VOL. 2.

CHESTER, S. C. WEDNESDAY, AUGUST 30, 1916.

NO. 6

SECOND RACE BETWEEN BLEASE AND MANNING

BLEASE LEADS

The race for Governor shows Blease leading with 49,625; Cooper 25,051 and Manning 33,322.

When above vote was received Blease was leading in thirty-three counties out of forty-five in the State.

It is expected that something like 25,000 votes are yet to be heard from but there is nothing to indicate any change in the location of those running for Governor and the second race will be between Blease and Manning.

THE SUMMER VOTE.

The vote in Sumter county complete shows Blease 751; Manning 1154 and Cooper 320. This is Governor Manning's home county.

THE GREENWOOD VOTE.

The vote in Greenwood county complete shows Blease 1234, Manning 885 and Cooper 820.

THE YORK VOTE.

Twenty-two boxes out of twenty-four in York county gave Blease 1699; Cooper 729 and Manning 817.

THE FAIRFIELD VOTE.

Complete returns from Fairfield county gave Blease 437; Cooper 351 and Manning 391.

Finley Leads For Congress.

Complete returns from Chester, Lancaster, York and Cherokee give Congressman D. E. Finley a lead over W. F. Stevenson of about 1,800. Complete returns have not been received from Fairfield, Kershaw and Chesterfield counties. Information that Finley is leading in Fairfield.

SOLICITOR HENRY WINS

Complete returns from this district show that Solicitor Henry has won out over J. Harry Foster by 1,621 votes as follows:

	Henry	Foster
Chester	1742	343
York	2104	1768
Lancaster	1079	1819
Fairfield	713	589

WEDNESDAY, AUGUST 30.

WOULD MAKE CHESTER BAD
TOWN.

The following article from the
Greenwood Daily Journal would con-
vince the idea that, Chester is a bad
town, as far as the colored people
are concerned.

Our esteemed contemporary has
reference to the trouble which re-
cently occurred at Niroles, which is
several miles from the city of Ches-
ter.

Of course, the outrage was commit-
ted in Chester county but we would
like to inform our friends, the Green-
wood Journal, that there are several
hundred negroes employed in the
construction of an enormous power
plant at Niroles, which is several
miles from all parts of the county
and like all public "gangs" has
some notorious characters in the
crew. Our Chester officers are en-
deavoring to enforce the law at the
plant but they are not capable of
making a lamb out of a tiger.

"We are in favor of giving the col-
ored people just as much protection
as are given white people and we do
not believe that any resorts should
be permitted that are not for their
moral uplift, and we think there
are many towns that allow colored
dances which are infamous places
where all kinds of evils exist. We
see that Chester has one and that
a white man who went to assist an
officer in making an arrest at this
hall was killed. It seems that there
was a great deal of drunkenness
and rowdiness at the place and that
flamed by liquor promiscuous shoot-
ing was indulged in.

"It's a shame and a disgrace that
any municipality for the money it is
able to get out of the proprietors of
such places should license these in-
famous dens. Greenwood, we under-
stand, has such places. It is our
opinion that the men who own such
places should have the welfare of
our colored citizens in considera-
tion enough not to permit places of
this kind. We confess we are unable
to understand upon what grounds
council permits them. They should
be wiped out at once and there should
never be another one allowed."

WHEN PENROSE SPEAKS

When Mr. Hughes talks about the
tariff it is an academic exercise, but
when Senator Penrose talks about
the tariff country must listen.
Should Mr. Hughes become President
with a Republican Congress, Senator
Penrose is the man who will have
most to say about tariff revision. He
will be Chairman of the Senate Com-
mittee on Finance, and the new lar-
ge tariff will be his father's. The
rich-Payee tariff was Senator Ald-
rich's tariff.

When Senator Penrose insists that
"the United States should have no
for industrial preparedness" we do
not know precisely what he means.
But Steel knows, Wool knows, Bee-
cher knows. The American Protective
League and the Boston Home Mar-
ket Club know. Every treaty that ever
settled on a monopoly tariff know.
Penrose always speaks his language.

GRADING COTTON.

At the last session of the legisla-
ture of South Carolina a bill was of-
fered to establish official cotton grad-
ers, but the bill failed of passage
largely because it was thought to
make the producer sell only through
licensed graders. A compulsory law
of this kind was deemed unwise and
impossible of enforcement.

An official cotton grader at each
market would be of considerable val-
ue to the cotton farmers, and they
could sell through him or to those
who were not officially licensed if
they so preferred.

In North Carolina a good plan has
been put into operation. Through
the State Department of Agricul-
ture the services of an efficient grad-
er can be secured for any county where
the county commissioners will put
up three hundred dollars to help de-
fray the expense.

"This has been made in all coun-
ties taking the service," says an offi-
cial of the department, "for competi-
tive cotton graders for drawing bids
and selling to the proper grading
agency will be graded at the grad-
ing office and certificates of grades
issued to the farmer. The grader
will be paid for his services at the
rate of two after their cotton is graded.
This farmers are not in a position
to know the grades of their cotton
before the North Carolina plan is
adopted."

MEXICO AND NAPOLEON.

The present troubles in Mexico re-
call strikingly the disturbed condi-
tion in that country shortly after the
civil war. On October 1, 1861, Great
Britain, France and Spain united in a
triple agreement for a joint mili-
tary expedition, avowedly to enforce
the claims of and secure protection
for their subjects in Mexico which ex-
tended beyond the limits of the Mexi-
can territory or coerce the nation re-
specting the form of government, and
to secure the evacuation of all Mexi-
can territory.

The United States was asked to be-
come a party to the agreement and
expedition, but Mr. Seward declined.
In his guarded language stated that
the United States could not take part
on warlike measures to enforce claims
against its neighbor, nor could it claim
that any foreign Government should
exercise any influence to interfere
with the free choice of its people.

In a few months the British and
Spanish fleets were in the Gulf of
Mexico and withdrew from the coun-
try, leaving the French alone in
Mexico to pursue their plans. The
Emperor Napoleon gave assurance to
our Government in June 1862, after
the rupture with his allies, that "the
French troops do not go there to in-
terfere with the form of government,
nor to acquire any territory."
And his only object was to secure
a settlement of French claims, and he
repeated this assurance constantly
during the following three years.

The French force had a comparatively
free hand during the civil war,
although our Government continued
its relations with Juarez as the lawful
President, and finally the Emperor
declined to recognize the so-called Em-
peror Maximilian, who had been
placed on a throne and supported by
French bayonets.

But when the civil war was hap-
pily terminated a large army of ob-
servation, under Gen. Sheridan, was
dispatched to the Rio Grande frontier,
prepared for such action as the
circumstances might determine. Gen.
Grant favored the expulsion of the
French troops from Mexico without
delay, but Mr. Seward felt that a
temperate but firm insistence upon
our position maintained during the
war would accomplish the desired end,
and his representations through the
minister in Paris led to the assurance
by Napoleon that his troops would be
withdrawn, and this was gradually
accomplished in the summer of 1867.

His relations with France, Maximilian,
led to himself, was soon overthrown
by the Mexican republican troops,
and his representations through the
minister in Paris led to the assurance
by Napoleon that his troops would be
withdrawn, and this was gradually
accomplished in the summer of 1867.

It was asserted by this American
that the "Bismarck" element talks of
now "heavy" drain on Germany.
In some places on the eastern front,
I was told in the best informed quar-
ters, it is absolutely necessary to
place one German regiment to every
two Austrians.

"So far as the west is concerned I
found the belief everywhere that the
Austrians had the best of the allies,
and that the war would probably end
in sight of where the fighting is now
proceeding unless Germany were
forced to use her lines to add more
men to solve the more critical prob-
lems of the east front."

AUSTRIA HAMPERS
GERMAN FITNESS
FOR WINTER WAR

But Americans Find That No One
Believes War Will End Before
—Nissa Month—Nation Sure Loss
in West Will Hold—Plenty of
Troops Available.

London, Aug. 24.—Assured of one
great harvest and the possibility
and with her armies thoroughly equip-
ped for another winter campaign,
Germany's most critical problem at
the present time are the possibility
of Roumania joining the allies, the
frustrating or seriously embarrassing
the great blow which she hopes to level
at Russia, and the possibility of in-
creasing weakness of the Austrians.

This is the consensus of two Ameri-
can business men who reached Lon-
don today and were interviewed by
The World's correspondent. Although
they had been traveling in different
parts of Germany, both Americans
attested to the bountiful crops. Like-
wise, both believed the people at large
were anxious for peace, but neither
found any serious belief anywhere
that the war would end before an-
other nine months.

The opinion, in particular, of one
of these two Americans, is the more
significant because he visited in re-
cent weeks not only the big but many
small places. He said:

"The possibility of Roumania joining
the Entente now is a most absorb-
ing one in Germany, because it may
seriously alter her plans for deliv-
ering a crushing blow against Russia,
and because so many German re-
ligions are necessary to bolster up
the Austrians. Instead of a great German
army marching against Russia, as
was done in Serbia, there is a belief
that the Russian war will be able
to sweep to Bulgaria before it
could be beyond."

"No German of any station in life
has the faintest belief that without
German aid the Austrians could with-
stand the Russian avalanche. Austria
is now heavily drained on Germany.

FRANCE WANTS MORE
OF OUR VOLUNTEERS

Stands Out Call for Recruits for the
American Ambulance Corps.

London, Aug. 26.—Word has been
received here from Richard Norton,
commander of the American Volun-
teer Ambulance Corps in France, that
the organization is to be enlarged in
order to extend the scope of its val-
uable services.

The commander's brother, Elliot
Norton of New York, is to pass upon
the organization's expansion.

The corps began work in France at
the start of the war. Later it re-
ceived the distinction of being men-
tioned in the general order for the
"constant devotion to duty of its
members and because it has rendered
the very greatest service to the army
division to which it is attached."
In honoring the wounded in the best
possible manner."

The essential requirements for vol-
unteers are that they shall be good
Americans, in sound health, capable
of hardships and caring for the
wounded. They must be able to drive
a motor and talk some French. The
Americans already attached to the
corps have been principally American
college graduates.

In other parts of the country, electri-
cal disturbances play havoc with the
time of day. I recall that a few years
ago in Chicago a record was kept of
the number of watches broken during
an electrical storm, and the number
reached 2,800. All of them stopped
during a period of fifteen minutes.

"I can't tell how many were affect-
ed," said the jeweler, "during the
storm here, but I shouldn't be sur-
prised if 1,000 are out of order in
this section. All day long they have
been coming to me, and in nearly ev-
ery case it was the same trouble—
broken mechanism."

The electrical storm, travelling
from southeast to northwest and pass-
ing over Ringling and the Healdton
oil field, lasted less than one and a
half hours, beginning about 8 o'clock,
yet some watches stopped for ten mi-
nutes stopped at late as 11:30, which
the jeweler said was extraordinary.

Maxwell

\$595
Maxwell motor cars have
demonstrable rims and the
same size tires on both
front and rear wheels.

REMEMBER these important features, because
they are not to be found on some of the lighter cars.
Maxwell cars have 3 1/2 in. tires all around. This is a
generous size. The tires are not overtaxed. They last
longer and make riding easier.

Tires of one size mean that you have to carry only
one size casing and one size tube.

Demountable rims, of course, are recognized as the
best. They are on all good cars. Don't buy any car
without demountable rims. If you do, you'll regret it.

These two features—along with the other complete
and up-to-date equipment; the economy and proved
endurance of the Maxwell, make it the greatest auto-
mobile value in the world today.

HOLLAND STILL HOPES TO KEEP OUT OF WAR

In Perilous Position. However, and Seen Dangerous Even After Peace Comes.

The Hague, Aug. 20.—Although vigilance is still the order of the day the Dutch nation entertains a good hope of preserving peace to the end. That its position is still perilous, however, the latest Orange Book testifies, and it is recognized that the ultimate peace congress may itself bring dangers in its train.

It is clear that nothing but a direct act of war, or action tending to force the nation from its strict path of neutrality, will bring the Queen or her Ministers to enter the struggle; in all other cases of restriction of Holland's rights and damage to her in-

WILL URGE ALL BAKERS TO RAISE PRICE OF BREAD.

Systematic Campaign by Master Bakers' Association to Be Started This Week.

Chicago, Aug. 16.—An increase of one cent a loaf in the price of bread by the bakers of the entire country is to be urged next week through a systematic campaign inaugurated by the National Association of Master Bakers according to a statement today by J. M. Bell, Secretary of the organization.

"With the price of all material used in the baking of bread from 25 to 100 per cent higher than they were a year and a half ago such action becomes absolutely necessary," said Mr. Bell.

"I doubt if today there is a baker in the country who is not losing money selling bread at the present price of 5 cents a loaf."

Mr. Bell said that movement for an advance in price will include every baker in the country, whether or not he is a member of the association.

ASA G. CANDLER GETS NOMINATION FOR MAYOR

Atlanta, Ga. Aug. 21.—Asa G. Candler, millionaire soft-drink manufacturer, was nominated for mayor of Atlanta in the democratic primary today over Jesse Armistead, member of the city council. GEORGIA MILITIA CAPTAIN KILLED IN CAMP BY WOMAN

Officers Say Slayer Accused Victim of Wrangling Over His Office in Atlanta, Before Mobilization.

Macon Ga. Aug. 25.—Capt. Edgar J. Sprattling of F Company, Fifth Regiment, National Guard of Georgia, was shot and killed in his tent at the State mobilization camp near here today by Mrs. H. C. Adams, an Atlanta woman, who, according to officers at the camp, accused Captain Sprattling of having wronged her. At the Bibb County jail tonight Mrs. Adams asserted that Captain Sprattling, who was a physician, had caused her to shoot him by attentions paid to her while she was in his office in Atlanta for treatment before the Georgia troops were mobilized.

Mrs. Adams, who is about 30 years old, came from her home in Atlanta today, and going to the State camp inquired the way to Captain Sprattling's tent. Reaching the tent she asked the officer: "Is it said, if he were Captain Sprattling? On being answered in the affirmative, she fired twice from a small caliber pistol, both shots taking effect.

The woman according to Lieut. Samuel A. Kyzer, of F. Company, who seized her a moment later, cried out as she fired "you have ruined my home." Mrs. Adams' husband is employed at a laundry in Atlanta, according to information received here.

Captain Sprattling, who was about 47 years old, and married, was one of the most popular officers in the regiment and was well known in medical and social circles in Atlanta.

Flags were placed at half mast in the State camp tonight and arrangements were made to take the officer's body to Atlanta under military escort.

At the coroner's inquest tonight the jury held that Mrs. Adams fired the shot that killed the officer and considered her held for the county grand jury on a charge of murder. The Federal Government made no effort to assume jurisdiction in the case.

SAID HE HEARD GERMANS WERE MOVING ON DUBLIN

Chairman of Board of Inquiry Reads Report by Capt. Bowen-Colthurst.

Dublin, August 24.—At the continuation today of the inquiry into the shooting without trial during the rebellion in last April of F. James Sheffington, Fred McIntyre, and Thomas Dickson, Sir John Simon, chairman of the commission conducting the investigation, read a report made by Capt. Bowen-Colthurst, who ordered the execution of the three men. The captain, who subsequently was Court-martial, reported he did not believe the rumor that he had seen the place for such "desperate men," as Sheffington, Dickson and McIntyre. He said he had heard six hundred Germans were marching on Dublin and that large forces of rebels were about to attack Portobello barracks. He was told that soldiers on leave were being "shot down in the city like dogs," and had these things on his mind at the time he ordered the shooting of the three men.

Adjutant Morgan testified there was nothing incriminating in the documents found on the prisoners. The commission ruled against raising the question of Capt. Bowen-Colthurst's sanity.

FIFTH GERMAN WAR LOAN

Arrangements Have Been Completed for Its Flotation.

London, August 24.—Arrangements have been completed for flotation of the fifth German war loan. An Exchange Telegraph dispatch from The Hague says the loan will be issued September 4 and the interest rate will be 5 per cent, as in the case of the previous loans. Subscriptions will be received up to October. The issue price, the dispatch says, will be 98.

Count von Roeder, secretary of the imperial treasury, has instituted measures to popularize the loan, which, the dispatch says, is being described by canvassers as "the last hope for European peace."

The fourth German war loan was issued in March. It was sold at 98 1/2, as against 99 for the third loan. An issue price of 98 for the new bonds would indicate that Germany, in common with other belligerents, is being compelled to pay a higher price for its funds as the war goes on.

CORN FALLS IN THE RIVER

Lancaster Citizen: The big Niabeet and Wilson truck in charge of Mr. Minor Sweet, accompanied by Laman Wilson, the six-year-old son of Mr. Gib, hauling a load of corn from the Gib Green place at Springdale last Friday, broke through the Waxhaw creek bridge near Springdale, precipitating the truck into the creek. Mr. Sweet had the presence of mind to grab the child and hold him up out of the water. The truck was raised next day with the assistance of a county engineer's equipment and found to be intact. The damage to the bridge is considerable, as one of the middle spans was carried down.

THREE SURVEYS COMPLETED FOR THE ROBBEY ROAD

Rock Hill, July 29th.—The Chamber of Commerce furnishes the following facts regarding the surveys: "It is understood that the engineers who have been here for several weeks surveying the routes for the Seaboard connection have made three complete surveys leading from Rock Hill to the Seaboard. "One of the lines leads direct from Rock Hill to Edgemoor, one to Harney, and one to Spencer. John T. Roddey and associates have not come to any conclusion as to which one of these lines will be used. This matter will be decided hereafter."

YORK COUNTY MAN PASSED AWAY IN TEXAS

W. H. Kidd, father of W. B. and S. R. Kidd of Charlotte, passed away at the home of his daughter, Mrs. Maggie Boyd, in Texas. Mr. Kidd was 85 years old. Mr. Kidd was a native of York county, South Carolina, and he fought in the Civil War, being a member of Company "E," 5th Regiment. He is survived by three children, W. B. and S. R. Kidd, and one daughter, Mrs. Maggie Boyd. The two sons live in Charlotte, while the daughter, at whose home he died, resides in Texas.—Rock Hill Record.

RESENTED POPULARITY HANDSOME HUSBY AND A ROW IS THE RESULT.

Atlanta, Ga., August 25.—Handsome Harry Hines, manager of a fashionable family hotel on Peachtree street in this city has made such a hit with his women guests that his wife is convinced he is "crazy and scratched his face in the lobby of the hotel, making such a violent scene that the rooming clerk was forced to desist from plucking his small pink finger nails and call a policeman to quell the disturbance. That's the way his lawyers put it up to Mrs. Hines in Handsome Harry's cross bill filed in answer to her divorce suit, in which the alleged man took her diamond ring worth \$300 and refused to give it up. Judge Penn has issued an order restraining Mrs. Hines from entering the hotel.

YOUNG GIRL MARRIES A WESTERN BARK

Miss Beavers is Only Twenty-Two Years Old, but She Has Been Successful.

Jefferson, S. D. Aug. 19.—There is a bank here that has a young girl for its manager, and she is making a success of the undertaking. Miss Pearl Beavers, from all appearances, is just as ordinary a girl as any who enjoys a good time and a frolic outside of business hours. Yet if one would know Miss Beavers during the banking day he would realize that she is an unusual girl.

Miss Beavers was born and lived the early part of her life at Jefferson. As she grew up it was not the life of a society butterfly that appealed most strongly to her, nor did the usual "teaching school" hold her interest. She wanted to be a banker. Two years ago she went to Sioux City with this fixed purpose in mind and with a determination to win out. If work and perseverance could bring success. She sought her way through her opportunity knocked, and it didn't have to knock twice to arouse this girl with an ambition.

There was an opening for an industrious young person in the Sioux City Trust and Savings Bank. Miss Beavers got the position and at the same time a chance to prove that her ambition was backed by a determination to "get by" with her plans. She made good. Gradually more and more trust was placed in her ability. Then a few weeks ago the big opportunity came. The Bank failed, and she needed a temporary manager, and its authorities had enough confidence in Miss Beavers to place her in this responsible position. She has done the job all morning to the best of her ability.

Miss Pearl Beavers has only begun to manage. There remains yet before her the success that will come to any one who has the desire for something worth while and the courage to persevere until it has been attained.

CONGRESS ADJOURNMENT
MAY BE MUCH DELAYED

Plans for Ending Session Friday
Are Not Maturing Very Rapidly

Washington, Aug. 28—Plans for adjournment of congress next Friday are not maturing as rapidly nor as certainly as many leaders here are contemplating. The chief in the railroad situation is the principal obstacle encountered at the seventh hour and no one would expect a hasty and adjournment session would end.

The senate has begun the final drive on the emergency revenue bill and will continue the consideration of amendments today. Senator Underwood, whose revolt against the income tax provisions was defeated Saturday, will make another protest against the proposed increase in tariffs on dyestuffs. He intends to fight to the last on the ground that it is undemocratic and a protest on the part of Democracy to the Republican principle of protection. Senator Phelan, of California, wants amendments to the tax and Senator Overman, of North Carolina, will lead a revolt against the proposal to tax manufacturers of all materials entering into munitions of war.

When amendments have been disposed of the senate will lay aside the revenue bill long enough to pass the general deficiency appropriations out of the way and will propose to be completed, administration leaders plan to pass revenue bill, to defeat that will be made to take up the corrupt practices and Senator Owen will struggle to the end for action on corrupt practices and Senator Smith, of South Carolina, threatens to call up immunities and administration leaders have entertained no fears that these motions would interfere with adjournment.

There was much informal discussion of suggestions to change the railroad situation is the bill to enlarge the interstate commerce commission from seven to nine members. Senator Newlands, chairman of the interstate commerce committee, has said he would press that, and the president is known to have expressed a desire that it be passed. This bill itself, Democratic senators said, could be disposed of without difficulty. If an attempt should be made to amend it, however, by proposals affecting the strike situation they admitted could be entirely defeated.

There was much informal discussion of suggestions to change the interstate commerce bill provisions. A compulsory arbitration of railroad disputes and an expression of opinion on the part of congress that the railroads should be entitled to more control. If they accept the eight-hour work day, involving an increase in operating expenses. Efforts to press such measures, it was deemed, would provoke long discussion and unduly prolong session in session indefinitely.

The house Tuesday will act on the deficiency appropriation bill, reports follow this with action on the amended shipping bill, which has been held up because of the lack of a quorum. Then it will await the senate revenue bill amendments and whether the railroad crisis may have in store.

UNITED STATES WILL GO AHEAD WITH TREATY

Washington, Aug. 24—Senator Stone, chairman of the senate foreign relations committee, announced today that he acted for the United States in rejecting the Danish Landerhing and Danish West Indies to the United States. He said that the treaty would make no difference in the rights of the United States, nor in the effort to get the ratification of the islands ratified here as soon as possible.

COLUMBIA POLICE RAID

"TIGERS" BY WHOLESALE

General Complainant From Citizens Sic Constables to United Action Against Illegal Liquor Traffic. Columbia, S. C., Aug. 27—Squads of State constables simultaneously made raids in various parts of Columbia Saturday for "blind tigers" belonging to Magistrate James H. Fowler charging them with illicitly selling intoxicating liquors.

The raid was made in "blind tigers" of the whiskey was packed it seems that the alleged "blind tigers" are getting various individuals to order monthly gallons in half-pint bottles. Some of the raiders were arrested. The raid was made by the constables later. Many citizens have written the governor's office complaining of the condition of affairs in the city of Columbia, and organizations such as the Anti-Saloon League. The Law and Order League likewise have requested action. Governor Manning ordered they have been arrested. The result was the raid.

It is reported that additional raids will be made by the constables later. The largest complaint in Columbia has been of the sale of Jamaica ginger, lemon and "spiced" cider and it has been very hard to locate offenders, particularly the "hip pocket" vendor of liquor. Some of the raiders were arrested. The result was the raid.

COMMITTEE SUICIDE IN JAIL

Man Charged With Forgery Hanged Himself in Cell

Tampa, August 26—A man known to the police as Carl Vance hung himself in his cell in the city jail at Fort Tampa this morning. Vance had been arrested for passing a worthless check for \$25. He had also given his name as C. D. Lenane and J. E. Jesse.

Vance posed as a Government wireless inspector at Fort Tampa for several days. Tuesday he cashed a check for \$25 in his father's name. He was arrested and returned to the Fort Tampa authorities. Vance sent a telegram last night to William B. Price, Kent, Maryland, asking assistance and signed it "Joe Hesse." A telegram was sent by the authorities today to this address, asking information regarding the deceased.

C. E. Sears, a private detective, of Jacksonville, arrived here tonight and declared handwriting and other details of Vance called with that of a crook who has been trailing through Savannah, Jacksonville, and other Southern cities for forgeries. Sears said he has seen the banking institutions which have been victimized.

DEED, MARY WILLIAM, SAID

"Deed, Mary William, said, I could not get any. The idle, loafing, lazy negroes want my work," said William, he added, "God Almighty has lost money on every negro I have raised since the war." The old darkey had the old-time idea, existing in slavery days, that we often wonder if the Almighty has not lost the negroes alone, but the thousands of whites, so forcibly described by the Baptist Record as "gas bags without illumination," "goop-pawllowers," "weary sons of earth," "stuffed-to-madness," "hangers on," "set-fasts," "immovable hoboes," "tramps that don't even tramp."

BIG SHARK CAUGHT

IN CHARLESTON HARBOR

Eight-Foot Monster Felled, in After Tactile Battle. A huge shark, measuring eight feet two inches in length, was caught in the harbor yesterday near the Consolidated company's dock by Andrew Williams, a fisherman, who had some business with the monster before they were able to land it on the dock.

The shark was caught in the harbor. It has been seen in the docks in the vicinity of the Isle of Palms ferry and the custom house wharf for a week. It was seen several times and it has been made to capture it. Mitchell and Clark succeeded in the attempt late yesterday afternoon by using a mackle net. A stout rope and tackle completed the equipment.

The shark was of the hammer-head species, having a broad head and a flat, big nose. It is the sharp-nosed shark, which are considered dangerous, but no one would care to be anywhere near the monster captured yesterday. It had a mouth large enough to accommodate a man's head, and its teeth were enormous. Scores of people visited the dock to view the shark before it was cut up into steaks, which are said to be palatable.—News & Courier.

WHAT SHALL WE DO WITH THE LOAFERS?

Dr. Gambrell has spoken of war as the surgery of nations. General Sherman had another name for it, and both may be right. We have seen some pus cases that made us afraid that war might become necessary to give relief. We wonder, if taken the country over, the average village would not upon examination show one-half of its men doing nothing half the time. And what would be the use of the women and children? It is marvelous, not to say shameful, what idleness is exhibited as one goes down any "business" street of the town. The hangers-on, set-fasts, immovable hoboes, tramps that don't even tramp, men having only half employment and working a fraction of the day, who have without illumination, gossip swallows, weary sons of earth, tired do-nothings—these are about all the places of "business." It is well to pick out those who are to become "food for powder" from among this aggregation. Only don't ask us to become captives of this deification company of wars and molasses. Baptist Record, Jackson Miss.

WE HOPE OUR GOOD FRIEND OF THE CAPITAL CITY

We hope our good friend of the Capital City will not be discussing conditions in this town for some time. We have found such conditions in some parts of the country, where hanging around country stores and the day, who have without illumination, gossip swallows, weary sons of earth, tired do-nothings—these are about all the places of "business." It is well to pick out those who are to become "food for powder" from among this aggregation. Only don't ask us to become captives of this deification company of wars and molasses. Baptist Record, Jackson Miss.

THE WOMEN WERE ALL THE BETTER

The women were all the better contented, as they are able to retain their earnings, having no white slave master to strip them of what they have made. Many were free for the first time in several years. In Patterson the same conditions were found. David Parish, alias Shivers, who was indicted by the Grand Jury Tuesday on a charge of white slavery following the testimony of Ida Cohen, was indicted again yesterday. Two true bills were returned. He is now in the Tombs and his wife is in the House of Detention.
