THANKS "SAYS" CHIEF COUSHEL

Dear Campus Town Hall:

I write this letter to you because this is an opportunity to express gratitude to a particular group of Winthrop students upon whom we rely so much.

When you are sitting in class, studying, or working on that project, you are not alone. You are part of a community of students, faculty, and staff who are all working together to make your experience at Winthrop the best possible.

In saying "Thank you," I want to express my appreciation for the work that you do. I know that you have a lot on your plate, but you still manage to make time to help others. Your dedication and commitment are truly inspiring.

Thank you for all that you do. Keep up the good work!

WOLFCOMBE'S PAST AND PRESENT

As the sun sets on the campus of Winthrop College, a shower of lights illuminates the lawn. The students, donned in their best attire, gather to enjoy the music of the live band. The annual PE circus, one of the most anticipated events of the year, is finally underway. The students are excited to participate in the various sports, games, and activities that make this circus a true celebration of their school spirit. With cheers and laughter filling the air, the students dance, sing, and play until the night dies down. It is a time of joy and camaraderie, a moment that captures the essence of Winthrop College. As the music fades and the lights dim, the students reflect on the day's events with a smile on their faces. For them, the PE circus is not just a social event, but a reminder of the community that they are a part of. It is a moment that they cherish, and one that they look forward to every year. The PE circus is more than just a fun event; it is a symbol of the bond that the students share, and a testament to the joy that they find in their college experience. As the night comes to a close, the students bid farewell to the circus, ready to return to their studies and their lives. But the memories of the PE circus will linger on, a reminder of the fun and camaraderie that they experienced that night.
