We will detect and correct any failure in measuring up to any of these fundamentals of good newspapering.

Henry R. Sims
President of Winthrop.

Before the war, the minimum voting age was arbitrarily set at 21. Georgia was the first state to lower this from age 21 to age 18, on the basis that if a boy is old enough to die in battle, he is old enough to vote at that age. Several weeks ago, the college administration lowered the voting minimum for the Democratic primary in the state of 18.

This means that 15,000 young people, who formerly have had no say in government, are now eligible to vote in the primaries. While the potential voting population of South Carolina is estimated at 250,000, only 22,000 votes were cast in 1944 in the primaries. This is because young voters have shown less interest in government than they have had in the past. We must possess the possibility of casting the decisive vote in the primaries.

We would like the voting age in the primaries to be set at 18, for the democratic primary. We believe that young voters are just as thoughtful, constructive voters. Also, their interest in the welfare of the country is not a matter of indifference to our government. We believe this country needs the fresh, new, vital interest of our government. We believe that the young people are entitled to have an equal voice in the primary elections. We believe that the democratic party will win.

We will certainly respect the advice of those who feel that the voting age should be lower than 18. Some of these people are the older students, the older faculty members, and the older people. They have lived, I think, longer and they have seen, I think, the present state of society and business. The scope and careful training, the college graduation, the college education, the value of human relationships, the art of living, because her college education has prepared her for this work.

Daisy Chain Is Traditional Part Of Commencement At Winthrop, Originated '03

By COLUMBIA UNIVERSITY

With the advent of final examinations, Senior Week, Senior chapel and the myriad other exciting events that conclude the senior year, comes also Daisy Chain, an affair which is a traditional part of the last week at Winthrop.

Daisy Chain originated with the class of 1903. After seeing it at Smith college, Mr. W. T. Roddey was so impressed that he had it adopted by Winthrop. That first Daisy Chain was quite different from the ones we have today. Originally in the present station, all class members stayed through graduation, and the sophomores were delegated to pick the real daisies that were used in the chain. The actual Daisy Chain exercises were strictly a junior-senior affair. Junior girls were chosen from the junior class only. It was then and not the best boy friend who took the senior in the Junior-Senior banquet. Daisy Chain was first held on front campus around the fountain.

Daisy Chain became a part of Winthrop tradition at Winthrop, one to be admired and not the best boy friend who took the senior in the Junior-Senior banquet. Daisy Chain was first held on front campus around the fountain. Made Part Of Graduation
