ALL MUST IOLL.

The club rolls show open and every citizen who sells or votes in the primaries thunders against it. The voter to appear before the secretary the club in person, must write full name, occupation, address and home number. All this must be done before he is able to vote. He must be 21 years of age, must have resided in Chester two years in the county six ms, and in the precinct 60 days prior the election. No secretary can refer any voter who does not measure to these requirements.

The books will re-open for five to ten days. Everybody is invited. Now is the best time to attend to this all important matter.

WOMEN HEALTH OFFICERS.
Monroe, North Carolina, is to have a woman health officer. She has already sounded the bugle. We predict that there will be material improvement in the sary condition of this North Carolina.
It is generally said that women are more apt to die duty, regardless of whom it offends, than men are. In doing their devoirs, where the chips fall, so with men—they usually look out to see whether or not the performance of their duty will offend "pet" so to speak.

New Zealand, Norway, Australia, the first three countries with the lowest death rate, are woman-suffrage countries. Where you find the women "in the se" you find a low death rate.

It is a common thing to hear an American say, "The U. S. is the greatest country in the world." That sounds good but in the United States we spend \$10,000,000 a year to protect babies, \$10,000,000 a year to protect hogs, long will such a condition exist in this great country of ours? Her Kaufman says, "Whenever and wherever man has been sufficiently disfigured with existing efficiencies, any results have followed."

TELLING THE TRUTH.
It has been charged and again by two-by-two police that the newspapers do not tell truth. To a certain extent that is true. To be frank, it is not as pleasant to tell truth, the whole truth and nothing but the truth.

Not long ago an Indiana editor, growing tired of being called a liar, announced that he would tell the truth in the future, with the result that the following items appeared in his issue:

"John Bonin, the laziest merchant in town, made a trip to Belleville yesterday."

"John Coyle, our grocer man is doing a poor business. His store is dirty and dusty. How can he do much?"

"Rev. Sixy preached last Sunday night on 'Charity.' The sermon was pious."

"Dave Sonkey died at his home in this place. The doctor gave it out as heart failure. Whisky killed him."

"Married Miss Sylvan, Rhodes and James Conlin last Saturday, at the Baptist parsonage. The bride is a very ordinary town girl, who doesn't know any more about cooking than a jack rabbit, and never helped her mother three days in her life. She is not a beauty by any means, and has a gait like a duck. The groom is an up-to-date loafer. He has been living off the old folks at home all his life, and is not worth shucks. It will be a hard life."

"This brings to mind an Illinois editor who grew tired of the liberal use of whitewash in the matter of obituaries, and in telling the truth just once commented as follows on the death of a citizen:

"Died—Aged fifty-six years, six months and thirteen days. Deceased was a mild mannered pirate until a month for whisky. He came here in the night with another man's wife and joined the church at first chance. He owes us several dollars for the paper, a large meat bill, and you could hear him pray six blocks. He died singing 'Jesus Paid It All' and we think it is right, he never paid anything himself. He was buried in an asbestos casket, and his many friends threw palm leaf fans in his grave, as he may need them. His tombstone will be a favorite resting place for root owls."

So if you, dear reader, are one of

those who complain that newspapers don't tell the truth, kindly bear in mind that if the average newspaper editor told one-half the truths that he knows about many of his readers the court clerks would be congested with annual suits for criminal libel.

ONE ARM BASE BALL TEAM HERE WEDNESDAY AND THURSDAY P. M.

Baseball will be revived in Chester on Wednesday and Thursday of this week by two games of ball between White's One Arm Wonders and the Chester Collegians. All of the Wonders, with the exception of catcher, first baseman and utility player have only one arm. This is the second successful season of this unusual team and they have won a major-league title in all games played.

As is an exhibition of baseball skill and overcoming of natural difficulties they will present a far better exhibition than the old time flower girls or the Ind Indians who play at night.

In their tour of the Western part of the state they have drawn large crowds at all places. An occasional one arm armed player has been seen in amateur ball but this is the first professional team to be seen here composed of practically exclusively of one arm armed players. These crippled men pitch, play infield positions and all the outfield with only one hand.

Lex By Klatt will manage the local team and he has gotten together a team composed of former local stars together with some of the Chester boys who have broken into college ball for the season just ended.

The games will be called at five o'clock on Wednesday and Thursday, June 14 and 15th. Both games will be played at the Fair Grounds.

Preparations are now being made for a big Fourth of July celebration in this city.

The committee which has charge of the affair announce that there will be two baseball games on this day, one in the morning and one in the afternoon.

Several of Chester's fast horses are scheduled for entry and there are promises of various kinds of amusement on this date.

A first-class band has been engaged for the occasion and a large crowd is expected to attend the many attractions.

The Chandler Leads in Price and Style and Certainty of Service

NEVER before has the Chandler leadership been so obvious to so many people as it is now, at the height of the 1916 season. At a time when so many cars are "marked up" a hundred dollars or more, the Chandler leads with the same low price established eighteen months ago.

In the midst of a horde of new types and styles of engines, "The Marvelous Motor" leads in certainty of service. Built in the Chandler factory ever since the first Chandler car was marketed this famous motor, refined, more powerful, more flexible,—still leads most distinctly because free from any hint of experimentation or uncertain theory.

And Chandler leads quite as clearly in beauty of body design, refinement of finish in every detail and luxury of upholstery.

It is not surprising that many thousands of new owners have joined the Chandler ranks this year.

You will be delighted with your Chandler

A great many people take a pride in seeing some "straggling" road tax, and do not doubt the Chester city is a nice sum of coin due to this fact. However, one of the commissioners was less telling us a few days ago that he was not on the "trail" of those in his territory who had evaded the payment of road taxes and proposed to see that the county got the taxes due it in some way as he could.

Mr. W. B. Horton, of Lancaster, was a Chester visitor yesterday.

A beautiful compliment to the Woods-White bridal party was the dinner served on Monday evening by Miss M. Margaret White and M. E. Trents, Sr., Mr. and Mrs. G. G. White, on West End. The dining room was lavishly decorated with white and green, with white and silver used in the decorations of white and profusion of silver candlesticks with green shades holding burning tapers and cut out glass ornaments of green and white. The table was set with white and silver. The cover was laid for eighteen. There was an elaborate course dinner served there. The attractive rooms where nine tables were arranged for forty-two, the chosen color of pink was charmingly carried out in large bouquets filled with pink sweet peas. At the conclusion of the games Miss Frances Hicklin was awarded a pair of silk hose for scoring highest. The grand prize, a dining piece of linen, was presented to the bride-elect by Miss Margie Leckie in a few well chosen words. The consolation, a beautiful pink hat the gift of Miss Margie Marshall, was also presented to the bride-elect by Miss Fannie Spratt, in a witty little speech. At the end of a refreshing sweet course was served, the color scheme of pink and white being carried out further.

If the Board of Health deem best for the city that we run the Chloride of Lime into the sewer, we will be glad to do so on receipt of instructions from them.

The above advice applies to no class more aptly than to the farmer on the subject of hail and hail insurance. Our county in the main has been fortunate for the last few years so far as crop loss by hail is concerned (though there have been several heavy and severe losses during that time), but the very next hail storm of serious nature may be right here in our midst and may wipe out at one blow all of the toil and preparation of months. Hail has wrecked destruction in other parts of the State already this spring, and the very next storm may occur in Chester county. We are not making an effort to frighten the farmers into separating from any of their good coin, but we do want to be in a position to help our friends when trouble comes.

All losses paid promptly. No trouble about adjustments.

A Timely Warning

ELEVEN well-known automobiles have advanced in price within the last ninety days.

The Maxwell Company has not increased their prices. We do not know what their plans are, but we do know and you know that materials entering into the construction of good automobiles now cost from 20 to 300 per cent more than they did six months ago.

Nothing is to be gained by delay. Much may be lost.

Not only may you lose several dollars in the purchase price, but you are sacrificing the enjoyment, the relaxation, the health-giving properties—everything, in fact, that makes motoring the favorite pastime of the nation.

We urge you to come in and investigate the Maxwell.

Or, we will refer you to any number of Maxwell owners and let them tell you their own story in their own way.

They will tell you what they have told us. That the Maxwell is good-looking—that it is powerful—that it is comfortable—that it is economical in short, that it is the best investment they ever made. They will tell you more and they will tell you gladly and freely.

That's the way they feel toward us and the Maxwell Car.

Whatever you do, don't put this off. We have a few cars on hand and can take orders for immediate or future delivery—at present prices. If you can't come in today, phone us for a Maxwell demonstration.
