TRAINING SCHOOL FOR COOKS.

There Should Be One Such School in Every Home.

After the following from a long letter sent by a home-maker in which she said she was tired of the cost of the things she had to buy to do her job as a home-maker. The writer says that she had to buy the things she had to buy to do her job as a home-maker. The writer says that she had to buy the things she had to buy to do her job as a home-maker.

It is the hope that this will do for the average woman. The writer says that she had to buy the things she had to buy to do her job as a home-maker. The writer says that she had to buy the things she had to buy to do her job as a home-maker.

Another great feature of the work book is that it is so simple that anyone can learn to do it. The writer says that she had to buy the things she had to buy to do her job as a home-maker. The writer says that she had to buy the things she had to buy to do her job as a home-maker.

Are you a woman who likes to do her own housework? This work book is the answer. The writer says that she had to buy the things she had to buy to do her job as a home-maker. The writer says that she had to buy the things she had to buy to do her job as a home-maker.

For those who are interested in learning to do their own housework, this book is a must. The writer says that she had to buy the things she had to buy to do her job as a home-maker. The writer says that she had to buy the things she had to buy to do her job as a home-maker.

Spelling Reform Movement.

Ouster by N. Y. Aug 25. President Roosevelt has endorsed the far-reaching spelling reform movement. The issued orders today to Public Printer Robert Young to begin the work. The reform movement has been a long one and it is hoped that the new system will be adopted by the end of the year.

White the order to the public printer today does not contemplate an immediate reform in the spelling of the official documents from the executive departments in Washington, it is regarded more than likely that the respective heads of the departments will fall in line with the president's ideas and have their official documents printed in the new spelling.

A Mystery Solved.

"How to keep off periodic attacks of biliousness and habitual constipation is a mystery for many. Now it is solved. New Life Pills solved for me," writes John N. Pleasant, of Magnolia, Ind. Railroad Rate Law in Effect.

New York, Aug. 29. The new railroad rate law which applies to all railroads doing an interstate-commerce business goes into effect at midnight today. The law is expected to bring about a fall-out of transportation from point to point, but also what then goes into the making up of this cost.

It was stated today that in fact not a single company has been able to comply with the provisions of the law requiring them to have their schedules on file by midnight. The schedule of switching charges was the most difficult of completion.

It is expected that stipulations and those now pending to the provision which requires the railroads to obtain a ruling from the Interstate Commerce Commission on the subject of the law.

As to a Representative.

We are opposed to Mr. Finley for congress because he ignores the plain duty of a representative, and without justification stands on opposition to Chester and the wishes of the district he is supposed to represent. We have information that some friends expect him to get a good vote in Chester and to be elected to congress.

"Holy Roller" on Fire.

San Bernardino, Cal., Aug. 26. In excess of religious zeal following the advent of the "Holy Rollers" in Southern California, Mrs. Joseph's alluring Young yesterday set herself on fire hoping by martyrdom in flames to reach the heavenly throne.

She drank of from the amp poured of on her hair and dress struck matches and soon was writhing in the flames. Screaming she ran through the yard, her cries being tinged with prayers such as the "Holy Rollers" use.

Her husband caught her and smothered the flames but the woman is in a critical condition. Mrs. Young is one of the several women who have become fanatic after attendance at the meetings of the strange sect which teach that sacrifices like those in Biblical days are still necessary.

SAFETY DEPOSIT BOXES

Where are you keeping your valuable papers, your S. Bonds, Deeds, Mortgages, Insurance Policies, etc. They are not safe if you have them about your stove or lamp, even if they are in an ordinary safe, for they are liable to be burned or stolen. You want to rent one of our Safety Deposit Boxes at once. Keep all such valuables in it. The cost will be small, and your papers will be absolutely safe. Come in and let us show you.

A common mistaken idea

When you think of a roof covered with iron the first thing that comes to your mind is its everlasting qualities for strength and durability. But did you ever stop to think how easily it will rust, and then that eats holes in it and your roofing is gone. Ruberoid Roofing doesn't rust—never leaks—easily put on—lasts longer than iron or shingles costs less—you save money on putting it on—you save money on the actual cost.
