Seven Mistakes of Life :-: 1. The delusion that individual advancement is made by crushing others down. 2. The tendency to worry about things that cannot be changed or corrected. 3. Insisting that a thing is impossible because we ourselves cannot accomplish it. Attempting to compel other persons to believe and live as we do. 5. Neglecting development and refinement of the mind by • not acquiring the habit of reading fine literature. Refusing to set aside trivial preferences, in order that important things may be accomplished. 7. The failure to establish the habit of saving money.

WOMEN DO THE BUXING

The modern woman is a business woman. She makes eighty per cent of all purchases made in retail stores. She is an astute, clever, buyer and runs her house on a strictly business basis.

The modern woman is constantly in touch with the stores and their offerings. Through the advertising she knows the lowest prices, the best qualities and the latest commodities. Long be-fore she leaves the house for a shopping trip, she knows exactly what she wants, where to get it and how much to pay.

Ask her and she will tell you that it pays to read the advertisements. It will pay you, too. It will save you time, money and effort. It will help you dress better, eat better, sleep better and live better.
