PUBLISHED TUESDAYS AND FRIDAYS. Subscription Price, \$2.00 Cash.

EXPOSITION BOULEVARD.

Magnificent Driveway to be Constructed from Norfolk to Jamestown Exposition Grounds.

Norfolk, Va., one of the objects of International expositions abroad has been to have a permanent memorial of the celebration.

A far less spectacular, and yet perhaps more valuable, reminder will be left after the Jamestown Exposition has passed into history.

The boulevard will be one hundred and twenty-five feet wide. There will be room for a double row of trees.

Automobiles may travel from Norfolk to the exposition grounds in twenty minutes with ease, and observe the restrictions regarding speed.

One of the reasons for the government's interest in this matter relates to the transportation of troops.

Twenty Year Battle. "I was a loser in a twenty year battle with chronic piles and malignant sores, until I tried Dr. King's Kidney Pills, which turned the tide, by curing both, till not a trace remained."

Almost Chester Boys. The York county boys who are high up in South Carolina journalism are William Banks and Robert Lathan.

Everybody Labeled. Mr. Lathan is not new to the earliest stations of the institution the future profits from the sales in county dispensaries are being added to the bank balance.

A Tragic Finish. A watchman's neglect permitted a leak in the great North Sea dyke, which a child had broken.

Lowryville Letter. We are having quite an abundance of rain and crops are looking fine.

Could Tell It Another Way. Many years ago on old well-to-do farmer in Western New York had a son named Bill who was a tight-gait.

Modest Claims Often Carry the Most Conviction. When Maximo, the famous gun in which the gun before a committee of judges, he stated its carrying power to be 1000 yards.

Setting Good Example. Teaching the young ideas to amount, not to shoot, Representative Herbert Parsons, chairman of the republican county committee, turned aside from the turmoil of politics.

Something Wrong. "I take a drink when I feel like it, and walk into a bar with as much reverence as a church, with all due respect to the latter."

Do Not Neglect Your Bowels. Many serious diseases arise from neglect of the bowels.

 Due West, S. C., Abbeville County.

Everything in the Summer line has been reduced in price in your Big New Store. Mr. Klutz has journeyed thru his tremendous stock of goods during the past week and slashed prices helter-skelter. Cost now is of small consequence. The summer goods must get out at any price. Soon the Fall and Winter Goods will begin to arrive and we must have room to display them. Every single article in the establishment has been reduced. We firmly believe money in the banks is of far greater value to our big business than goods upon the shelves.

Wylie's Mill Letter.

It is rather late to say a word about the meeting of the press association last week, but we had good reason for the delay and apportioning my time would not be of any less value later than sooner. The hospitality of Charleston is proverbial, and we have had opportunity to see that the reputation is well founded. It is not the spontaneity that keeps an eye on the pulse of the city, but the "unmistakable, spontaneous variety." The members of the city press did much to make the occasion pleasing and profitable. The Herald of the News and Courier was particularly active in his efforts to make the city editors enjoy their visit, and no one knows better than he how to succeed at such an endeavor. Mr. Thomas R. Waring, of The Post, did much to make the visitors enjoy the time spent there. He is gifted with a variety of humor that is always breaking out in unexpected places. P. H. Gadsden, Charleston's transportation chief, was much in demand and always ready to help Gadsden's publicity is a big part of Charleston's success. Every citizen of Charleston who is a member of the press association gave special attention to the editors, which was much enjoyed and appreciated, but this writer was not permitted to participate.

The surf was a popular place and gave much enjoyment and benefit. The Hotel Seashore is a delightful place. Every citizen who is a member of the press association gave special attention to the editors, which was much enjoyed and appreciated, but this writer was not permitted to participate.

Miss Estelle Ferguson has gone to Edgecroft to stay a while with her brother, Mr. J. M. Smith. Mr. J. M. Smith, our mail carrier, is still improving. Rev. and Mrs. T. L. Smith, of Society Hill, came today to visit Mr. J. M. Smith and brother, Mr. W. H. Smith. We are always glad to see Rev. and Mrs. Smith.

Miss Jane Thomas has gone to Shelby, N. C. to visit her friend, Miss Kate Holly. Messrs. A. J. and J. C. Pittman, E. A. and J. M. Nunnery, J. M. and M. C. McCullough, Jim White and R. H. and T. S. Ferguson, went to Chester Thursday to the speaking.

Tribute of Respect.

Truly it seems "death rides in every passing breeze and lurks in every shadow." He has passed his earthly life, and amidst and taken away, in the early morning of her life, another of our most lovely and esteemed members. Her intimate relations with us and her faithful discharge of her duties in our society, even though it was not our privilege to have her with us long, make it fitting that we record our appreciation.

Mrs. Sadie R. Whitledge was an inspiration to our meetings, both social and spiritual, and her sudden removal leaves a vacuum that will be deeply realized by the members of our church and society. In her Christian courage and child-like faith were shown by the way in which she endured the years of suffering. Through these bodily pain her happy being was, like the water of the sea, refreshed and purified for the hour when she should ascend to heaven.

As a resolution of the society, who deeply sympathize with the bereaved relatives, we express our hope that even so great a loss to them may be alleviated for good. May we all be able through the eye of the soul to look toward her, and view her as at death, and hear the gentle whisper— "There is no death! The stars go down." To rise upon some fairer shore. Arise, O soul, and shine as a star that shines forever more.

Didn't Give Him a Chance.

A divorce was secured by a woman in Chicago by the clever device of giving her husband on the first anniversary of her wedding because she would not sport with another "lad," and returning home rather late at night, dropped off into a giddy sleep, in which he dreamed about the events of the evening and in his dream he talked, saying: "Here, waiter! Bring me two more highballs," and then made a noise as if he were drinking the liquor, and so he dreamed, and in a few moments spoke again, saying: "These highballs are not good, waiter. Get a whiskey sour and a cocktail, and be quick!" In giving her testimony in the case the King's wife said: "As soon as I went to drink the mixture, when I awakened him. Why didn't he let him sleep and dream on! There is no saying how he would have said if he had only given him a chance." News and Courier.

London, July 26.—William J. Bryan who was introduced by Ambassador Reid, was received in private audience by King Edward at Buckingham Palace today. The visit was paid at the request of the King, who had just having notified Mr. Reid that he desired to meet Mr. Bryan. The interview was quite informal and was marked by the pleasant cordiality which the King is accustomed to show Americans in whom he is interested. Only the King, Mr. Reid and Mr. Bryan were present. The King's interest largely turned on the subject of peace and the conference of the Inter-Panama-Pacific Union, with the objects of which the King showed himself thoroughly in accord.

The Television News.

New York, July 25.—Local scientists are displaying a keen interest in the television, or "televue," as the inventor, J. B. Fowler, of San Diego, Cal., prefers to call it, and which, when completed and placed under the telephone, will enable persons talking to see each other as plainly as if they were in the same room.

Like almost all other marvelous inventions, the televue is extremely simple. The user sits down in front of the instrument, and a strong light is thrown on the face by some five or six electric globes.

Under the telephone mouthpiece is a large round disc of glass, somewhat thicker in the middle than at the edges. In the center of the glass there is a small hole, and through this the latter is able to see the person to whom he is talking. In front of the invention lies, Mr. Fowler says, lies in the perfect mechanical and chemical combinations. During the entire conversation the televue keeps up a constant buzz.

Excessive Use of Ices.

It was estimated a few years ago that the ice cream consumed during the summer months in the city of Cincinnati alone would make a mountain taller than the highest peak of any city. This excess has led to a fatal case of the extent to which the American people use ices and all kinds of cold drinks.

Physicians tell us that ices eaten hurriedly or in large quantities arrest digestion and are otherwise injurious. In addition to this, much of the ice cream sold in cities is made by inferior kind and the cheap flavoring as well as the ingredients used in "decorating" it, and the fact that it is frequently left standing for several days in a tender it most unwholesome.

The English gave us an example of moderation in the use of ices, which we might well imitate and be the better for our doctor's bills. —Ex.

It is announced from Washington that two hundred clerks will be sent out by the Census Bureau about August 1 for the purpose of collecting marriage and divorce statistics out of which uniform divorce legislation in the various States may grow. Court records for twenty years will be gone over. This is one Government undertaking in which South Carolina, fortunately, has no part and we protest that our Representatives in the next session should see to it that this State is not called upon to pay any part of the expenses of a work which can in no way affect it. —News and Courier.

Edie Wright, the negro who was shot by the police at the plant of the Charlotte Brick Co., near Fort Mill, died Friday night. Whether it was the gas or the bullet that killed her (she threw a can of gasoline on Wright and then the brick killed match on her) is not known.

A Notorious Character.

Mr. E. H. Jennings, special agent in the penitentiary department, was here yesterday looking up the case of John Dogan, the negro who is in jail on the charge of working the penitentiary swindle on ex-laborer. Dogan was arrested by Policeman Sanders and was sentenced to the chancery by Mayor Hart for carrying concealed weapons, but before the charge on which the mayor was able to handle him. After serving his sentence, Dogan was arrested by Deputy Marshal (obson on a warrant charging him with personating a penitentiary officer and is now being held for trial in the United States district court at Greenville. Mr. Jennings recognized Dogan as a well known character with a record. He shot a man in Augusta, and was sent to the penitentiary for murder assault. The man afterward died and had Dogan's name been changed. He was later sentenced to two years for working the penitentiary swindle and Mr. Jennings thinks that he has been escaped from the penitentiary in Atlanta. Mr. Jennings thinks that it is remarkable that the fellow did not kill Policeman Sand on the occasion of his arrest by that officer. His reputation for quickness with his pistol is notorious, and it was generally believed that he would rather be hanged than be understood at the time, however, that the only reason he did not kill Mr. Sanders was because he couldn't, and the strange thing about that incident was that Sanders did not kill him. The probability is that Dogan will go up for a good long term this time. —Yorkville Enquirer.

As You Go Through Life.

Make your wisdom out of your great good fortune. You can do most in curing this. Make up your mind that most things that should be done must be done at a sacrifice. Worth what you want instead of wishing for it. Change everything about you that you don't want to be. Get rid of the brats and the fool in you. Keep clean and appear so. Look as well as you can, with your eyes and ears, and look more to dress to relieve the ugliness of age. Give up at fifty the hope of being loved after you join family. Be very when old to appear young or "cute."

Learn to attempt what you ought to do as readily as what you want to do. Be natural, but don't show your meanest nature. —Ex.
