public highways of said County as shall be fixed by the Board of County Directors, as now provided by law. It shall be the duty of the Magistrate and the Magistrate's Constables in each township to cooperate with the Board of County Directors and the Road Supervisor in the enforcement of the law relating to commutation tax and in the collection of said tax. In all cases where a Magistrate's Constable shall collect this commutation tax without warrant having been sworn out or a criminal prosecution entered, he shall be entitled to receive and collect a fee of One (\$1.00) Dollar for his services, to be paid as costs by the delinquent taxpayer. In all cases where a criminal prosecution shall be instituted before a Magistrate, the Magistrate shall be entitled to a fee of One (\$1.00) Dollar, and the Constable to a fee of one (\$1.00) Dollar, to be retained by them out of any fine imposed or any amount collected by them from the delinquent taxpayer. Time for payment of commutation tax is hereby extended until April 1, 1922.

Sec. 12. The levy hereinabove named for the purpose of meeting the obligations of the County for certain specific purposes shall be devoted to the specific purpose for which the levy is made; and in the event a surplus shall be ascertained by the County Treasurer, the same shall result in the raising of more funds than may be necessary for the specific purpose indicated, then any such surplus shall be accurately determined by the County Treasurer and applied as a payment upon the present outstanding general indebtedness of the County. In case the assessed value of the property in said County amounts to more after the action of the Board of Assessors, the Board of Equalization, the Tax Commission and the Board of Review or such authorities as may be charged by law with the duties of assessing and equalizing the value of property, than is sufficient to raise the amount appropriated under the levy herein made, including any revenue derived from any source, or if it be that the amount appropriated for any purpose shall not be actually required, then the County Auditor, by and with the consent of a majority of the Legislative Delegation, may reduce the rate to such rate as finds necessary to raise in taxes no more than the amount of the appropriation herein made for that amount actually required for that purpose. It should be found that the amount appropriated for any specific purpose is more than is necessary, the Board of Directors shall have the right, upon the approval of a majority of the Legislative Delegation, to apply such surplus to other necessary county purposes. And provided, further, that the County Board of Directors shall have the right to exceed the appropriation herein made for any specific purpose, if more than is authorized in writing by a majority of the Legislative Delegation, and in no case to an amount in excess of the Contingent Fund heretofore provided.

Sec. 4. The County Treasurer is empowered to borrow, in contemplation of the taxes levied, so much money as may be necessary to pay the expenses of the county and to refund past indebtedness of the county. Provided, it shall be borrowed upon the request of the Board of County Directors, with the approval, in writing of a majority of the Legislative Delegation.

Sec. 5. All county officers shall furnish to the office of the County Board of Directors a written requisition for all supplies needed.

Sec. 6. The County Board of Directors of Chester county is hereby directed to publish quarterly in the local newspapers a report of their income and expenditures under such headings as the Board of Directors of this Act. This shall be paid for out of the Contingent Fund, and the publication shall be divided equally between the two newspapers published in the City of Chester.

Mr. Hamilton proposed the following amendment, which was adopted: Section 7. For the purpose of winding up the funds in the hands of the Highway Commission of Chester county, the members of the Highway Commission are empowered and authorized to transfer and pay to the County Treasurer for the account of the Board of County Directors the sum of \$1,639.91, and the County Board of Directors to carry on the road work upon the Halsellville Public Road, known as Fish Dam Ferry Road, as heretofore ordered by the Deeds of Court in regard to this road, and that the said funds shall be used by the County Board of Directors for this purpose and no other.

Section 8. For the purpose of winding up the funds in the hands of the Highway Commission of Chester County, the members of the

Highway Commission are empowered and authorized to transfer and pay to the County Treasurer for the account of the Board of County Directors the sum of \$2,983.93 in full payment of the balance of the funds in the hands of the Highway Commission, and the said funds shall be expended and used by the Board of County Directors to carry on the road work upon the York Public Road, leading from Chester to Lowryville, to aid in the completion of the said road which is still unfinished and for which this money was duly set aside and appropriated by the Highway Commission, but has not been expended heretofore; and the said funds shall be used exclusively for this work and no other.

Sec. 9. The County Board of Directors are hereby authorized and directed to pay out of the funds realized from the sale of supplementary highway bonds the sum of Two Hundred and fifty (\$250.00) dollars to the office of the County Treasurer for the clerical work in connection with the expenditure of the funds appropriated to the various townships.

Another Lick at States Rights.

The supreme court of the United States on Monday hit the doctrine of state rights a hard blow in a decision to the effect that the interstate commerce commission has the right to fix railroad fares in interstate traffic. The decision was written by Chief Justice Taft and was not dissented from. The decision is based upon the theory that commerce transcends state lines, and that the I. C. C. must have control over interstate traffic to prevent discrimination. Concluding his opinion Justice Taft said "it can impose any reasonable condition upon a state as an interstate carrier for interstate commerce it deems necessary or desirable. This is because of the supremacy of the national power in this field."

ITS NOT WHAT IT COSTS TO GET IN THE NEWS—BUT WHAT IT COSTS YOU TO STAY OUT.

## What Does It Cost to Stop Advertising?

You remember James Pyle's Pearl-line. It had been advertised regularly from 1873 to 1907.

Then the trustees of the estate saw a brilliant chance to save money.

They cut out advertising.

Sales dropped like a clap hammer—profits went where soapuds and bubbles go. In 1914 Pearl-line, like less Willard, tried to come back. But it was too late. The business was sold at a price which is said to have covered barely the value of the machinery and inventory.

Moral: A business will grow as long as it advertises.

A salesforce will thrive as long as it TRIES.

You can't make progress against the current unless you keep rowing. But the harder you row, the faster you go.

How much will The News' readers spend in your store?

Doesn't the answer to that question depend upon you?

Advertise—means to sell.

Not to advertise usually means loss.

### MARTIN HEARD BY COMMITTEE

Alabama Power Co., World Special-ist in Electric Power, Its President, President George W. Martin, testified before the Senate Committee on Territories 800 Miles in Diameter.

Washington, Feb. 28.—Development of hydro-electric power sufficient to industrialize a territory 800 miles in diameter, with the center based on Muscle Shoals, Ala., was promised the house military committee today by Thomas W. Martin, president of the Alabama Power Company, in the event Congress accepts the offer of that company, for purchase and development of the government owned steam and water power projects at the shoals.

Through studies had been made of power markets within a radius of 400 miles of Muscle Shoals, Mr. Martin said, and applications for power already filed with the power company convinced him there was need for developing Muscle Shoals and distributing the power throughout that section of the country. His company was prepared to serve the public, functioning as a public utility regulated by federal and state law, and to deliver power in emergency cases to a greater distance by relay systems.

"The development of Muscle Shoals," Mr. Martin asserted, "is the last opportunity the public will have in the territory south and west of these to obtain hydro-electric power. If Muscle Shoals is withdrawn from public service, it will not be possible to meet natural markets for power at remote points and probably not even Memphis can be supplied with energy to meet existing demands."

Representative Greene, republican, Vermont, contrasted the power company proposal with the one submitted by Henry Ford. Under the latter, Mr. George believed much of the power created at the shoals would be used in the manufacture of fertilizer, parts for automobiles and other commodities by a private concern. The question was, he said, whether the Ford of Alabama offers would not serve the public policy adding that the power company did not make any provision in its proposal for fertilizer production.

While the committee examined Martin, the senate agriculture committee met to decide when senators who had expressed a wish to visit Muscle Shoals could make the trip. Senator Norris said about 45 senators wanted to make the trip and he feared the senate would have to close down its business for several days while the inspection tour was being made.

### OFFICERS BUSY

ON TAYLOR CASE

Seventh Man May Be Arrested Soon.

Story of Mrs. Rupp Said to Have Stimulated Investigative Work in Los Angeles, March 11.—Arrest of a seventh man, which, if effected, they said, would bring in custody a motion picture actor of some prominence, was predicted tonight by local officials in connection with their investigation of the murder of William Desmond Taylor, million playboy director. They said the man was believed to have been in the confidence of peddlers of drugs and liquor.

The officers declined to make his name public prior to the arrest.

Six men already are under arrest as a result of disclosures made yesterday by Mrs. John Rupp, which it was indicated, also form the basis of the prospective arrest.

It was announced tonight that Mabel Normand, film actress, one of the last to see Taylor alive, had been questioned again today by Detective Sergt. Herman Cline, head of the police homicide squad, at the request of District Attorney W. C. Clegg. It was stated she was unable to give the officer any new information.

### LITTLE PROGRESS IS MADE ON PROPOSALS OR MUSCLE SHOALS

Senate Committee Will Unable to Decide How Many Members Are to Visit Site in Alabama.

Washington, March 1.—Little progress was made in Congress today by committees engaged in the consideration of proposals from private enterprises for the completion, operation, lease and purchase of the governments projects at Muscle Shoals, Ala.

The senate agricultural committee still was unable to reach a decision on the question of how many senators will visit the shoals territory or when they will go.

Senator Lodge, the republican leader, requested the agricultural chairman to delay the trip temporarily so as not to interfere with serious consideration of the treaties which grew out of the armament conference. The absence of 45 members, the approximate number who have expressed a desire to see the Alabama projects, would compel the senate to discontinuing its business, it was said, and this possibility would not be considered at the present time.

Only a forenoon meeting was held today by the house military committee on the proposals submitted by Henry Ford for purchase and lease of the Shoals properties. This was entirely given over to a legal discussion of the "Huber" Dent chief counsel for the Alabama Power company and Representative Oliver, democrat, Alabama, as to the terms of the contract. The latter, by his company, giving it the exclusive right to purchase the steam power plant at Warrior in event the government should dispose of its interests there.

### FOUR PERSONS SAW WOMAN LATER SLAIN

Mississippi Sheriff Says Mrs. Ada Drury Converse Was Traveling by Automobile.

Jackson, Miss., Feb. 24.—Sheriff Ramsey of Copiah county, who has conducted the investigation into the slaying of Mrs. Ada Drury Converse near Hartsburg, Miss., nearly two weeks ago, announced today he had four persons who saw the slain woman traveling in an automobile with a male driver about the time of the tragedy.

Two of them the sheriff said they know, helped to pull the car out of the mud and expressed the belief they could identify the driver. The car was found near the scene of the murder February 11.

Sheriff Ramsey was in Jackson today seeking requisition papers for Milton Drury, a son of Mrs. Converse, who is being held at Lenoire, Ala., on a charge of having stolen an automobile, against whom, the sheriff stated, a charge of murder has been made in connection with his mother's death.

FRIDAY, MARCH 3.

On Wednesday the House of Representatives followed the lead of the Senate, and passed the tax extension bill over the veto of the Governor by the overwhelming vote of 79 to 9. As mentioned elsewhere in this issue of The News Governor Cooper sent the bill back to the General Assembly without his signature, on the last day of February, stating that an extension of taxes would impair the credit of the State. However, the legislature thought it prudent and voted by the necessary two-thirds majority to make the tax extension period a law. According to the law those who have not yet paid their taxes will be granted until June first to do so, and no executions are to be served until September first. Taxes paid in March will carry a 5 per cent penalty; those paid in April 8 per cent; May 9 per cent; and those paid during and after June 8 per cent.

Many people have called at the Peoples National Bank during the past few days to secure a \$500 Dollar. A shipment of the new coins were recently received by the bank. A great deal of dissatisfaction has been expressed locally about the measure, which Governor Cooper handled the tax extension resolution passed by the General Assembly which he returned the last day of February without his signature. The people were led to believe that the time for the payment of taxes would be extended until the first of June and the Governor sending the resolution back without his signature on the last day of February caught many of them who had made their plans so as to pay taxes at a later date and as the matter now stands it looks as if many people will be forced to pay a penalty of 5 per cent. Many are hoping that the members of the General Assembly will pass the tax measure over the veto of the Governor.

A Rock Hill cotton mill operative in Chester this week stated that the Carharts Mill No. 1, in Rock Hill, and also the mill at Carhart a few miles above Rock Hill, were both still standing and that there was no indication that either would start again. He said that many of the families at the two mills had moved to other mills and those still at the mills were seeking employment and would doubtless move as soon as they could find a place to go. The news that only in Chester but throughout the entire country, apparently have gone to laying in good fashion. Eggs in Chester are selling for 40 cents and some few have been offered for 25 cents. Advertisements appearing in a number of papers in Georgia are quoting eggs as low as 18 cents.

Every once and awhile some one asks The News why it does not become a daily newspaper. Of course this question is asked by people who know nothing about what it costs to run a newspaper. Athens, Ga., has a population of 70,000 people, and only a few days ago The Athens Daily News burst wide open, with liabilities of more than \$50,000, and the paper was just started last September. Athens has one daily which has been in operation for a number of years, but the various business enterprises of Athens decided that the town needed another daily and they also thought that the old daily was charging too much for its advertising. In other words the daily would start a newspaper out of their own and run their advertisements for twenty-five cents per inch. They got their advertisement for twenty-five cents per inch for about four months then the paper bursted over its creditors \$50,000. You cannot operate a daily newspaper like a semi-weekly field. You cannot make a newspaper out of their territory. History shows that in every case it has failed.

Four distilleries complete with the worms were found hidden in the ground on the Wilkes place just over the line in Chester county and about nineteen miles southwest of Yorkville yesterday morning by Constables H. L. Johnson and Carson Tiedricks of York county and Sheriff Anderson and Deputy Sheriff Howas of Chester county. Two barrels filled with mash and ready to be made into liquor were also discovered. The officers suspected John Coleman, a negro living on Turkey Creek, to have some knowledge of the stills and they undertook to search his house. Coleman didn't like it and cursed Jean Gregory, a member of the searching party. Then he made at Gregory with a shop knife and it was necessary for the officers

to handle him a bit rough. Coleman was brought to jail in Yorkville where he is held on a warrant charging him with assault and battery with intent to kill Constable Johnson and Hechtke raided a still on the Dickey place in King's Mountain township Wednesday. The copper boiler was of about eight gal- lons capacity. Fifteen flint jars and a number of other receptacles for liquor were found about the place. While none of the operators were found nearby who were unable to give a satisfactory account of their presence. No arrests were made, however—Yorkville Enquirer.

**Reception to Teachers.**  
A very delightful affair was the reception given yesterday afternoon at the Club room in honor of the teachers of the Chester Schools. The reception was given by the Civic League and is only another evidence of the helpful interest which this organization takes in all the activities and activities of the town. The school constitutes the best asset of any community and the teachers make the schools. With this fact in mind, the patrons of the Chester schools need feel no uneasiness, judging from the attractive and intelligent personality of the forty-two teachers assembled. It was a splendid idea to give the people of Chester an opportunity of meeting their faculty en masse and in spite of the inclement weather, a goodly number of friends and patrons called between the hours of four and six. They were met at the head of the stairs by Mesdames Joe Lindsay and J. C. Custer. In the receiving line were Mrs. T. B. Leitner, Mr. and Mrs. M. E. Brockman, Miss Coza Lindoff and the teachers, Mesdames L. E. Brown, W. T. Williams, C. C. Edwards, I. T. Nichols and Flournoy Shepperson performed the introductions. In the hall, Mrs. L. C. Cross, Mrs. J. A. Glenn and Miss Young "Wyle" were stationed while Mrs. J. C. Epper and Mrs. A. C. Thornton assisted in one of the receiving rooms; and Mrs. P. H. Alexander in the refreshment room. He has been under guard since the affair. Frady, who slashed his own throat, is recovering in the same hospital. Last night and this morning physicians held out a faint ray of hope for Mrs. Frady's recovery. She appeared brighter during the morning and about noon expressed the hope that she might live for the sake of her 16 year old son, Edgar, who arrived yesterday from Chicago. At noon she suffered a relapse. Harry Thompson, brother, and

The Chester Creamery Company, of Chester, has been granted a charter by the secretary of the state, with a capital stock of \$10,000. The officers are: R. B. Caldwell, president; Walter Simpson, vice-president; H. M. DeVega, secretary-treasurer.

A number of Chester acquaintances will learn with sorrow of the death of Dr. James L. Glenn, age thirty-five years, of York, which occurred Wednesday morning at ten o'clock from pneumonia. Dr. Glenn contracted a cold while out hunting a few days ago and Tuesday night developed pneumonia. He was a native of Anderson and was a graduate of the South Carolina Medical College. He has been practicing in York for the past six or seven years, and has many friends throughout the entire county. He is survived by his wife and a little son, about one year old. The interment was made in Anderson.

Everybody will be there but you, why not you? H. K. Hough's Auction Sale.

A freight train on the Carolina and North-Western Railway was wrecked last Tuesday near Dallas and tied up traffic for several hours. A north-bound train was derailed by way of Charlotte and Lincolnton. The south-bound train, which arrives in Chester at 6:40 P. M., came in about two hours late. In all nine cars left the wrecked train, which were damaged. The greatest damage sustained was to a car of merchandise. A tramp which happened to be on the train was injured but we understand, seriously. The management of the railway accused a wrecking train from the Southern Railway, at Charlotte, to pick up the wreckage. It is thought that the loss occasioned by the wreck will be in the neighborhood of \$2,000.

Mr. Carlisle White, Alderman from Ward 1, and whose term expires in May, states that he will not be a candidate for re-election. Other Aldermen whose terms expire at the same time are Messrs. John T. Peay, John A. Nichols, and W. A. Cain.

The city council of Lancaster has under advisement the passage of an ordinance which will keep all boys under eighteen years of age, off the streets after ten o'clock at night, unless they have satisfactory excuse. Why not pass a law making them go to bed at nine o'clock? And too, if the Lancaster parents cannot handle their youngsters why not let the town to take charge of them and raise them?

The merchants of Chester are promising the people in this section many bargains on Thursday and Friday, March 9th, and 10th. The newspapers are now working on the advertisements of the various merchants and in handling them we see that the public is going to be offered some exceptional bargains on these two days. Those who may be needed anything should certainly take this opportunity which is being offered them. The Dollar Store in Chester are being advertised in York and Fairfield counties but no doubt people will be here from far and wide on the days mentioned above.

One of the largest ware houses in the state containing in Hartsville cotton was destroyed in Hartsville Tuesday night. The fire had gained considerable headway when it covered and it is stated that the machinery to Chester in a cotton order was being advertised in Chester are being advertised in York and Fairfield counties but no doubt people will be here from far and wide on the days mentioned above.

For Sale—Nice building lot, facing York street. Second lot from corner of Foot street. Apply to The News office.

The store building and two warehouses of Mr. J. L. Mize, at Richburg, were destroyed last Tuesday night. It is stated that the fire originated in the roof of the store building, although located early it could not be extinguished. Insurance was carried on both the store and stock. The store was the property of Mrs. Laura H. Melton. It is stated that the loss will be more than \$10,000.

The officers of the Chester Community Creamery have pleaded with the Chester Creamery Package Company, of Chicago, for the creamery machinery, which is to be shipped to Chester in time to get into operation of the creamery the latter part of March. Chester county people are especially interested in the new creamery and every effort will be made to make a success of it. Word comes from Mississippi to the effect that in sections of the state where they have creameries that the people are enjoying prosperity and happiness, whereas in those sections where the people are still depending on cotton there is hard times and suffering, with dull business and many accounts still outstanding on the books. The Chester creamery will make a special effort to get people in adjoining counties interested in the creamery as well as the home people. The creamery will pay out a considerable amount to Chester county people each month.

A dispatch from Newbern, N. C., advises that Mr. Beemer Harrell, secretary of the Newbern Y. M. C. A., and former secretary at Chester, will put on a Come Clean Week at Newbern next week. ### THE WORK CURS.

By H. Addington Bruce

Your doctor has prescribed for you the work cure as a remedy for the nervousness that sent you to

him in effect he has told you: "What you need more than anything else is occupation of a mind. Your idleness has given you opportunity to think too much about yourself."

"Get busy at something. Then you will find it easy enough to sleep, your digestion will no longer trouble you, you will be free from the aches and pains of which you complain."

"Well, you have acted on this advice. You have found something to do, and you are doing it. But you can not see that you are any better, though considerable time has passed since you set to work."

"You are beginning to feel that your disease is not simply a matter of thinking too much about yourself. Possibly you are right, and the doctor has blundered."

"Also, on the other hand it is entirely possible that the reason your cure is not curing you is that you are not working in the right spirit."

"Are you really working, or are you only going through the motions of work? By that I mean, is your heart so much in the work you have chosen that you apply yourself to it with real diligence?"

"Certainly, if you are not interest-

ed in what you are doing, your mind will continue to turn to all sorts of things, including the things to which it should pay least attention, your bodily sensations."

"Besides which, if interest in the work is absent, you are certain to find that work uncomformably fatiguing. This alone would be enough to explain your failure to derive any real benefit from the work cure."

"Or you may be making the mistake of working with the thought forever present in your mind: 'I am doing this to make me well.'"

"Clearly, to keep such a thought continuously before one is to render the impulse of this thought there will be a confident and sedulous observation of one's symptoms to determine whether improvement actually is evident."

"But nervous symptoms never abate while the mind's eye is held fast upon them. Let the mind, however, turn from the purpose of the world to the work itself, then there will be an ignoring of symptoms, whereupon the desired improvement will come of its own accord."

"Finally, it may be that you have unwittingly adopted working methods calculated in themselves to make

you not less nervous, but more nervous."

"You may have given yourself too long a working day, you may be working too hurriedly, you may be working with such feverish intensity that you do not let down in the slightest so long as you are at work. Under such conditions it would be surprising to find the work cure failing you."

"It is not good even for the nervous to overwork. Hurry is itself a breeder of nervousness. So respect to relax at intervals during the hours of work, giving both the body and the mind brief periods of rest."

"Accordingly, before you rush back to your doctor to tell him that he must devise some other treatment for you, take stock of your attitude toward your work and of your methods of work. Herein may be ample explanation of the non-appearance of the good results you had hoped to obtain."

### FATHER DROWNS CHILD IN BATH TUB

Wife Refusing to Return to Husband—Would End All by Being Electrocuted.

New York, Feb. 28.—Walter Liddle, 19, a clerk, confessed tonight,

the police said, that he drowned his seven months old son in the bath tub of his Bronx home this afternoon because his young wife refused to return to him. Pressed for an explanation he is said to have declared that he decided to "end it all" by killing the baby and "having the state electrocute me." He was arrested on a homicide charge.

Mrs. Liddle left her husband a month ago after quarrels due to his inability to obtain permanent work, the police said. She took the baby to the home of her parents, where Liddle called on her this afternoon and after unsuccessful importuning her to have dinner with him asked permission to take the child out. He told the police he hastened to his home with the infant where, after fondling him for 20 minutes, he decided to drown him.

District Attorney Glennon stated the young man declared he had weighted a pillow with iron and sunk it in the partly filled bath tub intending to pace the baby upon it. It discolored the water, however, and he decided to remove it. Then, he told Mr. Glennon, he kissed the child several times, dropped him into the water and ran to tell his wife of his action.

### ABBEVILLE NEGRO KILLED IN WOODS

Young White Man Surrenders, Telling About Killing and Burying Body.

Abbeville, Feb. 24.—Henry Killingsworth, a well known negro, came to Sheriff McLane yesterday, telling him his son, Cleveland, had been missing since Monday morning.

A few hours later Tom Betts, son of Joe Betts, came in and told Sheriff McLane he would surrender, as he had killed Cleveland Killingsworth and buried the body in a gully. Betts says the negro asked for the loan of \$20 and upon his refusal the negro told him he would kill him; that the negro came to him Monday when he was cutting wood and that there were two strange negroes with the Killingsworth negro. Betts further says that when he saw Cleveland Killingsworth with a gun in his hands, he grabbed his own gun and killed the negro, afterwards burying the body.

"Betts is in jail and his brother, Jesse, is bound over as a material witness."
