**SENATOR TILLMAN'S ADDRESS.**

Will Have a Campaign of His Own Unless Given Unlimited Time. An Address to the People of the State.

Fellow Citizens: The primary system of the Democratic party in South Carolina is very largely my own work. The status of the candidates from county to county seeking office, discussing issues and letting the people meet them face to face is an essential and very valuable feature of our political machinery. The papers have always opposed this programme because it broke up the old system under which the editors of those papers exercised immense power and influence in the selection of candidates to go to the polls. Unhappy as it was, this system was a necessary evil. It was a device to keep the masses ignorant and largely ignorant by giving very meagre, unimportant and often garbled accounts of the speeches. The people being told that the candidates were in a polling, do not turn out to the meetings and this makes the plan a failure, because the people do not see or hear the man who wants their votes and the newspapers accomplish their purpose for controlling our politics.

farms, listening to the kind of speeches that are being made, and no other kind can be made under the circumstances. There are about twenty-five candidates, but those who have no opposition and who, therefore, have no need to speak, and where a congressional candidate has opposition this number is increased.

I have something I want to say to the people of the state, because I believe it is my duty to say it, but I have always opposed this programme because it broke up the old system under which the editors of those papers exercised immense power and influence in the selection of candidates to go to the polls. Unhappy as it was, this system was a necessary evil. It was a device to keep the masses ignorant and largely ignorant by giving very meagre, unimportant and often garbled accounts of the speeches. The people being told that the candidates were in a polling, do not turn out to the meetings and this makes the plan a failure, because the people do not see or hear the man who wants their votes and the newspapers accomplish their purpose for controlling our politics.

**BENEFIT TO AGRICULTURIST.**

The Department of Agriculture is to Construct Farmers in the Uses of De-natured Alcohol.

Norfolk, Va.—The value of free alcohol to the public can be better appreciated when the many uses of this product are known to the farmers of the country. Uncle Sam being desirous of giving the public the full benefit of the opportunities in store, proposes having an exhibit at the Jamestown Exposition showing the development and uses of denatured alcohol which is made from the products of the farm and garden. This exhibit will be in charge of competent government officials of the Department of Agriculture.

In connection with this government exhibit will be exhibited of various kinds of, internal combustion engines using denatured alcohol for fuel. Farmers will learn at the Jamestown Exposition how to save labor in a thousand different ways. They will be shown how they can utilize machinery for sawing wood, chopping stook, felling, pumping water and many other things. And the farmer's wife can employ machinery for doing her churning, washing, operating her sewing machine and in many other ways to save labor. Special machinery is already being made for utilizing this new and cheap fuel and so economical to save labor. The exhibit will be in charge of competent government officials of the Department of Agriculture.

**A TRAGEDY FINISH.**

A watchman's neglect permitted a leak in the Great North Sea dyke, which a child's finger could have stopped, to become a national calamity, devastating an entire province of Holland. To like manner Kenneth Miller, of Vancouver, B.C., permitted a little child to go unattended until a tragic fatal was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold; but Dr. King's New Discovery cured me. I was cured and my wife and child always to use open air at such times and place as may be desired that I shall speak to them of course. I will reserve the right to select the counties in which I will exercise my duty, but I will arrange to accommodate as many as possible in the month which I will devote to this work. I have no objection to the presence of the press of such other officials and candidates as my friends may see fit to invite.

**TO CURE A COLD IN ONE DAY.**

The famous Dr. King's New Discovery Tablets. Druggists refund money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Youth—Why do I have to pay for a marriage? I bought Dr. King's New Discovery Tablets. Druggists refund money if it fails to cure. E. W. Grove's signature is on each box. 25c.

The commission turned on the effect published on the emotion of the world, when a man remarked, "I remember one picture that brought tears to my eyes."

"So, sir, it was a very touching scene, and I am glad to hear that you are well."

their living expenses will be reduced to a minimum and their contentment so greatly increased that they will lead a life of luxury in living on a farm. The Jamestown Exposition, where Uncle Sam's new show will be given free to everybody, will open its gates to the public on the historic shores of Hampton Roads, near Norfolk, Virginia, April 20th, 1907, and close November 10th, 1907. It will be an international exposition, given in honor of the three hundredth anniversary of the first permanent English settlement in America.

It is always well to have a box of DeWitt's Witch Hazel Salve. It is the original laxative cough syrup and combines the qualities necessary to relieve the cough and purge the system of cold. Contains no opiates. Sold by all Druggists.

**Chimneys.**

Chimneys are modern that is, chimneys with fireplaces and flues. None of the Roman ruins shows chimneys like ours. There are one in the restored buildings in Herculaneum and Pompeii. Roman architects complained that their decorations were smoked up. A kitchen in Rome was always sooty. Braziers were used in the living rooms. The chimney of antiquity consisted of a hole in the roof. The wealthy Romans used carefully dried wood, which would burn in the room without soot. The modern chimney was first used in Europe in the fourteenth century. The oldest certain account of a chimney places it in Venice in 1347.

Kennedy's Laxative Honey and Tar is the original laxative cough syrup and combines the qualities necessary to relieve the cough and purge the system of cold. Contains no opiates. Sold by all Druggists.

**HAVE YOU EVER THOUGHT OF IT?**

That the money you save is better than money you earn, for what you save you have and what you earn you may never get. There is no truer saying than this and if it counts for anything with you, it will pay you to call on us and see how much we can save for you by buying your groceries from us. There are a great many reasons why we can sell you groceries cheaper than any retail store. The first and most potent reason is:

**We have facilities for buying our goods cheaper than any retail dealer and we are willing to work for a smaller margin than any retail merchant can possibly afford.**

We sell only for cash, thereby curtailing the large expense of an office force, the loss of goods charged and never paid for, and goods bought and failed to be charged. We do our work and save the expense of a large force of clerks that retail stores must have to charge goods. We beg to submit to you the following prices:

**One car of nice bright molasses 24c.**  
**Virginia Water Ground Meal \$1.45.**  
**Sound Bone Dry Corn 80c.**  
**White Chipped Onions 53c.**

**Fancy Patent Flour \$2.45 per 100 lb.**  
**Best Patent Flour \$2.35 per 100 lb.**  
**The best Second Pat. Flour \$2.10 per 100.**  
**Prime Wheat Bran 75 lb at \$1.06 per s.**  
**Octagon Soap \$3.75 per case.**

Sugar, Coffee, Lard, Bacon, Grits and Rice at lowest wholesale prices. Tobaccoes from 27 to 40c per pound. Give us the opportunity and we will make good our claim to save you money on the necessities of life.

**THE LANTERN,**  
PUBLISHED TUESDAYS AND FRIDAYS.  
**J. T. BIGHAM,** - Editor and Proprietor.  
Published at the Postoffice at Chester, S. C., as second-class matter.  
FRIDAY, JULY 6, 1906.

Col. W. M. Lumpkin has withdrawn from the race for the U. S. Senate, and Senator Tillman need not lose any more sleep.

We have received the first issue of the Lantener Journal. Its promises are about as much in the dark as the family history of Melchisedec. The "Journal Publishing Company" is the only information vocalized. Reference is made to a letter that Dr. T. J. Strat is the owner, but it is denied outright that he has anything to do with the paper. Doubtless the situation is somewhat different, as it is remarked that the editor did not arrive in time for this issue but will be ready for the next.

Hearsay evidence is about as good as any when it is overwhelmingly conclusive, as it is relative to dispensary corruption. Of course all our readers know that there is abundant direct, positive evidence, but some of the zealous defenders of the institution seem to want us to believe that a little hearsay testimony affords all the positive testimony and other evidence. It is well enough to be careful about hearsay testimony when a man is charged with crime and his liberty is at stake. The theory in such a case is that it is better to allow 99 guilty men to escape than to punish one innocent man. The article in this dispensary case is in the nature of a plea for such a course. We believe that it should have an even showing.

**Edgemoor No. 2 Items.**

**San Francisco Disaster.**  
This city is to be right in line with the large cities of the north and south. For the first time here a moving picture illustrating the great San Francisco earthquake and fire disaster will be shown, Tuesday, July 10, at Opera House.

This entertainment has been a big success. It is a novel and interesting combination of the spring and summer seasons. Whichever present of the attendance has been so remarkable that the press and the public have been attracted. This great attendance has been due to the fact that the picture which has been shown is so interesting and so full of the rich and poor alike, and to the delight in moving pictures generally so universally exhibited.

There is no form of entertainment so generally more popular than the combination of moving pictures and vaudeville. The entertainment which shall be shown here is under the direction and management of Lewis W. Buckley, of New York, who has many of the best comedians playing in the large cities. Prices—25c, 50c, 60c.

Because the Red Racket Store is being remodeled and brought strictly up to date, that the proprietor has gone fishing. A few feet from the front door you will find him at his post, busier than ever before. Last Saturday was a stormy day for the Red Racket Store. The fact that the sidewalk in front of the Red Racket was some deep in brick, mortar, plank, and a scaffold 30 feet high. The people actually swarmed into our Bargain Counter just as if the road was clear. This proves to our mind that our method of doing business smashes prejudice, rolls back the clouds of misunderstanding, sweeps away oceans of doubt, and places business where it should properly rest, upon the basis of merit alone—THE BEST-VALUES FOR THE LEAST MONEY.

Death of James A. Hedgpath. The following special to the News and Courier gives further information about the untimely death of Mr. James A. Hedgpath, which was mentioned in Tuesday's Lantern. Mr. Hedgpath was a son of Mr. W. C. Hedgpath, of this city.

Yorkville, July 3.—The machinery of the Clover Cotton Manufacturing Company at Clover, in this county, is operated by electricity, furnished by the Columbia Power Company. James A. Hedgpath, engineer and general overseer at the mill, was instantly killed by an electrical current this morning at 8:15 o'clock.

Superintendent Thomas S. Williams, Boss Machinist H. B. Maxwell and Mr. Hedgpath were engaged in cleaning the lighting arrester in the transformer house at the time, the current having been cut off from the arrester by means of a switch, when without warning, Mr. Hedgpath fell dead. He is supposed to have unthoughtfully touched an unswitched live wire above the switch.

The deceased was a native of Chester and had been in the employ of the company twelve or fifteen years. He was highly esteemed by his employers and the people of the community generally. He was about forty-five years of age, and leaves a widow, three daughters and three sons. He owned a neat and comfortable home and carried out less than \$2,500 life insurance. The funeral will take place tomorrow morning at 10 o'clock from the Clover Baptist church, of which he was a leading member.

Harvie Jordan interested in Concern to Make Paper, Denatured Alcohol and Other Products. For the purpose of making paper, denatured alcohol and other products from cotton stalk fiber, Harvie Jordan, president of the Southern Cotton Association, has been instrumental in forming in New York city a company capitalized as \$15,000,000.

Harvie Jordan has returned from New York and at his office Thursday morning spoke enthusiastically of the possibilities of the contemplated enterprise. Mr. Jordan recently conducted a series of experiments in making paper, which demonstrated to him beyond all doubt the feasibility of the idea of making the paper of all grades from the cotton stalk fiber.

## Only Negro in Medical Congress.

The only negro physician at the International Medical Congress recently held in Lisbon, Portugal, was Dr. M. J. Hardy, a colored doctor who practices here in Union, and who recently in talking to a Progress man gave a very interesting account of his trip, though his fine tour and varied experiences do not seem to have "burned his head" in the least.

Hardy left New York March 31 with wife and two children, and was appointed a delegate after joining the National Medical Association when in Chicago studying over two years ago.
