UNCLE SAM AFTER U. BOAT

American Patrols and New Devices Cut Loss of Protected Ships. Hull of 1 Per Cent—Successfully Develops Depth Bomb—Looked for American Insignities.

Washington, Aug. 29.—New devices, applied through co-operation of the British and American naval forces in European waters, have had a perceptible effect on German submarine warfare.

While officials of the Navy Department are reticent, they are satisfied that American vessels have sunk some U-boats—how many the department does not know, but the reports received seem to have no room for doubt that in several instances the Americans scored.

One apparent result of the American addition to the submarine patrol is that U-boats are operating further out at sea. This extension may be attributed also, in part, to the larger of some naval officers, to the "zipper" submarines, with greater straining of the U-boats.

Officials here are much encouraged over the submarine situation. They are preparing for the next generation and more effective methods, which are expected to bring results soon.

LICENSE FOOD IMPORTS IN GREAT BRITAIN

Controller to Take Over Entire Purchase of Bacon, Butter, Ham and Lard. London, Aug. 30.—The King-to-day signed a proclamation authorizing the importation of bacon, butter, ham and lard except under license.

Pending further arrangements, licenses will be granted certain importers of bacon, ham and lard from other countries that the United States to continue import. Consignments of Canadian bacon will be under the same restriction as American goods.

A statement issued by the Food Ministry says that the United States to continue import. Consignments of Canadian bacon will be under the same restriction as American goods.

EIGHT IN YORK JAIL FOR FOX MISS LYNNING

Lynchings, Accused of Conspiracy in Killing Preacher, Last Night in Lehigh Prison. York, Sept. 1.—Eight arrested in connection with the lynching of W. T. Sims, the negro preacher who was put to death by a number of men on August 27 near York last week, was today being held in Lehigh prison.

CALLS FOR MORE MEN

Board for Western York Has Not Secured Quota. York, Sept. 1.—One hundred and fifty men were tabulated by the board for western York, which are from 401 to 525 have been summoned to appear before the selective board for western York.

URGE CLOSER UNITY OF ALLIED ACTION

Observers in France Want a More Compact Organization to Execute War Policies. Paris, Aug. 29.—In the last few days I have heard the hope expressed in more than one high quarter that President Wilson might lend his powerful influence to reorganizing the war management on a basis of efficiency.

An attempt has been made in recent months to hold frequent conferences attended by the heads of the various governments. America has so far stood aloof from these conferences.

BUILDING TWO BRIDGES

C. and N. W. Erecting Two Structures in North Carolina. The Carolina and North Western Railway company is at work building a permanent bridge across the Roanoke river near Rhodius, N. C., and another near Rhodius, N. C.

Work of eliminating the old bridge which is in three sections below the bridge site, is now going on rapidly. Since the bridge now in use will be taken apart and worked over and replaced on new piers and made ready for transportation of the trains.

ANDERSON, SEPT. 1.—DR. J. C. HARRIS

announces the engagement of his daughter, Joan, to Henry White Cross. The wedding ceremony will take place early in November. The announcement is of interest throughout the State as both Miss Harris and Mr. White are prominent South Carolina families.

PLAN FOR SEED CORN NOW

It Should Be Taken From Stocks Standing Where They Grow. The acre yield of corn in the United States could be greatly increased, according to the United States Department of Agriculture, which states that the proper selection of seed is of primary importance in improving the yield.

It must be understood, says the department, that like produces like, and that early-maturing corn producing abundant stalks, which stalks is likely to repeat those characteristics in the next generation.

AUSTRIAN LOSSES SHOW FORCE OF ITALIAN DRIVE

Thousands of Men Killed and Made Prisoners and Vast Stores of Munitions Captured by General Cadorna's Army in New Offensive. London, Aug. 30.—In its late war edition Thursday morning the Times prints a dispatch from its correspondent at Italian headquarters which states that the average production for the country is 85 bushels an acre, though yield is as high as 290 bushels an acre, have been made by collecting in boy corn clubs.

The battle of the plateau of Bainsizza, says the correspondent, continues together in favor of our Italian troops. The enemy is hurrying up reinforcements and making a gallant effort to stem the advancing onrush of the Italians, but he has a thankless task in front of him.

TIGHTEN FOOD BAN AS GERMAN BLOCK

Exports Council Orders Drastic Conditions. Government Shipments to Neutral—Abrogate Agreement With Belgium Relief Food and May Consider Holland Text. Washington, Sept. 1.—The administrative board of the Export Control Council, headed by Vance McCormick, has now sent with full powers to President Wilson, has shut down on the shipment of any food stuffs to neutral countries contiguous to Germany.

It is stated here tonight that some of the northern neutrals, Holland included, may expect so much as a partial lifting of the embargo which went into effect before December 1, and that such shipments to the neutrals will be permitted only upon the submission of a statement which will be unassailable evidence that supplies are absolutely necessary for the maintenance of the neutrals and will not be used to aid Germany.

GREAT NEW POWER RISING IN RUSSIA

Passant Lashover, United Against Workers' Councils and Maximilian—From Solid Block For Exile—In Site and Population Germany and Austria-Hungary. Moscow, Tuesday, Aug. 28.—If any hope is agreed in Russian breasts that the Moscow conference would accomplish a miracle of social healing, that hope was quenched today. The Soviet and its followers have not heeded the eloquent appeals of the representatives of the four democracies to the Socialists and the Middle East to sink their differences in order to save the country. They still refer to "revolutionary Russia" and the "internationalists" who still remain deaf and blind to the consequences of defeat.

I do not wish to say that the Soviet and its friends refuse to fight. No, they merely contend that the war has become impossible without the maintenance of the councils, committees, committees of the revolutionary apparatus, and they absolutely decline to accept the solemn warnings of the military chiefs against the maintenance of the army reform. They are more than disposed in reality to quarrel with an accusation of the military to weaken the power from the present coalition and to concentrate it in hands of the "revolutionary democracy."

The millions uttered by Redcliffe here, that the situation is untenable, that the war has already gone, has already gone. The peasant producers are enrolling themselves in military units. The peasants are enrolling themselves in military units. The peasants are enrolling themselves in military units.

SERIES OF CLASHES

Lexington, Ky. Sept. 1.—The streets of Lexington tonight were being patrolled by armed mounted and foot soldiers of the Kentucky National Guard and the civil authorities have augmented their night police patrol as the result of a series of outbreaks in the principal streets here. Outbreaks between groups and soldiers. The town was quiet tonight. The authorities believe, however, and it feeling was apparent and threats of further trouble were heard. With the additional guard, the authorities believe, however, they hid the situation in hand.

The street fighting today was the culmination of a series of disturbances between soldiers camped at the edge of the city and negroes, who have been flocking to Lexington during the past few days. The disturbances were taken to the hospital in a serious condition, while numerous other negroes received lesser injuries. The soldiers escaped with minor bruises.

The local authorities reconsidered their decision to request that the soldiers be kept off the streets for the time being. A benefit bridge in charge of the Lexington Fire Department, for Wm. S. Service, is due to the Polish temper, which gets impatient with German methods and cannot wait for the order of military council. Today represents very much the pleasure of dissension with the State. The history has abandoned.

It seems almost unbelievable that the power to continue to the war. It has been a slow movement, conditioned by the pace at which the country, poor as it is, but I could give the figures of guns already brought into line you would wonder how we dare talk of shipping fruit.

Every housekeeper should read last issue of Chester Hardware Co. in this issue and save money and expense by placing their order for one of these Wonderful Ranges.

The local exemption board has certified to the District Board a list of fourteen men who failed to appear before the local board for examination. Chester county will be allowed credit for these men, who through failure to appear have lost all claims for exemption. A list of these men will also be furnished to the United States court by the local board. According to a recent ruling these men will be classified as deserters after the expiration of a certain length of time.

Misses Johnnie and Ina Harrell are expected home this afternoon from Forest City, N. C., where they have been visiting relatives.

Mr. J. B. Harrell was called to Forest City, N. C., Sunday on account of the death of his sister, Mrs. G. C. Kante.

Col. A. L. Gaston spent yesterday in Greenville, visiting his daughter, Mrs. Z. V. Davidson, who recently underwent an operation in that city. Mrs. Davidson's many friends will be pleased to learn that she is getting along nicely.

Miss Clarice Wright, of Wilmington, N. C. is spending this week at home.

The Chester High School will offer this year, as the fourth year study in the Commercial Curriculum a course in Stenography and Typing, provided enough young men apply to form the class. This class will be open to any young men or women in town who can have their business one hour each day for the class work. Anyone interested should consult the Superintendent at once.

Mr. G. A. Sanders has returned to Birmingham, Ala., after visiting relatives in the city.

Miss Leslie Barber's early fall millinery will be on display Saturday. You are invited to call and inspect the line.

We are requested to state that the Red Cross rooms will be open on Tuesday and Thursday this week instead of Tuesday and Friday.

Builders of the new bridge across the Catawba river between Catawba and Fort Mill township, expect to finish the work by November 1. Some twenty-five or more men are now employed on the work and they are making good time. Three piers have practically been completed. Judging from appearances, the bridge is being put there to stay. It is only probable that the India Hook ferry now being operated will be continued even after the new bridge some two miles further down the river, is completed. By way of the new bridge, the distance between Fort Mill and Rock Hill is a fraction more than seven miles. By way of the ferry the distance between the two towns is about twelve miles, about thirty.

CHESTER'S FIRST QUOTA WILL LEAVE TOMORROW

Chester county's first quota of the National Army will leave Chester tomorrow morning at eight-thirty o'clock for Camp Jackson, Columbia. The first call is for five per cent of the first quota, hence eleven young men will leave Chester tomorrow.

In addition to the young men selected by the local board to go to Columbia, there are five alternates who must also report to the local board. A number of the men will report to the local board this afternoon at the court house, and others, who filled out the cards mailed them by the board, will be allowed to spend the night here but must report to the local board tomorrow morning at seven o'clock.

We are authorized to state that there is any man in the first selection whom it does not suit to go along with the first crowd, the local board will arrange for one of the alternates to take his place. The war department has also advised those going to the camps to wear a comfortable pair of shoes which will afford a change from the regulation shoes, which will be furnished at the camps.

The following is a list of those ordered to report:

Bee Brawley, John Gröver Canine, William Clod Ricklin, Charles Ingram, Wm. T. Barnes, Sidney Robert Harley Jordan, William K. Sanders, Clinton B. Ferrell, W. Alvin Clark, Carl Lutz Clinton, Alternates: Jesse Owen Rice, Dixon W. Woodward, William Smith, Walter S. Minter, Edward Bookler Bagby.

Additional Certifications.

The following is a list of additional certifications of Chester county men, which has been made to the District Board by the Chester county local board:

Robert B. Johnson, enlisted; William Chappie, Chester; Richard Worthing, Lenoirville; Anderson Heath Gayden, now in Pennsylvania; Joseph L. Righam, enlisted; Hugh Sam McKee, examined in Alabama; Luke Chisham, Chester; Thomas Luke Marion, examined in Detroit, Mich.

Chester county will be allowed credit for each of these men.

The second contingent of men from Chester county to go on September 15th. The local board has been busy for some time selecting the first allotment and also certifying names to the District board as well as a lot of other work. The board has not yet started to pass on the claims of those examined in the second call since there is no hurry for this action. While it is true the men are doubtless anxious to leave the District, they cannot expect the members of the board to entirely lay aside their everyday duties and confine their entire time to the matter of the selective draft.

The board has done a patriotic service and Chester county people should appreciate this fact and not expect too much of the board.

A press dispatch advises that the men who go to the National Army from Chester county will be assigned to the Three hundred and twenty-third infantry.

The Southern Railway bridge, over Catawba river, between Rock Hill and Lancaster, was again damaged by high water early Sunday morning and train service between those points has been discontinued. Service will probably be resumed about Thursday.

Many Physicians May Be Needed for Military Duty.

One-fifth of the total number of physicians in the United States will have to enroll for military duty if this war continues for another year, declares Dr. Franklin Martin, in Leslie's All but a small percentage of them have families to support and these and others are wholly dependent on the income of the hospital of the Government for military service. The house for this support. The physicians from thirty-five years to forty-five years of age, the age of greatest usefulness for military service, are at this critical period of his professional and financial development that two years of forced absence is liable to affect disastrously his whole career.

The change means, if there is no independent income, sacrificing of insurance, lapsing of the mortgage, withdrawing of children from school, a complete change of method of living, and greater risk of returning after the war had a lucrative practice divided among the stay-at-homes. A law has recently been introduced in the Senate by Senator Owen (Republican, Ohio), which provides for medical officers of the reserve corps, that will in some small way meet the financial burden of the volunteer doctor and will furnish him a rank equal to the dignity of his civil position.

WOULD GLADLY FLY FOR AMERICAN ARMY

But Many of Our Airmen in French Service Want to Wear their Foreign Decorations.

Paris, Sept. 1.—American aviators serving in the French Army, including the relatively small group forming the Lafayette Squadron, have been canvassed by American officers as to whether they wish to leave their present service and join the American Army. Seventy per cent of the Americans immediately said that they would like to go to the American Army and aid in the formation of an experienced aerial corps.

TRIES TO THRASH BRACKET

Albany Woman, Former Client, Attacks the Ex-Sheriff with a Whip.

Saratoga Springs, Sept. 1.—A woman who gave the name of Mrs. Clara L. Jacobs of Albany attacked former State Senator Edgar T. Brackett with a whip a little after noon today when they met in Broad-way. When he succeeded in taking the whip from her the woman used her fists and scratched his face in several places. Mr. Brackett retreated on her to accompany him to the Police Headquarters, where she talked in a rambling manner. He refused to make charge against her, but asked that an examination be made into her sanity. When later she became quieter the police permitted her to return to Albany.

EX-CZAR HAS 14 ROOMS.

Family Lives on Second Floor of an Old Hibernia.

Petrograd, Sept. 1.—Nicholas Romanoff, ex-Czar, and his family are now living in a fourteen-room apartment on the second floor of a large, old-fashioned house at Tobolsk, Siberia, according to reports just reaching Petrograd. Nicholas and the former Empress each has a room. The rooms have been put up side for the four daughters and one for Alexis, the son. The other rooms, except the dining room, kitchen, recreation room and so forth, are used by the servants. The house is without a garden, and the only way of getting fresh air is from a small balcony.

SUPPLIES THAT GERMANY NEEDS

Germans in Mexico are buying copper and rubber, for which they pay more than the market prices.

Many of them have come from other parts of the country to Yucatan, and some suspect that supplies are hidden along the coast of that province. These could reach Germany only by way of the Northern European neutral countries. By small craft the might first be carried to a Spanish port. It may be that no supplies have been stored secretly on the coast. If they have been placed there the American Government probably find them in its search for wireless stations, a search which is being made because two submarines in the service of Germany were found last week. One was in Campeche, at the mouth of the Champton River, and the other on Pichon Island, near the Taximay small stream district, from which the British Government obtains a considerable part of its oil supply. The prompt arrest of the wireless operator and the decision that search for other stations should be made indicate the attitude of the United States Government.

NOTICE.

After September first we will limit the number of suits to be clubbed for all Club members.

The club rate is only \$1.00 per month and heretofore we have not been placing any limit to the amount of work to be done for our customers. However, after the date mentioned above we will only allow Club members four suits each month. All suits over this allowance will be charged extra.
