Ball from Cow's Stomach. Last Thursday Mr. Will Stoll showed a ball taken from the stomach of a cow which Mr. Ned Yongue, of Stover, lost by death. The ball was a little larger than a baseball and looked like a small cannon ball, being black and smooth and having the appearance of iron on the surface. It was light, however, and when a slight incision had been made it looked like leather and seemed to be made up largely of hair. It did not appear to have had any connection with the walls of the stomach.—Dr. S. G. Miller, who saw it, expressed the opinion that it was an accumulation of foreign matter which had gathered around a nucleus. It had been composed largely of hair which the cow had taken into her stomach while licking herself and other cows. He had seen similar formations before. The ball was well polished and appeared to have been finished for some time, perhaps since sliding time.

Senator Tillman says: "They have given you the nastiest whiskey that God ever allowed a man to concoct. Now if you want good whiskey and the dispensary vote for men who will support the Rye-Manning-Tillman bill." Fourteen years of dispensary. In South Carolina has demonstrated the fact that there is no such thing as running a State whiskey business without corruption. The trouble is in the nature of the business. Las and Oaks.

The two young men reached the door at the same time. "Is Miss Swellington in?" they asked. The maid, Nora, looked at them and shook her head.

"She's in to see me as yet and out to the other," she said at last. "but the two of you coming together has got me a good deal of to say. If one knows which is which. But come right in, both as ye, an' O'll ax her to come down and pick ye up."

When Jim Fisk was in his glory as railroad magnate one day he was greatly annoyed by people asking for passes over his road for all sorts of reasons. He was well worked up when a steady looking individual asked for a pass and asked sharply, "On what grounds do you ask for a pass?"

The applicant replied, "Because I don't want to pay my fare."

Fisk called a clerk and said to him: "Give this man a pass for any where and return. He is the first man that has told the truth today."—Boston Herald.

Refreshments for Company

Our sultry evenings will be appreciated best if they consist largely of ice cream and water ices of the quality of ours. Whatever enters into them, cream, sugar, flavors, ice, water, etc. is perfectly pure, the proportions are correct, and our skill and long experience make our ice cream and water ices delightful dishes for warm weather "affairs."
