MUCH ENTHUSIASM FEATURES MEETING

Athletic Association Has Adventures of Various Sports

Mrs. Grand talked on opportunities for the Athletic Association at Winthrop College and showed slides illustrating the various athletic activities.

One of the delegates from South Carolina said:

"Mrs. Grand's talk was full of enthusiasm and inspiration. She explained the opportunities for the Athletic Association and showed slides of various activities. The children were enthusiastic and eager to participate in these activities."
TOUCHDOWN FOR WINTHROP

For many days now, the chief topic of conversation at Winthrop has been the game. We need to ask which game. For Winthrop there is only one big game this year and that is the annual contest between David and Goliath in our athletic field. It is a contest which will show us whether our players are not only the interest and excitement of the community, but also the spirit of hospitality between their colleges and schools. It is a rare privilege to be the home of Winthrop, and the Presidency has been given the opportunity by President Davidson and the Protestant Episcopal Church of the closing of the school year. We hope to use this as an opportunity to prove to the world that we are a school of our own grade.

The championship of the state in basketball meets the championship of the nation in football, and we hope to meet the challenge with enthusiasm. We are all looking forward to the game, and we hope to see Winthrop carry out the traditions of its past.

We wish to express our gratitude to the Administration and the Board of Education for their support and encouragement. We also wish to thank the students and staff for their cooperation and hard work.

We believe that the atmosphere of the school should be such that it fosters a spirit of sportsmanship and fair play. We hope that the game will be conducted in a manner that reflects the best qualities of our institution.

We look forward to the game with anticipation and excitement, and we hope that we will win. Whatever the outcome, we will be proud to be a part of it.

We would like to extend our thanks to all who have contributed to the success of this season. We especially wish to thank our coaches, our players, and our fans for their support and dedication.

We are proud to be a part of this great tradition, and we hope that we will continue to be a part of it for many years to come.
Frame Up

The personal ads—be they boy or girl friends—are replete with the usual flattery and niceties. But every once in a while, one finds that there really is a lot of honest faces to posterity.

That Something More

As a business firm, the credit department is faced with credit problems as it is not always easy to determine the credit-worthiness of a customer. The credit analyst must be prepared to face the problem of deciding whether or not to extend credit to a given customer.

We invite

The accounts of the members of the Faculty, members of the student body, treasurers of classes, societies and other organizations. Already it has been our privilege to open quite a number of new accounts from Winthrop and also our old friends have been in to see us. We extend to every one a cordial invitation to come and also do their banking business with us and believe that you will be satisfied with the service rendered.

Mechanics Building & Loan Association Service

A certain definite service of distinct value to everyone is offered by this Association. This service is best summed up in the following advantages offered:

1. Providing for saving money usually squandered.
2. Providing an easy way to procure a horse.
3. Providing a fund for your children's education.
4. A most dependable security for a surplus.
5. Providing a reserve fund for old age or adversity.

There are thousands of penniless, homeless old folks who in their prime made plenty of money, but who spent as freely as they earned. Old age and adversity now finds them in destitute circumstances, eking out a bare existence.

Don't burden your future with financial burdens that should be faced now as a matter of urgency.

Bring your friends in for a cool drink after your walk to town.

We like to serve the Winthrop girls.

FRIEDRICH'S
URGE MANUAL TRADES FOR SCHOOL CHILDREN

Vocational Work Will Permit Children to Prepare Early for Future Earnings

Charles M. Allen, Orleans County, Vermont, writing in the Vermont Education, declared on statement, on September 22, that "a child who creates the point where he can do no better for himself, then child should drop out of school and not return to school."

Children who are interested in the manual field of employment.

Mr. Allen referred to the requirements of a certain amount of manual training for all children. He suggested this training as an educationally desirable work and a welcom means of preparing children for future opportunities. He stated that in the high school, there are many children, who, owing to circumstances, are forced to enter the manual field of employment.

Mr. Allen assigned the requirements of a certain amount of manual training for all children, as an educationally desirable work and a welcome means of preparing children for future opportunities. He stated that in the high school, there are many children, who, owing to circumstances, are forced to enter the manual field of employment.

Miss Snellings, talking in her address, said that the object of it was to teach the child to control his impulses, to overcome his fears, and to develop the ability to work. She also pointed out that in the manual field of employment, the children who are entering the field are usually boys and girls who are not interested in the academic work, and that the manual work becomes a means of liberation for them.

She also pointed out that in the manual field of employment, the children who are entering the field are usually boys and girls who are not interested in the academic work, and that the manual work becomes a means of liberation for them.

Our Stupendous Fall Opening Sale

She further emphasized that the manual work is not only a means of liberation for the children, but also a means of earning a living. She said that the children who are entering the manual field of employment are usually boys and girls who are not interested in the academic work, and that the manual work becomes a means of earning a living for them.

In the manual work, the children are usually boys and girls who are not interested in the academic work, and that the manual work becomes a means of earning a living for them.
