NEW YORK FACES TRACTION TIE UP

Hundreds Have Already Decided on... Without and Others May Follow

New York, Aug. 4.—Paralysis of surface car traffic upon Manhattan island will be virtually complete here down tomorrow.

Another division of motormen and conductors who are to take a strike vote will meet at 2 p. m. to take a strike vote.

A letter from Mr. Hedley said he was "at all times willing to meet the employees of this company" and that he would be glad to see the committee at his office.

The meeting was attended by a delegation from the Central Labor Federation representing 350,000 union men who pledged their support to the financial support to the motormen and conductors.

"We do not employ gunmen," said Mahon. If the surface car strike order goes into full effect, Manhattan will be dependent for transportation upon the subway and elevated lines already crowded to suffocation in the rush hours.

Both boys were buried. The young man was buried in the same vault as the other. The scheme of the couple was said to have been to entice young men to meet the woman in a retired spot when the man would be alone.

TUESDAY, AUGUST 8.

BETTER LET COOPER ALONE.

Hon. R. A. Cooper has endeavored to conduct a campaign absolutely free from factionalism. He has not criticized the actions of his opponents and is seeking the governorship on his merits.

Governor Manning has begun to ask questions of Mr. Cooper and evidently wants to stir up something. Well, there is a limit to all things and if Mr. Manning and his supporters don't slow down they are liable to reach the limit.

We trust this campaign will go through without the customary factionalism and Robert Cooper will certainly lead his part in keeping it down but his supporters throughout the State do not expect him to take anything.

Did you ever see an old hound dog come lagging into and around the city dogs make a high drive for him. That old hound does his very best to keep out of a trap and around through the back lots he goes until he finally reaches his master's wagon. On one of the great city dogs' wagon, to the hound they go. Well that old hound wakes up and the fur begins to fly and when he gets through turning he is the only canine in sight. Well, something like this is liable to happen before this campaign is through with yet.

THE RAILROAD STRIKE.

It begins to look as if the United States is to experience one of the largest railroad strikes in the history of the country. It is to be hoped that arrangements will yet be perfected whereby everything will be settled satisfactorily to all concerned.

We notice from press despatches that merchants in many cities are ordering out their fall goods at once and in some instances are offering bonuses to the manufacturers for immediate shipments. These merchants are playing safe and if the strike is called they will be prepared to handle their trade.

If the differences between the trainmen and the railroad cannot be amicably settled and a strike is called we believe the trainmen owe it to the public to give them notice in order that the people at large may prepare themselves as best they can. The public is due some consideration in this matter and it would, no doubt, be to the interest of the trainmen to give the public due notice before the strike is on.

WHAT IS A PRIMARY.

Gov. Manning and his newspaper supporters seem to think that Mr. Cooper is under obligation to explain why he is running for governor. We should say that he is running because he wants to be elected and that he feels that he is competent and qualified to fill the position. The Herald and News is not advocating the election of any candidate for governor but it seems to us that it is an exhibition of considerable nerve, for Manning and the newspapers to be of the opinion that Mr. Cooper should explain and to call on Mr. Cooper to give them a reason for being in the race. Mr. Manning has no legal right to two terms and until the law is changed it is the privilege of any citizen of this great state to offer his services to the people for the position of governor. Mr. Manning even demanded that Mr. Cooper give his reasons for being in the race. It is a nerve. If the people want Mr. Manning for another term let them say so. If they want Mr. Cooper or Mr. Bell's let them say so. That is the purpose of the primary.—Newberry News and Observer.

TOWNSHIP SUPERVISOR.

I hereby announce myself a candidate for the office of Township Road Supervisor for Chester township subject to rules of Democratic Primary. LINDSAY TRIPLETT.

COOPER'S STRENGTH IN THE PIEDMONT GROWS.

Contrary to reports which seem to be deliberately circulated in the lower section of the State, Cooper, is as strong as ever, in the Piedmont section than ever. Greenville county is simply seething with enthusiasm for Cooper. A strong friend of Gov. Manning's in Spartanburg, the editor of The Index only a short time ago that Cooper, in all probability would lead all candidates in Spartanburg by about 100 votes. As a matter of course Laurens will stand by her favorite son and all the more substantially this time because her forces will be increased. In the year when they were in the race two years ago, Abbeville county has been given up as hopeless for any candidate save Cooper. In fact, it appears that Cooper will get about all the votes "there is" in Abbeville county. Cooper's normal strength in Greenville county is approximately 1,500 or half the vote and there is no reason in the world to put him down for less this time. In fact it will be larger. Anderson county is known of all as Cooper stronghold. Cooper will split fifty-fifty with the bunch in Oconee and run well in Pickens. Add to the list Union and Cherokee and there is every reason for the statement that Cooper will leave the Piedmont with the same overwhelming lead he had in 1914. In that year with these counties he received 13,073 votes against 3,693 for Manning. Who believes that Manning has overcome this lead of 10,000 votes? Add York, Chester and Fairfield and we see that in 1914, Cooper received 17,000 against 6,700 for Manning or almost three to one against Manning. Cooper is still strong in the Piedmont, stronger than before. And the county papers in the lower part of the State all admit that he will get more votes there than he did in 1914, so where is there any room to doubt the statement that he is the strongest as well as the best man in race?—Greenwood Index.

CONGRESSMAN FINLEY SAYS HE WILL RESIGN BEFORE LAY IN APPOINTING POSTMASTER AT CHESTER.

A great many people in Chester and the county are under the impression that the appointment of a postmaster at Chester, S. C., will be made by Congressman Finley for political purposes and as a matter of fact, to an outsider it looked very much like such was the case. Several parties, we are informed, approached Congressman Finley last Wednesday while he was attending the Armenia picnic and asked him about this matter. We have been informed that Mr. Finley made the statement that the appointment was not being held up by him and that the name of Col. T. J. Cunningham was presented to him by Senator Tillman and that he presented it to the Postoffice Department. He further stated, according to information reaching us that Col. Cunningham presented the strongest position that had ever been presented to him by any candidate for appointment as postmaster in the Fifth District. Mr. Finley made this statement to parties it appears that the appointment is being held up by Senator Smith. Finley since learning that he is being held responsible for the delay in the appointment will no doubt, make a special effort to have the appointment made before the primary election August 29th.

ACCOMMODATING.

The motorist had lost his way on a country road. Hailing the first pedestrian he overtook, he asked the way to "the mill." "I don't know as I can explain it very clearly," replied the pedestrian "but if you'll take me in your car you'll point it out to you as we along."

"Good," said the motorist "jump in."

"First off," directed the pedestrian as he took his seat in the car, "you drive straight ahead the way you were going for about two miles."

"When the two miles had been traversed he continued: "Now, if you'll let me out here I can show you the rest of the way without going along. Just turn around and go back three miles and there you are."

"Why didn't you tell me that in the first place instead of taking me two miles in the wrong direction?" demanded the motorist.

"I didn't want to hurt your feelings right away by telling you you were in the wrong direction," replied the other, "and besides I live here."

JAMES H. GLENN, County Chairman. Chester, S. C. Aug. 5, 1916. 11.

L. F. Oswald makes a statement. Tusk D. Reister's treatment at Lincoln of a week apart. Makes this statement hoping to influence other sufferers to be cured. Lenoire, S. C. Route No. 3 January 15, 1916.

Dear Sir: On July 22nd, 1914, I applied to you for the treatment of piles, from which I had been suffering for a considerable length of time. You gave me treatment that day, but my affairs were such that I could not stay for daily treatment, so I returned at intervals of about a week afterwards for treatment. I do not remember just how many treatments were given, but I do know that my piles got better after the first treatment and that I got relief in a short while. I took my last treatment on the 20th of September, and felt perfectly well, so far as the piles were concerned, until in August, 1915 when I had an attack of stomach and bowel trouble. I felt an unusualness and returned to you for treatment, and he gave me one treatment, which relieved all irritation, and since that time I have had no further trouble from the piles. I regret that I have not had a chance to pay to indicate any further trouble. My understanding is that he not only cures his patients but stays in touch with them so that they shall never have any future trouble.

I trust these few words may be of the means of influencing some other sufferer to come to you and be cured. I will say that I did not lose a single day from my regular duties while under this treatment, and my occupation is farm labor.

Very truly yours, L. F. OSWALD, Lenoire, S. C.

GLEAM SKIN COMES FROM WITHIN.

It is foolish to think you can gain a good clear complexion by the use of face powder. Get at the root of the trouble and thoroughly cleanse the skin with a treatment of Dr. King's New Life Pills. Gentle and mild in action, do not grip, yet they relieve the liver by their action on the bowels. Good for young, adults and aged. Go after a clear complexion today. Get your drugist.

It Wouldn't Add to the Value to Increase the Price

In line with general increase of motor car prices, there would be every justification for an advance in Chandler Price. All material costs are advanced, labor is advanced. There is nothing that goes into the car or onto the car that costs less, but the price is still only \$1295. We believe our reasons for not advancing the price in the face of every conceivable excuse for advancement are based on sound merchandising principles.

You are not especially interested as to why we don't raise the price of the Chandler car to \$1395 or \$1495, but you are vitally interested in the fact that we don't.

\$1295, f. o. b. Cleveland, still buys the greatest of all medium priced cars.

GOVERNMENT ENGINEER TO VISIT CHESTER COUNTY.

The Chamber of Commerce is in receipt of a letter from Mr. R. St. J. Wilson, Assistant Director of Public Works and Rural Engineering, at Washington, D. C., advising that a government engineer will be sent to Chester county about the first of August.

This engineer will make a survey of the county roads and submit sketches of improvements needed on each, etc.

The first road to be taken up will be the Great Falls road.

This feature of the government has only been in effect a very short while and Chester should feel proud that it is able to secure the services of a government engineer so soon.

MEETING OF COUNTY BOARD OF COMMISSIONERS.

Cotton Weighers Elected for Chester and Fort Lawn—Bridge Situation Placed in Hands of Committee—Other Matters.

The regular monthly meeting of the County Board of Commissioners was held yesterday in the office of the County Supervisor, with all members present.

A petition signed by thirty-six citizens of Landford township asking that the road leading from the residence of J. O. Crawford to the public road be made a public road and be put in shape. Petition granted.

The matter of erecting a bridge across Broad river at Lockhart was discussed. The Lockhart Mills have been asked to contribute to the erection of this bridge. They have not yet been heard from and the matter was deferred to a later date.

The Supervisor reported that the county jail had been reported as but a few weeks had been reported since. He was instructed to have the jail again looked into with the view of having all leaks stopped.

Mr. McWaters reported that about one-half on the Cedar Shoals bridge had been taken out. The balance is about ten feet under water and sand and will have to be taken out by sections.

Mr. Kee reported that the top part of the Lando bridge has been taken out but the balance was covered with sand and it would take 2 or 3 days more to get it out.

The motion was made that a committee of three commissioners and the supervisor be appointed to take charge of the wrecked bridge. The motion carried and the following commissioners were appointed as a committee: Moore, McWaters, Stevenson and McKown.

The election of a cotton weigher at Fort Lawn was next taken up. There was only one applicant, Mr. H. F. Hollis, who was elected. Several parties from Fort Lawn appeared before the board citizens of Landford asking that James Peterson, colored, be allowed to enter the count by some on account of being old and having no means of support and not able to work. The petition was granted.

The election of a cotton weigher for Chester was next taken up. There were six applicants, namely: J. I. Guy, J. Tracy Walsh, Holmes Grant, I. F. Herdin, D. B. Refo, H. A. Wilkes. After several ballots J. Tracy Walsh was elected and will take charge September first. He is elected for 12 months.

Friends will congratulate him on his good fortune.

FLOOD RELIEF FUND NOW AVAILABLE.

The News is in receipt of a communication from Congressman Finley in which he states that Congress has appropriated \$150,000 as South Carolina's part for the relief of those who suffered loss on account of the recent flood in this section. \$75,000 of this amount is now available for use by Major Youngberg, district engineer, Charleston, S. C., has charge of the distribution. Applications for help should be reasonable and should be sent in at once.

Mr. Alfred O. Lloyd, secretary of the Board of the Chamber of Commerce will receive applications for help and will forward same to Major Youngberg.

COOPER THE MAN.

Five reasons why Hon. R. A. Cooper should be re-elected Governor at the coming primary election.

1. He is a Democrat, having battled his way from poverty through the blizzard of misfortune to the present position in life. He has touched and known life in every sharp angle and has wide sympathies.

2. He is a man every inch of him. All who know him say so. All good and a yard wide with 36 inches each yard. Even those engaged in horse trading him admit there is no better metal.

3. Swanking and dark corner slanging in Newberry county contributed to Manning's election and defeated Cooper. This should be set at rights.

4. He furnished all the thunder in the canvass two years ago, which Manning plied for his own renomination. The loudest noise Cooper sounded were law enforcement, away from the courts, build up the common schools, advance agriculture and rural credits. To these he sticks and adds other wise issues.

5. It is the only possible way to the relief of the cotton planter and the cotton raising canker like the very heart out of the old mother State. Two years ago when glare of factionalism dazzled every vision Cooper stood above it all clean and spotless and for that reason showed himself more enough to put foot fast upon the neck of that demon factionalism.

F. O. B. DETROIT

HORSEPOWER is a misleading phrase. It is sometimes wrongly used to carry the idea of something unusual, exceptional—some starting innovation.

We don't claim anything we can't prove. We don't mislead by reference to a technical subject you don't understand.

We've got something real to talk about. Examine the Maxwell car—its complete equipment. Note the attractive appearance. Consider its reputation and its unequalled record for performance.
