period of the war.....

THE UNEMPLOYED.

The following from the Greenwood  
Daily Journal is to the point and is  
worthy of consideration.

"We are hearing a good deal  
about the 'unemployed,' along the  
line of making provision for them  
to have remunerative employment.  
Some concern has been expressed,  
lest there should be large numbers  
of persons who will have nothing to  
do, and as the result there will be  
want and suffering.

"We do not know how it may be in  
other parts of the country, but we  
are of the very decided opinion that  
concern for the unemployed, so far  
as opportunity for them to get re-  
munerative employment, is entirely  
wasted. The concern is to get them  
to consent to work at any price, and  
almost upon any terms. There is not  
a scarcity of labor, but an unwilling-  
ness upon the part of a great many  
to respond to the demands which are  
very pressing indeed.

"A great deal of the labor that is  
employed seems to have no interest  
whatever in its work, and no concern  
as to whether it is profitable to the  
employer or not. It has reached the  
point where it takes about two hands  
to accomplish in the same length of  
time the amount of labor that could  
easily be performed by one.

"Our concern then need not be  
wasted in thinking about the oppor-  
tunity for the unemployed to get em-  
ployment, but in trying to devise  
some plan to get them interested  
enough to accept work that is be-  
coming for some one to take hold of it."

The March issue of the Pictorial  
Review will carry approximately  
\$415,000 in advertising. Just think  
almost one-half million dollars will  
be spent by national advertisers in  
one issue of one paper. The same  
amount of money would last Chester  
advertisers fifty-two years, six months  
and eleven days. There is nothing to  
advertising and we often wonder why  
it takes "big business" so long to  
find it out. Looks like they would go  
hobby spending too much money for  
ink but somehow or other their busi-  
ness seems to grow bigger the more  
advertising they do. We just can't  
see what they mean by spending so  
much money foolishly.

We regret very much to say that  
we have forgotten the names and ad-  
dresses of the gentleman who advised  
the farmers to hold their cotton for  
thirty-five cents. If any one has the  
address we would appreciate his send-  
ing it in order that we might make it  
public. We understand there are a  
few in our community who desire a  
little chat with the gentleman."

EDGMOOR NOTES.

Edgmoor, January 25.—The influ-  
enza has hit Edgmoor pretty hard  
during the last of the holidays and  
the first two weeks of January. We  
are glad to say there were no fatali-  
ties, and all are improving.

People generally have gone to  
work for another crop. Some are  
hauling fertilizer.

There has been a great deal of  
moving among the colored people.

Two new white families have  
moved to Edgmoor, they being a  
Mr. Phillips, who bought out the "grist  
mill" when L. S. Sweeney moved  
away, and Jaye McClendon, a fam-  
ily, who occupy one of A. D. Glass's  
houses and attends to a farm for Mr.  
Glass. His wife, who was before  
married to Miss Ethel McFadden, is  
the efficient central operator.

L. G. McCright of Hamlet spent  
a few days last week with his mother,  
Mrs. McCright.

Ernest Patton, who has recently  
been discharged from the U. S. Army,  
was at Edgmoor one morning last  
week to see his grandmother, Mrs.  
Allen.

Miss Fannie and Cora, Watson  
and Mrs. J. L. McDonald went to  
Chester today.

Mrs. A. H. Orr spent yesterday  
with her father's family, Mr. and  
Mrs. W. C. Wood.

The deceased was well known in Rock Hill, having lived here for a number of years. He was connected with the local office of the Life Insurance company of Virginia, of which E. B. ### WANT TO ABOLISH COUNTY GANG PEAN

Would Create State Penal Commission—State Board of Tax Assessors—Bill—Special Order in Lower House.

Columbia, Jan. 28.—Abolishing the county chancery plan and the erection of all convict labor to road building under the State highway system is contemplated by a bill introduced in the house of representative Messrs of Fairfield County. The measure by Mr. Meares would create a State penal board of control, the commission to be appointed by the governor, and would coordinate the work of all penal institutions. It would cooperate with the State highway commission in the utilization of convict labor. Mr. Meares said last night his bill contemplated a general board to handle not only the convicts at the State penitentiary but direct the affairs of the State reformatories.

Another bill which is likely to attract considerable interest, introduced by Representative McDonald of Oconee County to place the election of the State game warden in the general assembly. The statute now obtaining provides that the appointment shall be made by the governor and confirmed by the senate. Considerable agitation has been kept in the last several years because of this office, the Audubon Society having made two sections, one recommending Wade Hampton Gibbs and the other A. A. Richardson. The bill recommending Mr. Gibbs is now recognized by the National Audubon Society.

The house was in session nearly two hours and several bills came up for consideration which will require much debate for final disposition.

One by Representatives Hamilton and Nantz would require all cotton mills, knitting mills, manufacturing establishments and textile manufacturers to install sewerage system. If enacted into law it would become effective December 1, 1919. Failure to comply with the provisions of the act would make the plant liable to a payment of \$5,000 to each employee affected.

Some of those strongly favoring some remedial measure argued that the State has no authority to do this, was finally committed to the Judiciary committee without losing its place on the calendar.

The bill to create a State board of tax assessors was made a special order for 12:30 o'clock today.

Since the highest adjourned last week, W. E. Derrick, representative from Orangeburg, has died, and when the house adjourned last night it was with respect to the memory of Mr. Derrick.

The house will meet at 11:30 o'clock this morning and the senate at 1:30 o'clock this afternoon.

**SWISS ASK ALLIES FOR ACCESS TO SEA**

Want Pact Giving Freedom of Rhine, Rhone and Po Rivers.

Paris, Jan. 22.—The views and desires of the Swiss Federal Council, whose President, Gustave Ador, is now in Paris to present to President Wilson and the Allied statesmen, include particularly a request for international compact giving Switzerland access to the sea by way of the Rhine and Rhone rivers. Switzerland also desires to obtain the right of traffic over important railroads, to the sea and to the eastern countries of Europe.

The Swiss Government approves the project for a League of Nations and expects admission to the peace negotiations concerning the project and others in which Switzerland is particularly interested.

The Swiss, it is declared, believe the league should include the absolute prohibition of a resort to war that should provide for compulsory arbitration.

Switzerland is represented as unable to be a participant in any military measures of the league owing to constitutional provisions and her peaceful traditions.

**Half Your Living Without Money Cost**

We are all at a danger point. On the use of good common sense in 1919 farm and garden operations, depending on the weather, and the price of food and grain at present prices no one can plant or nearly all cotton, buy food and grain at present prices from supply merchant on credit, and make money. Food and grain no matter in proportion than are present cotton prices.

It's a time above all others to play safe; to produce all possible food, grain and forage supplies on your own acres; to cut down the store bill.

A little time and money in the ground, rightly planted, rightly tended and kept planted the year round, can be made to furnish nearly half your living. It will save you more money than you made on the best two or three acres of cotton you ever sown! Hastings' 1919 Seed Book tells all about the right kind of a money saving garden and the vegetables to put in it. It tells about the farm crops as well and shows you the clear road to real and regular farm prosperity. We Free. Send for it today to H. G. HASTINGS Co., Atlanta, Ga.—Advt.
