STUDENT-COOPERATION
GROWING

Each year more and more intelli-
gence and spirit are being
shown in the student body,
far from resting on the
attaining of an academic
degree, both men and women
are showing a greater
willingness to cooperate in
the betterment of their own
condition.

In the past few years, the
student body has shown a
marked increase in the
number of organizations
formed for the purpose of
improving the educational
facilities of the college.
The most important of these
organizations is the Student
Cooperative Union, which
was founded in 1870 and
has since become one of
the most powerful forces
in the college.

The Union is composed of
all students in good standing
who are willing to become
members. The purpose of the
organization is to promote
the welfare of the students
and to develop their
intellectual and spiritual
abilities.

In order to become a member
of the Union, a student must
pay a small annual fee, which
is used to support the
organization and to
finance various projects.

The Union has a number of
committees, each of which
is responsible for a
particular aspect of its
work. These committees
include a finance committee,
a recreation committee,
and a literary committee.

The Union also sponsors a
number of events and
activities throughout the
year, such as concerts,
theatrical productions,
and athletic events.

The Student Cooperative
Union is a vital part of the
college community and
plays an important role in
the development of its
members.
