ONE OF THE MOST VITAL relationships at College is that between students and teachers. Professor of English and French, a department chair, and an essential part of College life. Through them, students form the most intimate connection for many of the most important people in their lives. This is a relationship that can often be a source of frustration or disappointment, especially when the teacher is absent or ill. It is our responsibility to make sure that our teachers have the support they need to be successful in the classroom. One way to do this is by writing them letters, expressing our appreciation for their hard work and dedication. These letters not only benefit the teacher but also help create a positive learning environment for everyone involved.

Student-Faculty Relationship

While the relationship between students and teachers is an essential aspect of College life, it is also one that can be difficult to navigate. Teachers have the responsibility to provide guidance and support for their students, but they also have to maintain their own professional standards and expectations. Students, on the other hand, need to feel empowered to ask questions and express their own ideas. This balance is crucial for a productive learning environment.

Keeping Informed

The Editor of The Tatler would like to thank and encourage this group of students who have volunteered to be part of our team. Their dedication and commitment to the magazine are truly appreciated. The Tatler is a student-run publication that serves to provide a platform for students to express their ideas and opinions. The goal is to create a space where students can feel safe to share their thoughts and contribute to the College community.

Staff Reader

Keeping the readers informed is an essential part of any successful publication. The Tatler is no exception, and we strive to provide timely and relevant information. Through our staff reader, we aim to keep our audience up-to-date on the latest developments and events at College. This includes news from the front page, updates on upcoming events, and highlights of the best of our content. The goal is to create a sense of community and engagement among our readers.

The Tatler is published weekly, except during holidays or examination periods, and copies are available in the Campus Town Hall and at various locations across the College campus. The Tatler is produced by students, for students, and it promotes general welfare of the whole College community.

The First Winthrop Camps had their origin in the school year of 1933-34.

Among those present were Billye Reddie, Mary Stanley, Mary Staples, Mary Ellen Boyette, and Grace Ryan.

Among those present were Winthrop's Molly Ruth Feddern, Anne her sister, Betty Kay, who is a senior here this year, as her maid-of-honor. Miss Martha Alderson, Miss Ann D. Jones, and Mr. and Mrs. W. B. Nichols were also among those present.

Food and More Food

They get the days and nights of the social life, that is. Food, always a popular subject (now referred to as "Hunger Pangs") has finished last year's pleasant days. The dining-hall has come to life. Food, always a constant drone throughout the halls, mouths hungry all the time, and hunger a constant worry to the many sleep-clouded heads, friends are backed by the many hungry students who became 21 on December 15.

The present Dining hall was built in 1846 according to Betty Jean Gauld, Eudora Stiltsman, Ruthie Newman, Arline Settlemeyer, and Miss Pat Shealy.

The weatherman was on his best behavior last night and among the many were: Mrs. Mary Hess, Miss Margaret Hess, "Porter" attended the Britton-Miller nuptials Mitchell college in N. C., was in town for the week end, the guest of Gay Ward.
