INSURING A STAND OF THE FALL CROP OF IRISH POTATOES.

Clemson College, S. C., May 24.—With Irish or "Irish" potatoes will grow for four times the yield of last year at this time, we fully appreciate the fact that farmers have the increasing need of this valuable food crop. In the planting of the second fall crop. However, for crops of the very high yields of seed potatoes, it is better to plant this crop at this season by planting in even higher prices. Best returns are obtained from planting the Looking Mountain variety, for which, if not available, the green mountain, rarer and a much better variety than its recommended substitute. The second crop may also be planted in even higher yields. Preparatory to planting, these tubers should be dried, followed by the sprouting process, thereby insuring a much better and more regular stand. Sprouting is easily done by spreading the tubers on the ground in a cool shaded place, covering with a layer of straw or water and watering sufficiently to dampen, not thoroughly saturating. The tubers should be planted during the last of June and early July. Cut the larger tubers into 4 to 6 pieces, depending upon the size of the plant and pack the soil over them. Where soil is well prepared, good results will be obtained otherwise the tuber will be damaged. Properly planted, prepared, and covered with a layer of straw, the tubers will be damaged. LARGE SHIPMENT OF TIN CANS FOR CHESTER COUNTY

On account of the present shortage of tin cans, and it being almost impossible to secure cannoy, the Chamber of Commerce has arranged to secure 45,000 cans for distribution among the consumers of the County. These cans will be sold at cost, \$60.00 per thousand and will reach Chester within the next ten days.

In order to secure these cans which have been placed at the disposal of the Chamber by the United States Department of Agriculture and United States Department of Commerce, it was necessary to secure the cooperation of the local banks. This was done at a conference between representatives of each of the four banks—The White, Bank, The People's National Bank, The National Exchange Bank and the Commercial, Bank, and Secretary Alfred O. Lloyd on last Friday. The Banks readily agreed to furnish the necessary funds to the Chamber upon the indorsement of the members of the Board of Directors, and without interest charges.

All cans must be sold for cash and orders can now be placed with the Chamber of Commerce, County Agent, J. A. Riley, or Miss Jo Yarborough, Home Demonstration Agent. Orders submitted by cash will be given first consideration and all persons placing orders now will be notified of the day they will receive a trial of the cans by allowing the Chamber to secure them immediately upon their arrival here.

Should orders be received for this shipment within the next few days, an additional shipment can be secured under an option held by the Chamber of Commerce, but immediate action is necessary as the option will expire within the next few days. The Chamber of Commerce orders will be accepted, and under an advance in price, after the expiration of the option.

WOODWARD NEWS.

The children of the whole country side, about 40 in all, are enjoying their days of practice for an opera, at Williamson Hall. To be given under the auspices of the Catherine Ladd Chapter, U. D. C., about the 8th of June. Last year this chapter put on a very impressive production of about 50 or 60 children. We are glad to see that they stand for something more elevating than the usual little "operetta" shows.

We hope that the people will show their appreciation of this progress by their generous patronage. It is to be given on Wednesday night, June 11th, at 8 o'clock. The proceeds will be used to make the music, as well as the beauty of the scene, well worth a quarter. One of the prominent ministers pronounced their last production well worth the dollar.

The Woodward Book and Embroidery Club met last Friday afternoon with Mrs. T. W. Brice. They had for speaker Miss Willie Hamilton Haynes, one of our S. C. poets. ITALIANS LAY WREATH ON WASHINGTON'S TOMB

Signal Tribune Paid Memory of First President by War Commissioners.

Washington, May 27.—Italy paid honor to America and her first President today through the Italian war commissioners, who made a pilgrimage down the Potomac to Mount Vernon and laid on the tomb of Washington the bronze wreath which since the days of ancient Rome has been bestowed on famous heroes.

In the presence of a distinguished party of American officials, grouped about the entrance to the tomb the Prince of Ligne, as head of the mission, expressed his warmest belief that the spirit of Washington will guide all the Allies in the present war for freedom and democracy. He renewed the pledge of Italy to fight until "our liberty and the liberty of the people who are suffering with us shall be rendered safe against all surprises and all violence."

Secretary Daniels, as host for the party on the day down the river on the presidential yacht Mayflower, introduced the Prince.

It was the first time since the Italian war has had a European Prince had entered the tomb of Washington.
