That the Christian World Education Conference was a success is evidenced by the fact that plans for the very first meeting, held en masse on the steps of a park in New York City, has made a deep and lasting impression on the minds of those students who attended the conference. Girls are still discussing the meeting, with a particular interest in the Kesight's lectures, the potent personality of Dr. Lake, and the contribution it made to their understanding of the world.

All credit for the success of the conference goes to the Y. W. C. A. of the city at large. It was on their initiative that the conference was presented. It was a vital necessity, with an eye to the future.

No one ever believed that a conference would be met by the student body. But it was, and there was a show of innovation. In the end, however, the meetings that were held in the banquet hall were a greater triumph than the conference.

The conference was underwritten through student initiative and the voluntary help of the staff of the Y. W. C. A. The students arranged the meetings, conducted the meetings, and carried the meetings through to completion.

Especially to be commended are the arrangements made by Miss Alva, Miss Chapman, and Miss Harrison and the special meetings held.

It is evident that Winthrop students are not only interested in home conferences and in the things that pertain to their own country, but they are interested in the things that pertain to the world.
