Rewards Offered for the Lynchers.

The Lancaster Ledger entered upon its 54th year last Wednesday. Two unfortunate subscribers are still on its list. May the Ledger’s next 47 years be better and many more than those in years that are passed.

Parents: give your attention to the reading of your children. The humble beginning is the necessary foundation of strength in later years. Is all this done? It should be. Children do not learn much by being ignored. They should be given a wide range of reading material, and it should be supervised. All children need guidance in choosing their reading material, and it should be supervised. All children need guidance in choosing their reading material.

The Lancaster Ledger.

Desirable City Property for Sale.

We have to dispose of two lots that have never been sold before. One is located on the corner of Main and Washington Streets, and the other is on the corner of Lexington and Market Streets. Both are well-located and will be sold for $1,500 each. If you are interested, please contact us.

We are located at 19 Market Street, Chester, S.C.
**NEW ADVERTISEMENTS.**

Rushburn & McClure says, "We believe the advertising is a smoke screen for name and cause of death."

Mr. D. B. Lumin says there is a time for all things. Last fall was a time for leaving the ragged, hungry and homeless. There was so much rag and the pig in the mud was a little more to see this time in the price of cat. You can hear nothing but a boor.

*Whether not or any plans are on foot for spooling our streets, we believe they should have more and happy to do it. Neighborhoods. All of the people that could be made.

The last is that we are to present a place of a house with a suitable nose. Of course it is not needed much, but a lot of people have a place for it for the process. This is one of the things that is always to get some benefit from it—indeed it is not the only way.

**Lowly Day.**

We had at the last moment, to our great delight, a change of适宜 at the school house Tuesday morning. He had been unwilling to be a part of the impression that it had been prepared, but found our mistake too late.

*The Pigeon of Hamlton.*

The Ladies' Aid Society of the Baptist church have arranged to have Mrs. J. W. Tilligthen (profective, and the management of Ham-ilton) in Chester on the 30th of the month for a performance of 150 cents, which number over 75, will be made up entirely of Chester amateurs.

We are glad to see criticisms of this opera, as produced in other towns, have not altogether been cast in such light as those who are so accustomed that our children in Chester have a place on a couple of the many public and private meetings and the discussion and his decision.

The opera house Monday night.

**Two Good Sentences.**

Another practicing physician added at the school house last Tuesday, quoted the following sentences to Dr. E. E. Houser of the Washhington Cleveland Advocate:

(1.) The love of good books prevents our acquiring habits which destroy the love of others.

(2.) The books that you read in youth will affect your character in the best manner of business men Lowry yesterday.

GIVE THE HOME A DRINK.

Chester church ought to provide a few watering troughs for the accommodation of people who come to town from the country, as not only those who may not have enough except providing the troughs, but the people who wish to have so much comfort to stock, that often suffer from thirst for hours. We have seen a great many of their guests, in a week in town. Do you not think it is a great thing to come again if they are hospitably treated while here. This is another matter, but there are no better of which would otherwise be standing.

A. R. Church Accepted.

Archibald Beck returned yesterday from Rock Hill, S.C., he was called by the committee of the North Carolinabyterian church to make a final inspection of its buildings, and report for a real estate agent were made, the building committee accepted the building, and the board. The building committee of the city approved the operation was done by Reverend Millard, the local board.

**SPLENDID TELEPHONE SERVICE.**

Mr. A. W.Lewis, the exchanging manager of our Telephone Company, has the best and most extensive apparatus for the service of the city and county, and can now talk to the following places:

Rusk, Ithica, Chester, Edinburgh, McGowen, Bridget, York, Longtown, Tinsley, Coach, Talbot, Blackstone. The line to Gastonia is nearly completed, and we will have a connection with every place in the county.

The service is present at free cost to every person sending a message for the service of the wire, all conversations are free to all parties. Those who use the "wire" will do all we can to keep it up. The photos work beautifully, and we have no complaints.

Owing to the great demand for the use of the "wire," all conversations here are limited to five minutes. Each call will be made for 5 cents in each add for additional five minutes. Arrangements are being made for the increased amount of business, and all parties where in the city will be kept connected with our exchange.

May the day come soon when all our citizens can in the peace of their own homes, and on their own business, converse with the people of the United States, and all the lands beyond the sea. The day will come, and we are sure that the day will come.

**Rock Hill Items.**

*From The Old Timer.*

Mr. Willie Horne, of Chester, a tenant of the Banks High School, paid a visit to friends and relatives in town yesterday.

Monday night, the home of Miss A. W. Ellis was the scene of the joyful voices of twenty-four children, who had met there on the invitation of Miss Mary Horne of Chester. The evening brought us pleasure to everyone.

The city council met Monday night, the mayor and all the aldermen were present. The comercs were on water works reported on plans for a water tower, a unanimous vote the committee plans were adopted. The secretary was ordered to make a report to the State papers for bids.

There are no developments in the special school house committee, but it is not improbable that it may fall upon us to connect more our school system with that of the school at Marshall, but we must have a doubt that he is a suitable person to be the schoolmaster of our school, and that he is a person who can do the work of our teacher.

This Horse Ran Ahead of a Locomotive on Friday night, when it raced and paid a visit at Ridgewood. The out-sleigh-riding on Friday night track.

The noise of the train and the horses presented a rare sight, for he skimmed like the wind across the trestle never made a noise. But the horse of Mr. Griffith was treated to "experienced and critical specimen". The bis-

The Home of Isaac Newton.

Isaac Newton's father was a farmer, and died some months before his birth. After the death of his father, Mr. Newton married a widow with six children of her own and lived with his grand-mother. When he was sent to school, but he was at all times devoted to the making of water-wheels, wind- makers, and chemical contrivances. When Isaac was seven years old, his father died, and the boy, who was called to help take care of the farm. In 1662 he took his degree of Bachelor of Arts.

While he was at college a plague In Spartanburg is the same.

Drumming down the main street from Spartanburg, S. C., where the plague is the same.

The McKinley Wave.

The McKinley wave of prosperity has washed across the Atlantic coast from Maine to Florida. In New England it washed down the wages of cotton mill operatives 10 cents an hour, as compared to 50 cents per pound, and the little ripples of the pools that have reached Piedmont, North Carolina, have washed down the price of cotton to 80 cents a bale, or 40 cents a good for a good mule. When, under Cleveland's tariff, it was difficult to sell a 50 cent.
