THE LANTERN,

PUBLISHED TUESDAYS AND FRIDAYS.

J. T. BIGHAM, - Editor and Prop.
Entered at the Postoffice at Chester, N. C., as second-class mail matter.

Are You Qualified?

There are a great many democrats in Chester county who are not qualified electors. If you are one of them, reader, let us urge you to come to Chester next Monday and get your registration certificate, and then when the general election comes go out and vote. You owe it to your party, and the official head of your party in the county. Mr. Caldwell says he expects you to pay the debt.

If you haven't a registration certificate you have only one opportunity to get it between now and the general election, and that is next Monday, Oct. 3rd. The board meets at the court house and will take everybody in but your own if you don't appear before them and get your certificate.

It is generally understood that the republicans will have out candidates for congress in every district in the state this year, and if you don't want your congressman to have a fight, and possibly a losing fight, over his seat after he gets to Washington, get your registration certificate next Monday, and cast your vote on election day.

There were 1046 votes cast in this county in the first primary, there should be the same number of votes cast for the democratic nominees in the general election. Remember though, you can't vote unless you are registered, and you have only one opportunity to register, if you have not already done so, and that is next Monday, Oct. 3rd.

Two Problems.

The Columbia Record says: Whatever one's view may be as to the best solution of the liquor problem, the fact is prohibition has made wonderful strides in the south during the past few years, and the statistics will prove of interest to all students of this ever present question. We get the following facts from the New York Sun:

- Alabama, 20 counties prohibition; 11 dispensary, 35 license.
- Arkansas, 44 counties prohibition; 20 license and two divided.
- Delaware, one half prohibition, Georgia, 104 counties prohibition; 35 license; 1 dispensary.
- Florida, 32 counties prohibition; 13 partly prohibition.
- Kentucky, 47 counties prohibition; 35 have one licensed place of sale; 10 have two licensed places; 15 straight license.
- Louisiana, 20 counties prohibition; 30 license.
- Maryland, 15 counties prohibition; nine license.
- Mississippi, 65 counties prohibition; 10 license.
- Mississippi, 12 counties out of 115 have prohibition.
- Tennessee has state prohibition, exception being made of eight cities of over 5000 inhabitants.
- Texas, 41 counties prohibition; 57 partly prohibition, and 48 license.
- South Carolina has the dispensary system through the state and as for North Carolina a recent local option law permits of prohibition, dispensary or license. We have not the statistics in this state, but the prohibition sentiment is growing in that state.
- Virginia, Richmond and other large cities have license. The rest of the state is according to law "dry".
- West Virginia, 40 prohibition counties and 14 license. It appears that generally those counties with a large town population and having no large town within their borders vote against the saloon. In those counties in which there are large cities and the population is more cosmopolitan the contrary, as a rule, is true.

Looking on the other side of the picture we find that in each of these states there are one, two to three thousand liquor dealers who have paid the internal revenue license, which means that many more sell liquor despite the laws, and that brings us back to the question whether it is not better to regulate the evil by stringent laws than to attempt to prohibit, which experience shows is a practical impossibility.

There is another problem which seems to be a twin to this. Every state in the Union has laws prohibiting murder, and yet murders do not decrease but seem to be on the increase, and we find in each of these states, that there are 50,000 to 200,000 men who have purchased pistols and carry them around concealed, contrary to law, which facts mean that many men regard murder despite the laws, and that brings us back to the question whether it is not better to

Fearful Railroad Wreck.

In a head-on collision between two passenger trains on the South-western Railroad, between Knoxville and Morristown, Tenn., Saturday, more than 60 persons were killed and 160 injured, some of whom are expected to die. The westbound train was a light local and only the engine crew of it were killed. The eastbound was a heavy train, carrying two sleepers. The sleepers remained on the track and were uninjured, but their momentum crushed the coaches in front against a bank and so caused most of the deaths.

The collision was caused by the engineer of the westbound train disregarding orders to meet the other train at New Market. It is not explained why others of the crew, who are supposed to have known the orders, did not correct the mistake. Another fact which makes the matter harder to explain is that no market was the regular stopping place and both trains were on time. Suggestions have been made that the engineer may have been drunk or asleep, or possibly dead, but this does not account for the fireman, conductor and others passing the regular meeting place without question.

Dispatches of the 25th make the number of dead 62 and of the injured 162. Several Carolinians were on the eastbound train. Some of them were injured, besides the killed mentioned below.

WHOLE FAMILY KILLED. Special to The Star. Guffney, Sept. 25.—A telegram was received here yesterday announcing the death of Mr. Lee Hill, at Jellico, Tenn., who was killed in an explosion in a powder mill. The corpse was expected here on train No. 40 last night, but instead a telegram was received stating that the corpse, accompanied by Mr. Scott Hill, his father, Lee Hill's wife and four children and a single sister, were on the ill-fated Southwestern train which was wrecked yesterday and that all the parties were killed. The corpses of all seven of the family are expected to arrive this evening or tomorrow morning.

OPERA HOUSE.

A most excellent attraction, bearing the guarantee of every prominent booking agent, theatrical director and opera house manager is the E. Faust Minstrel's dated for the Chester opera house Thursday, Sept. 29.

Their songs, costumes and paraphernalia are new, novel and original. It is a clean, class, complete exhibition, spicy, superb, spectacular musical show. The First Part is up to the demands of the public, and is entitled, "In Old Mexico." In the "Oldies" are the Famous Farm Follies of Nine Australian Acrobats; "Boisette Troupe," of French pantomimists, the Herald Square Quartet, the Brothers Sideloff, German musical artists, Daly and Kelso, "The Boys With the Tangled Feet," and Bobby De Rue the master of mirth.

Robinson's Circus.
 This show was at Chester last Friday according to advertisement. And these words, according to advertisement, seem to be true in more senses than one. It came at the time advertised and the matter and manner of the show were as advertised.
 We have heard a number of people speak of the show in a very complimentary way, especially with regard to its cleanliness and the absence of gambling devices. Chief Taylor says it is the first show that has been in Chester since he has been in office that he was not called them. Their bills were paid with out question, and their transactions generally were conducted after the style of prompt business men.
 This is written after the men are gone and we have no motive in speaking favorably of them except to give them the credit they seem to us to have merited, knowing that circuses, like railroads, are often abused indiscriminately.

FOR THE PUBLIC GOOD.

This will interest Every Resident of Chester.

You can readily verify the following particulars, for the gentleman supplying them will be only too pleased to answer any inquiry by mail. If you suffer from disease of the kidneys, bladder and desire to be cured, write him about Donan's Kidney Pills and learn that the following statement is true to every particular.
 W. F. Swart, of Newberry, of the firm of Swart Pifer & Co., clothiers and gentlemen's furnishings, address Main street, says: "I have used Donan's Kidney Pills with very great benefit. I suffered with my back and kidneys for quite a while, the secretions from the kidneys were very dark contained sediment and were annoying particularly at night. There was a dull pain across my loins for which I was unable to sleep. I had had kidney trouble for some years, but without any apparent effect. I noticed in our family that my back and kidneys had done for others and procured a box and used them according to directions. Since then my kidney troubles have regained their natural color and action, my back is not disturbed at night and the pain in my back has entirely left me."

Plenty more proof like this from Chester people. Call at Wm. McKee's Drug Store and ask what their customers report.

WINE OF CARDUI
 816 Wells Street, Monroeville, Pa., Sept. 26, 1908.
 I was laid up and unable to move, and my doctor said I had no chance of my position and take a rest. I found that I was not gaining any strength and health as fast as I could wish, and as your Wine of Cardui was recommended as a good medicine for the ill of our sex, I bought a bottle and began using it. I was satisfied with the results from the use of the first bottle, and took three more and then found I was restored to good health and strength and able to go on my work with renewed vigor. I consider it a fine tonic and restorative for women, nervous debility, and all ailments to which it is adapted, and am pleased to endorse it.

Opinion on Scholarships.
 If any county fails to take advantage of the legislative provision for scholarships at Clemson, the vacant scholarships cannot be given to any other county. Such is the construction of the law made by the attorney general in reply to a query from the state superintendent of education.

In his letter to Mr. Martin, Mr. Gunter states: "I am of opinion that such vacancy cannot be filled in that manner. The act providing for the scholarships directs that the same shall be apportioned, and distributed among the several counties of the state in the same manner as the members of the house of representatives are apportioned, so that each county shall have as many scholarships as such county is entitled to members of the house of representatives. It is thus manifest that the general assembly intended to limit the number to each county, and should any county, having exhausted its limit, send an extra school, such action would be without warrant of law. Then, too, the scholarships are for a period of four years, and should an effort be made to transfer a scholarship from one county to another it would deprive the former county for a period of four years of a scholarship at the act entitled to it."

A trustee of the South Carolina college stated last night that this would not effect the award of scholarships for the normal department of the South Carolina college. In the case of the Clemson scholarships the award is detailed in the act of the legislature—so many for each county. The normal scholarships at the South Carolina college are provided for in the appropriation act from year to year, so much per annum to be appropriated for at each year, etc.

In case a county fails to claim a scholarship as offered by the trustees, the award is made in behalf of some deserving young man in another county who is eager for it. This accounts for the fact that Laurens, Darlington, Lexington and York counties—as published in the State of yesterday—each have about four of these normal scholarships, while some of the other counties have none. The other counties were given the opportunity, and there being no response the trustees awarded the scholarships to young men in the counties named.—The State.

A Boy's Wild Ride for Life.
 With family around expecting him to die, and a son riding for life, 15 miles, to get Dr. King's New Discovery for Consumption, Coughs and Colds, W. H. Brown of Leesville, Ind., endured death's agonies from asthma, but his wonderful medicine gave instant relief and soon cured him. He writes: "I now sleep soundly every night." Like the renowned cures of Consumption, Pneumonia, Bronchitis, Coughs, Colds and Grip give its matchless merit for all Throat and Lung troubles. Guaranteed bottles 50c and one that has been analyzed at the Wood's Drug Co. and Johnston Drug Store.

Good Work at Huntsville.
 Bitter evidence could not be looked that Senator Ben Tillman's bloodthirsty speech does not represent the true sentiment of the youth than the action of the special Grand Jury at Huntsville, Ala. A more thoroughgoing campaign against mob lawlessness never has been led out in any northern city, and half as much is done at Huntsville as has been planned lynching will quickly lose its popularity as a pastime in that section of the land, while public officers sworn to protect prisoners will get a new idea of their responsibilities and the penalty attached to treason.

The Grand Jury demands the impeachment of Sheriff Rodgers, Mayor Smith and Chief of Police Overton for failing to resist the mob that first set the jail captives a prisoner. Meanwhile it has returned twenty-six indictments. Judge Speake, whose failure to prevent the lynching by hastening the "due process of law" may be criticized as fatal weakness, surely

A Remarkable Record.
 Elliott's Emulsified Oil Liniment has made a remarkable record as a cure for stiffness of muscle and joints. It matters not whether the trouble was caused by a sprain or strain, rheumatism or other causes. It will relieve the soreness and pain at once and soon remove the swelling and remove the stiffness. Every bottle is guaranteed. Full half pint bottle 25 cents. T. S. Leister.

seems nothing but applause for his firm and fearless initiative to the proceedings that have brought about a kind of reign of terror to the "leading citizens" and officials who participated in the hideous orgy at Huntsville. While we should always reserve our warmest commendation for the officers who do not hesitate to make the very slightest effort, at earnest effort, to discourage this species of anarchy by punishing offenders, such as the proceeding at Huntsville is, unless we always receive encouragement from every one who hopes that "one day the crime of lynching will be treated by American citizens everywhere in the same spirit as law-abiding citizens demand that the crimes which provoke the mob shall be treated.—New York Press.

In Praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"Allow me to give you a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mr. John Hamilton, of Eagle Pass, Texas. "I suffered one week with bowel trouble and took all kinds of medicine without getting any relief, when my friend, Mr. C. Johnson, a merchant here, advised me to take this remedy. After taking one dose I felt greatly relieved and when I had taken the third dose was entirely cured. I thank you from the bottom of my heart for putting this great remedy in the hands of mankind."—For sale by J. J. Stringfellow.

Emergency Medicines.

It is a great convenience to have at hand reliable remedies for use in cases of accident and for slight injuries and ailments. A good liniment and one that is fast becoming a favorite if not a household necessity is Chamberlain's Pain Balm. By applying it promptly to a cut, burn, or sore, it always relieves pain, and causes the injury to heal in about one-third the time usually required, and as it is an antiseptic it prevents any danger of blood poisoning. When Pain Balm is kept at hand a sprain may be treated before inflammation sets in, which insures a quick recovery. For sale by J. J. Stringfellow.

THE GREAT EAST SOUTH CAROLINA FAIR.

The event of the year—Plans to Promote the Fair—The Fair is the largest of Progressive Carolinians.

The first Greater South Carolina State Fair will be held on the grounds recently purchased by the State Agricultural and Mechanical Society, and which have been fitted up with all modern improvements for the comfort and convenience of both exhibitors and visitors. This will be the thirty-third year since the re-organization of the Society after the civil war, and will be the first fair ever held in the State since the opening of the 5th of March.

Every county in the State should be prepared to send exhibitors. There is no doubt but what great good results will be obtained at every fair. Premiums being only a small part of the benefit of the fair. The management of the Fair is making every effort to secure new exhibitors, and that this year will be the best in the history of the fair. Exhibitors are obtained in advertising what you have for sale and in meeting with the progressive men from other sections of the State and obtaining their ideas and seeing the results of their methods. The management of the Fair is making every effort to secure new exhibitors, and that this year will be the best in the history of the fair. Exhibitors are obtained in advertising what you have for sale and in meeting with the progressive men from other sections of the State and obtaining their ideas and seeing the results of their methods.

The premium list is very liberal this year, and it is to be hoped that the management will meet with success in inducing a very large number of new exhibitors to attend the Fair, so that the Fair will become representative of every section of the State and of all the resources of Carolina. Information and premium lists will be cheerfully supplied upon application to the Secretary of the Fair, at Columbia. Let all who are thinking of exhibiting, or who are in the products of stock, make up their minds now to exhibit, as the Fair is a premium list and then make their entries at once. Join the procession that is to be held in the city of the best in the country.
