There is a course on this campus which is the most popular of all. The course is called "The Campus Town Hall." Many students have enrolled in this course, and they are all eager to learn more about it.

The course is taught by Professor Johnson, who is well-known for his engaging teaching style. Professor Johnson covers a wide range of topics in this course, from the history of the school to the current events on campus. He always encourages his students to ask questions and participate in class discussions.

Professor Johnson has a unique teaching method. He frequently invites guest speakers, such as alumni and experts in various fields, to come and speak to the class. These speakers provide valuable insights and perspectives on the topics covered in the course.

One of the best things about this course is that it is open to all students, regardless of their major. This means that students from all disciplines can benefit from Professor Johnson's teachings. Many students have found this course to be a great way to expand their knowledge and broaden their perspectives.

In conclusion, "The Campus Town Hall" is a fantastic course that I highly recommend to anyone who is interested in learning more about the school and the community. It is a unique and engaging course that will definitely leave a lasting impression on its students.

1553 Is Final Enrollment For '44

With the completed registration of 1,533 students for the 1944-45 session, Winthrop's enrollment of full-time students falls only 2% below the highest record of last year. Registrations closed September 22nd with 246 enrolled.

The junior class with 333 is greater than last year's class by eight students. There are 38 seniors enrolled. One from a special class is attending the present semester. The completed registration figure emphasizes again the inter-territorially large increase in college enrollment for 1944-45. During the present nation-wide slump in collegiate education, Winthrop's enrollment is up 6% from that of last year. As usual, the students make a point to stay and help in Winthrop's activities.
