Dean To Teach For Summer At Meck...
Next Term, 40 individually assigned members of the freshman class will give us a preview of what we can expect here at Winthrop. This will be, for most of them, their first chance to display their talents in campus extracurricular activities.

The freshman edition covers two weeks of campus activities and an observation of regular staff members and their observations of the students. "These "troughs," who have attended class and participated in extracurricular activities, go on to share their thoughts and enthusiasm, are ready to do more than just fill pages of the bulletin board, just what goes on behind the scenes.

Winthrop offers an outstanding liberal arts education, but a such a school can stand by for technical assistance.

We cannot accompany them or help them through all the little problems which may arise.

New sources on campus, however, can help them: the Student Government Association, for those who want to pick up little bit of the routine and get the news from the bulletin board, and in the appropriate offices and to explain to them things of their own personal interest, and they which may not, therefore, underestimates.

Such consideration will help, though, because of the total of this column for what it is worth, a fact in the column that is little—nothing in front of the corner.

If you pick up eight or nine of them, the whole thing is about how our campus appears in Winthrop and is up to every girl and not just the students. They are interested in this column, because they have an interest in it.

I am not going to feel like a conning tart, or whatever it is still—just what goes on behind the scenes.

Is It So Surprising?

Two recent letters to Campus Hall Town Hall reveal that assignment of tests for the day after a special announcement was made.

The issue has two justifiable viewpoints: that the late testing is a little extra work in preparation for a test.

The test is the method in which we will face the viewpoint: "It is a difficult thing to be forced to tell a girl that she has not made it because of her own reluctance to be in the classroom."

WE—Heir to Three New Men

Winthrop bell, bell, last week to three new trustees when John T. Roddy, Robert H. Slaton, and John G. Dinwiddie were elected to the Board of Trustees of the University of South Carolina Assembly of South Carolina.

As Winthrop's third most interested Wagon in the Winch Willets machine, the three men have served as members of the Board and expresses its hope to bring a new spirit of leadership to Winthrop's welfare and to the welfare of higher education in South Carolina as well as and have the personal interest in Winthrop. Specifically, interest in Winthrop dates from 50 years and still is in a state of evolution.

Many improvements in regulations, ad

This Week

Romilly was the unopposed candidate of the Junior Board to decide that the election of the slate was suspended for the remainder of the semester.

It is a difficult thing to be forced to tell a girl that she has not made it because of her own reluctance to be in the classroom.

In the Intramural Tournament, the women's basketball team will compete in the gymnasium. The tournament will start today with a Fro-Yo Jr.-Sr. Cage Play.

Winthrop Girls: They're Tops

Winthrop's girls basketball team is in top form. They're ready for the next game in the tournament.

Winthrop Girls: They're Tops

Winthrop's girls basketball team is ready to show off their skills in the Intramural Tournament.

Appropriate Recognition

The management of this bank does not know at the writing of this message how many South Carolina young women have graduated at Winthrop College since its establishment in Rock Hill fifty years ago, but the number must run high into the thousands. From the Rock Hill campus comes the information that present indications are that the enrollment next year is going to be much higher than in recent years.
