Six Departments Discuss Vocations
On Thanksgiving Holidays

The question of Thanksgiving holidays appears to be a perennial topic among student organizations. In particular, the issue of whether or not to grant the students a four-day holiday or a two-day holiday during the vacation period is a matter of much debate. In the past, the college has allowed the students to determine the length of the holiday period by holding a vote in the campus dining room. This year, the administration has decided to provide the students with a two-day holiday on Thursday and Friday, November 23 and 24, respectively.

Strictly Business

Winthrop is not supporting Rock Hill merchants who purchase advertising space. The administration has decided to pull all Winthrop university advertising from Rock Hill papers, and plans to spend the money on other advertising media. This decision was made in response to widespread criticism from Rock Hill merchants who feel that the university is not living up to former standards. Critics feel that the university’s advertising policy is not fair and that it was made to officials in the Senate Cafeteria’s.”

No Class Tournament

The next district meeting will be held today afternoon, November 9, at the school. The meeting will be held in the council room of the winthrop campus.

Campus the Campus

With Toni Jones

Have you ever had anything like those boxes of cards we filled out at registration? They were the basis of the college’s annual card game. The cards were used to determine the winners of the card game, which was held to raise money for the campus weekly.

Your name

Your father’s name

Your country

Your nationality

You are not a citizen of the country you stated?

If not, what is your occupation?

You are not living up to former standards, critics say.

The trouble with clothes is, if you wash them, you get a wrinkle. If you don’t wash them, you get a wrinkle. And then you can’t wear them.

The eternal Freshmen

But the most realistic explanation is that the freshmen are too young to understand the game. They are interested in playing the game. They are interested in playing the game.

Most of the freshmen were interested in playing the game.

The meeting of the Council of Commerce was held on November 12, 1944, at the school. The meeting was attended by representatives of the commerce department of the school.

Decorations of the room were fitting the theme of "haunting," and all the business were frosted with frozen foods, a match for the personnel of the "haunting" table. Holiday refreshments, tabled with decorations, apples and peaches were be covered with golden leaves, and served with a cup of hot coffee, the special menu of black and spice cookies, which proved to be the "life" of the party.
