LATE-WAR NEWS FROM THE FRONT

BERLIN, Sept. 18.—German newspaper give high prominence to Russian telegram, according to which Count von Luckburg, dismissed Minister to Argentina, and Heinrich von Eckardt, Minister to Mexico, deny having been members of the German staff in the American Government.

The Vosische Zeitung, however, assumes a different attitude. This paper, too, hope that it will prove somehow that the German diplomats have not written the sources imputed to them, or at least, not in the wording made public by the American Government and Renter, for it such a letter as the alleged von Eckardt telegram was really written, "we should be compelled to apply the most severe criticism."

But the Vosische Zeitung will not accept the present denial reported by Renter, because it argues that it is quite possible, if the denial were taken from a confidential source, that the German Entente intrigues who are masters of all journalistic devices for the mere purpose of meeting these false statements with news which would stamp German diplomats as liars whom they never denied anything.

A dispatch from this side of the Atlantic, which is supposed to be the official statement of the American Government, is taken up by another view. It states that the "news of the resignation" given by von Luckburg and von Eckardt were genuine. At least, they may have been tampered with, this paper thinks, and it is not to be taken as a corroboration of evidence. It also says that the fact that the German Embassy in Washington had been found to have received messages published in France does not contain the words "notorious liar," which the Vosische Zeitung assigns it, and that von Luckburg were found to make him impossible in Buenos Aires.

"We don't give up hope that those who are not guilty of the crime will be able to prove their innocence," it says. The Vosische Zeitung continues: "The Vosische Zeitung has been published in America, but has been added for European consumption by Renter. It is not to be taken as a guarantee of its truthfulness, but as a double-edged sword." The Vosische Zeitung arrived in Berlin but was Count Luckburg really the author or did he really receive the message which they reached here?

"These questions and doubts may seem atrocious to some people, and yet fitted for a detective magazine than for serious newspaper discussion, but what happened to President Wilson's refusal of the Papal note, and a steady flow of messages from von Eckardt's message? If one is in possession of a cipher code one may easily decipher telegrams without fear of discovery."

"The Vosische Zeitung makes no excuse for von Luckburg or von Eckardt. If they really received the message and deplored it, it is the Government which so long has been recalcitrant von Luckburg, that American press should be permitted to dismiss him."

CAMDEN WOMAN DIES OF RECENT INJURIES

Little Baker Succumbs to Attitude of Her Injuries
Wesley-Habshed Testifies.
Camden, Sept. 18.—Estelle Baker, who was found badly beaten near her home seven miles east of Camden Friday, died at the hospital here Saturday morning at 2 o'clock, never having regained consciousness. An examination by physicians revealed the fact that she had not been shot as was first thought, but that the wounds made on her hands were received in wandering off the blows. Evidence at the scene of the tragedy went to show that she had been fired at, as fresh gun leads were picked up and the trail of a woman stepped out and the trail of a woman stepped out and the trail of a woman stepped out.

On the right bank of the mess bridge was marked artillery activity on both sides in the region of the Boy De Forests. On the left of the front the officers came. The official communication issued by the War Office reads: "On the Aisne front we repulsed an enemy surprise attack against our trenches on Monday night. There were several hundred casualties on both sides, and the fighting was of a nature to be considered a tactical success."

On Sept. 17 five German airplanes were brought down in a number of engagements or by the fire of our machine guns.

PETROGRAD, Sept. 18.—Progress by the Russian forces in the "Rizek" region and also in the "Rama" region is shown in a delayed War Office report. It is stated that the "Rizek" region is being held by our forces, and the "Rama" region is being held by our forces.

CLEMSON JUNIOR KILLED

Wallerburg, Sept. 18.—One of the most regrettable tragedies occurring here in the past few days is the death of a young man, who was killed Saturday night in a shooting near his home seven miles east of Camden. The young man was a student of the University of Michigan, and was a member of the Psi Chi fraternity.

The story of the shooting is as follows: Saturday night six young men of the Little Steam school of the city started for a walk. They were near the home of a young man named W. J. Baker, and were near the home of a young man named W. J. Baker.

A coroner's inquest was held Saturday at the home of the deceased. The jury returned a verdict of accidental death, and the coroner's jury was summoned and returned a verdict of accidental death.

TOO FEW WHITES FOR NEXT DRAFT

Week State Would Be Eight Per Cent. Below Quota.
Columbia, Sept. 13.—E. H. Campbell, Federal military general, was advised by J. W. Moore, adjutant general, yesterday that it will be impossible for the State to comply with the order by the War Department to mobilize 40 white men September 19 for the 40 per cent of the State's quota under the selective draft act.

The adjutant general stated that it is shown that the total certification of negroes was 2,579 of 63 per cent of the quota, leaving 1,166 whites. Of the latter, 5 per cent, or 58, have already been mobilized. General Moore asks, "Shall we order the mobilization of 1,166 negroes for 40 per cent of the quota, or shall we order the mobilization of 58 whites for 5 per cent of the quota?"

Knit for the Boys!

There are many ways by which every man, woman or child may contribute to the war effort. One of the easiest and most effective is by knitting for the boys. The War Department is asking for a large quantity of socks, and it is estimated that the country can produce 100,000,000 pairs of socks in the next few months.

The Record is sorry that the directors of the York County Fair Association have decided to hold no fair this year, and we are also sorry for the reasons given for this action. There may be other reasons, of course, which caused the directors to come to their decision. We ought to be able to do without the carnival "charms."—Rock Hill Record.

LYCEUM COURSE FOR CHESTER.

The ladies of the Civic League are endeavoring to secure a lyceum course for the people of Chester and in order to secure same it is necessary that they make a guarantee to the company. The course they have in view is "The Florentine Musicians," "The Hawaiian Singers" and "The Bayreuth Artists," who are strictly high-class in every particular and should be welcomed to our city. The dates are to be arranged about six weeks apart, beginning with the first number in November.

The ladies will begin to canvass the town within the next few days and in order to secure the guarantee, they will be required to pay a single ticket for the entire course, which will cost \$1.50 and the tickets for the entire course, \$2.50. Any amount which is received in excess of the amount guaranteed the company will go to the local Chapter of the American Red Cross.

If Chester people are desiring of any high-class educational entertainment this winter, this opportunity should not be allowed to pass. It is very doubtful as to whether or not daily shows will come here this season since the Opera House has not been repaired and the other companies do not visit town of this nature until a guarantee.
