TUESDAY, FEBRUARY 25.

This paper has enlisted with the government in the cause of America for the period of the war.

If the dry had lived during the days of Noah, would they have been the first ones to come in out of the wet?

A representative of a tourist agency has just returned to the United States from a trip to the battlefields in France, where he went to see and report on the prospects for American tourists to visit the war zone next summer. From his observations he does not believe that any more tourists travel permitted from the French or Belgium military authorities before the summer of 1920. Editors of country newspapers will please take note of this fact.

The world at peace is not expected to smoke nearly so many cigarettes as the world at war, and American tobacco growers have been warned by the Government that it will not be wise to continue output of leaf on the scale of the last two or three years. Not only are fewer cigarettes likely to be smoked, but the cessation of hostilities may bring under cultivation again large areas of land formerly producing the great bulk of the Turkish tobacco, but which have not been producing crops since the second year of the war.

Machines that until a few months ago were being used in grinding out weapons of destruction are now to be used to foster the genius of potential young American inventors. Practically all of the government's war machine-making tools, valued at \$100,000,000 worth of which now are in storage in Washington, will be turned over to the Nation's vocational training schools if Congress acts favorably on a bill now pending before it.

As has been mentioned in The News 999 times, the streets of Chester are in a deplorable condition. Those who have occasion to use the streets are well aware of the fact that they cost more in wear on vehicles than the tax would be if the streets were paved. Chester will never have a street it ought to have until someone votes a bond issue. Now let's don't argue about who is going to spend the money. Let's get the business going and then we can agree on the details.

The Balldash Club of America, of which ex-President William Howard Taft and others are members, is planning to hold its annual banquet, which was skipped last year on account of war conditions and the fact that a considerable number of the members were in the service.

The News has been unable to find any one in Chester who is a member of the Balldash Club, notwithstanding the fact that our city can boast of numbers who are entitled to a seat at the head of the banquet table. The News regrets that Chester will not be represented at the banquet mentioned above, and we would suggest that a Chester balldash get busy and secure members to attend the banquet next year, or better still, why not have a Chester Balldash Club?

The News is in receipt of an unsigned communication regarding a personal difficulty between Mr. Elver and Mr. Darby, which we understand happened at the Eureka Cotton Mill last Wednesday. The fact that the communication is unsigned is sufficient reason for not publishing same and if it were signed we could not consistently publish it. The News has not yet been to trial and it is the policy of The News not to endeavor to mold public opinion with reference to any court proceedings, be they criminal or civil. The News feels that if a man is within the hands of the law that he should be dealt with as the law is by the court. The publishing of testimony after same has been submitted to the court is, we think, an entirely different proposition to making some public show trial.

TWO LIVES LOST BY CAR SKIDDING

Machine Goes into Creek Near Fort Mill, Charles McNeely, Ten Years Old, and A. O. Anderson, Mill Overseer, Victims.

Fort Mill, Feb. 23.—A tragic accident occurred this afternoon. Baiter's bridge, which spans Sugar Creek about two miles east of Fort Mill, in which Charles McNeely, the ten year old son of Mr. and Mrs. C. W. McNeely, and A. O. Anderson, overseer of carding at the Fort Mill Manufacturing Company's mill No. 2, were drowned, the result of the automobile in which they were riding skidding at the head of the bridge and turning completely over into the waters of the creek, entirely submerging the car. The car was being driven by C. McNeely, who for a number of years had been superintendent of the Fort Mill Manufacturing Company and had recently accepted a position in Selma, Ala. He was on his way to Charlotte, N. C., to take the train and was accompanied by the two young boys. Mr. Anderson and his son, George, to the heavy rain the roads were in bad condition, and in approaching the bridge the car skidded several times until it reached the bridge, when an effort was made to turn it into the road. The car, however, headed to the right of the road and crashed down the steep embankment into the stream.

It appears almost miraculous that three of the occupants of the car disappeared immediately from the car and reached the surface of the water. An effort was made by them to locate the bodies of the other two, but in vain. They were found and taken to Fort Mill, where help was secured. The body of the McNeely boy and that of Mr. Anderson were recovered about ten minutes after the accident, but efforts at resuscitation were in vain.

\$166,000 For Chester County

The Federal Reserve Bank, at Richmond, has made the following appropriation for Chester county for the Victory Liberty Loan.

Chester County—Population, 30,400; banking resources, \$2,100,000; combined quota, \$166,000. Divided as follows:

Blackstock, population 150; banking resources, \$95,000; appropriation, \$5,000.
Great Falls, population, 3,000; banking resources, \$25,000; appropriation, \$2,000.
Chester, population, 5,000; divided among the banks, according to banking resources: Commercial Bank, \$20,000; National Exchange Bank, banking resources, \$115,000; appropriation, \$64,000. People's Bank, banking resources, \$22,400; appropriation, \$2,400.
White Bank, banking resources, \$250,000; appropriation, \$15,000. Total for county \$166,000.

JAIL FOR "NEVER DIE" ELDER

Long Prison Sentence for Sam Lead for Many Burglaries.

Atlantic City, N. J., "Elder" Walter Robinson, head of the "Elder and Never Die" gang, which has special headquarters in North Indiana Avenue, this city, and branches in New York and Philadelphia, was sentenced to serve from four and eight months to seven years in State prison and fined \$2,000 by Judge Robert H. Ingersoll in the Federal Court at May's Landing today.

Robinson was convicted on Jan. 30 of breaking and entering, on four counts. He was accused of robbing two boys, Perry Jones, 9 years old, and Robert Washington, 10, to steal, and of being the leader in a regular system of robbing the homes of the boys' parents. He was also accused of being the leader in a regular system of robbing the homes of the boys' parents. He was also accused of being the leader in a regular system of robbing the homes of the boys' parents.

Robinson's counsel, immediately presented a writ of error to have the case reviewed by the Supreme Court. He was released on \$3,000 bail. The "Elder" who is tall and thick set, with a heavy beard, appeared for sentence in flowing deep purple robe. He started the court during his trial when he swore "he was 98 years old. He did not look 50. He asserted that no one need die if he followed the mandates of the Bible, he interpreted them. Several "brothers" accompanied Robinson dressed in garments of lighter purple, and wore round velvet hats. Several "sisters" in black and white were present. They wore Shaker bonnets and gowns. The "parishioner" motored to the Court House. "Thousands of dollars" worth of stolen property had been found in the homes of members of the sect. Prosecutor Edmund Gaskill told Judge Ingersoll that the maximum penalty. He asserted Robinson was the head of a pederastic system, and that a pamphlet should be made.

Carr Watson, alias Robinson, all members taking the cognomen of Robinson upon joining the sect—who said she was one of the "Elder's" daughters, was sentenced to serve three months in the county jail; said sentence was suspended.

Plant Lost Cotton This Year.

SEVEN U BOAT CHIEFS MARKED BY BRITISH

Experts in Washington View Its Suggested Destruction With Disfavor.

Washington, Feb. 22.—American naval officers of a rule are not so enthusiastic over the British proposal that the surrendered German naval vessels be taken to sea and sunk. They are less enthusiastic over the later suggestion, also emanating from British sources, that Heligoland be levelled to the water's edge and eliminated as a German defensive fortification.

Some officers, who, of course, are forbidden to discuss such matters for publication, take the ground that the British friends are interested in getting rid of the German ships primarily because it would add very materially to the relative strength of the British naval forces.

It was pointed out that the new Polish Republic and some of the other nations which are rising from the embers of the European war would be able to use these ships to excellent advantage, and that nations with port facilities have a call upon them.

American naval experts from the outset have taken the position that Heligoland, while a wonderfully strategic defense point, is not a menace to the Allies or the world in any other particular. The maintenance of armament on Heligoland, it is contended, at most could hardly do more than provide a defense for Germany against sudden attack from the North Sea.

With Germany's navy gone, one officer said, the Allies and America would have little difficulty in reaching German territory from the sea at their points, should such a step ever become necessary.

On behalf of the United States it can be said that our naval experts are not particularly interested in securing any German ships. A modern battle cruiser perhaps would not be spurned if one were offered in the final disposition of the Teutonic Navy. Even a few submarines could be utilized to advantage provided they were of the modern cruiser type and embodied distinctly new and advanced ideas. The navy now has complete data on German submarines and other craft, including the huge new type Zeppelins. Germany is understood to have about fifty Zeppelins.

REDUCTION PLEDGE

State of South Carolina

County of Chester

No. acres planted in 1918

No. acres planted in 1919

I hereby promise on my honor and agree to reduce my cotton acreage for the year 1919 as compared with the year 1918, 25 1-2 per cent, or as per schedule shown hereon, and to reduce my commercial fertilizers on cotton for the year 1919 as compared with 1918, 50 per cent, and to hold my cotton on hand for 35 cents basis middling, or for a remunerative price.

Witness my hand and seal this 19th day of February, 1919.

SEVEN U BOAT CHIEFS MARKED BY BRITISH

Experts in Washington View Its Suggested Destruction With Disfavor.

London, Feb. 22.—Among the problems that eventually will be decided by the Peace Conference are dismantling the forts at Heligoland and Kiel, bringing certain German submarine commanders to justice and the ultimate fate of the fleet the Germans surrendered, now at Scapa Flow, Orkney Islands.

The Daily News says the view is held in official quarters that the forts should not only be completely dismantled but levelled to the ground and this should be done at German labor and at the expense of the German Government. It is also the general opinion of experts that the vessels surrendered are utterly useless, and as the task of scrapping them would involve enormous expenditure, the only way out of the difficulty would be to sink them.

Among the U-boat "pirates" there are still seven commanders in Germany whom the authorities are very anxious to bring to justice. The names of these seven are known to be among the worst committed by German submarine officers. These men are well known. Their names are pieced together at the Admiralty and enough evidence of their crimes has been compiled to convict them of murder. It is suggested that the peace terms should contain a clause compelling the Germans to hand over these men in person to the Allies.

You never can tell. Some men go off like bombs and some are only duds.

DOCTORS

There are all kinds of doctors. Doctor is a term of wide application. It not only applies to such as practice medicine but to doctors in all of the learned professions; thus, there are doctors of Divinity, doctors of Law, doctors of Philosophy, doctors of Music, doctors of Science, etc.

There is another kind of doctor that you have not heard very much about only during the past ten years, that is a Tire Doctor.

A Tire Doctor is one who repairs automobile tires and that is the kind of doctor we want to call your attention to.

Wherry's Garage has employed an expert Tire Doctor and he is one Doctor that guarantees a cure regardless of the ailment. Don't bury your old Automobile Tires but bring them around and let our Tire Doctor make a diagnosis and we will guarantee a cure and also guarantee you we will save you money. There is no use in throwing away an automobile tire when a small sum will make it run several thousand more miles.

See our Tire Doctor before you have an Automobile Tire funeral.

Egyptian Cotton in Arizona.

The development in Arizona in the growing of long staple, or the Egyptian variety of cotton, as the growers call it, has reached the point where the American Egyptian Cotton Exchange has now been formed at Tempe, Ariz., with sufficient business to justify the issuing of a market circular.

In a recent report issued by the exchange it is said that the prevailing price of the cotton which had been sold was 17 cents a pound, though some had been closed at 50 cents, and that the growers now have a feeling of confidence as to the suc-

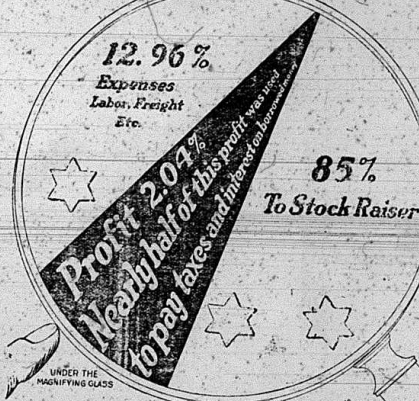

cess of the industry, and buyers from Eastern houses are located in that section.

The report states that the cotton grown in the Tempe and Salt River Valley sections is said to be of the Pima variety planted from restricted seed, and with every effort made not only to maintain the present high quality, but to increase it, there is decided disposition among the growers so it is expected to increase their acreage during the coming season.

In the Salt River Valley the area planted last year was 71,000 acres.

and the ginnings up to January 10 had been 19,046 bales. The Imperial Valley of California had 9500 acres, the Salton region 1500 acres, and the Yuma Reclamation area 2500 acres, making a total of nearly 80,000 acres of land planted to this Egyptian cotton. This development is of interest to the American cotton trade, and especially to the users of high-grade Egyptian cotton. Perhaps there are some lessons to be learned by the South from what these sections are doing in raising Egyptian cotton. Manufacturer's Record.

A "Close-up" Swift & Company's Profit of 2.04 cents on each dollar of sales

The diagram at the top shows the distribution of the average Swift dollar received from sales of beef, pork and mutton, and their by-products, during 1918. The magnifying glass brings out the distribution of the 2.04 cents profit per dollar of sales:

- 94 of one per cent goes to pay interest on borrowed money, taxes, etc.
- 50 of one per cent goes to pay dividends to shareholders.
- 60 of one per cent remains in the business to help in improving and financing the business.

Total 2.04 per cent

4.

EFFICIENCY AND PROSPERITY.
The annual report of the Steel
Corporation have given such a se-
ries of amazing tokens of growth and
wealth that for a change could be
may be better word while it turned
toward a search for the reasons why
the surplus as grown from \$25,000,
800 in 1901 to \$406,888,421.
That compares with \$508,802,
500 common stock, and is after de-
duction of \$280,494,423 for capital
expenditure and \$500,000,000 in
dividends. How has that miracle of
growth been accomplished, since
there is no one but the Government
complainant of anything in the cor-
poration's business record? During
the year the average number of em-
ployees increased one-fifth of 1 per
cent, but the payroll increased
\$105,232,000, or 30.3 per cent, and
at such an advancing rate that the
average increase per employee per
day during December was \$4.6 per
cent. Business done increased by
\$109,285,708.8.

The courage and generosity shown
in such liberal payments to workmen
are emphasized by the fact that di-
vidends had previously been reduced,
and that the price cut which took
effect after the year-end must have

surance organization in the country,
had their rates increased today to
meet the abnormal death losses re-
sulting from the influenza epidemic
which caused a reduction in the
beneficiary fund of the order from
\$2,571,617,175, in the face of
decreasing business and increasing
costs, are expected partly by the
price movements, and more by in-
creased efficiency. The corporation
has known how to do more business
with the right sort—there being some de-
crease—was practically the same
working force. If workers had in-
creased in numbers as much as in
wages, there would have been a
worse story to tell. If the move-
ment had not discriminated against
war workers there would now have been
a worse outlook for it on peace
work. War work is profitable, but
peace work is permanent. There is
less readjustment for this corpora-
tion than for others that in percent-
age can show greater profits,
though not in total. And this is the
one which was the particular bane
of the finance writers who under-
estimated the value of the idea on which
it was organized, and which made it
the shining mark of prosecutors in
numbers not exactly known, but of

LOW UPKEEP

The Franklin Automobile is admitted to be the
most economical car on the market. - You get more
miles for less money than any other car.

The Jenkins Cab and Auto Co., of Birmingham,
Ala., write that they are using 14 Franklins in their
business. They put in 3 Franklins in June 1917 and
have since abandoned all other makes. They state
that they get from 18 to 20 miles per gallon of gaso-
line and from ten to sixteen thousand miles per set of
tires. Their oil bills have been reduced by three-fifths.

A demonstration of the Franklin will convince
you that it is the logical car to buy.

Stella-Vitae

THE GUARANTEED TONIC FOR WOMEN

Stella-Vitae has been in suc-
cessful use in the treatment of those dis-
eases peculiar to women for more than a
third of a century.
For nearly ten years it has been
sold under a plain, positive guarantee
to benefit. Less than one bot-
tle out of every one thousand
sold has been returned for, and every
thousand of letters like this printed
one for a refund. And this is the
Stella-Vitae and telling of benefits to
suffering women have been positive.
Mrs. E. L. Russell, of Mill Springs,
N. C., testifies as follows:
"I was in a most wretched con-
dition; had palpitation of the heart
and would swell and bleed in a most
distressing way. When I began
using Stella-Vitae I weighed 106
pounds. Now I weigh 135. I am
more thankful than I can ever tell
you for the great good this won-
derful medicine has done me."
Mrs. Russell was at that critical
period, the "change," and her sincere
gratitude for the "wonderful relief" will
be understood and appreciated by every
woman who reads her letter.
Stella-Vitae has proved a boon to
suffering women, to young girls
approaching their vital period, to
women approaching the anguish of
menstruation, to young women suffering
from "change of life," Stella-Vitae stimulates
the female organs and promotes
regularity in the monthly function.
No risk of loss is taken by any sat-
isfying woman who tries Stella-
Vitae on our guarantee of the first bottle.
All others will be refunded, and we
return your money if it does not bene-
fit you. Don't pay out a cent.

NOT AS BIG AS BRITAIN'S BILL

Cost of War to America Not
 Nearly Equal to What Eng-
 lish Ally Must Pay.

Twenty-one months of our war with
 Germany cost the United States \$24,
 \$46,000,000, the treasury department
 calculates. Huge munitions and other
 contracts have been cancelled. Man-
 ufacturers are now presenting their
 bills and requesting payment for ma-
 terials delivered months ago in the
 heat of the struggle.

Included in the enormous total of
 \$24,460,000,000 is the sum of \$7,975,
 000,000 loaned to the Allies. When we
 began lending to the Allies, the gov-
 ernment contemplated turning over to
 them about \$600,000,000 a month
 but actual loans actually ran around
 \$280,000,000 monthly.

Of the total war bill about \$14,990,
 000,000 has been raised so far by the
 Liberty Loans. The fact that we have
 not covered our war debt is the rea-
 son for the Victory Liberty Loan. In
 other words we haven't paid for the job.

The cost of the war to Great Brit-
 ain was \$46,640,000,000. Germany is
 out \$23,750,000,000 exclusive of inden-
 nities the Allies may impose.

FOX TROTS ON LIBERTY LEGS

Limbs Blown Off by Shell, But
 This Man Continues to Trip
 Light, Fantastic Toe to Jazz
 Accompaniment.

Lillard Evans is a colored soldier
 boy who had both legs blown off in
 action. His legs for the present are at
 the Letterman General Hospital at the
 Presidio in San Francisco. He can
 still dance to the music of the jazz
 and swing. How? Why?

Of course to dance a fox trot or
 a waltz a fellow has to have legs—
 good-looking. Well, Evans has them—
 not his own legs of flesh and bone,
 but his own willow legs with joints
 and everything. He is going to leave
 Letterman pretty soon and go back to
 work and make his living and prob-
 ably get married and raise children.
 That's the how.

The way of it is—the government
 of the United States has gone in for
 leg and arm making. It is giving a
 specially built leg or arm or hand or
 a pair of legs or arms or hands to ar-
 my soldiers who lost his legs or arms
 in the war. At Letterman in particu-
 lar they are making Liberty legs and
 arms and hands in their own work-
 shop. They are making them because
 they have hit upon a better artificial
 limb than some manufacturers were
 turning out.

This is one phase of the reconstruc-
 tion work that Uncle Sam is quietly
 getting on. It is one of the least ex-
 pensive, but it is costing hundreds of
 thousands of dollars. Remember that
 when Uncle Sam comes knocking at
 your door with the Victory Liberty
 Loan. Mark at the money you will
 lead is going to regenerate those
 men who gave of their flesh and blood
 for their country.

SAVING BEATS EARNING: TOO BAD YOU DIDN'T LIVE TO ENJOY IT ALL.

If Isaac and Jacob who lived
 some six thousand years ago,
 were still alive, and if Isaac had
 saved his every day, and had saved
 it all, he would have
 \$21,900,000. On the other hand,
 if Jacob had deposited \$1 at 1
 per cent. interest, compounded
 every 100 years, he would have
 today \$21,900,000.42 cts.

Can anyone figure out how
 much Isaac would have had had
 he purchased one \$5 War Sav-
 ing Stamp like which pays in-
 terest at the rate of 4 per cent.
 compounded four times every
 year? There is 48¢ more in all
 this. How much would every
 child have if its parents should
 start it out with a \$5 stamp, and
 then encourage the youngsters to
 save?

Liberty Loan Levity

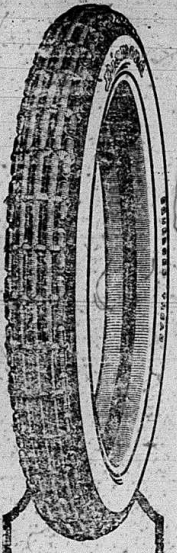

Let the nation go dry, says Bill
 Cliney.
 Who was fond of his drink—plain or
 fancy.

Twice the price of a round
 makes a payment, too round.
 On a head—and there's no new with
 Nancy.

COSTA RICA PROTESTS

TO EUROPEAN POWERS
 Paris, April 1.—Representatives of
 Costa Rica have protested to the
 European powers because, although
 Costa Rica declared war on Ger-
 many, it was not invited to the peace
 conference to participate in the
 league of nations. The Costa Ricans
 added that therefore Costa Rica can-
 not join the league of nations either
 as a belligerent or as a neutral.

DIAMOND SQUEEGEE TREAD

**Tires
 When Your
 Tires "Cash in
 Your Checks"**

Just as certainly as
 you buy a tire, you
 know that some day
 it will "cash in" its
 checks"—and yours!

That day you'll
 measure its mileage
 against the same you
 paid for it. Not that
 then, probably, will
 you know whether
 that brand of tires
 really gives you your
 money's worth.

Unless those tires
 be Diamonds. You
 can count on Dia-
 monds to roll up
 5,000, 6,000 and 8,000
 miles per tire—
 though their COST
 LESS than most
 other tires.

For example, in
 winter driving with
 chains, 341 Diamonds
 averaged over 5,000
 miles. The Goodyear
 Co. tests in 1935 in
 Philadelphia. The Texas Co.
 with over 800 cars,
 averaged between
 6,000 and 8,000 miles
 with Diamonds.

Why not change your
 tires with a Diamond?

**CHESTER

CHANDLER SIX \$1795
 Famous for its Marvelous Motor

**The Most Closely Priced
 Fine Car**

NOW that you are ready to buy that new car, try to find one
 that gives you so much in mechanical excellence and in
 beauty and comfort of bodies at so fair a price as does the
 Chandler Six.

Search the whole market if you wish.
 Search for such a motor.
 Search for such a sturdy chassis.
 Search for such features of essential equipment: Bosch mag-
 neto for sure ignition, silent chain drive for motor shafts—three
 chains running in constant spray of oil, solid cast aluminum
 motor base extending from frame to frame, angular ball bearings
 to carry the power back to the rear wheels with the minimum
 loss through friction.

The Chandler is the most closely priced fine car in the
 American market. A determined Chandler policy, pursued now
 for nearly six years, has made it so.

When you really know the Chandler Six, no "competitive"
 car will interest you. Cars for which you are asked to pay more
 will not interest you.

No other car, in the whole medium-priced field, offers you
 such a motor. No other offers you such features of essential,
 high-grade design and equipment.

Asking you to pay more wouldn't give you more. To mark
 up the price doesn't make a car better. The Chandler is sold
 at a closer price than any other fine car. You can prove this by
 your own comparisons.

SIX SPLENDID BODY TYPES
 Seven-Passenger Touring Car, \$1795. Four-Passenger Roadster, \$1795.
 Convertible Sedan, \$2195. Four-Passenger Dispatch Car, \$1795.
 Convertible Coupe, \$2395. Limousine, \$2095.
 All Bodies A. H. Condit.

JOHN WALKER

STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite
 a long while I suffered with stomach trouble. I would
 have pains and a heavy feeling after my meals, a most
 disagreeable taste in my mouth. I ate nothing with
 butter, oil or grease. I would spit it up. I began to have
 regular sick headaches. I had used pills and tablets, but
 after a course of those, I would be constipated. It just
 seemed to tear my stomach all up. I found they were
 no good at all for my trouble. I heard

THEDFORD'S

BLACK-DRAUGHT

recommended very highly, so began to use it. It cured
 me. I keep it in the house all the time. It is the best
 I've medicine made. I do not have sick headache with
 stomach trouble any more." Black-Draught acts on the
 pained liver and helps it to do its important work of
 throwing out waste materials and poisons from the sys-
 tem. This medicine should be in every household for
 use in time of need. Get a package today. "If you feel
 sluggish—take a dose tonight. You will feel fresh to-
 morrow. Price 25c a package. All druggists."

Club Celebrates 21st Anniversary.

(Written for The News.) On Friday afternoon Mrs. T. S. Lettice was hostess at one of the most delightful meetings the Palmetto Book Club has held in quite a while, the occasion being the twenty-first anniversary of the club. The guests were Mrs. Lettice and her daughter, Mrs. J. W. Young, Manager.

Mr. J. D. Ratterree is in receipt of a letter from the Atlanta Georgian advising him that he has earned a trip to the Round-Up Convention which will be held in Atlanta on February 26th and 27th. Mr. Ratterree earned the trip by large sales of the Georgian.

Gingham Dresses and Rumpers for the little "Dots"—big selection at Wylies.

Mr. W. A. Corbitt has sold his residence on College street to Mr. Z. E. Collins. Mr. Corbitt and family will make their home with Mrs. Julia Corbitt, on Saluda street, for the present.

See These Special dresses at \$15.75 at Wylies.

Elsewhere in this issue of The News appears a cotton pledge. If any of our farmers readers care to sign same, they may do so and mail to The News, Chester. The pledge will be handed to the proper authorities by The News.

Dalhousie—Caples and Coats, best selection in the city at Wylies.

Owing to the high water last Saturday it was reported that the bridge over Rocky Creek, on the Richburg road, had been washed away. However, since the water has receded it is found that the report is in error and the bridge is still intact.

We understand there is talk of building a community building in Chester in commemoration of those from Chester county who were in the recent war. The proceeds for the construction of the building would be secured by subscription, and those who have discussed the matter are of the opinion that several thousand dollars could be secured.

Mr. Karl Lehman, Southern States Secretary of the Christian Endeavor Movement, spoke to a large audience at Purity Presbyterian church last night. Mr. Lehman is a very forceful speaker and those who heard him enjoyed his talk very much.

Dr. H. L. Wilkes and daughter, Miss Kate Wilkes, of Rock Hill, were Chester week-end visitors.

Dr. H. E. Gurney, pastor of the First Presbyterian church, of Monroeville, N. C., filled the pulpit at the First Baptist church Sunday in the absence of the pastor, Rev. L. M. C. Gurney, who was in Monroeville where he assisted at the funeral of Mr. E. B. Ashcraft, a prominent citizen of Monroeville.

ANNIVERSARY PARTY.

(Written for The News.) In honor of one of the most popular lay stenographers in the city a few of her friends were invited to a luncheon today to celebrate the anniversary of her birthday. Her charming personality has made her many friends here, and over the Carolinas. Cakes and light refreshments were served. After congratulations to the hostess, the guests departed. The cake was decorated with burning stars which represented the age of the honoree. The presents were beautiful and one of the specialties, a handsome engraved watch with monogram.

HAS NO HANDS.

Despite That Handicap He Is a Good Mail Carrier. Rock Rapids, Ia.—Thomas K. Cushman is Lyon County's oldest rural mail carrier—older than is in years of service only, for in spirit there is no younger man anywhere. No matter what may be the weather or the conditions of the road, his duties are assured of getting their mail. All this is true in spite of the fact that Cushman is physically handicapped to an extent that would discourage most persons. As a boy of four, he was caught in the historic blizzard of Jan. 12, 1858, and was so badly frozen that he had to submit to

BIG HOSPITAL FOR CHESTER

That Chester is to have one of the largest and most modern hospitals in the South has been decided upon by the stockholders of the Chester Sanatorium, and we understand that the erection of same will commence as early as possible. Already the owners of the Sanatorium are in touch with architects and plans will be drawn within the next few days.

The new hospital will be erected just in front of the present hospital, facing York street and will be several stories high. The building will be built of fire-proof brick and will be the latest in hospital construction. The News is unable to get an exact description of the new building, in fact, the exact plans have not yet been decided upon, but no one will be spared to make the new hospital the best in the South. The building, of course, will have a basement and the first floor will be used for obstetrical patients.

The management of the Chester Sanatorium has purchased the Geo. Byars residence and adjoining lot, on Hemphill Avenue, and will use the residence as a temporary nurses home until the completion of the new building. The present Sanatorium has about thirty-five rooms, a porch of which is now used by the nurses, but since the return of Dr. Robert E. Abell from France, the patronage of the Sanatorium has so increased that it is necessary that new quarters be secured at once for the nurses, hence the purchase of the residence on Hemphill Avenue.

The new hospital will have something like the latest in X-ray and electrical appliances and will have one of the most modern operating rooms that can be built.

The News hears that in addition to the physicians now connected with the Sanatorium, other doctors will be interested in the new hospital. As is well known in this section Dr. Robert E. Abell is the surgeon. When the Sanatorium was founded by Dr. Abell became its surgeon. He is a graduate of the University of Maryland and before coming to Chester, his native home, served four years in one of the largest hospitals in Baltimore. Other interested in the new hospital are Doctors W. B. Cox, A. M. Wylie, W. R. Wallace, L. C. Love, J. C. Caldwell and S. G. Miller.

The public in general was of the opinion that an effort would be made to consolidate the two local hospitals after the death of the late Dr. Pryor and we hear that some efforts have been made along this line but from the fact that the present officers of the Sanatorium have decided to erect a new building it is evident that there will be no consolidation of the two places. With the erection of the new hospital Chester will be ranked as one of the best equipped hospitals in the South.

We Are Headquarters for Ladies Ready-to-wear, Wylie & Co.

NOTICE OF FINAL RETURN. In the Court of Probate at Chester, S. C., on March 5, 1919, at eleven o'clock, I will make my first and final return as Administrator of the estate of A. R. Riddle, deceased, and apply for the letters of administration.

Mrs. M. H. Ehrlich, Administrator.

By W. H. Newbold, Attorney.

the amputation of both hands.

But the loss of a hand or two meant little to him. He was in addition to being a mail carrier he is a farmer on small scale.

Tommie gets up early every morning to carry a long mail route, and he works until late every night supplying customers on an evening milk route. In spite of his lack of hands he can do practically everything that the average able-bodied man can do.

HORSES TOO TOUGH.

France Politely Refuses to Eat Meat From Those Raised on Ranches.

Stiens, Mont.—France has courteously but firmly refused to consider the signing of the long Montana range horse. Washington dispatches T. J. Walsh of Montana, who took the matter up with the French High Commissioner, was told that France was not in the market for Montana horse meat on any terms. Sale of the range horse-flesh, which has long been agitated, as he devours the range. He is worthless as a horse and to round him up, slay and bury him would cost too much money. He is too numerous to kill and let lie, since he might start a plague. Various projects to can him have been recently started by American meat packers and the solution of the problem, it would seem, is not yet.

For Sale.—Dwelling house and improved lots. If you want a bargain see L. T. Nichols.

PROFESSIONAL CARD.

Dr. Robert E. Abell, having been discharged from the U. S. Army, has returned to Chester to resume his work. Practice limited strictly to surgery.
