### A Remarkable Operation.

Walter Wilde, the West Point fourth classman who last fall had his right leg so badly crushed that when it mended it was three inches shorter than the other, will re-enter West Point this fall. To get back to the academy the cadet has suffered agonies, allowing the doctors to re-break his leg in several places in order that by weighting it, it might be restored to its normal condition. Young Wilde, who is one of President Roosevelt's personal appointees, entered West Point in the fall of 1905. In September last he was horseback riding when the horse fell, rolled over him, crushing his leg and breaking in several places the bones of his right leg. Realizing that it would be impossible to continue his military education with such a handicap, Wilde consulted with a number of eminent surgeons, who finally told him that if he would submit to a very painful and unusual operation his leg might possibly be restored to its proper length. Wilde immediately consented to undergo the operation. Accordingly the young man went to the Polytechnic hospital, in Philadelphia, where the operation was performed. The bones in the crushed leg were re-broken and immediately reset. This done, the surgeons attached a very heavy weight to the leg, by means of a rope and pulley. The limit was then drawn up from the cot and Wilde was informed that it would have to remain in that position until the bones had healed. For two months Wilde lay upon his cot in the Polytechnic with the weight attached to his leg. Never once did he complain, and his fortitude excited the wonder and admiration of the surgeons and nurses. A few days ago the weight was removed and Wilde stood up for the first time in over eight weeks. His legs were the same length. There had been no physical defects. -New York Times.

### Quilnets Items.

Quilnets, July 7. We have had this season in this section and most of the crops are doing well. Cotton is as good looking as it ever gets to be in this country. Cotton on sandy land is not doing so well; lower lands are dropping out. Gardens are very good. The last week has been dry enough for the farmers to get the most of their cropless of grass. From Lando to Reichling the crops are not very large. The condition of grass and well worked. Mr. John Burns has fine crops of nearly all kinds. He has a fine lot of grapes and other fruits; the Jersey cattle, etc. Mrs. Joe McGarity and two children have returned home to Winthrop. Mr. McGarity is going to stay up here a while to recruit his health. Mrs. Margaret Mead, of Arkansas, is on a visit in this section now. Mrs. J. L. Wood and Mrs. Julia Parker with her granddaughter, little Miss Julia, returned yesterday from a few days' visit to their brother, Mr. H. J. Beard, at Yorkville. Mrs. W. J. Hyndman, of Charlotte, another sister, who accompanied them to Yorkville, after a visit of several days here, was to leave for her home yesterday.

### Bloodshed in Orangeburg.

Only a few days ago, James T. Parks, a clerk in the state dispensary, and one Covar, a recent partner in the newspaper business, shot out a dispute. Parks being killed and Covar dangerously wounded. Yesterday afternoon, in the same town, J. D. Palmer and Jefferson Ward had a shooting affair, which resulted in the former's instant death. Ward was slightly hurt. Palmer is said to have been drinking. Way was sentenced to be hanged for killing E. W. Whetstone 14 years ago, but at a trial two or three years later was acquitted.

### WEAK, WEARY WOMEN.

Learn the Cause of Daily Woes and End Them. When the back aches and throbs. When housework is torture. When night brings no rest nor sleep. When urinary disorders set in. When you feel a weary one. There is a way to escape these woes. Don's Kidney Pills cure such ills. Mrs. W. A. Mearns, of Rock Hill, S. C., says: "My back was so weak for a long time that I could hardly stand up in bed and had to use both hands to raise myself out in the morning. I saw advertisements about Don's Kidney Pills, feeling that they would do for backache and although I had no hope that any medicine I was simply ready to try anything which might unexpectedly offer relief. So I got a box of the pills and used them according to directions. I was astonished with the results. My back became strong again and the pain left it for good. I have not had the backache since taking them. I am very glad to subscribe my name to a sentimental and hope that it will be the means of informing some other sufferer of the merits of Don's Kidney Pills. For sale by all dealers. Price 10 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Don's—and take no other."

### A Record-Making Congress.

In four important matters the first session of the Fifty-ninth Congress, which ended on Saturday, distinguished itself. (1) Its appropriations exceeded those made at any other session in time of peace—aggregating \$92,000,000, which is \$111,000,000 more than was voted at the first session of the Fifty-seventh Congress, and only about \$1,000,000 less than the Spanish war budget of 1898-'99. (2) It yielded more implicitly to execution, dictation and guidance than any congress has ever done before. (3) It was the greatest centralizing congress in the history of the government in its extension of the federal power. (4) It placed more restriction upon corporations and upon the conduct of business than were ever proposed by any of its predecessors. In regard to the appropriations, it deserves to be noted and remembered.

## HAVE YOU EVER THOUGHT OF IT?

That the money you save is better than money you earn, for what you save you have and what you earn you may never get. There is no truer saying than this and if it counts for anything with you, it will pay you to call on us and see how much we can save for you by buying your groceries from us. There are a great many reasons why we can sell your groceries cheaper than any retail store. The first and most potent reason is:

**We have Facilities for buying our goods cheaper than any retail dealer and we are willing to work for a smaller margin than any retail merchant can possibly afford.**

We sell only for cash, thereby curtailing the large expense of an office force, the loss of goods charged and never paid for, and goods bought and failed to be charged. We do our work and save the expense of a large force of clerks that retail stores must have to charge goods. We beg to submit to you the following prices:

THE LANTERN,

PUBLISHED TUESDAYS AND FRIDAYS.

J. T. BIGHAM, Editor and Proprietor.

Published at Chester, S. C., at a second-class mail matter.

FRIDAY, JULY 13, 1906.

There is a dispute among the dispensary candidates for governor as to the authenticity of the "Bayson Manning Bill" and its amendments. The point seems to be whether it should be called by the name above, or the "Bayson-Tillman" bill.

How does it comport with the dignity of a United States senator to allow the blatant rascal to put his words into his mouth with which to abuse a reputable citizen who was absent, by the way.

Rural mail routes in some places have been inspected and unfavorable reports made, on account of the condition of the roads and this may lead to their being discontinued. The government has the right to expect roads over which the mail can be carried with reasonable facility, and this will soon be demanded.

Some of our dear dispensary friends are fond of talking about prohibitions, joining the liquor camp, and they speak of it as something to be boasted. Now, as there are two liquor camps they should specify which one is meant, and we see no reason why the prohibitionists should not have the right to take their choice. True there is not much difference except in the taste of supplies and the division of the spoils, and the latter is the concern to you but these who hold commissions. Let there be no jealousy between the recruiting officers of the two liquor camps, for they are brethren.

We believe that Abbeville county has in Mr. J. Frazer Lyon a son who is a distinct credit to her; one who followed his convictions on the liquor question until he was expelled from the course pursued was wrong, and then had the honesty and courage to say so; who, when appointed to the unpleasant duty of investigating the conduct of those who were accustomed to have their things questioned, went at his work just as if he thought the legislature was in debt earned about the investigation. While the investigation was dealing with what was denominated the "small fry," the sarcastic inquiry came from a certain individual, "how do they investigate those higher up?" When the clues led the investigation dangerously near to the source of the aforementioned liquor, there was a howl and violent denunciation, abuse of a man for doing his duty faithfully. This was answered in a calm and dignified manner, which showed the justice of the investigation. But we were just wondering how many people in Abbeville county will remember the hurrying of the language at a party fellow citizen for the simple discharge of duty.

About Chester's Postoffice Building.

The following statement of the methods employed by the treasury department in securing sites for Federal buildings will be of interest. Whenever an act of congress authorizes the acquisition of a site for a proposed public building—whether by purchase or gift—the treasury department invites the attention of the architect interested in a local newspaper, bids for the sale, or propositions of donation, and directs that the same be submitted to the secretary of the treasury at Washington. This advertisement gives such information as to the approximate dimensions of the site required and the general conditions and requirements. It also contains an intelligent preparation and submission of bids or offers.

The bids and offers obtained in this way are opened at the treasury department in Washington at the time stated in the advertisement, and as soon thereafter as practicable an agent of the department makes a personal examination of the properties offered, and upon this report, together with representations in writing from other sources, the department makes selection, conditions, and, nevertheless, that the title to the property be approved by the attorney general. When the land is thus acquired which buildings are to be erected, which are reserved by the party selling, notice to remove the same is given after the land has been actually acquired and title approved.

Whenever the department is unable to obtain an acceptable site at a reasonable price in the manner above outlined, it frequently resorts to the method and authorizes the department of justice to begin and prosecute condemnation proceedings in which the price to be paid is judicially determined.

As soon as practicable after the acquisition of the site, plans for the proposed building are prepared and a contract let for the construction thereof. L. M. Shaw.

Court Decides Slot Machine Case.

The supreme court yesterday handed down a decision in the slot machine case which denies the slot machine companies the right to operate in this city on the Sabbath day. The court holds that the statute under which the seizure of the machines was made is unconstitutional. It is a law compelling money in the machine, or a cigar or other value has been consumed a trade and that it is an unconstitutional violation of the law as the trade had been between two persons.

The case was brought by the attorney for the Lorenzen Vending Machine company on the ground that the statute provided that no labor should be performed, and that the machines being automatic, required no labor. The company petitioned the court that the police authorities and city magistrates be enjoined from arresting, trying or punishing them for operating the machines.

These machines were introduced here by coincidence at the time when the question Sunday closing was an acute stage and as soon as they were permitted to operate on Sunday the machines and contents were seized by the police and confiscated. The court holds that this action was taken in part of the old common law prohibition against the sale of liquor during the 17th century. No prohibition against the seizure of the goods was introduced for the violation of the law.

The effect of the decision will be that no slot machines can be operated in Columbia on the Sabbath day and in effect, "The State."

The Columbia Record is being sent free to parties in this county, with the compliments of Maj. John Black, a member of the state legislative board of directors—See The Advocate.

The lack of enthusiasm at Sandy Flat was not that Senator Tillman was a man bad lot, his hold on the people in ordinary matters, nor that they are taking less interest in politics or good government, but that they just simply cannot, longer stomach the dispensary system even though it be doctor Tillman—Union Progress.

Mr. Carlton Dunlap, son of Mr. B. T. Dunlap, of Lancaster, who has been a brakeman on the Baltimore & Ohio railroad for some time, met with a serious accident a few days ago while trying to board a Lake Erie train at Demmler, Pa. to go to Pittsburgh on a pleasure trip, he fell under the car and his right leg was so badly crushed, that amputation was necessary.

That \$75,000 of Gen. M. C. Butler has been held up by injunction, on petition of the state attorneys, in the case, which relates to claims of the Cherokee Indians against the United States. The other lawyers want their fees recognized before any payment is made. By the way, the news gatherers keep getting Gen. M. C. Butler confounded with Carolina Senator Butler, of North Carolina.

Wednesday morning, the 11th, J. W. Iruegan, of Colleton county, killed his wife and three children with an axe, then went to a neighbor's and told him what he had done. He is in jail, but it is said there is no doubt that he is insane. He tried to kill himself two years ago. He came from Sweden and is a well-to-do farmer. A local reporter says that the old man, George, is still alive but in a critical condition, with his head crushed.

Mrs. L. S. Chapin, who lives in Abbeville county at a distance of several miles from other white people, was assaulted Monday morning about 2 o'clock by a trusted negro who had a room adjoining her house. The only person who was with her was in the yard. The sheriff and a posse have been searching for the negro, whose name is Isaac Knight. Mrs. Chapin is from Vermont and, it is believed, has social relations. She had been warned to beware of this negro, but did not heed the warning, regarding him as "a perfect gentleman."

Converted Dispensary Advocate.

"All these things are known. Yet the friends of the dispensary tell us to bring the masses out, and when any effort is made in this direction every single solitary 'friend' of the dispensary in the state comes to the rescue of those under suspicion and works to prevent the securing of evidence that would convict. 'The people see these things and study them. And the conclusion is inevitable: The dispensary son's do. 'It is corrupting. It is demoralizing. It corrupts some people and is so demoralizing to others that they will not or cannot stand on the conviction of the corruptionists. 'The corruption is so widespread and affects so many persons and interests, some of them not directly connected with the dispensary, that the effect on the state as a whole is worse than anything that has ever existed in the state.'"

"If we were called upon today to decide between prohibition and a county dispensary for Anderson county, we would probably decide in favor of prohibition. We are getting along very well. If conditions in this county do not get worse we will be satisfied to let well enough alone."

Prohibition in Anderson.

Prohibition has greatly improved conditions in Anderson. The Daily Mail of that city states that during May and June of 1905, under the dispensary, the records show 140 cases of drunkenness tried before the mayor, while during May and June of 1906 were prohibited, only 45 persons were tried before the mayor. The Mail further says, "The number of cases growing out of drinking whiskey, shows a proportionate decrease." Edgefield Advertiser.

Some of our competitors are criticizing us something like this: How W. R. Nail can sell French candy at 10c per pound is a mystery that will remain forever unsolved.
