Silent Salesman Talk

Southern Public **Utilities** Company WOMEN DO THE BUYING The modern woman is a business woman. She makes eighty per cent of all purchases made in retail stores. She is an astute, clever buyer and runs her house on a strictly business basis.

The modern woman is constantly in touch with the stores and their offerings. Through the advertising she knows the lowest prices, the best qualities and the latest commodities. Long be-fore she leaves the house for a shopping trip, she knows exactly what she wants, where to get it and how much to pay.

She buys merchandise of established reputa-tion. If it's clothing, she knows how well it should wear and what the style should be. If it's food, she knows what to expect in nutrition val-oes and price. If it's a vacuum cleaher, she knows what kind of service it should give.

Ask her and she will tell you that it pays to read the advertisements. It will pay you, too. It will save you time; money and effort. It will help you dress better, eat better, sheep better and live better.

You can best insure the largest yields and the best quality of crops by selecting the most reliable fertilizers—made by a company of undoubted responsibility and of highest reputation, gained through long practical experience, scientific re-search and honorable-dealings.

All of these factors are secured by using "AA QUALITY" FERTILIZERS BEET KNOWN TO YOU UNDER THE FOLLOWING BRAND NAMES POCOMOKE

The American Agricultural Chemical Company

Mr. Merchant!
