Description of series and its contents:

The Student Government Association was created during the 1911-1912 academic session. The House Government Committee (also called the Committee on Student Government) seems to have been organized in 1907 and consisted totally of faculty members. It served as a watchdog committee on all student activities. When the Student Government Association was organized in 1911, the House Government Committee became advisory in nature. The date the committee became defunct is not known. These records are related to the office of the Dean of Students (formally Dean of Women) in that this office is responsible for administering the total program of the social and personal life of Winthrop students. This series also contains scrapbooks that include photographs and newspaper clippings dealing with the SGA, the SGA Treasure's Ledgers, the Winthrop History Day Register, and items related to the South Carolina Public Interest Research Group.
