF COUNCIL

Carnival to Come to Chester Behind Fire Department Arrangement For Loan.  
 The city council held a special meeting Friday evening, which was attended by Mayor Davidson and Aldermen Gage, Fraser, Wisebrook, Stewart, Dye and Nicho's. Council decided to allow the Dixie Grand Shows to come to Chester with the understanding that the sum of \$200 would be paid the city before the carnival opens and fifteen per cent. of the gross receipts exceed \$200, then the city is to receive more. This money is to be turned over to the fire department the members of which wish to attend the State tournament next spring.  
 The City Treasurer was not asked to borrow \$750, each from the National Exchange Bank and the Commercial Bank.  
 Mr. J. M. Jones was granted permission to install a fill gate at Garden street, in front of his new building.  
 The contract between the city and the Cramer estate for the use of a gravel pit was rescinded, the city having used all of the available gravel.  
 Mr. Jos. A. Walker was granted permission to cover a shed in the rear of his store, garretted from street to be used.  
 William Welsh, colored was granted permission to repair a house, on St. John's alley, which was recently damaged by fire.  
 It was decided that the city will not do any more private cement work.  
 Council adjourned.

### BAD STOMACH TROUBLE

Yields to Delicious Vinol  
 Shreveport, La.--"I had a bad stomach trouble for years and do not say I could hardly walk or do any work. My appetite was poor, my food would digest, I bloated and was very weak and nervous. I tried many remedies without help. I saw Vinol advertised and tried it, and now my stomach trouble is completely cured and I am well."  
 -E. L. MARSHALL.  
 Vinol is guaranteed to tone up the tired, over-taxed and weakened nerves of the stomach and create strength.

### CHESTER'S LAST CHANCE

Saturday, Nov. 27 Will Pool Vellye Es The Last Day to get Waco Tonic at Half Price.  
 But the high praises still come of the wonderful work of this Maser Medicine.  
 Here is a statement made by a local Chester man, who came into the store at 123 Main St., yesterday. This man was H. J. Walker. Gaston St., Mr. Walker said, "I have used 2 bottles of your Waco Tonic, and my neighbors say they hardly know me. I look so much better. One thing I know, I never felt better, and I have gained 10 pounds in weight, from the use of these 2 bottles. I was just on the drug and had been for a long time, am 60 years old, and I had gotten to where I had no appetite, my stomach hurt all the time and I had smothering spells and could not rest at night. I was so nervous. But you bet I can keep good now, and just eat anything, and my appetite is just fine. Now, Mr. Walker has been a citizen of Chester for 20 years, and when men like this speak they should be heard. Now don't forget that you can get the free treatment, and buy 1500 bottles for 50c or 3 bottles for \$1.25. Same price while advertising by the Lettner Drug Co. After Waco Tonic has done what it has for your neighbors, there is no reason for you negotiating your self. You suffer with any form of Liver, Kidney, stomach or blood trouble, Waco will cure you. Call before the price is raised, for it positively will be sold at \$1.00 per bottle after Nov. 27th.  
 FANCY SHORE MACKEREL Just arrived. Something choice. Jos. A. Walker.
