### THREE HOO DOO DAYS

Three "Hoo doo" days, the 13th, 14th and 15th of the month, are marked on the leaves of the 1925 calendar. The good year 1924 had only one of those days which the superstitions fear. The 13th day of the month fell on Friday during February, March and November. Even Christmas is on Friday this twelfth month.

There is a danger in success. Perhaps many of our readers would be more than willing to face this danger. Certainly many of them who are entirely free from any need to worry about the laxity that comes with prosperity will, some day, be in the position where they will have attained even more than they are now in hope of doing. It is when a man has reached the rung he has marked for himself that his real danger comes.

It is a cough remedy and holds it in your throat for 24 hours. It is a cough remedy, without following with water. The prescription has a double action, loosens and removes the phlegm and coagulation which are the direct cause of the coughing. The severe cough quickly disappears. It is a cough remedy, chest cold, tickling sore throat, hoarseness, bronchitis, glandular growth, etc. Recommended for children, as well as grown folks. It is a cough remedy. At all good druggists.

Riley, superintendent of the Clemson Coast Equipment station, two miles from Summerville, was knocked down and painfully injured by an automobile yesterday afternoon. The little girl was playing near the home of a friend in Timonville while her mother attended a meeting of the King's Daughters. An automobile in backing from a yard knocked her down and one of the front wheels passed over both legs. It is thought that no bones were broken and though confined to her home, she is expected to be out in a few days."

## LOWRYS HONOR ROLL

The following pupils of the Lowrys Graded School have established an average of ninety or more for the month of December and are eligible to have their names recorded on the Honor Roll:  
1st Grade—Julia Hall, Ollie Lemon, Stuart Abell.  
2nd Grade—Robert Gray, Maude Derby, James Wilson, Morris Brakefield.  
Advanced Second—Annie Guy, Gladys Conrad.  
3rd Grade—Hope Sandifer, Billy Smith, Thelma Robinson.  
4th Grade—Genevieve McConnell, 5th Grade—James Smith, Josh Abell, Margaret McConnell.  
6th Grade—Holmes Robinson, Robert Jenkins, William Darby, Lucille Conner, Ephraim Wilson.

The new 1925 green and white automobile license tags are already on several cars in Chester. The letters and figures on the tags are white, the background being green. One month is allowed car owners to get tags after which it is a violation of the law to operate the cars without the tags. It has been stated that fifteen days additional time will be allowed. However, this announcement has not yet been officially made.

Several Chester business men yesterday were discussing a White Way for Chester and the suggestion was made that an estimate of the cost of construction and the operation of a white way be secured with the idea of going into the matter to see that could be done. Numbers of them even smaller than Chester now have White Ways and it is hoped that the cost will be such that Chester can have "White Light."

Again referring to the meeting of citizens and the county delegation held at the Court House last Monday, several citizens planned the members of the Chester county delegation for their stand on various matters at the next General Assembly. It will be recalled that the Chester Senator and both of the Representatives voted against the increase of automobile license and the proposed road plan as it was written. The new law does not make provision of the expenditure of funds in the counties of the State and is therefore very objectionable to many people.

On an R. F. D. route at Monticello, New Hampshire, there is an ingenious traveling mail box that runs on wires, through the woods, the lines having been strung in the program from the mill down to the farmhouse. When the carrier places the mail in the box it gives him a jerk, and a member of the household perched at a stationary bicycle three-quarters of a mile away, pedals the machine and draws the box to its destination.

Richard Man Commits Suicide.

The lifeless body of Wylie Mattox, 38 year old farmer of Richland county, was found Wednesday morning at 6:30 o'clock, about 400 yards from the home of the Koon road, 11 miles from Columbia. Indications were that he committed suicide.

The man had been shot with a shotgun, the lead taking effect in the chest, near the heart. When his body, Mr. Mattox was discovered yesterday morning by members of the family, the weapon lay by his side, while on the other side was a forked stick. His clothing had been soiled and contused, apparently having been ignited by burning powder, only his shoes remaining intact.

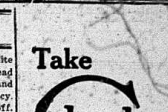

Cornet J. Blakely Scott investigated the man's death and after consulting members of the family, announced that an inquest was not necessary. He said that Mrs. Mattox declared that her husband had been despondent for some time, and had never completely recovered from a mad dog bite which he suffered about one year ago.

School teachers at their money because they have to teach children many things that should be taught at home.
