CHESTER, S. C. TUESDAY, JUNE 6, 1916. No. 48

YORK COUNTY NEWS ITEMS

Dr. M. J. Walker, county physician said Wednesday that the negro convict on the county chain gang who is ill with typhoid fever is getting along very well. The doctor said that several of the thirty six convicts whom he inoculated with anti-typhoid serum Sunday were made pretty sick by the injection but he was satisfied there would be no further spread of typhoid at the camp.

Mr. D. M. Hall of Yorkville No. 1 said Tuesday that he did not intend to plant a single acre of cotton this year, but intended to devote his attention to other things. He expects to devote about ten acres to peanuts upon which he proposes to turn his legs. He anticipates devoting a large acreage to corn. Mr. Hall said there were several reasons why he did not expect to grow any cotton, among them being because he already has more than 300 bales on hand and furthermore that hands are scarce.

Mr. Joe M. Taylor of Newport, who was in Yorkville yesterday said that tests of brick made at his brickyard near Newport were of good quality, satisfactory, and that he intends to form a company to work the project. Mr. Taylor says that so far no has made about 35,000 brick. It is his intention to organize a company with several thousand dollars' capital and install machinery with a capacity of 20,000 per day. Due to the fact that there is an increasing demand for brick and the product of the 40-acre clay bank at Newport is as good as that to be found anywhere else, he sees no reason why the venture should not prove successful.

Unknown parties attempted to wreck the Southern railway passenger train No. 35 on King's Creek Tuesday morning by placing a hand car on the center of the trestle. The train was proceeding east. Due to the fact that the engine was on the track over the trestle along the sides he did not see the hand car until he was a short distance from it. It developed that the hand car had been brought from a distance of about a mile down the road toward Blackburg and had been placed on the rails and rolled to the trestle with much difficulty. The long trestle which is located about one-half mile beyond King's Creek station, is about 90 feet in height and had the engine struck the object on the track a terrible wreck could not have been averted. So far as the wrecked officers know, there is no reason why any one around King's Creek should have a grievance against the railway, and it is believed, that the attempt to wreck the train was the act of some irresponsible person bent on mischief.—Yorkville Enquirer.

TALK OF INSURANCE

Meeting to Be Held in Spartanburg Monday.

Spartanburg, June 4.—A meeting of those interested in the proposal to organize a mutual farm insurance company with headquarters in Spartanburg has been called for Monday morning, immediately following the legal sales at the court house. Announcement was made that F. H. McMaster, State Insurance Commissioner, would be present and outline the method of procedure and the benefits that would accrue from such an organization. Among those closely identified with the proposition are Howard B. Carlisle and J. Hertz Brown.

DRUGGISTS FACES CHARGE

Alleged to Have Sold Intoxicants

Gaffney, June 4.—Margaret Phillips was engaged Friday in holding a preliminary examination in the case of the State vs. J. F. Bales, a druggist of Blackburg, who is charged with selling intoxicating liquors which will cause intoxication if ingested in excess. The evidence in the case was very weak, but the druggist would be denied the right to sell intoxicating liquors unless he can prove to the satisfaction of the jury that he is a

GERMANS FAIL IN ATTEMPT

Gain Foot-hold by Night Attacks on French Trenches But Were Driven Out.—Tentative Claim They Took 800 Prisoners—Aeroplane Bombardment.

Paris, June 4.—Several attempts by the Germans last night and this morning to turn the French positions at Fort Vaux, on the Verdun front from the southeast, were unsuccessful, the War Office announced this afternoon. The night attacks resulted in them gaining a foothold in the French trenches in the ravine between Dampou and Fort Vaux, but they were immediately driven out by a counterattack. The assault this morning was checked by the French gun fire.

The text of the statement follows:

"On the right bank of the Meuse there had been grenade fighting during the night west of Thionnet farm. At the close of the day yesterday, after violent bombardment, the enemy made several attempts to turn Fort Vaux from the southeast. At 8 o'clock they launched a powerful attack which the engineers repulsed in a group and the fort which won for them a foothold in our trenches. Our counter attack immediately ejected the enemy completely. A second German attack this morning directed against the same point was checked by our artillery fire.

"A German attack launched at 3 o'clock in the afternoon against the slopes of the Bois Fumin, northeast of the fort, was arrested by our machine gun fire. Our heavy artillery greatly damaged three German batteries in the Caucieres wood. We took under the fire of our guns and dispersed enemy concentrations in the Caucieres woods.

"Today at noon a group of German aeroplanes dropped several bombs on Toul. Six persons were killed and about 10 wounded. The material damage was of slight importance. No military establishment was struck. Two other enemy aeroplanes, struck by the anti-aircraft fire of our machine-guns descended sharply in the German lines."

DREAMLAND THEATRE TUESDAY.

Ben Wilson in "A CAD."

Billy Garrick is accidentally shot by Herbert Gale while they are on a hunting trip. While he is delirious, Herbert steals a locket from him containing the picture of his promised wife, Violet. Herbert was also a suitor of Violet, but Billy grows worse and Herbert sees in his death a chance to marry Violet. He pays an Indian to make sure of Billy's death and goes back to the city and tells Violet and her family that Billy was shot and killed by an Indian, for trifling with an Indian girl's affections.

At first Violet does not believe the story, but finally Herbert shows her the locket and convinces her. An Indian girl hears of the plot to kill Billy and determines to save him. The Indian thinks the fever will kill the charge, and spends much of his time drinking, which gives the Indian girl a chance to nurse Billy back to health. Herbert forces his attentions upon Violet and she finally consents to marry him. As Billy grows stronger, the Indian becomes more watchful and Billy cannot find an opportunity to escape. The day of the wedding approaches and Violet repents her promise to marry Herbert, but thinks of Billy's supposed unfaithfulness and becomes reconciled. At last Billy manages to slip down the river in a canoe and escape.

Violet is about to marry Herbert, when she learns of his treachery. The minister starts the ceremony when Billy enters the room. Billy thinking he is dead, faints. Billy rescues Herbert, who is driven out of the mansion. Violet and Billy are reunited.

EACH SIDE CLAIMS TO BE WINNER

English Casualties Stand as First Announced—Tentative Estimate of Damage Suffered Said to be of Mass Fabrications.

London, June 4.—The British admiralty tonight issued a statement saying there was the strongest ground for the belief that the British navy in the battle with the Germans off Jutland last week had been victorious for a total of 18 German men-of-war and that there was nothing to add to or subtract from the original announcement of the British losses.

The statement gave the German losses as two battleships, two dreadnought battleships, four light cruisers, nine torpedo boat destroyers and a submarine.

The pessimism which prevailed, as a result of the admiralty's original statement of losses, which now is considered to have been needlessly exaggerated and conservative in its estimate of the extent of the German losses as compared with those of Great Britain has been greatly lessened by the latest statement.

A dispatch from Copenhagen says that the German fleet in Hamburg had two additional German warships than those announced in the German communication—the battleship Westfalen and the battleship Lutwark were sunk in the battle. A wireless dispatch received here Saturday from Berlin said the German admiralty admitted the loss of the Westfalen.

"The admiralty statement tonight declares that the German losses in the fight were not only relatively but absolutely greater than those of the British. Maintaining its practice of caution, the admiralty still refrains from giving the names of the lost German ships.

The official list of the casualties among officers shows that hardly a single officer of the line escaped from the British cruisers sunk in the battle. An additional casualty list shows that 43 officers of the line were saved from the Queen Mary, Invincible, Fortune, Arden and Shark. None was saved from the Indefatigable, Defense, Black Prince, Tipperary, Tauland, Nomad or Vector.

The list gives the names of 10 men killed aboard the Warrior and of 27 men wounded. On the other ships engaged in the fight 115 men were killed and 85 wounded.

Admiral Beberford in an interview, while contending strongly for the view that there was no failure in the British strategy and that Vice Admiral Beatty was a brilliant success, though it was clearly decided that the only mistake made by the admiralty in allowing the Germans to get first in the field with the news of the battle or as he puts it with "improved fabrications." Otherwise, said Beberford, no fault can be found with the admiralty. The text of the statement follows:

"Until the commander in chief has had time to consult the officers engaged and write a full dispatch, any report of the battle or of the action of the fleet cannot be given. The results are quite plain. The grand fleet came in touch with the German high sea fleet at 3:30 o'clock on the afternoon of May 31. The leading ships of the two fleets engaged in a vigorous fight, in which the battleships, fast battleship and subsidiary craft all took an active part.

"The losses were severe on both sides, but when the main body of the British fleet came into contact with the German high sea fleet a very brief period sufficed to compel the latter, who had been severely punished to seek refuge in their protected waters. This maneuver was rendered possible by low visibility and mist and although the grand fleet were now and then able to get in momentary contact with their opponents, no continuous action was possible.

"They continued the pursuit until the light had wholly failed while the British fleet was able to make good its escape. The result of the battle was that the British fleet was

WELL KNOWN YORK COUNTY CITIZEN HAS PASSED AWAY

John S. Jones Died at Early Hour This Morning.

York, June 5.—John S. Jones, a well known and highly esteemed citizen died at his home on Chestnut College street this morning at 3:30 o'clock. Death was due to an attack of acute dysentery, from which he had suffered since last Wednesday. Up to late on Monday Mr. Jones was discharging his duties as carrier on Route 5 from this town, and his death was a distinct shock to his friends in this section.

Mr. Jones was 61 years of age. He was a son of the late Mr. and Mrs. W. Y. Jones of Bethesda township, and was born and reared in that community. He was engaged in farming up to 14 years ago, when he became a rural letter carrier, and moved his home to York. He filled this position very efficiently and was popular with all his patrons. Mr. Jones was a man of general disposition and was held in high esteem by a wide circle of friends throughout the county, who will learn of his death with deep regret. He was a member of the First Presbyterian church of this town.

Funeral services will be conducted here this afternoon at 5:30 o'clock by Dr. E. Gillespie, assisted by Rev. J. L. Oates, and the interment will take place in Rose Hill cemetery.

Mr. Jones is survived by his wife, who bore marriage with a Miss McConnell, a daughter of Capt. J. D. McConnell, of McConnellsville, one daughter, Miss Sara, and one son, William all of York.

BAD ENGLISH IN HARVARD

New Course to Teach Proper Use of Language.

Cambridge, Mass., June 1.—Harvard University has appointed a special committee for the investigation of English used by its undergraduates, has decided to inaugurate a course in English composition next year to serve as a saving sanctuary for the "lame ducks."

Two hundred and thirty-five students who use poor English have come under the notice of the committee, which says that "many students write bad English because of sheer ignorance. Errors in spelling, punctuation, grammar and sentence structure abound."

PROGRAM OF W. M. U. MEETING AT WOODWARD CHURCH.

The first quarterly meeting of the Third Division of the W. M. U. auxiliary to the Christian Baptist Association will be held at Woodward church next Sunday, June 11th beginning promptly at 7:30 o'clock. The following program will be presented:

Devotional exercises.

Address by Weldon W. Roll Call of delegates with remarks.

Address by Supt. of W. M. U. Chester Association.

Our Foreign Representatives.

The Home Field.

Immigration and The Mill Work.

Good Will.

Publications.

Intermission.

Affirmation Session.

Personal Service.

Y. W. A. Work.

Sunbeam Work.

Worse Than That.

The young son of a well known York minister asked his father Saturday if the pro-association meeting that proprietors of all pressing clubs in the State were coming to York. The father told the little fellow that it was worse than that.—York News

A SOLEMN TRUTH.

One of the little matters that has always puzzled us is why every man seeking public office desires the good seeking public office desires the good words of newspapers and the great majority of them, once in office, rarely any comment or suggestion on the part of newspapers as to the affairs of their office.—Exchange.

DREAMLAND.

A glance at the AdV. in this paper will tell that there is a feature program in the pro-association meeting at York on Sunday.

WILSON'S MERCY TOO LATE.

Mrs. Ferguson's Baby Born in Jail Before Commutation Came.

Troy, O., May 31.—The commutation of Mrs. Cornelia Ferguson's sentence, which President Wilson granted today, arrived here too late to prevent the birth of her child in jail.

Thelaby was born last night. Mrs. Ferguson had prayed that the babe might be spared the dishonor of first seeing the light within prison walls. It lived only a few minutes. Physicians say that parental influence, the mother's shame and grief, may have made the child a weakling.

Mrs. Ferguson, whose home is in Cincinnati, was sentenced to three months imprisonment in April for forging a money order.

STATE TAX REVIEW BOARD.

Governor Names Body to Decide Appeal Cases.

Columbia, June 1.—The board of review of the South Carolina State tax commission was named here today by Governor Manning as follows: M. Rhea of Beaufort, business man, chairman; B. F. McLeod, of Charleston, wholesale merchant and president of the Chamber of Commerce; L. L. Wagon, of Union, merchant; E. M. Croston of Lancaster, a banker; T. W. Berry, of Latta, a farmer; and D. A. Shuler, of Belton, a farmer and D. A. Geer, of Porter, a merchant and farmer. The board consists of seven, one from each Congressional district, and a member of the pro-association movement which are taken before them on appeals from the rulings and findings of the tax commission.

FRENCH CAPTURE TRENCHES.

Hard Fighting Continues in Verdun Region.

Paris, June 2.—On the west bank of the Meuse counter attacks gain 300 yards of the enemy trenches and cut Caucetres trenches. NeNar Chukien an enemy attack was checked by a counter offensive. The enemy was repulsed in the Thamouont-Douaumont region.

JUSTICE HUGHES TALKS.

Says He Has No Representative in Chicago.

Washington June 2.—Justice Hughes authorizes the following statement: "It is perfectly well known that Justice Hughes has no representative at all." The statement refers to Hatchcock, leading the Hughes boom in Chicago.

HONOR FOR VETERANS

Fee Dee Chapter Entertains at Latta.

Latta, June 4.—The Fee Dee chapter, U. D. C., celebrated Jefferson Davis birthday here yesterday by entertaining the veterans from Marion and Dillon counties. E. L. Lid of Marion made the address of the occasion, his subject being "The Life and Character of Jefferson Davis."

Other approximate exercises were held after which the veterans and a few friends were invited to dinner prepared by the women of the chapter in the afternoon. T. W. Fenegan invited the party to his theatre when they enjoyed moving pictures andiced lemonade.

WHITE OAK NEWS.

White Oak June 3.—There has been several cases of chicken-pox among the children around here but all are about well of them now.

Communion will be held here at the A. R. P. church next Sabbath, preparatory services will begin on Friday night.

Mrs. Jno. A. Gibson and Mr. W. T. Sanders have been very busy the past week but both are better now.

Several from here attended the Birth of a Nation in Chester last week.

Mrs. Preasley, of Lowryville, was the guest of her sister, Mrs. T. W. Traylor, at Oakland last week.

Mrs. A. Wren, and children of Wrens, Ga., is visiting her parents, Mr. and Mrs. R. A. Patrick this week.

Miss Agnes Patrick who has been teaching at Wrens, Ga., is home for her vacation. She was accompanied by her vacation. She was accompanied by her friend, Miss Mary Obbott when she returned home.

Mrs. Susie Davis, of Manning, is visiting her parents, Mr. and Mrs. Daniel Hall.

Miss Mary Kenner of Manning, who has been very busy the past week, is home.

Mrs. Lella Taylor visited friends at Rockton last week.

Mr. James Wren was called from the office to his home in Chester.

SKILL NOT SIZE TOLD THE STORY

Speed and Accuracy of Krupp Guns Service Said to Have Decided Battle.

Berlin, June 5.—An authoritative account of the North sea battle issued here today gives the first detailed picture of the progress of the great engagement between the German high sea fleet and that of the British.

Many details are suppressed for strategic reasons. The recital, however, meets clearly what is characterized at the British attempt to explain defeat by the statement that the German sea forces were much larger than those which the British were able to bring into play.

This account declares explicitly that 26 of Admiral Jellicoe's most powerful battleships, including six of the most modern Queen Elizabeth class, and the entire British flying wing composed of battle cruisers were out of the action except armor protection to dreadnoughts, were engaged in all but the early stages of the day battle. The fleet surpassed in tonnage and weight of broadside the British force engaged, was at least modern and was faster than the squadron of German dreadnoughts which, lumbering along at 18 or 19 knots, were soon left far to the rear by their swifter consorts, out of the action.

For obvious reasons, the recital leaves out the tale of damages sustained by German units and the losses in personnel. It says nothing about the brilliance in tactical display by Admiral Scheer and Hipper. The smoothness and precision with which the German ships manoeuvred and the deadly sureness of the German marksmanship although it is an open secret that these three factors were largely responsible for the achievements of the Germans.

It is shown that the Germans, unlike in the Doggerbank engagement of cruiser squadrons, were able to penetrate the British line and take a considerable portion of the battle at ranges of about eight miles, at which the German eleven and twelve inch guns were virtually as effective in penetrating power as the big mouthed 13.5 inch guns with which the modern British giants are armed. Furthermore, they are far superior in rapidity of fire. Naval experts were intimating to the Associated Press that the three factors were the most decisive factors in the struggle.

German battleships and battlecruisers were able to shower the British with a hail of shell which, at a range of eight miles, and sometimes over a mile, smashed through British armor belts and wrought havoc to ships vital. The ponderous British projectiles naturally were no whit more effective than the Armstrong and Whitehead mortars which landed scarcely one punch to each two from the vicious Krupp 11 inchers.

The hazy weather was Germany's friend, as it necessitated action at close range.

THE FIRST VOYAGE OF THE SAVANNAH.

The honor of first navigating the sea with a steamer belongs to an American, Col. John Stevens, of New York. Transatlantic steam navigation was long discussed before any one combining sufficient skill with courage and a spirit of adventure made the bold attempt.

The London Times in its issue of May 11, 1819, thus announced the expected event: "Great experiment—A new steam vessel of 300 tons has been built in New York for the express purpose of carrying passengers across the Atlantic. She is to come to Liverpool direct."

On the very day that this brief notice appeared the vessel referred to was visited by the President of the United States and suite, and made a short trial trip previous to her departure on the hazardous voyage.

This steamer, named the Savannah, the first that crossed any of the oceans, was built at the city of New York by Francis Fickett for Daniel Dodd. She was launched on the 22d of August, 1818. She could carry only seventy-five tons of coal and twenty-five cords of wood. The Savannah sailed from the city of Savannah, Ga., on the 25th of May, 1819, bound for St. Petersburg, via Liverpool. She reached the latter port on the 20th of June, having used about eighteen days out of the twenty-six and thus demonstrated the feasibility of transatlantic steam navigation.

As the Savannah approached Cape Clear, on the southern coast of Ireland, and smoke was seen to issue from her, it was at first supposed that a sailing vessel was on fire, and one of the King's cutters was dispatched to her relief. But great was their wonder at their mistake when all sail in a fast vessel, to come up with a ship under bare poles. After several shots were fired from the cutter the engine was stopped, and the surprise of her crew at the mistake they had made, as well as their curiosity to see the singular Yankee craft, can be easily imagined. They asked permission to go on board and were much gratified by the inspection of this "naval novelty."

Upon approaching Liverpool hundreds of people came off in boats to see the Savannah. On approaching the city the shipping, piers and roofs of houses were thronged with persons cheering the adventurous craft. Several naval officers, noblemen and merchants from London came down to visit the boat and were very curious to ascertain her speed, destination and other particulars.

During the sojourn of the Savannah at Liverpool the British public regarded the boat with suspicion and the newspapers of the day suggested the idea that "this steam operation may be in some manner connected with the ambitious views of the United States." One journal, recalling the fact that Jerome Bonaparte had offered a large reward to any one who would succeed in rescuing his brother, Napoleon, from St. Helena surmised that this Savannah had this undertaking in view.

The Savannah remained twenty-five days at Liverpool and sailed for St. Petersburg on July 23, "getting under way with steam" and "a large fleet of vessels in company." The boat touched en route at Copenhagen, when it excited great curiosity.

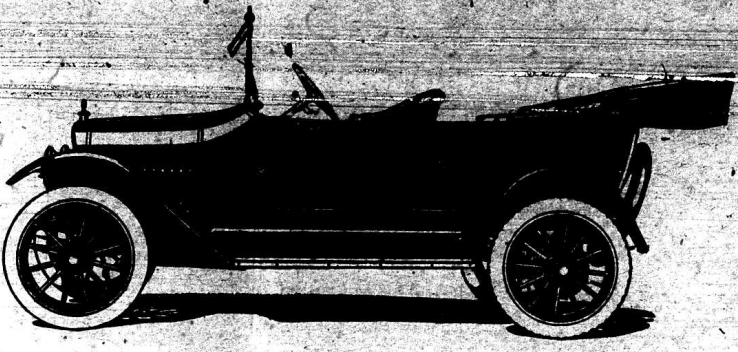

On the 6th of September the steamer left Stockholm with Lord Lynedoch, of England, who was then on a tour through the north of Europe, as a distinguished passenger. On the 9th she reached Cronstadt, having used steam the whole passage, and a few days later reached St. Petersburg.

Here the vessel was visited by the Russian, lord high admiral, Marcus de Travyay, and other distinguished military and naval officers, who also tested her superior qualities by a trip to Cronstadt. The Savannah remained at St. Petersburg until October 10, and then set sail on her homeward voyage "in company with about eight sail of shipping." She arrived at Savannah on Tuesday, November 30, and shortly afterward was taken to the navy-yard at Washington.

The subsequent history of the Savannah can be told in a few words. On account of the great fire in Savannah her owners were compelled to sell her, and she was purchased to run as a packet between that city and New York, whither she was bound when she was lost on the south side of Long Island.

THE BEAVERS.

One-third of the lands in the country think they can bear a beaver extending the line. One-half think they can best the beaver in making the skin. Two-thirds think that they can best the beaver in making the skin. Two-thirds think that they can best the beaver in making the skin.

Impossible To Get So Much Motor Car Value For The Money

WE FIND this is the attitude of many people who come into our salesroom—before they know anything about the Maxwell.

Not until the Maxwell is shown and demonstrated to them—until they sit in it and examine the finish—until they ride in it—or perhaps not until they drive it themselves, do they realize what a tremendous value is offered in the Maxwell car.

It is not unusual that Maxwell value should not be known to everyone, because it is uncommon to find such a car for a good margin more than the Maxwell price.

The Maxwell stands absolutely alone in a highly competitive field, for the amount of value it offers for the price.

Appearance—The lines of the Maxwell are decidedly attractive. There is no break in the contour from the radiator to the back of the car. The fenders are gracefully shaped. All metal parts are enameled or nickel-plated. The upholstery is deep and well-finished. From any angle it is a car that the owner can be proud of.

Motor—The engine in the Maxwell car is not equalled by any other four-cylinder engine of its size. And we know of larger and more expensive cars that have less able power plants. The Maxwell engine carries its load through mud and sand or over the steepest grades without a falter.

Quality—The materials in the Maxwell car are the best that can be bought and the workmanship that turns them into finished parts is no less excellent. It is only the large production of the Maxwell factories that makes it possible to put such quality of materials and workmanship into a car selling at the Maxwell price.

Economy—With its other attractive features, the Maxwell is a most economical car to own. Owners get 22 to 25 miles per gallon of gasoline and 8,000 to 12,000 miles per set of tires. And the car is so durably built that repair expense is negligible.

We are sure you want a car such as we have described the Maxwell to be. If you will give us a few minutes of your time we are sure we can convince you that the Maxwell Car is an exceptional value. Come in today.

RECORD BREAKING ATTENDANCE EXPECTED AT SUMMER SCHOOL.

The indications are that Winthory will have the largest Summer School in its history.

Its large and strong faculty, offering the greatest number of courses, including many short courses, has kept the officers of the Institution busily engaged taking care of the many applications coming in daily.

In addition to this, some of the most distinguished educators of this country will be present.

Some of the most attractive features are the new gymnasium, new tennis court, new athletic fields, new bowling alley, new playground, tennis. The equipment of the gymnasium is said to be unequalled in the South.

The large residential plan, the modern buildings, the surrounding forested woods, will be sure to hold men and women. Two instructors will give instruction during the summer.

Winthory College is about 20 miles from the city of Columbia, and is prepared to give the student a most enjoyable and profitable summer vacation.

MAKE YOUR OWN PAINT

Save 58 cts. per gal.

IT'S SIMPLE — THIS IS HOW
Just mix 3 Gals. Linseed Oil costing about \$2.75
with
4 Gals. L. & M. Semi-White Lead
Painted at \$2.25 per gal. \$10.00
You then add 1/2 Gal. Fine Zinc Oxide \$1.75
for only \$11.75 per gal.

Use a gal. out of any L. & M. PAINT you buy and it will be the best paint made. Return the paint and get ALL your money back.

W. W. Candler & Son, Sole and Wholesale Distributors, 101 N. Main St., Columbia, S. C.

SPECIAL-SPECIAL

You can get the Semi-Weekly News and the Progressive Farmer, both for one year for \$1.50. This offer applies to subscribers at all of our subscription offices.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Carroll, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only get up a little while, and could not walk anywhere at all. At times, I would have seven pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was not getting any better. At last, I was called to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its

helping me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. If he knows what it will do, ask him. He will recommend it. Begin taking Cardui today.

Cardui is a combination of the best of the most famous medicines. It is a tonic for the blood, and it is a purifier of the blood. It is a tonic for the nerves, and it is a purifier of the nerves. It is a tonic for the stomach, and it is a purifier of the stomach. It is a tonic for the lungs, and it is a purifier of the lungs. It is a tonic for the kidneys, and it is a purifier of the kidneys. It is a tonic for the bladder, and it is a purifier of the bladder. It is a tonic for the bowels, and it is a purifier of the bowels. It is a tonic for the skin, and it is a purifier of the skin. It is a tonic for the hair, and it is a purifier of the hair. It is a tonic for the eyes, and it is a purifier of the eyes. It is a tonic for the ears, and it is a purifier of the ears. It is a tonic for the nose, and it is a purifier of the nose. It is a tonic for the throat, and it is a purifier of the throat. It is a tonic for the chest, and it is a purifier of the chest. It is a tonic for the back, and it is a purifier of the back. It is a tonic for the arms, and it is a purifier of the arms. It is a tonic for the legs, and it is a purifier of the legs. It is a tonic for the feet, and it is a purifier of the feet. It is a tonic for the whole body, and it is a purifier of the whole body.

WHAT CAN YOU DO FOR CATARRH?

Ask Yourself the question. How often has the doctor failed, and have ointments, nases, vapours? What you should do.

The easy, common-sense method that costs so little—that is so quick and vigorously effective—is often the last resort of many catarrh sufferers. Why, it is hard to say. One of the specialists of the Swift Specific Company in Atlanta—a physician of standing and national reputation because of his knowledge of blood disorders, made the assertion that if the majority of catarrh sufferers would buy and faithfully take S. S. S., they could effectually get rid of Catarrh.

S. S. S. goes straight to the seat of trouble, the blood. It spreads its life-giving force every fiber in the body, comes through the veins and arteries, reaches the mucous surfaces to cleanse the inflamed membrane, and the red blood corpuscles that effectually cleanse the system and thus get rid of all catarrh poison. S. S. S. cleanses out the system of every noxious accumulation, enables only pure blood

"HER GREAT PRICE"
Big Feature at Dreamland Next Monday.

Mabel Tallafiero, one of the daintiest and most fascinating stars of the stage, and who is perhaps best known for her bewitching performance in "Dolly of the Circus," makes her bow to Metro audiences in "Her Great Price." Miss Tallafiero recently quit the stellar role in "The New Henchmen," the successful stage production, to begin work on "Her Great Price," and other Metro productions under the direction of the Rolfe Photoplays Inc. Her addition to the notable list of stars already serving under the Metro's banner and her appearance in the forthcoming elaborate screen production will be a source of satisfaction to photoplay lovers everywhere.

Prices for this big attraction will be but 5 and 10 cents next Monday at Dreamland.

GOOD FOR COLDS.

Honey, Pine-Tar and Glycerine are recognized cold remedies. In Dr. Bell's Pine-Tar Honey these are combined with other good medicine in a pleasant syrup. Dr. Bell's Pine-Tar Honey quickly stops your cough, checks your cold, soothes irritation of the throat. Excellent for young, adult and aged. One of the best cough syrups made. Formula on every bottle. You know just what you are taking and your doctor knows the good for coughs and colds. Insist on Dr. Bell's Pine-Tar-Honey. Only one at Dreamland.

STAYED—By Bay Male, was on right shoulder. Had heavy black on face. One of Bayley's bottles. Dr. C. P. Wade, Louisville, Ky.

Get Rid of Tan, Sunburn and Freckles

by using HAGAN'S **Magnolia Balm.**

Acts instantly. Stops the burning. Clears your complexion of Tan and freckles. You cannot know how good it is until you try it. Thousands of women say it is best of all beautifiers and heals Sunburn quickest. Don't be without it a day longer. Get a bottle now. At your Druggist or by mail direct. 75 cents for either color, White, Pink, Rose-Red.

SAMPLE FREE.

A GREAT SKIPPER.
Read—I understand that American mountain sheep are the greatest skippers in the world.
GGREENE—Forget it! Come around some day and listen to the engine in my machine.

NOTICE OF ELECTION.
Whereas there has been lodged with the County Board of Education a petition signed by more than one-third of the resident electors, and by a like proportion of the resident freeholders over twenty-one years of age of Wilksburg school district No. 4, asking that an election be held under Section 1742 of the general school law of South Carolina, for the purpose of repealing the special annual tax of two mills (2) now being levied for school purposes in said district.

It is, therefore, ordered that said election be held at Wilksburg school house Wednesday, June 14, 1916, from 7 A. M. to 4 P. M., by the trustees of school district, No. 14, as managers.

"At which election only such electors as return real or personal property for taxation, and who exhibit their tax receipts and registration certificates as required in general elections, shall be allowed to vote."

"Each elector favoring the proposed repeal shall cast a ballot containing the word 'Yes,' printed or written thereon, and each elector opposing thereon, and each elector opposing to said repeal shall cast a ballot containing the word 'No,' printed or written thereon.

By order of the County Board of Education.

W. D. KNOX,
Clerk County Board of Education,
Chester, S. C. June 30, 1916.

EPWORTH LEAGUERS MEET IN LAURENS—SPECIAL ROUND TRIP RATES OFFERED.

The 23rd annual session of the South Carolina State Epworth League Conference will be held in Laurens on June 11. Every chapter in the State is urged to send its president and two delegates, the churches without Leagues should send a representative. A special invitation is extended the pastors.

A matter of vital importance will be discussed and settled at this conference will be the division of the State into League Conferences to correspond with the two Annual Conferences of the Methodist Church. Mr. Charles G. Hounshell, Training secretary of the Student Volunteer Movement of America, will be one of the speakers of this Conference. He will deliver two addresses Sunday. The announcement should be and will be gladly received by those who have had the pleasure of hearing Mr. Hounshell. His work is with, for and among young people therefore his presence will be deeply felt.

Another treat in store for those who attend is the visit from Dr. F. S. Parker, General Secretary of the Epworth League of the Methodist Episcopal Church, South.

A special round-trip rate has been granted by all the roads of the State and delegates and visitors are urged to take advantage of this reduction in rates.

The names of all delegates and visitors should be in the hands of Rev. J. R. T. Major at the earliest possible date.

PAPER MADE OF NEW WOOD

Stands Test Made by Two Large Newspapers.
Washington, June 1.—News print paper made from hitherto unused woods, under direction of the forest service laboratories, has been successfully tried by two large newspapers and all other kinds of wood never used before have given promise of being suitable. A number of others have been found suitable for manila paper and box cards.

This announcement was made today by the forest service, which has made seventy samples of paper by different processes from practically unused woods in its search for a substitute for the fast diminishing supply of pulp wood.

The announcement says that if the price of news print paper is to be kept at a reasonable figure more efficient methods of converting spruce into pulp must be developed or cheaper woods must be substituted.

RAGSDALE EXONERATED

Court Dismisses Case Against South Carolina Congressman.
Washington, June 2.—Special Justice McCoy, presiding in the District of Columbia Court today dismissed the rule which was issued by him two weeks ago against Congressman J. W. Ragsdale, ordering him to appear in Court and state what had become of certain notes which some months ago were sent for collection by the Free Sewing Machine Company against parties in South Carolina.

When the case was taken up the many people desired to have the case continued, but on motion of Douglas Ruffin & O'Beir, attorneys for Mr. Ragsdale, it was not done, and before they had completed reading the answers to a complaint, Justice McCoy ordered that the case be dismissed.

A BIG DIVIDEND PAYER

By Beatrice Fairfax.
Most of us are valued about as highly as we value ourselves. That is a simple fact which applies to every type of human being in any walk of life.

The clerk who feels that he is capable of big things is likely to work in his accomplishment and to continue his employed of his value in the process.

Faith in yourself is a wonderful asset—and in no circumstance is it a better aid than in the fight of an individual who is to win success and affection without sacrificing moral integrity.

The girl who feels that she has something more to offer her men friends than the mere fact she is a girl may not yet have groups of enthusiastic and flattering admirers, but she is sure to win the honest regard of every decent chap with whom she comes in contact.

The simple fact she has the gumption to refuse to smoke at a party, to refuse to stand on street corners or proceed from there to the "corner saloon," may not be popular with the "gang"—but he is guaranteed to win the admiration of his employer, the liking of any fine girl who knows him, and ultimately a place in the world.

Standards of morality differ the world over—but there are basic principles of decency which any of us can feel and work at. The girl who is willing to exchange a good night kiss in payment for a little attention from almost any boy who will take her out cheapens the value of her kisses. They simply become depreciated currency, following the law of supply and demand. Things that are too easy to get never have a high value.

The boy who will make a little light and facile love to every girl he meets cannot stand properly the temporarily attract. So there is no demand for his affections in high circles, and no worth while girl feels complimented by his attentions.

The clerk or stenographer who does not feel that her work is serious and should be taken seriously and that she must carry herself with dignity in her business relations, may be fact that she is in serious affliction, "Oh, you kid" by every office boy and fellow worker, but she is never going to be looked at with authority with the respect it would give if she were quietly asked, "Why do you look so tired?" she was above cheapening herself in her work relationships.

Between snobbery of a conceited snoot and dignity that is modest even while it is a wide gap. It would pay most of us to examine the gap and the position on either side of it.

To be worth something and to be quietly sure of it is a guarantee of getting on in the world. But no one will value you beyond your own valuation of yourself and the high principles of manhood.

DETECTIVE BURNS WITNESS

Tells of Tapping Wires to Seymour & Seymour
New York, June 1.—William J. Burns vouching for the witness statement of John Doe inquiry into the tapping of the telephone wires of Seymour & Seymour.

Burns told of installing a listening device at the request of J. P. Morgan & Co.

The witness was asked by John Seymour whether any letters found or conversations overheard in the offices had "any touch of international aspect."

"Only something about arms of ammunition in Mexico," replied the detective. He declined to give details.

The detective added that Martin Egan, of the Morgan firm, was "thoroughly disappointed" because his agency had been unable to find "the guilty man."

Burns was asked whether he had been employed by any Government. He replied that a man named Gaston P. Means, one of his employees, had done some work for his German Government. Means was not now in his employ, he added.

Fredrick Johnson, the next witness, was asked how he got information about J. P. Morgan & Co.'s dealings in war supplies.

"I did not have any," answered the witness. The detective attorney then read a letter signed by the witness addressed to the Humboldt Fibre Company in Tennessee, and stating "confidentially" that the Morgan firm was authorized to purchase 100,000 tons of linen in this country.

The witness said that he had read, but had signed at the request of G. B. Ruffin, the president of the firm.

Labeled, June 1.—The Norwegian steamer **Stavanger**, 3,045 gross tons, and owned in Europe, was sunk in the Mediterranean on Tuesday. Her crew was picked up and taken to Bonn, Algeria.

Visa Book for Road.
Labeled, June 1.—The Pull Company has announced that 100,000 copies of the new Visa Book is to be published in 1916.

ROMANCE IS EVER YOUNG

The most recent mysteries of science are the ones that receive most attention. The air is full of talk nowadays about the thrilling wonders of wireless telegraphy and aviation and subterranean transportation and submarine navigation. And very rightly, for these marvels. But, for the matter, so are some of the things which we have gradually grown so used to that we never see them at all. There is the railroad. Plenty of romantic mystery is to be found in the railroad yard of a great terminal. It is, first of all, a network of steel pathways which seem unbreakable. Trains come and go by devious ways, sometimes arms rise or fall in that one rectangular gesture of theirs. The President that shapes the ends of all this takes the form of men tugging at some very prosaic-looking levers in switch towers. To get still another effect, look at the yard by night, when few limiteds come sputtering through the dark when the only guides are soot pipes of multi-colored switch and signal lamps. The cars of night freights being made up trundle about. And the yard never sleeps. In its way it is as full of life as the jungle. Every locomotive is a dragon harnessed to man's service. The marvels of science are all about us, and the ones we have grown used to are just as remarkable as those of to-day and to-morrow.—Collier's Weekly.

Ill-Shaped County Act.

As we see it there is no occasion for either surprise, rejoicing or disappointment at the report of Judge Moore on the constitutionality of the ill-shaped county act.

While there were a lot of good people believing that there was room for a doubtful constitutional question involved, we have never been able to conceive how anybody who pretended to know anything about law could think such a thing.

It is possible to get up a case at law on whether a man has a right to eat breakfast seven mornings a week, and it is possible to make the defendant spend his money defending his right in the matter; but it is not conceivable that the courts could decide against his rights.

As our readers will all testify, The Enquirer has not allowed itself to become excited over this new county act as to who started it and the sinister selfishness of its origin; but we feel sure that it could amount to nothing, and we said so.

We sincerely sympathize with those of our Rock Hill friends who so earnestly desire a new county act, so much so that we are tempted to wish that they could get it; but we repeat what we have already said more than once, that the achievement of their desire under the present constitution is impossible.

If there is a lawyer in the state who honestly and truly believes to the contrary, he needs to be bored for the staples.

It has been appreciated for years that there is no other one desire that is stronger in the hearts of many than for a new county, and this present movement, in our opinion, is nothing more than a confidence game based on that desire.

Of course, we understand that Judge Moore's report is not final that the supreme court will have to pass upon the question; but there is not a chance in ten thousand that the supreme court will hold differently from Judge Moore.

ern side of the county, as well as in the eastern side; but to the best of our knowledge and belief all those efforts have been about as well nigh abortive as anybody could desire.

If there is any one evil from which York county needs to pray deliverance more than another it is another stirring up of sectional strife for the sake of the unpincipled and unscrupulous politicians who have long since lost all hope of ever getting anywhere on their merits, for the reason that they have no merits to get anywhere on.—Yorkville Enquirer.

ROOSEVELT'S WAR PARTY.

The people who want war with Germany, the people who want war with Mexico, the people who want war with Japan and the people who want an imperialistic republic with one-man government are all turning to Roosevelt. And why not?

Republicans created this issue by their attacks on the foreign policy of the President and by their deliberate substitution of the candidate of patriotism in their own preparations. Since Aug. 1, 1914, they have been engaged in the manufacture of public hysteria for partisan effect, and public hysteria runs toward Roosevelt as inevitably as water runs down hill. He is essentially the candidate of jingoism, militarism and imperialism, and when the Republican leaders, including Elihu Root, set those who criticise for the assumed full responsibility the consequences. Those consequences must now be faced.

If there were any intellectual honesty in the leadership of the Republican Party, Roosevelt would be nominated by acclamation at Chicago on a war platform and the deeds stripped of action. Either Republicans criticism of the President means that it is all snivelling hypocrisy. The Republican leaders cannot hope to do this, decreasing the President for being too proud to fight and at the same time denouncing Roosevelt for being too eager to fight.

The Old Guard can prevent Roosevelt's nomination at Chicago without another effort, look at the yard by night, when few limiteds come sputtering through the dark when the only guides are soot pipes of multi-colored switch and signal lamps. The cars of night freights being made up trundle about. And the yard never sleeps. In its way it is as full of life as the jungle. Every locomotive is a dragon harnessed to man's service. The marvels of science are all about us, and the ones we have grown used to are just as remarkable as those of to-day and to-morrow.—Collier's Weekly.

NOTICE OF ENROLLMENT FOR DEMOCRATIC PRIMARY TO BE HELD AUGUST 29, 1916.

Notice is hereby given that the books of enrollment for the Democratic primary for 1916 will be open with the secretary of each club on Tuesday, the 6th of June, and will close on Tuesday, the 28th of July. Enrollment books will be found at the residence or place of business of the secretary. Each voter must enroll at his nearest voting place.

The voting precincts, enrollment committees and secretaries are as follows:

Chester Ward 1.—F. P. Kirkpatrick, Secretary, J. L. Simmons and J. Edw. Orr. Boundaries: Ward 4 in the city limits, Capers Chapel road in the west, York road on the east, Lowryville-Yard road on the north.

Chester Ward 2.—W. B. Cox, Jr., Secretary, B. M. Spratt, Jr. White. Boundaries: Ward 2 in the city limits, Fish Dam Ferry road on the south, towship line on the north and Capers Chapel road on the east.

Chester Ward 3.—A. T. Henry, Secretary, J. C. Stewart, and C. C. McAlley. Boundaries: Ward 3 in the city limits, towship line on the east, south and west, Fish Dam Ferry road and Lancaster road on north.

Chester Ward 4.—S. C. Carter, Sec., G. R. Ball, Z. V. Davidson. Boundaries: Ward 4 in city limits, towship line on east, Lancaster road on south, York road and Lowryville precinct on north and west.

Richburg—J. O. Wylie, J. T. McCrorey, J. A. Drennan, Secretary.

Baton Rouge—Rob W. Wilkes, E. H. Wise, Secretary, W. H. Lipford, Hazelwood—Joe Wylie, Secretary.

H. W. Miller, A. Mayo McCrorey, Lando—J. W. Lyle, R. H. Westbrook Secretary, T. L. Kee.

Wilksburg—Geo. Wade, secretary, E. W. Wade, John R. Page.

Rodman—W. H. Henry, Secretary, R. F. Kee, R. M. D. Waters, Secretary, Rossville—E. W. Gibson, Secretary, T. E. Dye, J. C. G. Caldwell.

Great Falls—H. A. Tibbs, Secretary, W. T. Jackson, S. S. Hogan.

Edgemont—Cyde Hicklin, Secretary, Roy Murphy, Frank H. Wylie's Mill—J. H. Jordan, Secretary, Ernest Pittman, J. G. McCrorey.

Landsford—W. C. McFadden, Secretary, F. B. McFadden, W. S. Garrison.

Blackstock—H. A. Holder, Secretary, J. D. Mobley, W. S. Durham, Jr.

Leeds—W. W. Crosby, Secretary, T. E. McDaniel, M. Craylor.

Cornwell—J. S. McKeown, Secretary, J. Ed. Cornwell, H. O. Tennant.

Carters—Walter Simpson, Secretary, C. M. Adams, J. E. Carter.

Born to Dr. and Mrs. W. R. Wallace, Saturday, June 3, 1916, a son.

SCREEN Doors and windows—You will save money by purchasing out of our big stock. Chester Hardware Co.

Mrs. Allie V. Frye, wife of Mr. T. H. Frye, died at her home in this city last Wednesday and was buried in the Longtown section the following day. The deceased was a member of the Presbyterian church and was 66 years of age.

News reached the city this morning to the effect that the two negroes, Tom Hopkins and Jack Wherry, who left the county gang Sunday night, had returned of their own accord.

REPAIRS For mowers, rakes, and binders at Chester Hardware Co.

Mr. John M. Hemphill announces himself in this issue of The News as a candidate for the House of Representatives. Mr. Hemphill is well known throughout the entire county and has many friends. He is one of Chester's most prominent attorneys and would make an excellent Representative.

Mrs. W. A. Latimer, and daughter, Mary Elizabeth, left this morning for a three weeks visit to Columbia, Benetville and Florence.

Miss Mary McCullough, accompanied by Miss Irene Curlee, of Winnsboro, left this morning for Laurens to attend a ten days house party given by Miss Elizabeth Moxley.

Heartily recommends Dr. Register's treatment for Rheumatism to help others similarly affected. Was recommended to Dr. Register by neighbor, who had been cured.

Lamar, S. C.
Route 4,
Jan. 10, 1916.

Dr. W. R. Register, Columbia, S. C.
My Dear Doctor:

I wish to give you a testimonial in praise of your treatment for piles, with which I was afflicted. I was a sufferer from piles for a number of years. I used many kinds of patent remedies without avail, and the operation would be necessary, and I dreaded. Learning of your having cured Mr. R. M. Josey, my neighbor, and knowing you all my life, I took your treatment which cured me. This was last April and I have not been troubled with the piles since.

You may use this in any way you wish, with a view of helping others similarly afflicted.

Thanking you sincerely for what you have done for me, I am,
Your friend,
C. H. WATFORD,
Route 4, Lamar, S. C.
Farmer and Miller.

NOTICE OF DRAWING JURORS.

In compliance with an Act of the general Assembly of the State of South Carolina, approved on the 17th day of February, 1902, we, the Jury Commissioners of Chester county, in the said State, do hereby give notice that on Thursday, June 22nd, 1916 at ten o'clock A. M., in the office of the Clerk of Court of Common Pleas G. H., we will draw the following jurors to wit:

Thirty-six (36) petit jurors to serve during the first week of Circuit Court at the Summer term thereof.

J. E. CORNWELL, C. C. C. Pleas.
M. C. FUDGE, Auditor,
S. E. WYDE, Treasurer,
Chester, S. C. June 5, 1916.

WHENEVER

You "take a notion" that you need anything, come to us for it and you will find it—find it right in **QUALITY**, right in **STYLE**, right in **PRICE**.

Come into our store anyway. The beautiful things you will see and the low prices on them will put you in the notion to buy. It is a pleasure to us to show you our goods. When you need anything from hose to hair ribbons come see what we have got for you.

Rodman-Brown Company

MAKE YOUR OWN PAINT
Save 58 cts. per gal.

IT'S SIMPLE ... THIS IS HOW
Just mix 3 Gals. Lined Oil costing about \$2.70 into
4 Gals. L. & M. Semi-Mixed Red Paint, at \$2.25 per gal. 9.00
You then make 7 Gals. Pure Paint for \$11.70
It's only \$1.67 per gal.

Made with right proportions of Lead, Zinc and Lined Oil, to insure longest wear.

Use a gal. out of any L. & M. PAINT you buy and if not the best paint made, return the paint and get ALL your money back.

DEFINES WHISKEY

A young lawyer, who is a prominent prohibitionist, gives us what is said by those who have made the popular stuff and accused liquor to be the best description of blind tiger hickety yet devised. It is, says this spirited attorney, "violent in its inception, rank in its odor, disgusting in its effects and totally unfit for man, beast or devil.—Greenville News."

A far better definition than old Noah Webster gave, but perhaps if he had lived in this present time his definition would be the same.

WATCH CHILD'S COUGH

Cold, running of nose, continued irritations of the throat, coughing, if neglected may mean Croup, whooping cough, or even death. Don't take the chance—do something for your child! Children will take every medicine but they will take Dr. J. C. Ayer's Cough Syrup and without fail.

THE HOME TOWN

Some folks leave home for money
And some leave home for fame.
Some seek skies always sunny,
And some depart in shame.
I care not what the reason
Men travel east or west,
Or what the month of season—
The home town is the best.

The home town is the glad town
Where something real abides,
'Tis not the money-mad town
That all its spirit hides.
The stranger's scoff and flout it
And even jeer its name,
It has a charm about it
No other town can claim.

The home-town skies seem bluer
Than skies that stretch away,
The home-town friends seem truer
And kinder thru the day,
And whether glad or cheery,
Light-hearted or depressed,
Or struggle or weary
I like the home town best.

Let him who will go wander
To distant towns to live,
Of some things I am fonder
Than all they have to give.
The gold of distant lands
Could not repay me quite
For those familiar faces
That long the home-town bright.

Edgar A. Guest

The Clemson Agricultural College

South Carolina's School of Engineering and Agriculture

1,544 ACRES OF LAND. VALUE OF PLANT \$1,300,000. OVER 100 TEACHERS, OFFICERS AND ASSISTANTS. ENROLLMENT 950. EVERY COUNTY IN SOUTH CAROLINA REPRESENTED. THIRTEEN DEGREE COURSES. FIVE SHORT COURSES. TWENTY-SIX DEPARTMENTS OF INSTRUCTION. NEW AND MODERN BUILDINGS, EQUIPMENT AND SANITATION

NEXT SESSION OPENS WEDNESDAY, SEPTEMBER 20, 1916

PRESERVE THIS SHEET FOR REFERENCE

Education and Environment

The College is located in Oconee County at the foot of the Blue Ridge Mountains, on the homestead of John C. Calhoun, and later of his son-in-law, Thos. G. Clemson. The College is over 500 feet above the sea level, and the climate is healthful and invigorating. Temptations to dissipation or to spend money foolishly are reduced to a minimum.

The students are under military government and every effort is made to train up young men who will reflect credit on the College and on the State.

Religious Influences

The College contributes to the salary of four resident ministers, who conduct divine services and do pastoral work among the cadets in barracks. There is a flourishing Sunday School and Y. M. C. A. with two salaried Secretaries. A \$75,000 Y. M. C. A. building was completed January, 1916.

Requirements of Admission

No student will be admitted who is not at least 17 years old at the time of entrance.

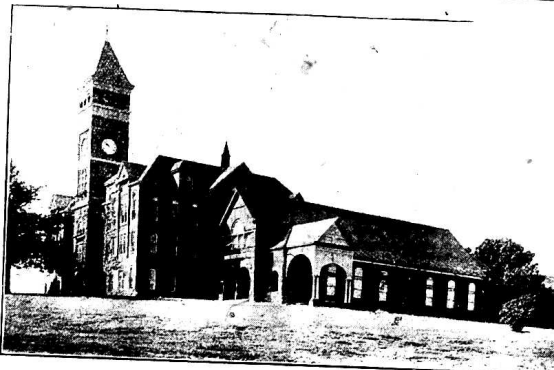

An honorable discharge from the last school or college attended is required.

No student will be admitted who is not reasonably healthy and free from contagious diseases, including tuberculosis.

Applicants for the Freshman Class must stand examinations either in their counties on July 14th, or at the College in September, unless they can fill out a prescribed certificate, furnished by the College.

A preparatory department is no longer maintained at the College.

Scholastic requirements are given in detail in the College Catalog.

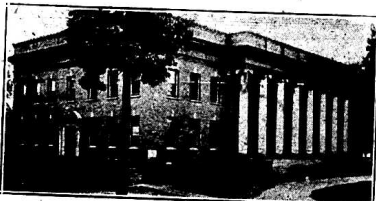

ADMINISTRATION BUILDING.

Scholarships and Examinations

The College maintains 168 four-year scholarships in the Agricultural and Textile Courses, and 51 in the One-Year Agricultural Course (October 10th to June 8th.) Each scholarship is worth \$100 and free tuition.

Scholarship and entrance examinations are held at the county court houses at 9 a. m., July 14th. Write for full information in regard to the scholarships open to your county next session, and the laws governing their award. **It is worth your while to try for one of these scholarships.**

Those who are not seeking to enter on scholarships are advised to stand examinations on July 14th, rather than wait until they come to College in the fall. Credit will be given for any examinations passed at the county seat.

AGRICULTURAL HALL.

COURSES OF STUDY

Clemson College offers thirteen four-year courses leading to the degree of Bachelor of Science (B. S.), and seven short courses during the regular session and the summer session.

FOUR-YEAR DEGREE COURSES

- Agronomy
- Botany
- Chemistry
- Animal Industry
- Entomology
- Veterinary Science
- Horticulture
- Soils

- Chemistry
- Mechanical-Electrical Engineering
- Civil Engineering
- Textile Engineering
- Architectural Engineering

SHORT COURSES (Regular Session)

- One-year course in Agriculture
- Two-year course in Textile

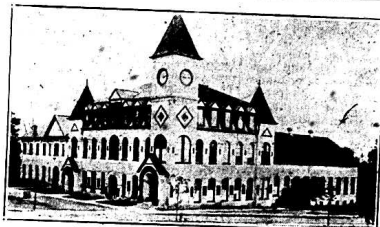

COST

The cost for any of the thirteen regular four-year courses or the Two-Year Textile Course is \$149.10 per session. This amount covers uniforms, board, room, heat, light, water, laundry and all fees, except tuition. Tuition is \$40.00 additional to those who are able to pay.

The cost of the One-Year Agricultural Course is \$122.05. This amount covers the same items as are listed above.

The cost of the Four-Weeks' Summer Course for Farmers and the Four-Weeks' Summer Course in Cotton Grading is \$19.00. This amount covers all fees, board, room, light and water. No uniforms are required.

Do not delay in making application to enter; you may be crowded out.

ENGINEERING DEPARTMENT.

Summer Short Courses in Agriculture

July 31st-August 26th, 1916.

Courses in Dairying, Animal Industry, Poultry Raising, Horticulture, Field Crops, Cotton Grading.

For Farmers, Teachers, Corn Club Boys and any one interested in Agriculture. The courses are arranged so that one may stay one week or four weeks.

Special courses for ministers in rural communities. (August 10th-August 18th, 1916.)

Send for leaflets giving details of the courses.

CHEMICAL LABORATORIES.

The One-Year Course in Agriculture

Begins October 10th and ends June 8th. It is designed to give the simple scientific principles upon which good farming rests.

Open to young men 18 years old and over who have worked three or more years on the farm.

There are 51 scholarships open to students taking this course. Examinations for the award of scholarships held by each County Superintendent of Education on July 14th.

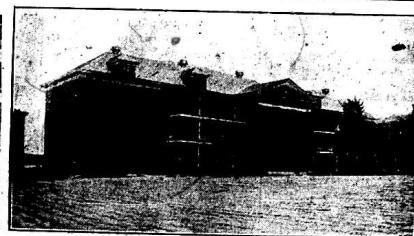

Send for full information.

TEXTILE DEPARTMENT.

CLEMSON'S HANDSOME

Y. M. C. A. BUILDING

Just north of the textile school at Clemson College there is reared a magnificent structure that is an important factor in the social and religious life of the student body at the State's agricultural and mechanical college. It is the building of the Young Men's Christian Association, one of the first association structures in the South, and one of the finest college association buildings in the country. It cost \$178,000 and was made possible by the generosity of Mr. John D. Rockefeller, who donated \$30,000 on condition that the balance should be forthcoming. The College trustees appropriated \$15,000, which left \$133,000 still to be raised. This sum was made up by the loyalty and contributions from cadets, faculty, alumni and former students. Some of the recreational features of the building are an up-to-date swimming pool, bowling alleys, games room, reading and lounging rooms, cafe and auditorium for lectures, concerts, moving pictures, etc. Ample provision is made in the building for the spiritual work of the association.

The entire building is to be made as attractive as possible for the cadets, giving them a home-like place where they can spend their unemployed time pleasantly and profitably.

CLEMSON'S PUBLIC SERVICE

During last fiscal year, more than half of the fertilizer tax was returned directly to the farmers in the form of public service. This service included the demonstration and extension work, the maintenance of two branch experiment stations, fertilizer inspection and analysis, scholarships, veterinary inspection, and control of contagious diseases, co-operative experimental work with farmers, protection against plant diseases and insect pests, designs of rural school buildings, etc. These lines of work cost last fiscal year \$81,323.39.

Any farmer in need of technical expert advice on agricultural subjects should not hesitate to write to the College for information. The inquiry will be referred to the proper expert, and a prompt answer will be received. The College officials write nearly 80,000 such letters annually, and send out nearly a half million pieces of printed matter.

THE STUDENT BODY.

Every year the number of applications to enter Clemson College exceeds the capacity of the institution. Early in August it is necessary to begin a "waiting list," as all available rooms in the barracks have been taken.

This session the enrollment (not considering the 198 enrolled in the summer school) was 512.

The following data on 755 of these men will be of interest:

Average age, 19.3 years.
Average height in shoes, 5 ft. 9.1 in.
Types: Blondes 450
Brunettes 485
Living in the country and in small towns and villages . . . 70.92
Living in cities of over 2,500 inhabitants 29.12
Born in country 64.02
Born in towns and cities . . . 34.92
Who have lived on the farm . . . 69.42
Parents are or have been farmers 81.02
Parents are now engaged in farming 51.52
Two hundred and twenty students now in College have had 212 brothers, of whom 121 graduated, to attend Clemson.
Occupations of Student's Parents: Farmers, 405; merchants, 75; clerks, 22; manufacturers, 18; physicians, 17; postal service, 15; teachers, 14; ministers, 11; railway service, 11; lawyers, bankers, 9; bookkeepers, 8; contractors, 7; insurance agents, 7; dentists, 4; miscellaneous, 157.
These figures speak eloquently of the fulfillment of the primary purpose of the College—to serve the agricultural and industrial classes of our people.

A PEN PICTURE OF CLEMSON COLLEGE

Works for Welfare in Many Ways.

Picture a county estate of 1,500 acres, with stately buildings placed at elevated points to form a great irregular circle of half a mile in diameter. Incess in this circle a beautiful grove of native oaks, threaded by smooth drive-walks. Turn to the north and for a background outline against the sky at a distance of 20 miles, range after range of mountains, the home of the Highlands, of Caesar's Head, Whitesides and other lofty peaks of the Blue Ridge. Think of these mountains as in summer clothed with verdure, standing out black against the horizon, and in winter often white with snow. Take for the southern boundary a river of Indian lineage and follow in its sweeping crookedness the swift and turbulent Seneca as it twists this way and that to mark the confines of the estate. And to this setting add broad expanses of river bottom lands green with corn, steep hillsides sinuous with level grassy terraces and cool pastures with winding brooks and graceful shade trees and you have a picture of Clemson College, not colored to suit the canvas of an artist, but as seen every year by nearly a thousand young South Carolinians, who seek, amid these surroundings, an education that will prepare them for self-respecting, self-supporting citizenship.

A Large Plant.

The college tract contains over 1,500 acres. On the property there are 23 principal public buildings, 70 dwellings and 64 minor buildings. The college has in its employ 116 teachers and officers. Its inventoried property is \$1,327,728.67. The officers of the college send out yearly over 35,000 letters and over 435,000 other pieces of mail matter, most of which give agricultural information. In addition to the parent station, the college maintains two branch experiment stations—one near Summerville and the other at Florence. One more to be situated in the sand hill sections of the State, just as soon as funds will permit, will complete a system representing the principal soil types of the State.

Clemson's Finances

The public has a right to the fullest information in regard to the fiscal affairs of a State institution.

It would not be possible to make a fuller or more detailed report than does Clemson College.

Not only does the Treasurer's annual report to the Legislature contain the usual summary of receipts and expenditures, but this report of 155 pages lists each individual bill paid out of College funds to whom.

Since the support of an educational institution is of interest and importance to its patrons, the following brief summary for the last fiscal year, taken from the Treasurer's report to the Legislature, should be of interest:

Income.	
Privilege tax on fertilizers	\$155,859.76
Morrill & Nelson funds (U. S.)	25,000.00
Interest on landcert. fund (U. S.)	5,754.00
Tuition from cadets	5,288.00
Interest on Clemson bequest	5,212.56
Sales, interest, rents, etc.	9,998.73
Total	\$205,857.84
Reserve fund	67,192.84
Total resources 1914-15	\$273,050.68

The above total represents what was available for the use of the College, including its local development and its Public Service. The South Carolina Experiment Station receives \$30,000 from the United States Department of Agriculture for conducting agricultural research, but none of this money can be used by the College. Likewise the \$10,000 from the Federal Smith-Lever Act can be used only for demonstration and extension work, under Federal supervision.

The money paid in by students for board, laundry, heat, light, and water, medical attention and incidentals, is held in trust by the College for the use of the cadets, and is not used for College expenses.

The following is a condensed summary of expenditures:

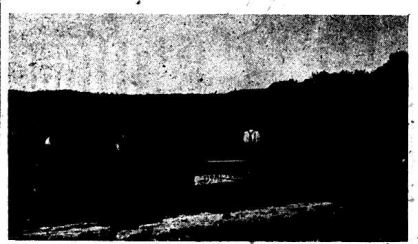

Expenditures.	
1. For operating expenses of College (salaries of teachers, laborers, insurance, coal, shop and laboratory materials, etc.)	\$149,836.82
2. For buildings, permanent improvements and additions to shop and laboratory equipment	37,688.33
3. For public work (fertilizer inspection and analysis, veterinary inspection, scholarships, branch stations, etc., etc.)	81,323.99
Total	\$268,849.64

The balance in the fertilizer tax to \$155,859.76 would have necessitated cutting down the amount invested in public service, but for the balance of \$67,192.84 which had been husbanded from previous years. During the present fiscal year the College is continuing the public service by borrowing \$2,400 to supplement the fertilizer tax which this year is not likely much to exceed last year.

AWARD OF SCHOLARSHIPS AND FREE TUITION

It has been the practice of the trustees not to recommend any young man for the award of a scholarship unless his parents signed an affidavit that they were unable to pay for their son's education, and the tax returns showed an unencumbered property

valuation bore out the affidavit. Free tuition was granted only on the certificate of the County Auditor, based upon an affidavit of the parent that he was unable to pay it. This year the State Board of Charities and Corrections is charged by law with investigating the financial standing of all applicants for scholarships and free tuition, and reporting their findings to the board of trustees.

WHEAT FIELD COLLEGE FARM.

RESULTS OF TOP-DRESSING

Best Times to Apply Nitrate of Soda to Corn, Cotton and Grain.

Results obtained at the South Carolina Experiment Station show that a top-dressing with nitrate of soda gives good results on cotton, corn and small grains. The increase is most marked during a wet year, because this nitrogen is already in an immediately available form, while the rotting of the organic sources does not proceed as rapidly as usual on account of the excess of moisture in the soil. The amount to apply per acre varies with the fertility of the soil and the previous fertiliza-

tion, but we would suggest from 50 pounds per acre on poor land up, according to the fertility of the soil. Early applications are coming into favor. We recommend that the soda be applied to corn when it is between knee and waist high, to cotton just as the shapes begin to form, and to small grain in March. Care should be taken not to sow nitrate of soda on wet plants, because it is likely to scald them. It is best to apply it just after a rain, when the moisture had dried off the leaves of the plants, then cultivate with a mulch forming implement as soon as the ground is dry enough to plow.

CORN CLUB BOYS IN THE SUMMER SHORT COURSE.

EXTENSION AND DEMONSTRATION WORK.

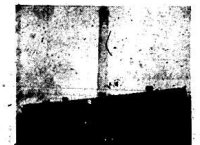

The Demonstration and Extension Work is under the direction of Mr. W. W. Long, who is jointly appointed by the College and the United States Department of Agriculture.

The funds available for this work last fiscal year were as follows:

From Clemson College	\$20,120.48
From Smith-Lever Act (United States)	10,000.00
From U. S. Dept. of Agriculture	34,000.00
From counties and several agents from other Southern colleges	2,173.24
From individuals	254.16
From organizations	5,716.55
Total	\$72,670.51

In the Demonstration work there are three district agents and 46 county agents.

Out of the 46 county agents, 28 are Clemson graduates and several are from other Southern colleges. In the extension service there are six experts furnished by the United States Department of Agriculture and eleven college officers.

POWER STATION.

SUMMER SHORT COURSES

A Pleasant and Profitable Vacation.

Clemson College is offering a four weeks' course in agriculture and cotton grading. The course begins July 31st and ends August 26th.

The school will be arranged so that one can get what he most needs. During the first week the subject of dairying will be taught, the second week animal husbandry, and the third horticulture. For the last week of the course agronomy, which includes field crops, soils, fertilizers, etc., will be the chief subject.

A special course for teachers of agriculture has been arranged. Four weeks' instruction will also be given the winners in the Boys' Corn Club work of the State.

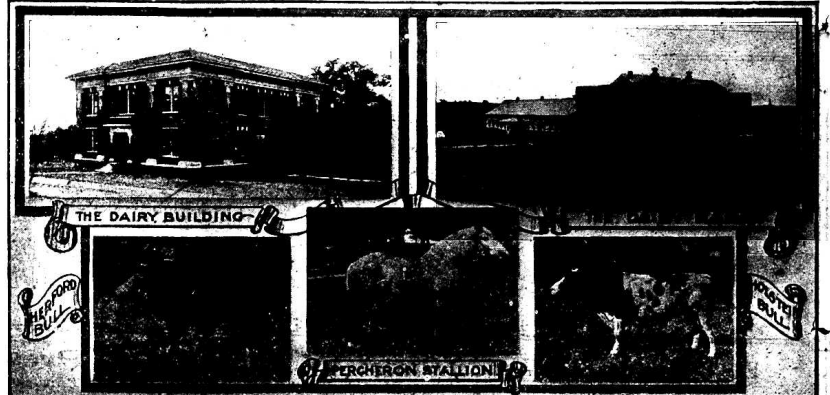

A ten-day course for ministers interested in rural affairs—August 10th to August 18th, inclusive—has been specially designed for them.

The entire equipment of the agricultural department will be at the disposal of those taking the four weeks' courses. The farm, dairy, dairy barn and the laboratories will be open for use in instruction.

Popular lectures will be given each evening by some member of

the faculty or other lecturer prominent in State or national affairs.

The college library, with its 30,000 books and many popular magazines, will be open during the whole four weeks.

THE DAIRY BUILDING

HERRING STATION

"THE BIG STORE"

SPECIAL INVITATION

You are especially invited to visit our store
Thursday, Friday and Saturday
 to meet **MISS LILLIAN DUNOVAN** an expert **TEA DEMONSTRATOR.**
Miss Dunovan will serve White House Tea during these three days.

Leola Kee who graduated from College, Columbia is at home for the summer.

MRS. buy little Tudor Rompers for their children, at The S. M.

Aliza Macaulay, who has been in the Chester Sanatorium for some time is improving.

M. C. Wilkes, his returned from Ridgeville, S. C. has been teaching the past

HAVE just received by express a shipment of Evenings. Call and see them at the S. M. Jones Co.

Charles Brock and little grandson, who have been in the city returned from Anderson Monday.

W. Hafner and Miss Rose have returned from a visit to W. F. Easthill at Lincoln.

Tom Hopkins, made their escape from the county jail Sunday night. Wherry was serving a term for murder, while Hopkins was on for breaking into the Durham store at Blackstock.

The home of Chas. Stevenson on the McAlley Bros., farm near Evans, was destroyed by fire Friday night.

Mrs. L. D. Melton went to Orangeburg Sunday for a few days stay.

Jim Johnson, colored, was found dead on the Seaboard Railway tracks a few miles above the city yesterday morning. Both legs were cut off up. Just how the accident happened is not known.

Mrs. John C. Moore ended the Chester Sanatorium last Friday for treatment.

Mrs. W. M. White is visiting relatives in Rock Hill.

Miss Evelyn Sanders spent Sunday in Rock Hill with Misses Blanch and James Sanders.

A hail storm Saturday evening did considerable damage near Catawba Junction.

The annual Filbert picnic will be held this year on Thursday, August 3rd. On this occasion there will be several political speakers.

Miss Daisy Lee Jones has gone to Atlanta, Ga., to attend the wedding of her cousin, Miss Genevieve Len. fall Webster, to Mr. William Henry

There will be a meeting of Chester Lodge, No. 18, A. F. M., tonight for the purpose of conferring the E. A. degree.

Miss Lula Good has returned to her home in Chester after spending several days with relatives and friends in the Bulluck Creek community.—York News.

Mr. and Mrs. R. T. Allison, of York, spent Sunday in Chester with relatives.

Mr. O. A. Barringer, of Concord, N. C., spent Sunday in the city.

Mr. C. R. Cowan, of Rock Hill, was a Chester visitor Saturday.

Mr. Pinkston Nail will leave tomorrow morning on a visit to Norfolk and other points. Mr. Nail while away, will look after some important business for the firm of W. B. and Pinkston Nail.

Mrs. Mary Patterson, Jr., will be hostess for the Forty-two club Wednesday afternoon, at 4.45.

Mr. I. H. Norris is attending the Ball Mosaic Convention at Chicago this week.

Mr. J. L. Glenn and Miss Elizabeth Glenn are attending the Wofford commencement at Spartanburg.

Mrs. J. L. Glenn who has been visiting a few weeks in Washington, D. C., will be home next week. Mrs. E. E. Haynes is also attending the commencement, at Spartanburg.

Lynchburg, Va., where Miss Alice Glenn was one of the graduates, accompanied by the latter, returned home this morning.

Another interesting meeting of the Domestic Science Club was on Thursday afternoon, when Mrs. C. C. Edwards proved a very delightful hostess. This being the last meeting of the year, officers for the new year were elected as follows: President, Mrs. T. S. Leitner; first vice president, Mrs. E. H. Hill; second vice president, Mrs. John L. Williams; secretary, Mrs. Mary Patterson, Jr.; treasurer, Mrs. Robt. Gage. Mrs. E. P. Cahoon was elected member of the club.

The Better baby contest, which was recently gotten up by the two domestic science clubs, was pronounced a decided success and thanks were extended Mrs. L. D. Melton for the lovely Duffel dance given by her grade of school children. The subject for the afternoon study was "Canning Fruits and Vegetables," and a well prepared paper on "What Canned Fruits and Vegetables Mean to the Winter Dietary" was read by Mrs. G. W. Gage. A demonstration of canned fruits was given by the hostess. A salad course and ice was served after the program had been completed, the hostess being assisted by Misses Maggie Edwards and Virginia Alexander.

Another colored detective has invaded the city of Chester and in consequence of his presence nine of Chester's colored citizens are charged with having sold "spirits." The Mayor's court is now without doubt, the busiest place in Chester.

Prof. M. M. Wilkes met with an automobile accident on the West End road about two miles from the city last night. In turning his car he backed off into a ditch which turned the car over. Fortunately no one was injured. The car was only slightly damaged.

The election for Alderman in Ward 1 yesterday was very quiet, there being only about 25 voters cast. Mr. H. S. Adams was the only aspirant for the office, which was recently made vacant by the resignation of Mr. J. B. Westbrook.

MOWERS AND rakes.—The best line at Chester Hardware Co.

Miss Daisy Watson, who has been the guest of Mrs. J. R. Carson, on West End since the closing of Winthrop College, left Tuesday A. M. to attend the Y. W. C. A. Conference at Blue Ridge, N. C. before returning to her home in Beaufort, S. C.

Mr. and Mrs. R. V. Bray, Jr., of Beaufort, S. C. are the guests of the former's sister, Mrs. J. R. Carson, on West End.

\$5.00 in merchandise, FREE. HOUGH'S Jewelry Store, GUESS

Mr. I. H. Norris is attending the Ball Mosaic Convention at Chicago this week.

Mr. J. L. Glenn and Miss Elizabeth Glenn are attending the Wofford commencement at Spartanburg.

Mrs. J. L. Glenn who has been visiting a few weeks in Washington, D. C., will be home next week. Mrs. E. E. Haynes is also attending the commencement, at Spartanburg.

Mr. I. H. Norris is attending the Ball Mosaic Convention at Chicago this week.

Mr. J. L. Glenn and Miss Elizabeth Glenn are attending the Wofford commencement at Spartanburg.

Mrs. J. L. Glenn who has been visiting a few weeks in Washington, D. C., will be home next week. Mrs. E. E. Haynes is also attending the commencement, at Spartanburg.

Mr. I. H. Norris is attending the Ball Mosaic Convention at Chicago this week.

Mr. J. L. Glenn and Miss Elizabeth Glenn are attending the Wofford commencement at Spartanburg.

Mrs. J. L. Glenn who has been visiting a few weeks in Washington, D. C., will be home next week. Mrs. E. E. Haynes is also attending the commencement, at Spartanburg.

Mr. I. H. Norris is attending the Ball Mosaic Convention at Chicago this week.

NEGRO GETS THRASHING.

There was quite a little excitement on the streets of Chester yesterday morning when it became known that Bob Grant, colored, had been taken from his home yesterday morning about one o'clock by a party of men in two automobiles. The exact course and just what had happened to Grant was not known in the city until about nine o'clock when a wagon drove up with Grant in it.

From information obtainable Grant was conveyed to a batch of woods about two miles south of the city where he was given a sound thrashing, which disfigured his face to a considerable degree. Grant, it is understood, was thrashed for writing an insulting note to a white woman of this city.

MEETING PALMETTO LITERARY CLUB.

The last meeting of the Palmetto Literary club for the year 1915-1916 was held on Friday afternoon with its president, Mrs. W. H. McNairy, on College street. Mrs. C. C. Edwards, secretary, presided. The business matters were taken up first, discussed and disposed of. Mrs. Sam W. Klutz, who represented the club at the Federation meeting in Anderson recently, gave a full report of the business and social features of the great body of women who are attempting to do great things, the greatest however is the movement on foot to stamp out illiteracy in South Carolina and establishment of a home for the feeble-minded.

The literary program was next in order and was taken up as follows: "Bagdad—A Watch Tower of the Towers," Mrs. Turpinseed; "Rare Old Rags" and "Copper Smiths and Shoemakers," and "Restoring the Garden of Eden," Mrs. H. E. McConnell; and "How the Arab Women Live" and "Bourain Superstitions, Live" and "Bourain Superstitions," Mrs. Sam W. Klutz. Mrs. Bessie Brice read a splendid paper on "Civil Service Reform" which was presented by Mrs. R. L. Douglas. During the social half hour which followed Mrs. H. Glenn assisted the hostess in serving a delicious waffle course.

HOW LONG will the old Mill run? See HOUGH'S Show window.

Miss Minnie Lee Garrison of Edinboro, county agent of the home demonstration work, spent several days in the western part of the county last week. Quite a number of the young and other clubs were visited on this trip, and the outlook at each was found to be very encouraging. Miss Garrison has recently purchased an automobile to facilitate the work of visiting the various clubs.—York News.

GUESS WHAT? See show window at HOUGH'S.

Mr. Foote Brawley, who holds a responsible position with the Canada Explosive Co., of Nodel, Ontario, Canada, spent the week-end in the city with his mother, Mrs. Mary Brawley. The plant in which Mr. Brawley is employed is one of England's largest ammunition plants.

BASEBALL GOODS—See our big line of all kinds of athletic supplies. Chester Hardware Co.

The Mary Adair Chapter D. A. R. will meet with Mrs. J. J. Stringfellow tomorrow morning at 10 o'clock.

BINDER TWINE in any quantity. Chester Hardware Co.

FOR HOUSE OF REPRESENTATIVES.

I hereby announce myself a candidate for the House of Representatives from Chester county, subject to the result of the Democratic primary. JOHN M. HEMPHILL.

TILLMAN SEES LESSON IN GREAT SEA FIGHT.

Will Insist on Greater-Naval Building Programs When Senate Handles Bill.

Washington, June 4.—Washington papers today favorably discussed the plans of Senator Tillman, chairman of the naval affairs committee of the senate, announced last night, to insist upon a greater naval building programme. This decision was reached by Senator Tillman upon reading details of the big sea fight of last Wednesday between Great Britain and Germany.

The Times this evening said: "Chairman Tillman of the senate naval committee has risen with commendable promptness to the consideration of the lessons of the North sea naval battle as affecting the naval programme of this congress. Spending a large part of yesterday with the authorities at the navy department he announced last night that his committee would add to the list already named in the house bill a further increase of the fleet by two dreadnaughts, where the house provided none, an additional battles cruiser and a flotilla of dirigibles similar to the German Zeppelins, a large number of aircraft and presumably an increased number of submarines.

"Money," said Mr. Tillman. "Of course it will cost money but when a naval battle comes the side that gets whittled drops millions and millions and is humiliated besides." The reports of the North sea engagement must have a determining influence on the final makeup of our naval programme. Experience will here, as usual, be a most excellent teacher with other nations paying the pedagogic salary."

"AS IN A DREAM."

One of the Features at Dreamland Theatre Wednesday.

Donald Robbins is a settlement worker in the slums. Among others whom he helps and cares for is Evelyn Wilson, a street-shop worker, who has been ruined by Bronson Powers, a son of the idle rich. Bronson Powers is the fiance of Elaine Cameron, factory and sweatshop owner, Bruce Cameron, a narrow-minded miserly man whose sole use for his immense wealth is endowment memorial libraries to perpetuate his own fame.

One day Evelyn Elaine, the money-monger's daughter, is out riding, she has a fall from her horse, which affects her memory. She wanders into the slum district and after coming into contact with many dangers, is saved and cared for by Donald Robbins, who takes her to his home as he has done the unfortunate Evelyn Elaine goes to work in one of her own father's factories and helps with the support of the little family.

Meanwhile Cameron makes every effort to find his daughter. Robbins sees in the paper the item referring to the mysterious disappearance of Elaine Cameron and confirms his suspicion that she is the daughter of the oppressor of the laboring classes. He is immediately moved to return her to her father, but then realizes that God may have sent her into the slums for a purpose. He and a committee wait upon Cameron in an endeavor to persuade him to withdraw the order for closing down his shops for two weeks and grant a fairer wage to his workers. Cameron refuses, but offers to return to a memorial library. Angered, Robbins plans to play his trump card and under threat, forces Cameron to accompany him to the slums, where, when he shows the terrible conditions which are the result of his industrial cruelty and power.

Meanwhile, Bronson Powers has been attracted by the charms of Elaine, and not recognizing her in her new guise, covets her away with his legions. He plans to marry her. Robbins plans to show her to her own daughter and her condition as a climax to his object lesson, but learns from Evelyn what has occurred. He and Cameron break in upon Powers just as he is about wrong his own fiancee. He is not to recognize, being crazed, as Joe drink Cameron learns the truth and tries to get his daughter to return to him, after denouncing his lawless son-in-law. The girl has learned to love Robbins and refuses to be led by him. She and Robbins are finally married and make ester the benediction of the laboring class.

HUGHES STRONGEST CANDIDATE.

Ball Major Leads Admits Price That Judge is Leading.

Chicago, June 2.—Special Police of Washington State, a brother of George W. Ferguson, the ball major, had the satisfaction of being named as the strongest candidate for the position of judge in the election of June 11.

SUNDAY SCHOOL.

Lesson XL—Second Quarter, For June 11, 1916.

THE INTERNATIONAL SERIES.

Text of the Lesson, Gal. vi, and 1 Cor. ii—Memory Verses, 1 Cor. ii, 9, 10. Golden Text, 1 Cor. ii, 10—Commentary Prepared by Rev. D. M. Stearns.

As there is a revelation and all important line of truth running through both the lessons for today, we will consider both, and the heart of both seems to me to be the Spirit controlled life for those who are truly redeemed. We were recently studying a lesson concerning our survey and a great council, all because of circumlocution, and now we read that "in Christ Jesus neither circumcision availeth anything nor uncircumcision, but a new creature" (Gal. vi, 15). The essential thing is to be "in Christ Jesus," the Son of God, who loved me and gave Himself for me, who hath redeemed me from all iniquity, by the law, being made a curse for me; who gave Himself for my sins that He might deliver me from the present evil world (Gal. ii, 20; iii, 13; i, 4). Then the words of Gal. vi, 14, should be ours and the daily life to be a manifest straining (not in the liberty, whereunto Christ hath made us free, the "not I but Christ" life, the world crucified to us and we to the world (v, 1; ii, 20).

Because of the fact of our sinful nature, that remains in every believer there is a constant conflict, but the Holy Spirit who dwells in the believer will keep him from doing the things which the flesh would prompt him to do (v, 17). (As believers we must constantly "walk in the Spirit, be led of the Spirit, live in the Spirit, and thus manifest the fruit of the Spirit, to the glory of God (v, 18, 22, 25). There is a sowing and a reaping in every life, and it is either the old life of the new, the flesh or the Spirit, resulting in loss or gain (v, 8). We will surely reap what we sow, and the harvest may be large for good or evil (Ephes. vi, 7; i, 12; Prov. xxii, 8). May our aim always be to gather fruit into life eternal and never faint or grow weary, but go on in patient continuance, for the reaping time will surely come (Gal. vi, 9; John iv, 38-39; Rom. ii, 7; 1 Cor. xv, 58).

Referring to the lesson in Corinthians, the truths are just the same. Believers are by the grace of God sanctified in Christ Jesus, called saints, and in Christ Jesus have wisdom, righteousness, sanctification and redemption, so that there is no one and no thing that counts against us. The wisdom of Christ and Him crucified (1 Cor. i, 2; 29-31; ii, 2). We have here, as in the other lesson in Galatians, the flesh and the Spirit, or the wisdom of the world and Jesus Christ, who is the power of God, and the wisdom of God, and they are always contrary; the one to the other (1 Cor. i, 21; ii, 5). We know much of the wisdom of this world, being brought up at the feet of Gamaliel, but he set aside all the wisdom of men that he might know the wisdom of God (1 Cor. ii, 4, 5).

We remember that Moses, being learned in all the wisdom of the Egyptians, had to keep sleep for forty years in the school of God that he might know the wisdom of God. The wisdom of Egypt could not interpret the dreams of Pharaoh, but the wisdom of God, in Joseph easily could, and did. All the wisdom of Egypt could not tell the king what he had dreamed, nor the meaning of his dreams, nor interpret the enigmata on his wall, but the wisdom of God, in Daniel easily did all. The wisdom of this world never has been able to do and cannot now interpret the things of God for the things of God knoweth no man, but the Spirit of God (1 Cor. ii, 11). His own scholarship, however great, unless under the control of the Spirit of God, is wholly unable to understand the things of God.

The greatest scholar that earth can produce, unless born again, is simply a natural man, and to him the things of God are only foolishness (1 Cor. ii, 14). But the most unlearned and ignorant in the things of this world's wisdom may be the Spirit of God know the things of God. The wise man, in the time of our Lord, spoke of the things he had learned, and they called Peter and John unlearned and ignorant men (John vi, 67; Acts iv, 13), so those who may be despised by the world, who are not thought to be able to do anything, should find comfort in this. While we are in the world, we are in the world, and we are called into fellowship with Him (1 Cor. i, 7, 9), and this is not the fellowship to be counted vain and ignorant because we take the Bible literally, believe it, and that that God means what He says, and that the things of God are good sense we need seek no other sense. We have received the Spirit of God that we may know the things that are freely given to us, which neither eye nor ear nor heart of man hath seen or heard or imagined, and thenceforth in the power of which His to endure patiently till He come (1 Cor. ii, 9-12). Compare last, iv, 4, from which part of this is quoted and add the revised version of the same text, the saving and keeping of Gal. vi, and the building of 1 Cor. iii, 9-11, and the possibility of the same thing being done, and you will be saved. Salvation can only be obtained as a free gift from God, apart from any works or efforts on our part. We are to be saved by His grace, through the faith of His word, and we are to walk in (Eph. ii, 8, 9). There are no

The "Clubby" Smoke

You start something lively when you produce "Bull" Durham in a crowd of live wires and start "rolling your own." That fresh, mellow-sweet fragrance of "Bull" Durham makes everyone reach for "the makings." A hand rolled "Bull" Durham cigarette brings over with zest and snap and the sparkle of sprightly spirits.

GENUINE "BULL" DURHAM SMOKING TOBACCO

Made of rich, ripe Virginia-North Carolina leaf, "Bull" Durham is the mildest, most enjoyable tobacco in the world. Its unique aroma and pleasing flavor give you wholesome, lasting satisfaction.

"Roll your own" with "Bull" Durham and you'll discover a new joy in smoking.

STEERING GEARS

Your car's steering gear is a vital part—it on it depends your life and the safety of your car. If your steering gear has too much "play"—if it is loose or too tight—if the tie rod connections are loose—the car should be placed in our hands to remedy these faults, and the sooner the better.

Our mechanics know how to repair these important parts—they ARE competent and expert—and our charges are not unreasonable. Auto repairing of ALL kinds done RIGHT here.

Fennell-Young Motor Co.

The Woman's Missionary Union of the first division of the Second Baptist church, Sunday May 28, with delegates present from our ladies societies and other organizations of the churches in the Division. Two sessions were held, morning and afternoon; dinner was served on the grounds.

THE ACHE OF HOUSE CLEANING

The pain and soreness caused by brush, over-straining and strained house cleaning is now avoided by using the new method of cleaning by Fennell-Young Motor Co. This new method is a great relief to the housewife and is a great help to the housewife who is unable to do the work herself.

WATCH CHILD'S COUGH
Colds, running of nose, continued irritation of the mucous membrane if neglected may mean Catarrh later. Don't take the chances—do something for your child. Children will not take every medicine but they will take Dr. King's New Discovery and without bringing or tearing. It's a sweet pleasant Far Syrup and so effective. Just half a teaspoonful will eliminate the worst cough. Always the first dose helps. Always prepared, no mixing or fuming. Just ask your druggist for Dr. King's New Discovery. It will safeguard your child's health and keep him from coughing through the winter.

CASTORIA

\$2.50 FOR \$1.50

WE HAVE MADE SPECIAL ARRANGEMENTS WITH THE PROGRESSIVE FARMER, THE LEADING FARM PAPER OF THE SOUTH, WHEREBY WE CAN OFFER THE SEMI-WEEKLY NEWS AND THE ABOVEMENTIONED PAPER FOR ONE YEAR AT \$1.50.

*You Can Make
\$500⁰⁰ More A Year Farming.*

In 1900 each farm in the SOUTH Atlantic States produced \$484 worth of products. In 1904 each farm in the NORTH Atlantic States produced \$984 worth of products.

The Yankee farmer makes \$500 more a year than we do. We are as smart as he is and must learn to make this extra \$500, too. ...

THE PROGRESSIVE FARMER

Will carry every week for the next six months notable articles by Prof. W. F. Massey, "the Grand Old Man of Southern Agriculture" on

"\$500 More a Year for the Southern Farmer: How to Get It"

HERE ARE SOME OF THE SUBJECTS PROF. MASSEY WILL DISCUSS, EACH ARTICLE TELLING HOW DO THAT JOB:

1. We Must Inquire Why We Make Less Than the Northern or Western Farmer.
2. We Must Make Our Own Lands Richer.
3. We Must Diversify So As to Make the South Feed Itself.
4. We Must Use More Horse Power and Machinery.
5. We Must Learn Fertilizer Values and Buy Fertilizers More Wisely.
6. We Must Improve Our Methods of Cultivation.
7. We Must Make Deeper Corn Yields.
8. We Must Make Cheaper Pork and More of It.
9. We Must Have More Hens and Fewer Gallies.
10. We Must Have All-the-year-round Gardens.
11. We Must Learn Principles of Flooding and Moisture Control.
12. We Must Make Our Own Hay and Grow It Well.
13. We Must Put the Stubble Lands to Work.
14. We Must Learn Better Methods of Raising Cows.

15. We Must Keep Learning as Long as We Live.
16. We Must Raise Abundant Winter Foods—Potatoes, Fruit, Peas, Beans, Turnips, Etc.
17. We Must Make Boys and Girls Partners in Farm Work.
18. We Must Learn Greater Economics in Farm and Home Management.
19. We Must Learn Better Business in Buying, Selling, and Keeping Accounts.
20. We Must Give More Attention to Pastures and Meadows.
21. We Must Grow More Winter Cows, Crops.
22. We Must Drain Our Lands Better.
23. We Must Grow More Wheat, Oats, and Rye.
24. We Must Study Plant Breeding and Seed Selection.
25. We Must Farm So as to Keep Land, Teams and Hacks Busy Twelve Months a Year.
26. We Must Adopt Wiser Methods of Raising Land.

And Prof. Massey's page is only one of fifty features that have made The Progressive Farmer famous as "The Farm Paper with the Punch."

It suits every member of the family—not only giving the farmer himself the best help, but also providing the best farm woman's page in America and a superb Young People's page. Order The Progressive Farmer now and make your start toward "\$500 More a Year"

(The importance of raising more livestock will be discussed in a later series of articles by Dr. Tait Butler.)

A New Doctrine

It seems to us that a new doctrine is floating through the very air we breathe now-a-days, and it is something like this: First: If you don't give all you have away, you know where you are going. Second—The length, breadth, and depth of a man's piety, in this day and time, is measured by the amount of money he gives to the church, regardless of how he got it. Third—Some preachers will buy 5 cents worth of goods from a merchant in a year's time provided that merchant sends the preacher a ham and a sack of flour the first of every month. Fourth—Some preachers after buying 5 cents worth of goods every twelve months from a merchant, will preach about brotherly-love and hearty co-operation for years and years to come. Fifth—Most every time a man wishes to give preachers money when they ask for it, he is promptly held up as an object of ridicule, and preached into hell, in the twinkling of an eye. Now please hear our brief comments on this whole matter. First: The great principles for which our forefathers fought are disappearing one by one, and the people of the United States instead of being a free and independent people, are fast becoming the subjects of the Czar of Russia and the Pope of Rome. Second—These frequent and unreasonable appeals made from some pulpits these days, will eventually destroy the spirituality of our churches. Third—We believe in missions, and we contribute regularly every Sunday towards their purpose, but any scheme of spectacular appeal, that has a great tendency to make the people neglect their honest obligation to the Beef Market, The Grocerystan, The Baker and the candle stick maker, in order to raise money to send across the ocean, has no more religion in it than you will find in the Rotterdam Pike of Hell.

W. R. NAIL.

Semi-Weekly News—\$1.50 a Year

The Short Course for the Canning, Poultry and Bread Club girls begins on Monday June 12th and lasts through 15th. I am expecting about 110 girls during that time and homes have been provided for only 80 of these. Let's see if Chester can't provide homes for all of these little girls, as other towns in the State have done and are doing. Those of you that can take any of the girls during that time—I would be glad to get your name and the number you can take by Saturday June 10th phone 100 or drop me a card. Let's make this Short Course the best in the State. Thanking you for your past cooperation,
Jo YARBROUGH,

Program for Short Course.
Monday June 12th—Morning Session
9 to 9:30 Devotional Exercises—Led by Dr. H. A. Bagby.

CLEANLINESS

Our Watchword!

Thousands of people die annually from germs of disease that are communicated to them on account of their clothes being washed under improper conditions. Pellagra, tuberculosis, and other diseases, just as serious and far more hideous, are communicated this way. Can you afford to run the risk of contracting disease in this manner? If not, let us do your washing. Our plant is guaranteed to be absolutely clean and sanitary, and we invite the most rigid and searching investigation.

Special Low Rate on Flat Work and Family wash.

Plant being Improved and enlarged.

Nothing too good in the way of late machinery for us.

COUNTRY WORK
A SPECIALTY

Death of Mrs. James Sexton.

Mrs. Mary McDonald Sexton, wife of Mr. James Sexton died at her home in this city Saturday afternoon and was buried Sunday at Hebron cemetery, the services being conducted by Rev. R. Roy Brown.

Mrs. Sexton was about 57 years of age and was a devoted member of the Presbyterian church. She is survived by her husband, three brothers and three sisters, Messrs. Thomas McDonald and Daniel McDonald, of the Stover section, and Madison McDonald, of Blackstock and Messrs. Louisa and Jane McDonald and Mrs. J. M. Bankhead, of Stover.

She leaves many friends who sympathize with the family in their loss.

The Chaminade Club held its usual monthly meeting Monday evening with Miss Ellen Hamrick. The program, which was well rendered and much enjoyed, was as follows:

"Baccante"—Ethel—Miss Mary McCallough.
"The Wagon A Race"—Miss W. W. A. Bagby.
"Miss Bernice Carpenter."
"Drama Dramatic"—Miss M. A. Hamrick.
"The Pale Moon"—Miss W. W. A. Bagby.
"The Wagon A Race"—Miss W. W. A. Bagby.
"The Wagon A Race"—Miss W. W. A. Bagby.
"The Wagon A Race"—Miss W. W. A. Bagby.
