FRIDAY, FEBRUARY 17

Everything is "hot" here. The average trader thinks he is getting a bargain, by saying that he isn't stealing any more than the other fellow.

They may say you can get whiskey on a doctor's prescription. If such practice keeps on for a while, even a stony-gut will be wanting to study medicine.

They use to call a farmer a rube but things have now changed. A rube these days is a fellow who works 26 hours a week, gets \$25 or Saturday afternoon, and his farmer is going to sell him cheap food.

A motion was made in the House of Representatives, at Washington, lately to eliminate from the agricultural bill an appropriation of \$25,000 for seed distribution. The motion was defeated by a vote of 136 to 71. The "dear people" may expect their usual supply of seed this year. If Congress had given this appropriation to the postal employees instead of donating it to seed, which are seldom "lost," it would have been doing something more "white."

Twenty-eight years ago Dr. Caldwell, a practicing physician in Monticello, Ill., began the manufacture of Caldwell's Peppin Syrup. Last year he sold over six million bottles, all of which were done by hand. Yet still some people will argue that it does not pay. It doesn't pay a guy that tries to fleece the people.

"Whether are you drifting?" as the old ministers used to ask with such hilarity, is asked from Boston manufacturers, report that they are going to make feet but low shoes for women because the cost of leather for high ones is prohibitive, and they predict that the wearers will supplement the lost shoes with calipers or "spats." But Boston is far from being the center of the fashion Absatzplatz back that capital reports that French women now not only dispense with the spats but with stockings as well, and that they wear nothing below their very short skirts except sandals or slippers. Most surprised that she doesn't adopt the new style is the French woman, who twists an added string of jewels about her neck. And this liberator predicts that the style of stockings will come here. Just to save his reputation for sanity he explains that it came in Paris by way of the "spats" and that he expects it to creep in here through the same medium and at the bathing beaches, where he looks to see women bathing in discard stockings next summer.

In Merrimack County, N. H., 18 livestock owners enrolled in the anti-fur-skins campaign prior to January 1, 1920. This is the largest number in any one county, according to a Federal report. Excepting the first three months of the Nation-wide drive against inferior skins, enrollment means that the persons have agreed to use nothing but pure-bred skins "not only in one business class of animals raised. They have agreed also to follow approved methods of live-stock breeding. Norfolk County, Mass. and Hierofans County, Ohio, are tied for second place with enrollments each.

There is a wide range in the quantity and variety of live stock kept. One breeder listed pure-bred silver foxes and Great Danes in addition to his regular stock.

The flimsy success some people make for charging one such or another price have about as much sense to them as an excuse we heard of a trader giving to a housekeeper about the high price of water. It was like this: "Yes, m, the high price of mustard is due to the scarcity of fish. You see, people are buying mustard and are keeping themselves warm with mustard."

When Herbert C. Hoover says that if the peace treaty becomes an issue in the coming Presidential election he "must vote for the party that stands for the League," and that he "will not vote for a party if it were dominated by groups who seek to settle our constitutional guarantees for free speech or free representation, who hope to re-establish control of the Government for profit and privilege," he defines his position with sufficient clearness without saying whether he is a Republican or Democrat. It is the Democratic party with a large reformer's of "liberal" minded Rep-

ublicans, that has consistently supported the League of Nations, just as always stood for open trade relations and that is now engaged in a struggle for free speech and representation at Washington and Albany. When Mr. Hoover further says that he is opposed to "any former Socialist," including nationalization of industries, he takes a rap in the teeth. He means to include J. P. Bryan, who advocates Government ownership of railroads, control of coal mining, and similar extensions of Socialist activity.

The serum that saved the life of one DeBorja, after the other six members of her family had died from eating poisonous olives in New York, was made in the United States Department of Agriculture from the blood of a sheep that had been immunized against botulism by the poisoning. The serum was rushed to New York by the Bureau of Animal Industry on request from the United States Public Health Service. Three members of the DeBorja family were alive when the request was made, but one of these died before the serum reached New York and another was so nearly dead that treatment was unavailing. The little girl was the only one with sufficient vitality left to make possible a test of the efficacy of the serum.

The Department of Agriculture happened to have the necessary serum because of the fact that the bacillus botulinus is suspected of causing what is known as botulism, a poisoning of horses. In fact, the subject, the scientists of the Bureau of Animal Industry made extensive experiments with it. It was discovered that there are two strains of the bacillus botulinus. They look alike and the poisons they create produce the same effect, immunization against one does not afford immunization against the other. The two strains are commonly referred to as the "olive strain" and the "cheese strain," or sometimes as "strain A" and "strain B."

The three recent instances of olive-olive in Michigan, one in Ohio, and the third in Montana, are all caused by "the olive strain" or "strain A" of the bacillus botulinus. The veterinarians, therefore, are reasonably certain that the serum affording protection against the poison generated by "strain A" botulinus would be effective in the New York cases, and hence it could be given a fair trial.

We are all acquainted with the fact that the matter of road building and maintenance is now one of the biggest questions before the people of the country. The automobile has created a new class of taxes, which is nothing more than just. However, some States are apparently over-doing the automobile tax, and are thus tending to lead the auto to death. In speaking of the auto tax recently a prominent citizen of Chester county stated that he had come to the conclusion that the way of taxes on automobiles should go to the building and maintenance of roads, and The News is of the same opinion. Since road building is such a large question why not let the auto assist all possible in building them.

By way of illustration, A motorist of an automobile which he valued at \$1,000. He pays the State Highway Department \$6.50 state license on the car, eighty per cent of this amount comes back to the county in which the car was returned. In Chester County this man would be required to pay the county treasurer \$116.40 tax on the car but very small portion of the \$116.80 is spent on roads, whereas if the full amount was spent on roads one could readily see that Chester county would have a nice sum for road building. We would estimate that if the entire automobile tax was spent on roads, Chester county would have something like ten thousand dollars a year more for her roads than at present.

**MEN MEET DEATH IN TRAIN'S PATH**  
 F. L. Zemp and L. W. Woodruff Killed Near Ocala, Former Died Instantly and Latter Succumbed an Hour After Reaching Union.

Union, Feb. 11.—Frank L. Zemp of Camden and L. W. Woodruff of Union, were killed early tonight when the automobile in which they were riding was struck by a Southern railway passenger train, about 10 miles from Camden. Mr. Zemp died instantly, but Mr. Woodruff lived until about an hour after he reached a local hospital. The accident occurred about 7:30 o'clock.

Mr. Zemp, who was the best of the service department of the Southern States Supply company of Columbia, came to Union this morning, and he and Mr. Woodruff, who was a member of the firm of Raw-Carr, were on their way to Camp Lake where the fatal accident took place. The train stopped and took Mr. Zemp's body and the injured man to Union. The scene of the accident was about half way between Carlisle and Santee.

There are no details available further than that the train and the automobile met on the crossing. Mr. Woodruff was about 32 years of age and is survived by his wife and several children. He was originally from near Woodruff but had made his home in Union for about five years. He was highly thought of and had a circle of friends in his city. Funeral arrangements had not been made tonight.

Mr. Zemp is survived by his wife, who was Miss Margaret Johnson of Lancaster, and one little girl, Berntha. They live in Camden. The remains of Mr. Zemp are being held here awaiting instructions but it is thought that the funeral will be held in Camden. Some of Mr. Zemp's fellow employees of the Southern States Supply company will come to Union as the first train tomorrow morning. Mr. Zemp was about 42 years of age.

The engine tragically has cast bloom over Union.

**Storm in Georgia.**  
 Macon, Ga., Feb. 12.—The storm that has been sweeping the Southeast during the last 24 hours, assumed tornado proportions in Treas county today, cutting a swath 200 yards wide and a mile long. C. J. Henderson, a farmer, near Ocala, and his wife and four children had just eaten a dinner when the tornado lifted the roof from their home. Every building on their plantation was wrecked.

Many people of this city and county have started taking Meritone, the famous new system medicine, since it was announced in the newspapers just one week ago that a supply of White's Pharmacy and The Valley Drug Store.

Indications now point to the fact that Meritone will become just as successful in this city and county as it has in hundreds of communities of a similar size, and it is possible that the sale here may rival those in such large places as Nashville, Chattanooga, Birmingham, Lexington, Ky., and others, considering the size of this community.

The success Meritone has gained here, however, is only the usual

thing wherever Meritone is introduced, and this success is small compared with what it will be once the entire population of this city and county have Meritone's real merit.

It is this real merit that makes Meritone successful—real merit that a trained chemist put into Meritone 20 years of work on its formula. He made of Meritone a medicine without a superior for the ills of the system, such as ailing conditions of the stomach, liver or kidneys, catarrh, rheumatism and the like, and since this fact becomes fully known here, the sale of Meritone will rise by leaps and bounds.

Meritone is sold exclusively in Chester at White's Pharmacy and The Valley Drug Store.

### LOCAL and PERSONAL

Miss Maad McLeod has returned to the city from the northern markets where she went to buy goods for the Redman-Brown Company.

Mrs. E. K. Hardin, of Chester, was among those who attended the funeral of Mrs. M. L. Smith in Clover Wednesday.

Strayed—One Red Mooly head cow Thursday week. Any information as to man or woman who took the cow, please call Mr. W. R. Wallace on York street.

Mrs. S. S. Harshbarger, of Orangeburg, is visiting her niece Mrs. W. R. Wallace on York street.

WE WILL PAY A STRAIGHT SALARY \$150.00 per week and expenses to man or woman who will introduce POULTRY MIXTURE Eureka Mfg. Co., East St. Louis, Ill.

An open competitive examination will be held under the rules of the Civil Service Commission for the position of Clerk-Clerk in the post office service at Chester, Feb. 28, 1920. Call Mr. H. R. Clowry for information.

For Sale—Range Eternal. Good as new and looks like new. Has hot water connections, heat indicator, and warming closets. Oven door will hold the weight of a gold size man. Non-breakable top. New one cost \$130. Will sell for a bargain to quick buyer. Call the News office.

Mr. John W. Cusack who only a few weeks ago underwent an operation, was forced to undergo another very serious operation at the Chester Sanatorium last Sunday evening. Mr. Cusack's condition was considered as very serious, but many friends will be glad to know that he is now improving and hopes for his recovery are entertained.

Try him the new product. Our first shipment just in. Carroll-Foot Grocery Co.

Mr. W. A. Leckie has returned from the northern markets.

Mr. and Mrs. David Hamilton who have been indisposed at the Pryor Hospital with influenza are rapidly improving and were taken to their home on West End last Tuesday afternoon.

An Ad in the February 14th issue of Saturday Evening Post, page 2, tells all about Kilm. Read it and please let your order for a trial package. Carroll-Foot Grocery Co.

Edgar E. Pogg was laid Monday afternoon, nominated by President Wilson as postmaster of Rock Hill, and he will take charge of the office as soon as Postmaster McFadden is checked out. Both men are happy. Mr. McFadden got out of an office he never wanted, and Mr. Pogg is well pleased to get back to the office he so efficiently filled for many years.—Rock Hill Record.

Spell Kilm backwards and you have the real whole milk. A trial will convince you. Carroll-Foot Grocery Co.

Of Miss Hetty Jane Dunaway, who appears at the opera house to-morrow night under the auspices of the "Alhambra" Lyceum. Bureau, on exchange says: "Miss Dunaway has given to the Lyceum public a new thrill in her strikingly original and novel presentation of 'The Last of the Decembrists' and 'The Three Judds'—an adaptation from the great metropolitan play success 'Daddy Long Legs'. They are new, they are beautiful, they are interesting, and the atmosphere of the stories is wonderfully created, through the beautiful and beautiful music. The stories themselves are marvelously interpreted by one born to interpret them. Beauty, nature, philosophy, romance, and wholesome, humor, are blended in one indefinable product which can only be appreciated by being seen and heard."

Keen Kutter, Garden tools, Plows, Rakes, Forks, Spades, Murney Hardware Co.

The Rock Hill Chamber of Commerce and the Rotary Club of Rock Hill are making a strenuous effort to get through a proposition to complete the road from the Chester county line to Rock Hill. An attempt was made to get a bill through the legislature that would put a three mill levy on York county for the road, but this met with failure. It is now proposed to raise \$10,000 by public subscription, having this amount supplemented by a like sum from the federal government. Fort Mill township has been authorized to issue bonds to build a road from Catawba river to the North Carolina line. If both of the plans are carried out it will mean a first class road all the way from Blackstock to Charlotte, a distance of about sixty miles.

### PASSES CHESTER UP.

Messrs. C. T. Hollinger and T. L. Pearson who went to install an ice cream factory in Chester, to be known as The Peoples Ice Cream Factory, have decided not to locate the plant in Chester on account of the fact that the authorities would not let them do any work in connection with the plant on Sunday's. The gentlemen stated that they were allowed to deliver cream to the homes of Chester people on Sunday's. The gentlemen stated that their experience has been that Sunday is the day most people desire cream, hence it would be their business.

Messrs. Hollinger and Pearson had already leased the building adjoining the Chester Laundry and proposed to establish a \$10,000 plant here, the capacity being 500 gallons of ice cream a day. Failure to locate in Chester would mean the milk route being worked up by County Agent Sanders to look elsewhere for the sale of their milk.

Does It Pay? The question naturally coming before every business man from time to time is, "Does it pay to advertise?"

It pays to advertise! It not only is a phrase, it is an absolute fact, if done properly and honestly. If you do not approve of honest advertising, don't do any. A crooked name under an advertisement will soon run bankrupt.

The Carroll-Foot Grocery Co. located on Galesburg street near the Southern station, has been doing a little advertising lately and in conversation with the advertising man of The News Mr. Carroll stated that during the month of January he had been doing business and had \$800 of goods just in from the west. He had had run in The News and to think Mr. Carroll's account with The News was only \$4.80 for the entire month.

Mr. Carroll stated that the only thing that brought him customers from outside the city and their business is picking up daily.

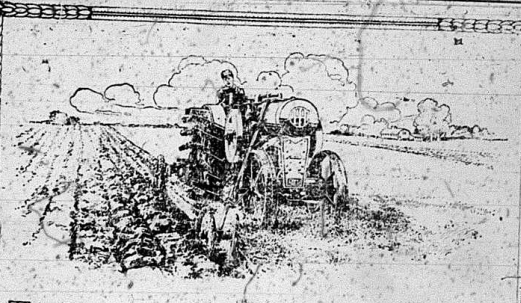

For Fine Beef and Pork at Elliott's Market. They have recently bought a number of fine stall feed cattle. None other to be found.

Automobiles and buggy tops repaired and repaired. Repaired and repaired. Anything in the trimming and upholstery line. We have the reputation of being the highest grade work in the city. Prices reasonable. We guarantee satisfaction. Give us your work. (Burdell) Bepko, 117 Columbia street, east of John T. A GOLDEN WEDDING. On Thursday, February 10th, at the old ancestral home of the Gaston family near Little Fishing Creek, Chester county, was celebrated the 45th wedding anniversary of John Purser Gaston and Nancy Ann (Peters) Dunlap. Between the hours of 2 and 6 o'clock about 100 of the friends of this popular couple gathered at the home to congratulate them.

The guests were met at the living room door by Mrs. Bess Strait of Rock Hill and Mrs. Ann Howes of Lancaster, and these presented to

## The Sensible Leader of the 1920 Tractor Field

NOWADAYS the chug-chug of the farm tractor is heard in every corner of the land. Tractors are at work in the fields of many thousands of farms and if you look them over you will find them a mixed lot. Tractor farming is still in its youth. Novelty is still in the surge toward power farming. The impractical theorists are still in the ring, but not out of the running. Adventurers who swarmed into what they termed the "game" are still "playing." The hazards facing the farmer in search of reliable power are many. In all this turmoil, one tractor like a steady star has lighted the way. That tractor bears the trusted name—Titan 10-20. It has led because it is the product of practical builders of good farm machinery, because it is backed by many years of experience and unquestioned reputation.

Today Titan 10-20 is the standard setter among all tractors. During the past year it has been the topic of conversation on the tongues of farmers and tractor makers the nation over. Selling at the popular low price—\$1000 cash f. o. b. factory—Titan 10-20 faced a sensational demand. A few months ago this desire for Titan ownership had been so great that the factory with thousands of orders which could not be filled at once, though a new Titan was being turned out every few minutes. Every effort is being directed to greater production and to continued Titan service, even during 1920. In view of the financial difficulties, however, this expert advice to the intending purchaser. Orders for Titan 10-20—also for International 11-30 and International 9-16—must be placed far in advance. No other course will assure delivery.

Mr. and Mrs. Gaston. From there they were shown to the dining room by Miss Ann Gaston and Mrs. A. L. Quaint of Rock Hill and Mrs. Lotie Quaint of Wachau, N. C. Serving in the dining room were Mrs. Jim Reid of Richburg, Mrs. J. J. Lynn of Pleasant Grove and Mrs. W. W. Fennell of Rock Hill. The dining room was decorated in jassamine and on the center of the table was placed the bride's cake. A special course was served and, in addition, turkey and ham sandwiches, and later coffee and fruit cake. Those who served at the reception were Misses Lyle, Gaston, and Halls, nieces of the couple. The presents consisted of a "shower of golden eggs" and many beautiful pieces of china. Previous to the reception the immediate relatives were served a turkey dinner.

# THE VIM TRUCK

Our sale of VIM trucks during our few months as local representative has exceeded our fondest expectations. When we picked the Vim we knew we had landed a good one, but the manner in which the VIM truck stands up under all kinds of conditions has been a pleasant surprise to us.

Today we have nine VIM trucks operating in Chester. Every time you turn around you see a VIM, and the beauty of it is the owners are more than satisfied.

Mr. F. A. Feuchtenberger, proprietor of the Catawba Steam Bakery, has used a number of different makes and will tell you that the VIM is the best truck ever used by him. He also says it is the most economical truck he has ever used. It makes more miles per gallon of gasoline and runs miles and miles to a quart of oil.

Geo. W. Byars & Co., bought a VIM truck and after two months use they bought another one. They say it is the best truck they have ever used and the most economical.

Mr. T. B. Aughtrey is another VIM booster. He will tell you that a VIM is the most economical and satisfactory truck he has ever used.

Other Chester Vim owners are equally as well satisfied and place the Vim above all other trucks.

When in need of a delivery truck you have only to think of the VIM. Call on us and let us show you the details of this wonderful truck. Then go to the owners and users of the VIM and be thoroughly convinced that the VIM is the best truck on the market regardless of price.

### STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals, a most disagreeable taste in my mouth. If I ate anything with butter, oil or grease, I would spit it up. I was unable to have regular sleep. I had used pills and rubrics, but after a course of these, I would be worse than when I started. It just seemed to tear my stomach all up. I found they were no good at all for my trouble. I heard

#### GERMANS FILE CLAIMS

Make Complaint Against American Soldiers in Occupied Area.

American Headquarters, Coblenz, Ger., Jan. 21.—Claims for damages to streets, buildings, farms and even maintenance all reported to have been done by American soldiers or American equipment of some kind since the Army of Occupation reached the Rhine, according to some thirty more than 5,000,000 marks. Those allowed total approximately 250,000 marks. Many claims are unfulfilled and some without any basis.

A woman who contended that her infant's appearance had been marred for life, owing to cuts caused by the glass due to an explosion at an ammunition dump, sent in the most recent claim for 250 marks. It was allowed.

Another woman, whose husband had been killed by an American discharge of a central bank, submitted a claim to the Americans for 250,000 marks, contending that her sole support had been taken from her. The American maintained that the German had been killed by the American soldier who was acting within his rights in line of duty. The case was dismissed.

Some of the claims are humorous. Last summer the Eighty-ninth division borrowed a goat for a circus at the headquarters. Recently a claim was filed with the American town major asking damages on the contention that the health of the goat had been injured. The claim was pigeonholed.

A Rhineland farmer recently demanded 500 marks for a bean pole alleged to have been stolen by an American soldier. (An army commission heard the case and threw out the claim on the ground there was no evidence to show that an American had committed the theft.)

TABLETS MARK PLACES. Markers Memorials Suggested to Belleau Wood.

Washington, Feb. 11.—The erection of a memorial in the vicinity of Belleau Wood to the United States marines who were killed in France is advocated by Maj. Gen. George S. Patton, commandant of the Marine Corps.

General Barnett thinks that work should be done before many changes are made in that locality and suggests the erection of a number of tablets suitably inscribed as the quickest and most suitable manner of commemorating the deeds of the

#### HONOR FOR CARTER

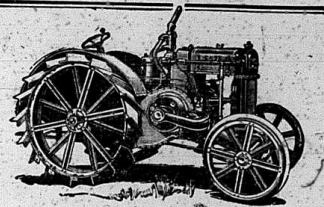

Well-Known Man Moves Up in Masonry.

Washington, Feb. 10.—Many South Carolina friends of George H. Carter will be interested in the high honor paid in the Masonic fraternity to which the Washington Star has been conferred.

George H. Carter, clerk of the congressional joint committee on printing for the last ten years, was honored by the supreme council of Scottish Rite last Tuesday by election to receive the 33rd degree, honorary inspector general, which was conferred Friday night at the house of the temple. Mr. Carter was advanced by the supreme council to the grade of night commander of the house of honor two years ago. He is a member of Des Moines consistory, No. 3, and also belongs to the chapter, council commandery and shrine at Des Moines, where he was engaged in newspaper work for several years before coming to Washington to represent a number of Western newspapers in the press gallery of congress. Mr. Carter has always retained his blue lodge membership in Blue City Lodge No. 71, of his home in Council Bluffs, Iowa, where he was city editor of the Non-Parade for five years. His Washington residence is at 1513 Hohler street, northwest.

United States marines and marking the ground on which they fought. This method of marking historic ground has been successfully carried out at Gettysburg and Antietam.

The secretary of the navy has approved the plan.

### The Latest and Best

We offer the Case 15-27 Kerosene Tractor as the king of them all. It is creating a sensation all over the country. It is the result of 71 years of experience of the famous J. I. Case Threshing Machine Company.

It pulls three plows in hard plowing—four plows under favorable conditions. It has abundant reserve power. It burns kerosene successfully and economically.

This sturdy tractor is adaptable for all kinds of drawbar and belt work. It drives a 26x46 Case Thresher with Feeder and Wind Stacker. Its pulley is properly placed for convenient "lining up."

It is small and compact and built for accessibility. No tractor is finer. You should become acquainted with its many superiorities, which we will be glad to explain. Don't buy before you see this better tractor.
