Remember, there is a saying in Chester that has become a maxim:

"Trustworthiness and Taste Come with all Gifts from Robinson's"

CONSUMPTION CAN BE CURED.

Letter by Dr. J. L. Dawson Before Greenville County Medical Society. Those who heard Dr. John L. Dawson last night at the Greenville Female College, where he delivered a most admirable, interesting and instructive lecture on that all important subject, "Tuberculosis," have just cause to congratulate both themselves and the speaker. The audience was large, many visiting physicians being present.

Dr. Dawson made many friends here last evening, and his lecture was couched in language which made it to the average layman the great seriousness of the prevalence of tuberculosis—and he emphasized in no uncertain terms the grave necessity of preventing and curing this dread disease.

Dr. Dawson was brought here under the auspices of the Greenville County Medical Society, which is the first one to inaugurate a series of such lectures for the benefit of the people at large, and to which society due credit be given. The lecture was preceded by a vocal solo by Miss Louise McGee, after which Dr. E. C. Jones introduced Dr. Shaw, of Fountain Inn, president of the Greenville County Society, who in a few happy words presented the speaker of the evening.

Dr. Dawson began by saying that he was here to talk upon the greatest scourge of the age, a disease termed by the scientists tuberculosis, by the realist, consumption, and by the idealist, the great white plague. After giving a history of the disease he closed of the popular misapprehensions of the prevalent tuberculosis is a disease which is inherited. He said that this was not the case. Among my hearers there are many who still believe that the disease must be inherited. You will find, scientific physicians of today putting as a first question to their patients, "Is there any consanguinity in your family?" The reason of this is plain, if you will please so think.

possess himself to the extent that he loses his powers of resistance—and so becomes a fit subject for the bacilli to be fed upon.

"If you break nature's laws she will break you," he said with emphasis. "The enemy is always in our midst and the entrance is effected usually in two ways: either inspired with the air we breathe and first lodged in the mouth and larynx or lungs, or else it is taken into the stomach with the food we eat."

Then Dr. Dawson told of the great harm to be derived by the improper care utilized by those who suffer from tuberculosis, pointing out the fact that the one affected expectorates seven billions of germs in twenty-four hours. Speaking further he said that there are many ways in which the disease may be spread, by the common house fly, by the cigars we smoke, by the handling of household pets which are handled by those affected in many other ways.

"But," said Dr. Dawson, "more people have tuberculosis and recover from it, even after knowing that they have had it, than you have ever dreamed of."

He showed where four hundred people die every day from this terrible scourge, and enjoined upon his hearers to "awaken and to be up and doing." He gave an example, and we must wish it everywhere, in every stage, in every condition.

The speaker then told of the treatment, giving the best methods for preventing the spread of the disease. He told of the many ways in which this can be effected, the importance of the milk supply, and the meat supply. He also stressed the importance of the patient being treated himself, and how he should be careful in his sanitation.

At the close of his address, President Shaw introduced Prof. W. F. Watson, of Furman University, who, speaking on the topic from Alajay's point of view emphasized the point of proper sanitation in the preservation of food stuffs.

Prof. Watson referred to the Nellie Reynolds report during the Western Baking House exposures, and told of the unsanitary conditions existing there. Speaking further, he brought forth a round of applause when he stated that Greenville was peculiar in one respect, if in no other, and that was that the board of health was composed of about twenty persons, among which number there was but one physician. He said that he mentioned this fact in all due respect to the ones who compose the board of health, but that the idea struck him as being peculiar. The physician was the proper guardian of the health of the people.

After the short but entertaining talk by Prof. Watson, the Rev. E. P. Davis in a few choice words spoke of the physician and his great work. He said that the greatest man in the world had yet produced was a physician, and that man was Jesus Christ. He was a healer of the physical body as well as the soul's body.

At the close of the address, Capt. Ellison A. Smyth offered resolutions thanking Dr. Dawson for his admirable lecture on such an all important subject, and thanking the Greenville Medical Society for being instrumental in securing him for the lecture. Dr. James added the amendment that Dr. Dawson be induced to come here again, and the resolution was unanimously carried.—Greenville News, November 18.

Delegates Must Pay Full Fare.

Information from railroad circles is to the effect that there will be no special rates provided for the meeting of the Democratic and Republican convention, says the Augusta Chronicle. The subject has already been informally discussed by the eastern and western passenger agents and they are strongly opposed to any reduction in the rates, but are disposed to exact full fare of the delegates to both conventions. It is stated that this disposition comes through the disposition by the anti-railroad legislation of several states, of which Georgia is one; and the disposition on the part of several other states, establishing a maximum rate of 2 cents a mile for passenger fares.

Should the roads continue to persist in their determination to put an object lesson squarely up to the representatives of both the political parties of the country, it is estimated that the increased expense in attending the two conventions will aggregate at least \$1,000,000.—The State.

Notice to Our Customers.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. Lettner's Pharmacy, if

Burglary in Yorkville.

The store of W. W. Jenkins, on the corner of Madison and Congress streets, was burglarized last night, entrance being effected by the breaking of a rear window. The value of the goods was not known, and the burglar had but little trouble with the inner drawers. They were smashed open. As it happened there were only three dollars in the safe, two in currency and one in scrip. The currency was taken and the scrip left. The money drawer contained about 200 pencils and these were left undisturbed. But little else was missed except several packages of cigarettes.—Yorkville Enquirer.

Bees Larvicide Cough Syrup for coughs, colds, croup and whooping cough grows in favor daily with young and old. Mothers should keep it on hand for children. It is composed of purest and cleanest honey and the pollen and phlegm from the system. It is a simple, ready relief and gives immediate relief, guaranteed by Chester Drug Company.

"I can't save a cent." "The necessities of life are higher than they were a few years ago." "Yes; and there are so many more of them."—Washington Herald.

Wm. C. Geraty Dead.

Charleston, Dec. 17.—W. C. Geraty, one of the largest truck farmers in the United States, having his farm on Young's Island, died today of pneumonia. He has been in partnership with F. W. Towles for a number of years, the firm being probably the largest raisers of cabbages in the world. Geraty was known over a large part of the United States and in this immediate section his death is especially regretted.—Special to The State.

Public Speaker Interrupted.

Public speakers are frequently interrupted by people out of the crowd. This would not happen if Foley's Honey and Tar were taken a half-year ago and colds and prevent pneumonia and consumption. The genuine contains no opiates and is in a yellow package. Lettner's Pharmacy, if

Old Lady (seeing a friend off on steamship)—Now be careful dear, and don't forget to give the captain a shilling to keep off the rocks.—Punch.

To stop that pain in the back, that stiffness of the joints and muscles, take Pinesules. They are guaranteed. Don't suffer from rheumatism, back ache, kidney trouble, when you get 30 days' treatment for \$1.00. A single dose at bedtime proves their merit. Get them today. Sold by Chester Drug Co.

Death of Mr. Sam DuBois.

Mr. Sam DuBois died at the Duval Hotel in Winnsboro Saturday morning. He had not been well for some time and was staying in Winnsboro for special treatment. About three days before his death he had something like a stroke of paralysis from which he never recovered. He was in his 80th year, serving in the war for a short while near the close, and had never married, making his home with his aged mother, Mrs. Sarah Cloud DuBois, near Nelson. A sister, Mrs. Cordie Boylston, of Jacksonville also survives. She together with her two sons, Messrs Frank and Cordie and daughter Miss May, of Jacksonville, Mr. and Mrs. H. F. Green and Mr. D. Dial, of Columbia were here for the funeral services, which was conducted by Rev. J. M. Holladay, at the Presbyterian church, interment being in the Episcopal cemetery Sunday afternoon at 3:30 o'clock. The pallbearers were John J. Nell, Preston Bloor, J. D. Harrison, E. H. Robertson, C. M. Chandler, Capt. W. G. Jordan, Dr. D. Allan and W. B. Vaughn.—News and Herald.

A Livery Stable Burned.

South Dakota with its rich silver mines, bonanza farms, wide ranges and strange natural formations, is a veritable wonder land. At Grand City, in the home of Mrs. E. D. Clapp, a wonderful case of healing has lately occurred. Her son seemed near death with lung and throat troubles. "Respiratory coughing spells" occurred every five minutes, "writes Mrs. Clapp" "when I began giving Dr. King's New Discovery, the great medicine that saved his life and completely cured him." Guaranteed for coughs and colds, throat and lung troubles, by Chester Drug Co. and Standard Pharmacy. 50c and \$1.00. Trial bottle free.

A Real Wonderland.

It will be unnecessary for you to go through a painful, expensive operation for Piles if you use Mandan. Put up in collapsible tube with nozzle, ready to apply to the soreness and inflammation. For any form of Piles price 50c, guaranteed by Chester Drug Co.

Let Us Do Your Job Well

Continued from Page 1.

...Mrs. J. J. ... the ... with ... in this ... returned last week to her home in Florida.

Mrs. David B. Coleman, brother of our most enterprising and progressive farmer, has made thirty or forty hundred pounds with three plow farms on which he has made fifteen or more acres.

We were in Sumter last week and rode out on two miles in the country. We saw some fields of which good yields of cotton and corn have been gathered. The crops there have been fine, on good land but in many places on soil that were hard. I saw a good deal of cotton to pick, acreage of labor and the disposition of the negro men to work on the farm during the gathering season is the great cry. I do not think the crops there average as better than ours, although they fertilize more liberally. Many of the interesting farmers we saw from four to eight hundred acres of land. I think we have a better supply of labor and make our crops on more economical basis than do the Sumter ones of that size.

... Mr. J. J. ... the ... and ... I have ever visited. It has a population of eleven or twelve hundred and contains a beautiful lake, and is a number of palatial residences, four banks and several wholesale stores, a number of railroad facilities. Sumter boasts of a shoe factory recently established, also two of the most modernly equipped factories in the South.

It has a population of eleven or twelve hundred and contains a beautiful lake, and is a number of palatial residences, four banks and several wholesale stores, a number of railroad facilities. Sumter boasts of a shoe factory recently established, also two of the most modernly equipped factories in the South.

The Same Case
Calvin, Dec. 12.—A telegram was received here last night from Birmingham, Ala., stating that Jeff D. Knight, a young man from this city, had been killed there by a negro.

Young Knight was a son of Neal Knight, a prominent citizen of this city, who has resided in the Birmingham for some years. He was a member of the Alabama National Guard and was in the ranks of the 10th Cavalry when he was killed.

His death was caused by a bullet fired from a rifle. The bullet entered his chest and struck his heart. He died on the spot.

His parents are in Birmingham and are very distressed by his death. They have offered a reward for the murderer.

... Mrs. J. J. ... the ... and ... I have ever visited. It has a population of eleven or twelve hundred and contains a beautiful lake, and is a number of palatial residences, four banks and several wholesale stores, a number of railroad facilities. Sumter boasts of a shoe factory recently established, also two of the most modernly equipped factories in the South.

To the Colored People of South Carolina
I take the liberty to commend you to your country through the agency of the National Negro Conference, which is now in session at Columbia, S. C.
