Freshmen have been unjustly accused of "theft," whereas the blame belongs upon a few upperclassmen. The campus police were quick to blame the freshmen. In actual fact, Winthrop officials found that two upperclassmen, involved in a fracas among the freshman class, were responsible for the theft.

While Winthrop officials proclaimed that "theft" has been a problem in recent years, they have never actually taken any action to prevent it. It is clear that the problem lies with the upperclassmen, who have been repeatedly caught stealing. Instead of blaming the freshmen, Winthrop should be taking steps to address this issue.

It is important to note that Winthrop has a long history of academic and social achievements. The university has produced numerous distinguished alumni, including future President of the United States. Winthrop has a rich tradition of excellence and should continue to be a leader in higher education.

In conclusion, Winthrop should be proud of its accomplishments and focus on creating a safe and inclusive environment for all students. The university should take action to prevent theft and ensure that its students are treated fairly and justly. Winthrop has the potential to be a great institution, and it is up to us to help it reach that goal.

During the day, Winthrop girls and students from other colleges will participate in a variety of track and field, soccer, tennis, and archery games. Cheerleaders will also highlight the day's activities. Competitive games will be played by teams which will be formed after the questionnaires are returned to their respective colleges.
