RED CROSS WORKERS

THE Big CITIES NOW

The big cities are now seeing the return of window washers. The strike, which began on Wednesday, is now entering its third week. The workers are demanding a wage of $44 a week, but the management is offering only $36.

Half Million Dollar for Chester,

A prominent event of much interest to better people was the announcement yesterday by Mr. H. E. Cole, manager special agent for The Equitable Life Assurance Society, that the company had decided to inaugurate the Home Purchase Plan in Chester.

Mr. Coleman has been working on the proportion for Chester for the past three years, and his success in obtaining the favor of the people is well known.

The Equitable Life Assurance Society is one of the largest business concerns in the country, with offices in all the principal cities of the United States. Chester is the first town in South Carolina to have the plan, and the York office can look forward to a large business in the near future.
