HUGE POWDER PLANT BLOW INTO DUST

Montreal, Aug. 18.—The huge explosives plant of Currier & Harvey at Drummond, a few miles from here, was blown to atoms this morning by a sudden explosion which obliterated the village, set on fire buildings and haystacks for miles around, shattered windows in towns eight miles from the scene and leveled a death toll which is estimated to be from 10 to 25.

The variance in the reports of deaths is due to the fact that the first explosion was so terrific that all the men working in the building were blown to fragments and no trace of their bodies was to be found. When the disaster happened the employees were just changing shifts, and probably many more persons were in the building at the time. Several thousand men are employed in this plant as a whole.

Caused by the overloading of machinery in the nitrate building the first explosion occurred at 7 o'clock. The fire spread with rapidity to the other buildings and a terrific explosion followed, blowing away the factory as the various parts of the plant were blasted into the air. Houses in Hudson, eight miles away, were blown down, and many windows shattered, while the report was heard twenty and thirty miles. For miles and miles around a falling of smoke overhung the country.

The counting of the employes was impossible, as following the first explosion many of the workers and they fled from the village. The inmates of the nearby houses also moved hastily in flight, and the surrounding woods were full of shrieking refugees.

Drummond village is gone. Forty houses were blown away, and many mansions and dwellings of famous names were burning furiously. Debris, bricks and lumber cover the roads up to an immense depth.

The moment the news reached Montreal, a relief train was dispatched, filled with doctors and nurses, while Canadian Pacific railway officials sped there. At noon the main line of the Canadian Pacific Railway was reopened for traffic. Credit is due to the engineers of the line which succeeded in handling several cars loaded with explosives and setting them down at the plant.

PRESIDENT WILLSON ON GERMAN'S PEACE EFFORTS

Have Recent Events Altered His Views as Expressed in the Following Excerpts From His Flag Day Address:

"It is not easy to understand the eagerness for peace that has been manifested from Berlin ever since the Government has announced. Peace, peace, peace has been the cry of her Foreign Office for now a year, and more peace upon her own initiative but upon the initiative of the nations over which she claims to hold the advantage. A little of the talk has been in the nature of that which must be permitted to cover the hoarded supplies into distillers spirits after the date set. The Food Administration has received a large number of inquiries along that line and as a result Mr. Hoover decided to pat on to any doubt that he was to have stated."

The ruling has nothing to do with spirits in food which will be considered by the White House and the Food Administration. As a result of the stand taken, it is understood that a very great supply of the war department is being stored in the South and that these things have been thrown into spirits will be diverted to other purposes, because it will be physically impossible for distillers to use all the alcohol in hand in the manufacture of spirits under the present law.

Here is what the Food Administration has to say:

"All processes in the production of distilled spirits for beverage purposes and in the production of the United States Food Administration, under the act of Sept. 8, 1916, must cease as of 11 o'clock P. M. on Saturday, Sept. 8, 1917."

The act was approved Aug. 10. The thirty day period would expire at midnight Sept. 9, 1917. This act is the first of a series of bills which will prevent the operation of distilleries after 11 o'clock at night. Saturday, Aug. 11, is the day that the Food Administration will begin to enforce the law. The act will be set up in Germany as it has been in England, in the United States, France, and in all the other countries of the modern time except Germany.

"If they succeed they will be safe from the ravages of the world and, if they fail, Germany is saved and the world will be at peace. If they succeed, America will fall with the rest of the world, unless the entire process may be fully completed prior to 11 P. M. of Sept. 8, 1917."

WOMEN WIN ON OVERALLS

Can. W. W. Don. Nat. Rules Commission on Terminal Company Order.

Kansas City, Mo., Aug. 16.—Women employees of the Kansas City Terminal Company have won their fight for overalls. The union has received and made optional the rule. The first order that they must wear overalls or quilted work clothes over their dresses.

L. A. Habel, head of the Wellston Road, found that the law was on the side of the company, so an arbitration commission was appointed. It is the woman side there were no more to be said. We go to the mass group of men that seek to stand one way in this day of high resolution. The woman group we had secret it in the industry and made secure for the salvation of the nation. We are ready to plead at the bar of history, and our flag shall be a banner of honor. Once more we shall have peace with our lives and our fortunes the great faith to sustain us.

STOP DISTILLING SEPT. 8

Food Administration Issues Barring Under New Control Act.

Washington, Aug. 16.—The Food Administration announced today that distillation of spirits for beverage purposes must stop at 11 o'clock on the night of Saturday, Sept. 8. Any effort to continue the law to permit the use after that time, or what, corn, rye, and other materials which have been hydrolyzed, it was made plain, would be met with firm action.

Distillers have reported that some of them have "hoarded" up tremendous supplies, especially in the corn market, in the hope that they might be permitted to convert the hoarded supplies into distillers spirits after the date set. The Food Administration has received a large number of inquiries along that line and as a result Mr. Hoover decided to pat on to any doubt that he was to have stated."

Whether he has the necessary to distill, the fact that they are being sent to Alabama is proof that the war department is being stored in the South and that these things have been thrown into spirits will be diverted to other purposes, because it will be physically impossible for distillers to use all the alcohol in hand in the manufacture of spirits under the present law.

URGED TO HASTEN QUOTE

Exception Appeal Boards Asked to Act Quickly.

Washington, Aug. 15.—Repaid today upon the war with all possible urgency. In anti-bellum days, as an extreme pacifist—minus the resignation from the Cabinet said to have been occasioned by his horror of the war which he felt would follow in the wake of the British in the trials of the peace. He is not a pacifist and is out with a decided appeal for all his audiences to stand behind the President and fight till the end for peace.

ARMENIA NEWS

Armenia, Aug. 15.—The Armenian school opened on the 15th inst. with 30 pupils and the school was held by the Rev. Mr. Yarkhoroz assistant.

GOULD ELIGIBLE FOR WAR

New York, Aug. 16.—Kingdom could not press his claim for exemption from military duty. He is a private in the United States national army. Gould claimed exemption from military duty on the ground that he was a member of the draft law, and although his apparent to millions, said the dependence of his wife was so great that he had to support her.

SENATE KILLS STAMP TAX ON BANK CHECKS

Washington, Aug. 16.—In a vote of 40 yeas to 19 nays the Senate today rejected the bill to tax the issue of \$100 bank checks. The bill would have imposed a tax of 1 cent on the face of each check.

CAMP IN ALABAMA FOR NEGRO GUARD

Looks as if Blacks Eye to Be Trained in the South—Following Cities Only Than

Washington, Aug. 19.—Following intimations yesterday that negro soldiers might be sent to Southern camps in the war department, it was announced today that within the next few days members of the negro contingent of the District Guard will be sent to Alabama. At the present time the soldiers are being trained at Fort Dix, N. J.

It is not known whether all the negroes will go to Alabama or whether they will be divided into two or three camps. It is understood that the soldiers will be sent to Alabama in the next few days.

It is understood that the soldiers will be sent to Alabama in the next few days. It is not known whether all the negroes will go to Alabama or whether they will be divided into two or three camps.

BRYAN HAS EYE ON WHITE HOUSE

"Receptive Mood," He Seizes on Position and Suffrage—Trips High Peace Views to Suit the Times

Day Moines, Iowa, Aug. 18.—William Jennings Bryan has been making his way back to the White House in his State during the last week, with thousands to hear him daily. Political observers who have heard Mr. Bryan's latest speech, that a receptive candidate for the Democratic presidential nomination in 1920, with national prohibition and a Federal amendment for woman suffrage as his campaign slogan.

Bryan's own statements to his audience led color to this view. Naturally, when approached to talk about his prospective candidacy, he is exceedingly good of speech, but his public utterances are at variance with the private ones.

He says that he believes, for four years ago that the time had come for the simple life. But since the prohibition and woman suffrage have become such burning issues he feels, he says, that he must continue the fight.

And to give a fillip to the politicians who hate him, Bryan usually says in the course of his speeches, "I don't see anything that hurts me, and I set my sleep regularly as the same old man." He says that he is not a pacifist and is out with a decided appeal for all his audiences to stand behind the President and fight till the end for peace.

He says that he believes, for four years ago that the time had come for the simple life. But since the prohibition and woman suffrage have become such burning issues he feels, he says, that he must continue the fight.

THE BIG STORE

LIME

We have secured the Agency for the best ground Limestone made, and will take pleasure in talking to our Friends and Customers about this lime, and what it will do for your land.

Experts from the Government tell you that Lime is the cheapest and best thing you can use. It brings out the Pofash that is in the soil, and as we cannot get Potash it looks like it will pay any one to use Lime this Fall.

This Lime is very finely ground, which is much better than a coarse ground Lime. We could have gotten a coarser Lime for less money, but you do not get as quick results with coarse Lime.

Call and see us for prices.

The S. M. Jones Company

LOCAL and PERSONAL

For Rent—September first, 9 room brick house. All modern conveniences furnished or unfurnished. Current Water and Salada. Phone 392 or 301.

GETTING READY FOR CHESTER COUNTY FAIR

The "Biggest and Best County Fair" ever held in this section of the State. That is the slogan of the County Fair Board of the Chamber of Commerce, and every effort is being made by the bureau to accomplish it.

Contracts have already been placed for the amusements. Twelve big attractions will be placed on the midway. There will be a merry-go-round, ferris wheel, ocean wave and merry widow swings and the best shows on the road today. After three days of consideration, with a number of the best carnival companies on the road today making propositions, the bureau decided to secure the Metropolitan Shows for the Midway. The Metropolitan shows have heretofore been playing the largest part but by account of their route thru this section a very advantageous contract for the public today and Saturday. The bureau has secured three free acts and two bands have also been secured. The free acts consisting of two of the best acrobats who perform in front of the grand stand while the diving dogs will perform in the midway and all three acts will be on at least twice each day.

Tentative plans also include a free day for the school children of the county; agricultural day, merchants and manufacturers day and every body's day. Preparations are also being made to handle the large variety of exhibits of the merchants, the manufacturers, agriculture, canned goods, livestock, poultry, household furniture.

The County Fair Bureau, in addition to President Caldwell, Treasurer Adams and Secretary Lloyd consist of the following members: R. E. Sims, J. M. Mathan, J. H. Glenn, J. E. Westbrook and L. E. Brown.

The entire citizenship of the county has been asked to co-operate with the bureau as this is everybody's fair and any profits from the operation of the fair will go to the improvement of the fair grounds.

A number of important matters pending a new exhibition building, and the matter for Joe Stockley are before the bureau, announcements of which will be made just in time as the plans of the bureau are completed.

Messrs. Jas. I. Hardin and W. S. Neely have this evening for New York what other points to purchase fall goods for Joseph Wylie & Co.

All members of the Chester branch of the Navy League are requested to meet at the home of Miss Annie Hardin, Wednesday afternoon at five o'clock. This is to be a very important meeting.

SEDITION HOTBED FOUND ON FARMS OF MIDDLE WEST

Region Honeycombed, With Federal Agents—Populace Sharply Divided Into Loyal and Disloyal Camps.

Peoria, Ill., Aug. 18.—Pro-German activities which have been discovered in the wheat and corn belts of Illinois and Iowa have drawn to this section a phalanx of Secret Service men which has started an open drive against the disloyal. These men have been drawn from Chicago and other large western cities, and they have had their hands full for weeks past.

In that time hundreds of cases have been investigated. In all of these the offenders have been warned. To others it has been necessary to use even more drastic measures to stamp out sedition, while in several instances an outraged public opinion has refused in running the traitors out of town.

To such extremes have the disloyal demonstrations in southern Illinois gone that the Department of Justice agents are at work investigating an alleged seditious movement among farmers in St. Clair, Madison, Wills, Washington and Jersey counties. They are said to have organized a "League of Humanity," the avowed purpose of which is to prevent the United States from sending units of the new National Army to France.

For weeks petitions have been circulated among men of draft age in these counties asking them to sign their names to an oath to the effect that they will refuse to take any oath, using force if necessary to prevent their transportation. Copies of the petitions are in the hands of Federal agents, some containing lists of signers. Some of the signers, it is reported, already have been taken into custody.

The centers of the alleged movement are said to be in Franklin and Nashville, Ill. A secret meeting of several agitators of the anti-draft movement is said to have been held at Franklin recently.

According to Federal officials the records of several exception hearings in the suggested counties are said to reveal that scores of pleas for exemption have been worded identically.

The discovery of the activity against the United States in the communities where the German-born settlers are in the majority has been due to two important factors. One is the national patriotism of the American people. The other is the splendid work of the Feds-Minute Men, an organization of young patriots who are keeping their fellows posted by the proper picket lines. Naturally, this disloyalty has been marked in several sections, it did not first become known to the world outside. But the arrival of the Secret Service men served to tear away the veil of secrecy and revealed a propaganda that is as astounding as it is widespread, according to the agents themselves.

COMING

"The Globe Man"

Mr. C. F. Wearne, representing the Globe Tailoring Company, will be with us tomorrow and Thursday, August 22nd and 23rd. He wires us that he has a snappy line of woolens guaranteed to please.

The many friends of Mr. A. M. (Gee), who had the misfortune to fall from the roof adjoining the Agurs building last Tuesday night, will be pleased to learn that he is feeling better today although still suffering much pain. Mr. Aikes in breaking several bones in his legs found the front door latched and, not having his key with him, went out on a side roof with the expectation of going into the hall window. He thought the roof extended before the window and making his way to the window stepped off the roof, falling about twenty-five feet which resulted in breaking several bones in his legs. He was taken to the Chester Sanatorium for treatment.

An Ordinance

An Ordinance to Provide For the Improvement of Academy Street and to Levy an Assessment For One-half the Cost of Improvement Upon the Owners of Abutting Property.

Whereas, a petition signed by a majority of the owners of property abutting on the north side of Academy street from Pine street to the construction of a sidewalk on the south side of said street between said points, under the Act of 1914, has been filed with the clerk of this council...

Now, therefore, be it ordained by the Mayor and Board of Aldermen of the city of Chester, in council assembled, and by the authority of the same...

That a certain sidewalk is hereby to be constructed on the south side of Academy street from Pine street to the S. A. L. Railway according to the specifications of city engineer at a cost to be levied on the fifty cents per square foot that a sum equal to one-half the cost of said work be and hereby is appropriated out of the treasury of the city of Chester...

That the city engineer shall prepare an accurate survey and estimate of said part of said street showing the location of property to be assessed, and that the city engineer shall prepare an accurate survey and estimate of said part of said street showing the location of property to be assessed...

"No Long - Any International Law"

Mr. Gerard's account this morning of his interview with the Kaiser at Charlottenburg on the first of May, last year, is one of the most interesting and important of the war...

The Kaiser's account of the war is one of the most interesting and important of the war. He tells us that the war was not a necessary one, and that it was a result of the mistakes of the Allies...

The Gift of Serenity.

Those of us who are troubled with nerves, who have lost control of our will-power, and are easily upset, need to cultivate the gift of serenity in order to regain our lost peace...
