The JOHNSONIAN

One Way to Change a Name

We NEED A NAME that is distinctly, origi- 
nally, and aesthetically unique. During the 
next two years, we shall call ourselves Win-
thropians, and then, perhaps, something else.

The JOHNSONIAN is a late development in a long series of such attempts. It will be 
released in the spring. We have been successful in the past, but we have also been 
defeated. The requirements at Winthrop are deliberately high, and we are well aware 
that a student who has a name such as "Johnson" is going to be at a disadvantage. This 
problem is not new to Winthrop. The name "Johnson" has been a problem for the past 
100 years. It has been used at Winthrop since the founding of the university, and it is 
likely to continue for many years to come. The name "Johnson" is not the only problem 
that Winthrop students face. There are many other problems, such as the high cost of 
living, the competitive academic environment, and the lack of opportunities for extracurricular activities. The JOHNSONIAN is a response to these problems. It is a 
publication that is written by students for students, and it is a reflection of the students' 
views and experiences. It is hoped that the JOHNSONIAN will provide a voice for 
Winthrop students and will help to address the problems that they face.

The JOHNSONIAN is published weekly, except during the holiday and examination 
periods. It is distributed to all students and faculty at Winthrop University. The 
JOURNAL is the official publication of the Student Government Association, and it is 
managed by the JOHNSONIAN Staff, which is composed of students from Winthrop's 
academic community. The JOHNSONIAN is a non-profit organization, and it is funded 
by student fees, advertising revenue, and donations from alumni and friends of 
Winthrop University.

Lieutenant Frick Returns from Overseas Service

**By LOUISE GREEN**

"It's really good to be back," said Lt. Herman L. Frick, U.S. Naval Reserve, and former superintendent of Winthrop Training School, who returned to Winthrop last week after being stationed for 13 months in the European Theater. He is on leave until January, 1946, to get his discharged.

As a member of the communications staff of the Commander U.S. Naval Forces in Europe, he was in London from November, 1944, until July, 1945. While there he has also been his responsibility to visit the British people, Lieutenant Frick said the people liked the American population and society.

Mr. Taylor's subject was "Allergic Reaction Foxes and Tails". The American foxes were introduced and explained to be "a family of foxes who are allergic to something in their environment."

The American foxes included "Samantha," "Mary Ann," and "Joel," who were brought to the meeting for educational purposes. Each fox was introduced individually, and their allergies were explained in detail.

The meeting ended with a Q&A session, where attendees had the opportunity to ask questions about the foxes and their allergies. The members were happy to answer questions and share their knowledge on the topic.
