Dee Days of Yuletide Custom

Old U. S. New York Started Annual Banquet on Ship for Six P.M. 1934

Thursday night the United States, flagship of the U.S. Navy, was a veritable "home" for its officers and crew as well as for its guests from Winthrop College. The occasion was the annual dinner held in the ship's officers' lounge. The purpose of the dinner was to give the students an opportunity to socialize with the members of the ship's crew and to enjoy the hospitality of the ship.

The dinner was attended by a large number of students, including members of the Student Government Association (SGA). The SGA, which is made up of elected representatives from the different departments of Winthrop College, is responsible for organizing and coordinating campus events. In this case, the SGA was responsible for planning the dinner and ensuring that everything ran smoothly.

The dinner was preceded by a ceremony in which the students were welcomed on board the ship. This was followed by a series of speeches delivered by representatives from the SGA and the ship's crew. The speeches were aimed at promoting a sense of community and unity among the attendees.

After the speeches, the students were invited to enjoy a variety of food and drinks, as well as to socialize with the members of the ship's crew. The ship's kitchen was well stocked with a wide range of dishes, including seafood, meats, and vegetables. The students also had the opportunity to try some of the ship's traditional dishes, such as fish and chips and shepherd's pie.

The evening concluded with a dance, during which the students were able to let loose and have some fun. The ship's band played a variety of songs, including popular hits from the past and present.

The dinner was a great success, and the students enjoyed a wonderful evening of food, drink, and fun. The students were grateful for the opportunity to socialize with the members of the ship's crew and to learn more about the ship and its operations.

Rambling With the Features

A Marvel of National Defense

From this 11½-acre deck, Uncle Sam's battle planes can now leap into

action—into a landing place on their way back, a thousand miles from shore.

This marvel of national defense was accomplished—and duplicated

when the airplane carrier, C.S.S. Saratoga, and her sister ship, U.S. S. Lexington,

were completely electrified.

In each, four General Electric

turbine-generators, delivered,

combined, 180,000 horsepower to the

propellers—enough to drive the

ship at 33 knots (39 miles an hour)

enough to furnish light and power for

a city of half a million people.

The design and construction of the electric equipment for the U.S.S. Saratoga

and the U.S.S. Lexington, to which college-trained men con-

tributed in large measure, especially the General Electric plays in

keeping the welfare of the nation.

Nature Speaking

"Everything has to have a begin-
ning." Thus said Mr. Shelly to the
students at the pre-dinner meeting.

A Girl Told Me

That one young lady of Winthrop
College was looking for instruction
in dancing at the hands of the House
Government Association. However,
when interviewed, she said: "I'll
find an instructor in February 3." I
"I'm going to the shop," said Win-
throp student, as she made her way
through the crowded store. "Mr.
Smith has just returned from Eu-
rope. He's just got back from Paris
de the river."

The modern world does not judge-
ly silent is to say what they think.

**THE JOHNSONIAN**

This week at the Pan-American Congress two of the most vital issues were discussed. A demand for nationalization of international law, including the right of intervention of states in the internal affairs of nations, and the doctrine of war and peace and war, was presented to the delegates. The demand for a universal declaration of war and peace was also discussed. The delegates formed a committee to study the conditions of the Pan-American Congress, for which they will vote.
