FRIDAY, OCT. 25, 1901.

At the marriage of John D. Rockefeller, Jr., to the daughter of Seneca Adirich, no wine was served at supper, something unusual such an occasion among the millionaires. The presents at the wedding were estimated at \$700,000.

A Mrs. Taylor has accomplished the feat of going over Niagara falls alive. She was enclosed in a barrel made for the purpose, four and a half feet high and fitted up with harness and cushions inside to protect her from injury. She was somewhat bruised, but is not thought to be seriously injured. The trip has been made before by accident and for purposes of suicide, but the navigators always came out dead. Her motive was financial gain.

"Bro. Coke, Grier, of North, writes that his brother's sister, Mrs. B. M. Grier, received a paralytic stroke a few days ago, and is now recovering. I trust this good woman will soon recover."

Brother Alston Wilks giving us a riddle? If Bro. Coke Grier's brother's sister, why not his sister, too? Does he mean Bro. Coke Grier's brother, a sister's sister (in law)? Yes, then again why not Bro. Coke's sister (in law)?

Once upon a time a little boy, who was playing with a little girl, was asked what relation the girl was to him. He replied, "She is my full sister, but is no kin to my mother." If Brother Wilks will explain how this was, he may go head.

A number of our exchanges are copying the sorehead remedy as it first appeared and as corrected. This is for chickens, but some of the brethren don't want it for chickens. The Johnston Monitor wants a remedy for sorehead in delinquent subscribers; municipal croakers, politicians whose worth has not been recognized, and other varieties of disgruntled specimens. For these there should be a modification both of the ingredients and the application. Substitute aqua fortis for lard, rub the head with a currycomb, and apply with sandpaper. The Edgefield Advertiser wants a cure for big-head. This prescription will answer for that, too, if applied according to directions.

WASHINGTON, Oct. 21.—The report of General Davis, judge advocate general of the army, records 600 fewer trials by court martial than in the previous year, 1900 regulars and 333 volunteers were sentenced to dishonorable discharge, six sentenced to death, four for murder and two for desertion. Five of the six were commuted to dishonorable discharge.

This jars the contention that the army is rushing to the bow-wow on account of the anti-criticism law. We trust that this will be remembered when congress is asked to repeal the law. It has been represented that under the operation of the law there is fearful increase in drunkenness, disorder, insubordination, desertion and everything that is bad. Perhaps the officers are now keeping sober enough to see what the men are doing at the same time exercise a restraining influence. Possibly they will see more disorder now, with less existing.

No Case against Schley.
The Chicago Tribune is of the opinion that there was no necessity of calling witnesses in behalf of Admiral Schley, at the other side has made no case." It adds: "While the department has failed to make a case, it has succeeded in making plain that there was a conspiracy inside the department and among some outsiders against Schley, which only needed just such occasion as his winning a great victory when Sampson was absent to manifest itself by open assault. The most conspicuous and aggressive of these conspirators were those who were only partially or not at all in the fight. If there is any need of a defense it is to make this shameful conspiracy even more apparent than the department witnesses themselves have made it. If it were a case in a court of law it would be dismissed without hearing any testimony for the defendant, no case having been made out."

Mr. Arch. B. Calvert has entered upon his fifth term as mayor of Spartanburg.

Rodman Items.

RODMAN, Oct. 23.—The bright lovely autumn days are with us, most beautiful time of the year. The bright sun shines and makes lovely days and the soft moonlight makes the nights so pleasant and charming. Truly this is a spell of glorious weather. No rain nor clouds disturb our serene surroundings. It is truly fine weather for farm work. Corn gathering is nearly over, the crop being the shortest we have had for several years. Cotton picking goes bravely on. There is no scarcity of hands to gather cotton. Every one is getting it gathered as fast as it opens. Cotton is below an average, and as such is the general report from all over the cotton belt, why the low price of the staple? I don't think any one can account for it. The farmers have sown part of their wheat and oats.

The health of our neighborhood is as good as we ever have at this time of year, and less malaria than usual in this section during fall months. Trade is pretty brisk with our merchants since cotton is being sold. Cotton seed sell as high at our place as they do anywhere in the state. Our two agents are paying 21 cents per bushel.

Mr. John Gill, of Landis, N. C., spent his Saturday night Tuesday with home folks. We were very glad to see John and wish he could have spent a longer time.

Mr. Claude Strait, of Smith's, spent Saturday night and Sunday at Dr. Jordan's.

Mrs. Porter Gaston, Misses Lottie and Ethel Gaston and Anna Hollis spent Friday at Mr. Bruce Waters'.

Messrs. Strait and Nummy and the Misses Allen, of Smith's spent Sunday at Mr. Robinson's, at Knox.

Mr. John Shirley, of Ebenezer, visited at Mr. Gill's last week.

Mr. Clifton Wise and sister, Miss May, are visiting at Dr. Douglas's.

Miss Daisy Lemmon, of Winnsboro, came up last week to visit her sister, Mrs. Henry, but was called home on account of an accident to her brother, CHRYSANTHEMUM.

Davidson Notes.
DAVIDSON, Oct. 24.—The North Carolina Synod paid Davidson a visit this afternoon. Exercises were suspended and the students devoted themselves to the task of entertaining the ministers, many of whom were back at their old haunts. The heart trouble among the students, however, was not caused so much by the fact of their being such a crowd of scholarly gentlemen, but was due to the fact that seventy students from the Presbyterian College in Charlotte came on the same train.

The campus, of which all Davidsonians are proud, seemed a vision of loveliness when the many merry girls were scattered over it. There were about three hundred in the party that came on a special train. They spent about three hours at Davidson. All the buildings were open for inspection and the students of the students showed the visitors about. All seemed especially pleased with the Martin Chemical Laboratory and the Shearer Biblical Hall. The Chemical Laboratory is a new building and is one of the finest of its kind in the south and is second to none in equipment. The Shearer Biblical Hall is being erected by Dr. J. B. Shearer, the ex-president, as a memorial to Mrs. Shearer. It will cost about \$10,000 and is completed, except some inside work.

The Davidson foot ball team will play the University of North Carolina in Charlotte Saturday the 30th inst. A hard game is expected. Davidson has won two games this season, one from Guilford and the other from the North Carolina Military academy. The students and faculty will attend the game at Charlotte Saturday in a body. Davidson will play South Carolina in Columbia on next Wednesday, during the fair.

At the court for Dorchester county this week, every prisoner pleaded guilty.

At the Morris Park races Wednesday, three horses and no jockey were killed. Three other jockies had narrow escapes.

All the business of the Lancaster court requiring juries was disposed of on Monday and the jurors were discharged. Many cases were continued on account of the uncertainty about the validity of the jury law, though the point was not raised before the judge.

This Beats Cotton.

The Yorkville Yeoman says that Mr. C. P. Blankenship has in his place in Fort Mill township a small piece of poor sandy land and last fall concluded to see what thorough cultivation and fertilization would do. He laid off an acre of it and after preparing well put in 600 pounds of special wheat fertilizer. He harvested 20 bushels of red wheat and estimates that he would get \$30 worth of peavine hay from the acre.

Fine tailoring may lack the dignity of art, but there is respectability resulting from it that is worth getting. The tailor may not make the woman, but his perfect work adds to her pleasure of living. Fine cloaks may not make fine ladies but they make well dressed ones. Our cloaks are perfect specimens of fine tailoring and our customers are known and recognized as the best dressed people in town and surrounding country. You can come into the dressy circle now at half price. Don't delay. Prices cheaper than ever.

Again I Say Work the Roads.

This important public duty which no good citizen should try to shirk, has not been done as it should in a number of cases in the county, and through which doubtless mean something, are given out that these bad roads will be formally reported to the court authorities at the approaching term, and if delinquent overseers get into trouble over this matter they will have to answer to the court for it. A faithful performance of this public duty will obviate the trouble by giving us reasonably good roads.

Mr. W. Y. White has sown 30 acres of oats, and sold the balance of his seed to keep from sowing any more. He plowed his land deep and made it as smooth as a lawn, so that the roots can get down and the oats can grow out without any obstacles, and when they get ripe he can cut them.

A few days ago several preachers were standing in a group near the postoffice. Remark was made about so many of the cloth meeting together, when a minister, a few steps away inquired who the one preacher in the group was that he did not know. It was Capt. John G. Wolling. We will not charge him anything for this if he will promise to be good like a preacher all through the next campaign.

It Was Another Hugh.

Mr. Hugh White claims that he has a good defense, for not paying Messrs. White and Woods the reward for catching that run-away negro advertised for about the year 1838. He says that it was his uncle Hugh White that advertised rather than have any hard feelings about it, however, he will pay the reward if they will deliver the negro to him in as good condition as when he ran away. As he has been dead about 10 years he has but little fear of their being able to comply with the terms of his offer.

He does not even ask the patient to exercise faith. He does not claim to cure everything, nor that he can put a hedge around anyone to ward off disease in the future. He makes his work stand for itself. He publishes a notice in this paper.

J. C. Robinson.

After next Friday, Nov. 1st, it will be J. C. Robinson, successor to R. Brandt, jeweler and optician, under the lower clock. The business will be run along just as in the past, however. The same grade of work will be done in the repair department, you will still find Mr. Robinson there, and you will be treated in the same old way—in short, you will feel perfectly safe. Mr. Robinson can lay his hand on anything in the store and knows all about the business. He will be posted up to date and will keep up with the latest of everything in his line.

Have you seen that excavation on the lower side of Miss Sallie Kennedy's lot? That is for Smerling. Not just a little either. Any one wanting to bury him. It is for the foundation of his jewelry palace. He is going to have a snug business home there, and will welcome his friends. He makes them welcome now just across the street at Macaulay's.

Not Used to Sunrise.

There was a sound of alarm in the home of Mr. J. F. Reid last Friday morning when Mr. J. G. Dowd and wife, who had just awakened from slumber, discovered through a crack in the moulding that encircles the ceiling that there was fire in the attic. Mrs. Dowd was the first to make the discovery and hastening to the door, calmly notified Mr. Reid that his presence was needed. Proceeding to the apartment he found Mr. Dowd excited in his efforts to dress before the flames should cut him off, but with presence of mind enough to point out to Mr. Reid that the house was afire and that something must be done immediately. Not a moment lost or stayed he, but returning to his own chamber, notified Mrs. Reid that there was a fire up stairs, gave instructions to a servant as to the removal of the door in the scullery opening into the garret, went in search of water while a bucket full sat in his hand; grabbing this, and hastening upstairs, followed by other members of the household, each with a pail of water, the scullery door was removed, bucket full after bucket full of the fire-quenching aqua was dashed into the yawning opening above, but to no purpose, as to all appearances the flames still raged on. In a moment more, however, to great relief as well as the amusement of the household, it developed that the conflagration within was the rays of the rising sun penetrating the garret and peeping through the crack in the moulding, the glow having all the appearances of a blaze.

There was fun in the household and joy as well; but not more so than the community experienced a few years ago when Bony Johnson, espousing the ruddy sun one morning when he had occasion to come down town early, mistook the great orb of day when it was just rising for a fire and gave a number of yells that aroused the sleeping population; meanwhile grabbing the cord attached to the Gordon Hotel dinner bell made the welkin ring with its clanging.—Rock Hill Herald.

Bishopov is mourning the death of the Rev. A. P. Wilson's young wife, after only a year of married life.

THE HOUSE THAT SAVES YOU MONEY

A Woman Takes a Walk.

Mrs. Jennie McQuiston, of Xenia, O., will arrive in Jacksonville this morning, having traveled the entire distance on foot. She is one of the most popular women of Xenia, and makes the journey in this way merely for the novelty of it. She is en route to the home of her father-in-law, Hugh McQuiston, at St. Petersburg, Fla. The Xenia Gazette contains the following article concerning her:

"Mrs. Jennie McQuiston, of East Market street, left this city some days ago to make a trip to Florida in a most unusual and novel manner. She desired to visit her father-in-law, Mr. Hugh McQuiston, at St. Petersburg, Fla., and going to Cincinnati by rail concluded to make the journey from that point on foot. For a woman to go through the wild and mountainous region through which the journey led, and in the manner named, required more than the usual amount of courage but Mrs. McQuiston was equal to the emergency, and is now at a point near Atlanta, Ga. While Mrs. McQuiston could have made the journey by rail in comfort and safety, she preferred the other way, for the reason that the outing and exercise would be beneficial to her health, and she will probably get more pleasure out of it than by a dozen journeys by railroad, and will have some interesting incidents to relate to her friends when she reaches her destination.

"She is now at Canton, Ga., where she is disabled by a sprained ankle, having suffered a fall, and she is taking a rest after her long journey to that point. When she left Xenia she wore a short skirt and carried a small amount of clothing and had a revolver, which she knows well how to use, being a capital shot. She had a thrilling experience while going through the mountains of Kentucky, being looked upon with suspicion by the moonshiners, suspected her of being in the revenue service of the government. But she came through all right, and proceeded on her way. She makes a distance of from 15 to 20 miles a day, and has enjoyed every mile of the way. She gets her lodging where she happens to strike a farm house, which at some points on the route was rather far from the road. She has written several letters to her friends in this city, and has narrated a number of amusing experiments. She is in no hurry to reach her destination, but is now well on her way, and will soon finish her novel journey, and will enjoy a delightful visit with Mr. McQuiston here."—*Jacksonville Metropolis.*

The Trouble Nearer Home.

Some of the Northern papers are criticizing President Roosevelt because he is friendly disposed to the south and her people. Unless, we are much mistaken in the present these papers are wasting their wind.—*Orangeburg Times and Democrat*

Wasting their wind, why? Because the president will refuse to be influenced by their criticism? We hope so. The president has shown a decided disposition to do what he believes to be right regardless of criticism.

It isn't criticism of northern papers that will prevent the president's helping the south, but if anything does it will be that of southern papers that attempt to fly over every public man that tries to exert any influence with the president in behalf of his section.—*Newberry Observer.*

He Liked the Show.

The Wallace show came near having a son of Governor McSweeney attached to it. When the circus was in Columbia, the governor and his family attended both performances. The lad was captivated by what he saw and wanted to join the circus. He stayed in the tent after everybody had left and was aboard the circus train when it left the city. The wonderful feats of the circus had so charmed the youngster that he found the temptation irresistible and decided to remain with the circus. He had concealed himself on the special and his presence was unknown until his absence from home was noticed. As soon as he was found missing from his bed in the capitol the governor communicated with the circus officials with the result that the boy was discovered, hidden away and fast asleep. He was at once sent back to Columbia.

Best Girl Found.

CRAWFORDVILLE, IND., Oct. 21.—Nine years ago the ten-year-old daughter of Peter Bell, a miller living at St. Mary's, Mercer county, Ohio, failed to return from school. The belief was general that she had been drowned. Her father however, refused to believe the story and spent his meagre savings searching for her. He finally came convinced, however, that the girl was dead.

A band of gypsies camped near Bell's mill last August and one of them, out of revenge, told Bell that his child had been abducted by a gang of gypsies nine or ten years ago. He said he had come all the way from Mexico, Mo., to inform the father of the whereabouts of his child.

Bell at once made preparation to go in search of his child, and with Mrs. Bell and their other daughter, started for Indianapolis by wagon. There they sold the wagon and began the journey by foot. They walked to Peoria, Ill., from there to Quincy to Keokuk, Ia., and finally traced the band of gypsies to Carthage.

Arriving there last Saturday, the Bell's found the band in camp. When the leader was confronted by the father of the girl and local officers, he drew a gun, but the officers overpowered him and he gave up the girl. The young woman says she has been compelled to beg food and clothing for the entire band and treated her cruelly. Mr. Bell intends to have the gypsies indicted and extradited to Mercer county for trial. He has spent his last cent in search for his daughter.

The selection of Rear Admiral "Bob" Evans to be a member of the next martial law Capt. E. T. Tilley, naval commander of Tutuila, on the charge of Drunkenness will not elicit any criticism that "Fighting Bob" is disqualified by inexperience.—*The State.*
