October 15th Series PRESENTS
Golden Opportunity to You!

You become a member of this Association by subscribing for one or more shares of stock, which requires you to save with The Johnsonian as many dollars per month as the number of shares you subscribe for; ten shares being $10 per month. As the par or final value of each share is $100, it would require 100 months, 8 1/3 years, for you to save the par value of these shares, if you received no earnings on your money. But your savings are continually invested by a conservative Board of Directors, and your savings, plus the net profit thronethrough, are worth $100 per share, then the money is paid back to you.

Regular Monthly Savings Produces Great Results
$1.00 a month pays for 1 share; in 82 months returns $100.00
$5.00 a month pays for 5 shares; in 82 months returns $500.00
