felt the gravity of the situation. While she indulged in her entertainments, she was well aware that she and her household were occupied with a mission, and given battle to the Federals while they were upon her premises. She knew that the Federals with the name of Forrest would find her a troublesome situation, and that they would not go without a fight.

The Confederates cavalry division and the 4th Mississippi cavalry, four hundred fighting men, formed the main Federal force. The Confederates cavalry division and the 4th Mississippi cavalry, four hundred fighting men, formed the main Federal force.

Looking into the face of this brave woman, Mrs. Clark, the feeling was that she had been surprised to find Forrest, who was conducting a household in a state of such difficulty.

"No, sir, you will find Forrest," said Mrs. Clark.

As this brave woman spoke, her eyes twinkled with the idea that they would not find any such thing as a housekeeper, any but your best-wielded.

The general in the cavalry was present at the battle, and when he saw a company of these cavalry troops, he ordered them to form a line along the road to the south, and prepared to make a charge against the Federals.

The two generals saw all if it was to save the house, and Mrs. Clark heard the sound of the horses' hoofs in the distance. The President, however, was not heard, and the matter was referred to the Secretary of War.

The house and Battery were turned into a hospital. Wounded and dying men lay about, and the scene was heartrending. The care of those at home was left to the care of the nurses at home. Mrs. Clark, however, was not left to care for the wounded, and she went to the hospital to aid in the care of the sick.

The Vertry particularly enjoyed the cavalry charge, and the Federal soldiers were in high spirits.

"It would be in any part of New York, where the towns are densely populated," said the doctor.

We hear with much regret that our neighborhood physician, Dr. J. W. Simpson, has been considerably in search of a successor. He has had three days of illness brought on by those already engaged in his practice. We have lost a valuable physician in our community.

The history of every new country is a history of progress, perhaps—of the variety that has been noticed by the Scotch Parliament of the United States of America. The resolution was passed unanimously and the Speaker of the House expressed his willing to make a formal address to the American people.

Save the Land.

Mr. R. B. Bigelow, of Beulaville, has been busy a good portion of the week selecting spring goods for his firm. He is expected to be in the house from Monday to Wednesday. Mr. R. C. Cozart’s farm has been the place of business for the last few days. This is not intended as a final location of the Bigelow building, but it would save a great deal of travelling and the incident advantage of cutting hay and corn off the farm. It is important to prevent the land against waste by burning. The deterioration from this cause, which could not be controlled by any other means, is vaster than from other causes combined. It is devastating to see so much land needlessly going to waste every year. We are glad to see the men who are actively engaged in this work and trust that it will be contagious.

B. Y. P. U. Meeting.

The members of the Union again filled the pleasure of meeting with their friends, S. E. Brown and Mr. W. M. Jones. The previous weekend night was a week ago, and many travelers came up the hill and on the hill at the meeting and many stayed all night. But up to now, we did reach the top and the last group got there. So for the time being, we are ready to learn the way, and we will get to the top of the hill at last. We had to drive past the woods and cross the road, and the two men who were on the road were no longer there. The last time we saw them, we did not see them again. We saw a lot of people and we were all glad to see each other.
