SO MANY NEW THINGS TO THINK ABOUT.

There are so many things to think about. The new school year is starting. The little girl was very happy. She had a new friend who lived just down the street. She would walk her to school every morning. The little girl's father had just graduated from college, and he was very proud of her. He had been working very hard to save up money to help her with tuition.

The new school year was very exciting for the little girl. She was eager to learn new things and make new friends. She had just finished reading a new book that she had borrowed from the library. It was about a brave little girl who had overcome many challenges.

The little girl's mother had just bought her a new dress for the first day of school. It was a beautiful shade of pink and had a big bow on the back. The little girl was very excited to show it off to her friends.

As the little girl walked to school, she thought about all the new things she would learn and the adventures she would have. She was excited to start her new school year.
